Whittier Cleaners Name Contest Judges

Johnny Kent, owner of the Whittier Cleaners, 1043 East Whittier Street, was selected over prominent South Side business men to judge his Purple Shoat Contest winner. The judges are Fred Kramer, Bill Hornish and Walter Smith. The response has been terrific and the judges are having a difficult job in making the selection. The winner will be announced in next week's Booster.

Miss Julianne Dearth Returns From South

High St. Trolley Buses To Start Sept. 7th

High St. and High Whittier streetcars will be replaced with trolley coaches on Sept. 7 if present plans work out on schedule, Morgan L. Evans, vice president in charge of operations of the Columbus & Southern Ohio Electric Co., announced yesterday.

As plans stand, Evans said, the N. High St. terminus will be extended to Jeffrey Pl., eliminating one present feeder line, and the new S. High St. loop will go into effect. The route will be:

East S. Hanford St. from High st. to Fourth St., south in Fourth to Parkhurst Ave., west in Parkhurst to High St., south in High to Hosack St., east in Hosack St. to Eldorch St., north in Fourth to Hanford St., and west to High St.

The Whittier St. terminus of the Whittier N. High line will be extended a half mile eastward from Lockbourne Ave. to Seymour Ave.

Overhead service schedules have not yet been completed Evans said, and no time would be announced as soon as they are ascertained.

A Columbus & Southern Ohio Electric Co. proposal for North Side express buses will remain in the tentative stage until streetcar tracks are removed in High and Whittier Sts., and resurfacing of the two streets is completed.

Meanwhile, City Engineer Paul W. Morgan announced track removal operations probably would begin within several days after the new coaches are installed, beginning at the far end of N. High St. By offering operations in this manner, the city and coach will be able to coordinate with the State Highway Department. Morgan said.

South Side Booster Enlarges Your Paper

Booster Furnishes Planning Service

The South Side Booster recognizing the needs for more homes here in the South Side, has arranged with the House Plan Service, New York, N. Y. to print a set of plans each week for 10 or more weeks.

These plans and specifications can be purchased for the low cost of $7.50.

Veterans and families are crying for homes for their families.

In too many cases families are living in cramped quarters which are much too inadequate for their family needs.

In some cases husband and wife are living in separate homes. He with his family and she with hers.

This situation left to go on indefinitely can only lead to the divorce courts.

There is hardly one day goes by that some one doesn't call the Booster office saying that they are being evicted because someone has purchased the home they are living in.

These plans furnished by the House Planning Service will save the home builder from $50 to $100.

The Booster which is located at 1512 Parsons Ave. has numerous plans and specifications on hand for homes and the people of the South Side are welcome at all times to come in and look over our files of what you may want.

In another part of the paper you will find a coupon which you can fill out and mail in for plans and any literature.

THE KELSEY. Gives a generous 24 ft. by 26 ft. with 562 sq. ft. of floor area. While not adequate memory on small houses, it is small enough to be built economically. The low extra cost of this colonial home makes it easy to add dining space under the roof, as it is just a matter of more closets. The luxury of a breakfast nook, the luxury most of us like to have, is also available. The front door is under cover and provides ample room. The Kelsey contains no improvement of FHA. It is designed to conform to General Adequate Minimum Standards.

SPORTS

By Walt Tompkins

Sportlight by Grantland Rice

TWENTY years ago, Babe Ruth crowned his 60th home run in a single season.

There is a mark that thousands of ball players have been shooting at ever since. And only three have seriously challenged it. These were Hank Greenberg of the Tigers, Jimmy Foxx of the Athletics with 58 each, and Hack Wilson of the Cubs with 56.

What the three don't know is that they were halted by the jinx plastered on their robust frames by several million kids, to whom that number SIXTY has been a shining star in baseball's sky because the Babe put it there.

Just when it began to look as if both Greenberg and Foxx were certain to beat it, star dust thrown mysteriously by all the gods, got in their batting eyes and they were forced to halt abruptly.

Now Big John Mize of the Giants is the latest Ruth challenger for a record season. Big John of the moon face and the mighty swing will be facing the same jinx. Many thousands of kids would like to see the mighty Mize reach 59. But not 60. I expect he will.

This mysterious kids jinx won't begin to affect Johnny John until he passes the 50 or perhaps the 55 point. Then he will feel mysterious forces at work that will turn the baseball, the size of a golf ball, the seams of star dust on his batting eye, (not as Greenberg and Foxx did, Big John won't quite understand what has happened, but some 40 million kids will.

Untouchable Record

To go 60 Babe Ruth home runs, as he did in ten years ago as part of a total output of 714, which is beyond anybody's reach unless they use rubber balls and move the fences in back of the infield, is now a classic number in American sport. It belongs to the greatest power hitter of all time, who was only halted by the 100 to 150 bases on balls handed him each year.

The Babe picked out his stance from Joe Jackson. This position is known in golf as the closed stance which, in Babe's left handed batting

Babe Ruth

at that moment had his right foot was well in advance of his left. However, Babe's stance was not as pronounced as Shoeless Joe's was, and his feet were planted closer together to give his tremendous body a better chance to work with his hands and arms.

Added to his power was almost perfect coordination between mind and muscle, including amazing reflexes. If Ruth had started out as an infielder in 1914 or 1915, where he was a winning pitcher, his home run record today would have been around 1,000.

Mize and the Modern Ball

No one can question the fact that the ball Babe swung at was far livelier than the pellet Home Run Baker, Ty Cobb, Joe Jackson, Tris Speaker and other hitters had to face before the first war. On the other hand, taking nothing from Johnny Mize, the 1947 National League ball looks to be the liveliest ammunition yet thrown at swinging arms.

In certain places the fences have also been moved in to decrease the home run range.

But this isn't Johnny Mize's fault. He is swinging at the ball that is O.K.'d by the National League. He has always been a great power hitter.

The war came along just when Big John was at his prime, and after his injury last season, few thought he would ever be the same old walloper.

Lots of Power Hitters

It isn't so much that Mize is now up in the home run 30s. It is more that so many others are close on his trail. As I recall the far off details, Home Run Baker, another stout swinger, led both leagues around 1911 with either 9 or 11 home runs.

I can't recall a ball club that had such power hitters as Mize, Marshall, Cooper and Thomson at this stage of the race—not even Ruth, Gehrig and Meusel. The Giant are now after the old Yankee mark and are quite likely to break it.

Today the power hitter who doesn't clutter 20 home runs in the National League especially, is on the puny side. Ted Williams, called the greatest modern hitter, is close to the Giant trio. Ted has a good chance to lead the American League, but only an epidemic of home runs down the stretch can put one in front of Mize.

Club owners have decided that the home run is something the fans want, and apparently the 1947 offensive is backing up their judgment. Any number of teams can pass the million mark this season, including Pittsburgh, which has not been above the cellar line since the war. Ruth was a rabid animal and if he thought for many home runs were being hit, he would lose one base in sliding away.

Stanley Dennis Names Electrical Devices In Address To Lion Club

In a recent address to the Southeast Lions Club, Mr. Stanley Dennis mentioned several developments which are extremely interesting to the people of the South Side.

Mr. Dennis said that there is now being manufactured a fluorescent circular light bulb which will be used for floor lamps.

These floor lamps will appear in your favorite dealer's stores in less than sixty days.

A forty watt fluorescent circular light will give the same service as three 60 watt or four 40 watt light bulbs.

Mr. Dennis also said that new heat blanket or comforter would take the place of the old fashioned covers and should not be confused with a heating pad as the heat blanket or comforter only raised the temperature to the normal temperature conditions under which we sleep.

Mr. Dennis also said that within the next five years that heat would be drawn from the ground or a well to heat or cool the house.

This would be done by sinking a well and inserting copper pipes filled with freon gas into the water or by simply burning freon filled pipes 12 feet under the basement floor which would furnish a steady heat of 55 degrees. Attached to the pipes would be a heat pump.

In winter you would simply have an auxiliary gas heater to raise the temperature to 75 degrees. In the summer you would simply cut off the heater.

While the cost is yet prohibitive Mr. Dennis predicted that the cost will be reduced in five years so Mr. Average Man can purchased this equipment.

So Mr. South Sider in five years you will have a new form of heat plus cooling comfort in the summer time.

Rube, the owner of a chicken farm, walked twenty miles to the next town when he read in the paper that engineers there were going to lay a foundation. He wanted to see how it was done.

LETTERS

August 27, 1947

Mayor James A. Rhodes
City Hall
Columbus, Ohio

Dear Sir:

Calling your attention to Sec. 1294, Lights, Paragraph "d" towit: Provided also that if any motor vehicle is equipped with acetylene, electric or other head or side lights or with a reflector producing an objectionable glare, such lights shall be extinguished or the glare eliminated by dimming or other satisfactory means so as to prevent interference with the vision of others on the street.

My attention has been called time and time again to the dazzling rays from private automobiles, taxi cabs and buses operated by various transportation companies.

My own personal experience is that the rays from the newly equipped automobiles are so severe that it is dangerous for drivers and pedestrians. Something must be done to enforce the dimming of these lights, if not, there will be many accidents and casualties on our city streets.

Most of the drivers are disregarding the safety of approaching automobiles by using what is intended as a country light, whereas they should be compelled to use a light which is not a hazard and is within their control.

I am requesting that an inspection be made by our Safety Department and a report as to their recommendations for the safety of the citizens of Columbus, Ohio.

Yours very truly,
A. W. Doolbert
President, South Side Civic & Industrial Assn.

Sam: Mary always dresses for the occasion. When she goes hiking, she wears hiking clothes. When she goes driving, she wears driving clothes. When she goes out in the evening, she wears evening clothes.

South Settlement News

The Camping period of the South Side Settlement ended Aug. 24th. The camp showed fine progress thru the efforts of many boys working there, in such projects as making of a dam, roads, Chapel-in-the-woods, painting, erecting of flag & light poles, making of trails and the re-planting of hundreds of pine trees.

The Fall Program will open at the Settlement House on Oct. 6th with many new and interesting activities planned. All interested boys and girls or adults please register any time after Sept. 8th.

Mr. and Mrs. Myron Lewis have left for their vacation August 27th. They are expecting to go to Canada.

The Kindergarden will open Sept. 15th with Mrs. Sulzer in charge. Parents are requested to register the boys and girls on Sept. 2nd to 8th. at the Settlement House.

Any one interested in private Music lessons or a choral class, please register before the 10th of Sept.

An amusing event occurred at our South Side Settlement Camp. The Director Myron Lewis and the assistant Mr. Dean decided to grow beards and mustaches. An interested person offered a prize for the one who could raise the best beard. Despite the protest of wives and the jeers of comrades, they raised their beards with the result of the decision of the first prize going to Mr. Dean but as Mr. Lewis was such a close runner up, he will be awarded the 2nd prize. Watch the Booster closely for the date of the awarding of the prizes. Shave them off now boys.

FRIDAY & SATURDAY AT SOUTHLAND

"The Fabulous Dorseys", film biography of the famous Dorsey brothers, Jimmy and Tommy, heads the Friday and Saturday (Sept. 5-6) double bill at the Southland. Filled with the many hit tunes the talented brothers helped to make popular, "The Fabulous Dorseys" includes a star studded cast with such luminaries as Paul Whiteman, Henry Busse, Charlie Barnet, Helen O'Connell, Stewart Foster and others portraying themselves.

Swing fans won't want to miss "The Fabulous Dorseys", an evening of musical delight, which will share a double bill with "Fun on a Week-end", a rollicking comedy with Eddie Bracken and Priscilla Lane.

Sunday, Monday, Tuesday and Wednesday, the hilarious new comedy romance, "It Happened on Fifth Avenue", will be the Southland's feature atraction. All Columbus is raving about this picture, the plot of which centers around a hobo who moves into a boarded up New York mansion while its millionaire owner is vacationing elsewhere, and invites a large handful of homeless ex G.I.'s and their families to join him. The cherubic favorite of the musical comedy stage and screen, Victor Moore, is perfect as the well-meaning hobo. Don DeFore and Gale Storm supply the romantic interest and Charlie Ruggles and Ann Harding complete the top supporting cast. "Riding the California Trail", a Western starring Gilbert Roland, will be the co-feature.

RUSSELL THEATER

The Russell presents Sunday and Monday "The Perils of Pauline" with Betty Hutton and John Lund. This is done in technicolor and brings out all the escapades of Pearl White and it provides hilarious glances into the picture-making of three decades ago; also "Homesteaders of Paradise Valley" with Allen Lane and Bobby Blake. These are followed by a good "Cartoon."

Exceptional Program At Russell Theatre Features 'Egg And I'

Showing at the Russell Theater this Thursday, Friday and Saturday is a real treat for you, "The Egg and I" with Claudette Colbert and Fred MacMurray. You will laugh from beginning to end and want to see it over again and again when you see Claudette Colbert as the city-bred girl who tries so hard to be an excellent wife of a veteran who has turned poultry farmer. It is down to earth comedy about wonderful people, gay comedy, heart-warming drama. Don't forget you have three days to see it at the Russell, along with it is showing another fine picture "Frontier Fighters" with Buster Crabbe and Al St. John, also a "Cartoon" and of course you are following the serial "The Scarlet Horseman." A fine program, don't miss being there one of the nights.

JOIN THE

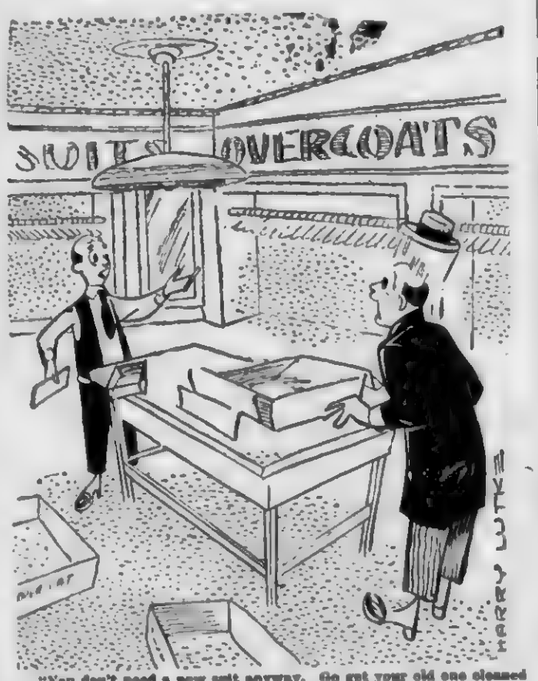
FRIDAY & SATURDAY AT THE CHAMPION

The main feature at the Champion Theatre this Friday and Saturday will be SALTY O'ROURKE starring Alan Ladd and Gail Russell. In this melodrama, Ladd once again goes gunning. This time it is a story dealing with horse-racing, but one doesn't have to be a racing addict to take interest in this show. Ladd's performance is the best he has given, and the support of Stanley Clements, William Demarest and Bruce Cabot are similarly impressive. Second feature will be MINISTRY OF FEAR starring Ray Milland and Marjorie Reynolds. For suspenseful development, story surprise and general excellence in its field of entertainment, the picture outranks most of its contemporaries. The picture is laid in London during the Blitz. Although the Nazis are in the picture, it is the mystery and suspense of the story, rather than the Nazis, that is important to the entertainment.



SUNDAY & MONDAY AT THE CHAMPION

The single feature attraction at the Champion Next Sunday and Monday will be THE HUCKSTERS, bringing back once again, Clark Gable in all his glory, and that fascinating new star, Deborah Kerr. This picture remedies the damage done to Mr. Gable in his first picture after the war. In this, he once again hits his stride and emerges as still the king of the screen. The story is a satirical account of the advertising agency business. Mr. Gable, capably handles the role of the man, who contacts Sydney Greenstreet, as a soap manufacturer. It is hilarious in parts, but above all, it is a good show, and one the whole family will enjoy. Included in the cast are Keenan Wynn, Ava Gardner and Adolph Menjou.

RECENT RULINGS

Attorney General Hugh S. Jenkins during the past week held that the board of trustees of a state university is not liable, as a board or individually, for damage to persons or property growing out of negligence on the part of their employe in the operation of a bus purchased by the trustees with public funds and used for university purposes, provided they have used reasonable care in the selection of such employe and do not participate in the negligence causing the injury. For that reason, Jenkins pointed out, the trustees may not expend public funds to purchase insurance to cover the operation of the bus.

Attorney General Jenkins, during the last week, held that when a person eligible under the law for soldier's relief has been placed on the list of recipients of soldier's relief by a county Soldiers' Relief Commission for a certain year and thereafter leaves the county wherein he has been receiving soldiers' relief, it is within the discretion of the Soldiers' Relief Commission to continue the payment of relief to the ex-soldier, even though he has been removed from the county.

In the same opinion, Jenkins said that the law allows a Soldiers' Relief Commission to grant and pay relief to a veteran who is unable to work because of a labor strike, provided he is otherwise eligible.

The opinion was requested by C. E. Kirby, Commissioner of Soldiers' Claims. (Opinion of the Attorney General, No. 2190.)

VETO LOVER

LAKE SUCCESS, N.Y.—(Soundphoto)... Soviet Delegate Andrei Gromyko indicates his 11th use of the veto as he turns down the American plan for a United Nations border commission in Greece aimed at curbing repeated Balkan "threats to peace and security." His action, a common occurrence at meetings here, signifies Russia's great power of veto, which killed the plan.

DRESSY DATE SUIT

For dates this dark brown crepe suit with padded hips is considered ideal by Harriet Deal, 323 Sunset Ave., Aurora, Ill., who is a student at Lindenwood college, St. Charles, Mo. Additional dressiness is given the suit by its mock tortoise buttons with rhinestone centers and the tiny tucks outlining the hip interest. At "Campus Junction," Marshall Field & Company's college shop, where Miss Deal is seen modeling this suit, she completes her costume with brown alligator shoes and bag and a fur-felt beret with veil.

TIME FOR BERRIES!

Black raspberry pie makes a grand finish for a light summer dinner.

By BETTY NEWTON

Fresh black raspberries and cream are a favorite with most folks, but if served too often lose some of their first appeal. Since berry season is fairly short, various ways of serving them should be used so that our families won't tire of them.

One of the most delicious ways to serve them for dessert. Can't you just taste that luscious flavor of fresh berry pie? A one-crust variety may be made in either a fresh or baked pastry shell from fresh or cooked berries. The two-crust or lattice-topped varieties are bursting with cooked berries. Individual pies will make the dessert more party-like!

Crumb Pastry

1 C. crumbs
1 tsp. cinnamon
½ C. sugar
¼ C. melted butter

Crumbs may be made from graham crackers, vanilla wafers, or prepared cereal. Mix crumbs with sugar, cinnamon, and melted butter. Pack tightly into a buttered pie tin, making a firm crust. Fill with desired filling and chill thoroughly before serving.

Jellied Raspberry Pie

1 Tbsp. unflavored gelatin
¼ C. cold water
½ C. sugar
1 C. boiling water
1 qt. raspberries
1 C. whipping cream

Soak gelatin in cold water. Add boiling water and ½ cup crushed berries. Add sugar and strain. When jellylike pour over remaining berries which have been placed in baked pie shell or crumb crust. Chill thoroughly and garnish with whipped cream.

Baked Raspberry Pie

1 recipe pastry
(using 2 C. flour)
1 qt. raspberries
¾ C. sugar
2 Tbsp. flour
1 Tbsp. lemon juice

Mix sugar and flour together. Mix with berries and turn into pastry lined pan. Sprinkle with lemon juice and top with crust or lattice. Bake at 450° for 15 minutes, then reduce temperature to 375° for 25 minutes longer.

WHERE THOUSANDS DIE!

91 killed—3,150 injured! If that were the report of an explosion, wreck or other disaster, it would be front page news. People would be horrified! But worse—it's just *one day's* automobile casualty list in the United States. It happens every day, week in, week out. *Four deaths, 131 injured—every hour.* At year's end 33,500 lives snuffed out, over a million injured or maimed for life. That's what happened last year. This year's record threatens to be even higher.

Speed—reckless, wanton speed—drunken driving—defiance of safety rules and regulations—and careless, jaywalking pedestrians, top the list of causes for this grim toll.

What can you do about it? Will the speeding wheels of your car add one death to this mass murder of the highways? Not if you, the driver—and you, the pedestrian—take your individual responsibilities seriously. Drive carefully at all times, under all conditions, and be alert when walking.

Don't be one of the thousands to kill, or be killed. Drive safely—and live!

European Aid Plan Faces Difficulties With Congressmen Cool Towards It

"A four-year or five-year plan of U. S. Aid to Europe, to cost about $25,000,000,000 is in trouble before it starts," says the United States News. "President Truman's Cabinet is sharply divided on the plan. Congress is inclined to be cool toward it. Europe wants and badly needs the dollars, but may not like the conditions to be attached to any new dollar grants."

The economics of the problem are bleak to an extreme. This country is the only important producer of the goods Europe must have for economic rehabilitation, no less than for immediate sustenance. Those goods must be paid for with dollars. However, foreign countries are earning only 38 per cent of the dollars they are spending. The loans we have already made are running out at an alarming rate, and will be exhausted, in most cases, in less than a year.

The export-import situation tells the story in another way. Our exports abroad amount to around $20,000,000,000 a year. Our imports from abroad, on the other hand, are less than $8,000,000,000 a year. That means, from the foreign point of view, an annual deficit of nearly $12,000,000,000 a year. A number of countries, notably Britain, are attempting to step up their export production in order to make their balance of trade less unfavorable, and to maintain their dollar credits as long as possible. But these efforts have not borne much fruit, and no great improvement can logically be expected in the near future.

Foreign countries have investments in this country, in securities, industrial properties, etc. However, according to the U. S. News, if all long-term foreign investments of this nature were liquidated, Europe's pocketbook would be flattened by only $8,000,000,000—enough to balance the import-export scale for a mere eight months. Furthermore, these assets are unevenly distributed. The great bulk of them belong to England, and some of the neediest countries have little or nothing.

It will be along time before anyone knows just how far the United States will go in underwriting European recovery. But it does seem certain that the policy will not be of a blank-check character—and that firm strings will be attached to future loans and gifts and subsidies. A good many commentators feel that European governments have wasted much of the money so far advanced and, in some cases, have been more interested in building political organizations than in trying to put their countries on their economic feet. Public opinion seems all in favor of stopping that.

The Marshall Plan obviously is based in part on such considerations. It says, in effect, that European rehabilitation is the duty of Europe, and that aid from us can be given only if all the countries involved cooperate to the limit. It thus marks an effort to break down geographical, political, and ethnological barriers to the recovery of the continent.

It is possible to draw parallels between the present and the period following World War I, when we made loans to Europe which were repaid only in part. But there is this enormous difference—the sums involved then were much smaller, and the United States had a relatively insignificant tax and national debt problem at home. On top of that, there was no struggle for power such as that which is being carried on between the United States and the Soviet Union today. The present European problem is complicated by the most important military and diplomatic considerations. While we are helping the rest of the world, self-preservation demands that we prepare for any conceivable future contingency—including that of war.

Croaker Coffin was shaking in his boots as he met the champion. The referee's instructions didn't help his frame of mind.

"Under the rules," the referee explained, "whenever you score a knockdown, you retire to a neutral corner while I count."

"Let me see," said the champ, "every time I knock him down, I'm to retire to a neutral corner while you count."

Machines Help Fewer Farmers Feed More People

SOURCE: U. S. DEPARTMENT OF LABOR AND U. S. BUREAU OF CENSUS

Today farm employment is slightly under 10 million people, or 18 per cent less than the 12,000,000 of 1910. Yet, these farmers are able to supply the nation with more than enough food, even though our population has increased 53 per cent from less than 92,000,000 in 1910 to over 141,000,000 persons. The increased productivity of our farmers is largely the result of the high degree of mechanization of our farms since 1910. This is exemplified by the fact that in 1910 there were only 4000 tractors on farms in the United States, but today there are over 2,000,000.

The development and improvement of farm equipment since the invention of the McCormick reaper in 1831 has closely paralleled the growth of our steel industry, and today steel comprises a major component in the production of farm equipment. In 1945, 1,120,320 tons of steel were used in the production of farm equipment and for other agricultural purposes.

Typical of the amount of steel required to make each unit of farm equipment is the medium-sized, all-purpose farm tractor of 25 h. p. which takes 1543 pounds of various types of steel, according to data supplied the American Iron and Steel Institute by a leading manufacturer. A total of 340 pounds of steel is used to make the tractor transmission alone, while another 301 pounds are needed in the manufacture of the engine and clutch. The brakes, rims and wheels take 119 pounds of steel, and the rear axle requires almost 130 pounds more.

The balance of the steel enters the manufacture of other tractor parts. The steel weights given are the weights of the rough steel purchased to machine and assemble the various tractor parts. Gray iron and malleable castings are also used in fabricating certain tractor parts, but the rough weight of the steel required equals 40 per cent of the combined weight of all three materials.

Joe: I'm going with a girl who holds the state champion for running. We've been going steady for two months and I haven't kissed her yet.
Moe: Why not?
Joe: I can't catch her.

Sections South of South Side Should Be Annexed, City Planning Commission Announces

The City Planning Commission announced recently, that it was planning to incorporate into the city a large amount of territory, immediately adjacent to the present city limits to the south of our own South Side.

One of the biggest advantages to annexing this territory to the people of the South Side would be the extension of bus service to Frank Rd. on S. High Street and the Ohio Ave. bus Service to, at least, Marion Rd. also extension of Parsons Ave service.

The proposed annexation calls for the annexation of all territory to the south from Parsons Ave. to just west of High St. which will include the Oklahoma and Stambaugh sections and all sections of the territory from Lockbourne Rd. west and all territory south to the New York Central Railroad.

Other advantages to this annexation would be police and fire department service. This would also include water and sewer mains besides garbage and rubbish collections which are so badly needed in the sections to be annexed.

Too long the failure to extend this territory has kept the South Side from expanding.

To counteract the development to other sections of Columbus, the territory immediately to the south of the South Side, must annex to Columbus. They have everything to lose and nothing to gain by fighting such a move.

The city of Columbus needs those people in the city of Columbus and the people of the sections to be annexed need the services they can only gain by annexation.

This is a move to get out of our horse and buggy thinking, as we are fast developing into an industrial city and it will be only a few years before Columbus will have at least 750,000 population.

By including these sections to the south of the South Side it will only be a few years before the Hartman Farms will be laid out in lots.

DON'T TAKE 'JUST ONCE' CHANCES IN TRAFFIC

It's so easy to take a chance that once it's started when you're behind the steering wheel to tell yourself it's okay this one time to follow on the safety rules of clear the traffic laws for a little bit. You can talk yourself into such a decision in just about the time it takes to slide past a stop sign. Just about the time it takes to dash in to a grade crossing with train approaching. Just about the time it takes to start around another car with a hill just ahead. Just about the time it takes to speed on through an intersection when another car shows signs of trying to take your right of way. It's a matter of seconds BUT remember the State Safety Council says "Time for an accident to happen." And accidents have a way of happening THAT ONE TIME when you're sure they won't.

September 1947 marks the centennial of the writing of those words and of the death of their author, the Rev. Henry Francis Lyte (1793-1847). A native of Scotland, educated in Ireland, rector of a church in England, Mr. Lyte wrote these words after his last sermon from the pulpit he had to leave because of ill-health. The next day he sailed for France where he died almost as soon as he arrived. He was buried in the English Cemetery in Nice, and there is a monument to him at his church in Brixham, England; but this hymn, found in almost every hymnal of the Christian church, is his greatest monument. It has been a favorite of laymen and ministers, saints and sinners, for several generations.

Although there appears to have been no instance of lynching in Virginia in the last twenty years, the Virginia Council of Churches is concerned with new lynching outbreaks in various parts of the country, and "the crimes lead to situations where people are tempted to take law into their own hands", and has issued a series of suggestions to its constituent churches. Declaring that the Christian conscience and the Christian church believe in upholding the laws of the nation, the Council asks that churches: "Educate the people of their community against lynching; develop an enlightened public opinion through other organizations; work for legislation that will assure all persons equal protection under the law; request ministers to set forth the evils of lynching; urge church members to pray, act for its elimination; and write letters to daily papers denouncing the crime."

A bust of General William Booth, founder of the Salvation Army, was recently presented to the United Nations, at Lake Success, L. I., marking the eighty-second anniversary of the commencement of the Army's educational evangelistic, and social welfare work, now organized throughout most of the world. There are today 3,000,000 members under 97 national flags. The first group of Salvation Army officers arrived from England in New York in 1880. Today there are 5,000 officers and 50,000 lay workers in the U. S. A., operating 1,365 "outposts" that minister to several millions.

"What can we expect," asks Dr. Aaron H. Rapking, rural sociologist and clergyman of Hiawassee College, Tenn. "when the major business of our government seems to be to pay for past wars and make plans for future wars? What can we expect when at least half our children receive no religious instruction, and only a small percentage of the other half adequate religious instruction in their homes? What can we expect when to a large extent profits come first and personality is given a secondary consideration in conducting our business? What can we expect when practically all the knowledge given to our children in the public schools, colleges, and universities is without any reference to God and to what is right and wrong? What can we expect when more than half the members of the church are only nominally Christian?"

At Gotemba, Japan, and Seoul, Korea, nine American church leaders are attending interdenominational conferences this summer, considering problems of relief, programs of evangelism, and the reestablishment and unification of Christian mission schools in these lands. The delegation from America, sent by the Foreign Missions Conference, is composed of Dr. Thoburn T. Brumbaugh of the Methodist Church; Dr. Herrick B. Young of the Presbyterian Church in the U. S. A.; President John L. Yost of the Lutheran Theological Southern Seminary; Miss Alice M. Billingsley of the Women's Society of Christian Service, Methodist Church; Miss Ruth Williams, R. N., of the Institute of Opthalmology, New York; Dr. Elmer A. Friddell of the Northern Baptist Convention; Dr. Peter K. Emmons, Westminster Presbyterian Church, Scranton, Pa.; Mrs. F. G. Brooks, of Mt. Vernon, Iowa, Methodist Church; and the Rev. Henry G. Bovenkerk, New York, secretary and interpreter of the delegation.

USED TIRES
The last 1000 miles are the danger miles
...don't drive past the danger point

B. F. Goodrich Silvertowns that outwear prewar tires... now at less than prewar prices!

We have a big market for sound used tires.

On your car, it is impossible to detect the exact condition of a tire. But we have the experience and equipment to examine them thoroughly, to detect flaws and to select casings suitable for repairing, recapping or reconditioning. This knowledge is extra money in your pocket, because we can give you a bigger allowance if your tires can be made safe for further use.

And this allowance comes off the already lower-than-prewar price of most popular-sized B. F. Goodrich Silvertowns that outwear prewar tires. This new tire has a wider tread that runs flush to the road, gives greater road contact, runner footing, more even wear, more road grip. Finer, sturdier cords and more of them give the tire greater strength and suppleness to resist the road pounding of high speeds.

So don't be satisfied with less than the best when the tire that outwears prewar tires costs so little.

IT'S ICE CREAM PIE

A tempting way to serve strawberries or any other fresh fruit.

By BETTY NEWTON

If you're looking for a dessert which can be made a day in advance, an ice cream pie's the answer! They make ideal desserts on a hot day—and you'll find them very easy to make.

Some refrigerator freezing compartments have a space large enough to hold a full-size pie pan. If yours does not have, make the pie right in the dessert tray and cut it in squares, rather than in wedges. Chill the plates if you want it to hold up longer.

By using vanilla wafers, chocolate wafers or graham crackers it is not necessary to add sugar to the crust. For variety, try using some of your own home-made cookies if they are crisp. The vanilla ice cream recipe uses no sugar; the lime ice cream just a little. The corn syrup and marshmallows, used instead, make the ice cream as "smooth as silk."

Strawberry Ice Cream Pie

20 marshmallows
1 pt. milk
1 C. whipping cream
1 tsp. salt
1 tsp. vanilla
1½ C. fresh sliced strawberries
1 Tbsp. sugar
1 crumb crust

Heat marshmallows in milk in double boiler until melted. Cool. Fold in whipped cream, salt and vanilla. Turn into refrigerator tray and freeze until firm. Stir well every 30 minutes. When well frozen pile into crumb shell and return to freezer. At serving time, top with sliced berries and serve immediately. See next recipe for crust.

Lime Ice Cream Pie

2 eggs
¼ C. sugar
½ C. light corn syrup
1 C. cream
1 C. milk
1 tsp. grated lime peel
½ C. lime juice
Green coloring
1½ C. graham cracker crumbs
½ C. powdered sugar
¼ C. melted butter

Beat eggs until thick and lemon colored. Add sugar gradually and continue beating until the mixture becomes the consistency of a thick custard. Beat in corn syrup, milk, cream, lime juice, and rind. Color delicately. Freeze in refrigerator tray until solid. Remove to a bowl and whip until creamy. Mix crumbs with sugar and melted butter. Line a pie pan with crumb mixture. Pour the lime mixture in after it has been beaten. Cover top with remaining crumbs. Return to refrigerator and continue freezing until firm.

FAN OF FLATBUSH — When Bill Bendix (right) learned he'd be unable to get back to Brooklyn for the summer, he appealed to Digger O'Dell (John Brown), of his NBC "Life of Riley" show, for help in installing a Brooklyn street sign back of his Hollywood home. "Riley" returns Sept. 8.

Jim: I knew that absent minded friend of yours would forget something important some day.

Tim: What happened now?

Jim: I heard him say he's going to the mountains for his heart.

One Year Shows No Development In Greenlawn Project For War Veterans

In last Thursday's Columbus Citizen, was published an article by Katherine Sullivan, headlined as "Greenlawn Project Looks Like a Slum."

In one picture were wives of our veterans standing in water ankle deep hanging up their washing. In another picture were children of our veterans with their hands and faces smeared with mud.

There are nearly one thousand children in the Greenlawn Ave Project with no place to play, but a mud-hole called Greenlawn Ave. Project, which was supposed to be a model project to house veterans, their wives and families.

It has been almost a year since $17,000 was appropriated over to the City for land rental fees, by City Council.

To grade, seed and drain this project, which was stolen from the South Side, as it was to be developed into a park in honor of our veterans of World War II.

Not one shovel-full of dirt has been turned to make this area inhabitable for veterans or their families.

The South Side Booster, many months ago, protested about these conditions. Russell C. Taylor, director of the (do-gooders) Columbus Metropolitan Housing Authority, which controls the project says he has $4,000 to turn over to the city for land rental fees, but will not do so, until they are sure that the city will grade this filthy mud-hole.

To add to the muddy mess, just across the river stand sewage stand-by tanks which stink to high heaven on hot days when the wind is in the right direction.

There are 355 veterans families in the Greenlawn Avenue Project, wives and children of men who fought for their country, many of them for four years.

The worst slums in Columbus, at least have decent streets and drainage.

Shame on a city administration that has the money and fiddle faddles.

Almost a year without doing one thing for the veterans in this development or the park and playground we were promised two years ago, and the money voted by City Council almost a year ago.

Wake up City Recreation and let's get our veterans out of the mud.

Editors Note: Mayor James A. Rhodes has promised that improvements will be started immediately on the drainage and seeding of the Greenlawn Ave. project and that a quonset building will be constructed for the veterans and families recreation needs.

TWO PROBLEMS WITH ONE ANSWER

(Battleline Editorial)

Our problem No. 1 abroad is to send material for world recovery while halting world conquest attempted by materialistic forces. We try to do this by increasing the flow of food and money abroad. We may, however, be pouring both into a bottomless pit pouring good money after bad—until and unless we begin pouring good men in among the bad men. This alone could give other nations the normal strength needed to found sound economies.

The opposing strategy of the materialistic forces is to pour bad men in among the good—dividing men to fight against each other instead of for their country—demoralizing men till they think selfishly of their own needs while their nations cry aloud for fuel and food. Problems created in an industry or nation by infiltration of evil-minded men can only be corrected by an inflow of high-minded men who recognize the nation's needs as greater than their own.

Problem No. 1 at home is also how to deal with evil-minded men who infiltrate government posts and key positions in our labor unions. We have tried to do this by the passage of restrictive labor laws. Legislature, however, has never changed a man's beliefs or lessened his bitterness. Tighten the law and the men affected simply tighten their lips and carry on their scheming underground as we go on in a false sense of security.

Here again the problem must be met, not so much by new measures as by new men. We must change as men, until we hold and live such high beliefs that we can change the belief of others and change their bitterness towards us. When you and I become selfless enough to infiltrate and change self-seeking men at home and abroad, we will have the answer to both problems.

Employment Offices Serve Veterans On Reemployment Rights

Ninety-two local offices of the Ohio State Employment Service will serve as points of Contact and information for veterans who want to take advantage of their reemployment rights under the Selective Training and Service Act of 1940.

This was announced today by Frank J Collopy, administrator of the Bureau of Unemployment Compensation, who added that this step is being taken to help Ohio ex-servicemen place their reemployment problems with field representatives of the new federal Division of Veterans Reemployment Rights in the Department of Labor.

Collopy said that the OSES offices will help the Labor Department inform employers and ex-GI's that veterans reemployment rights have not been eliminated as some people believe, and that two field representatives of the federal government are available to serve discharged servicemen in Ohio.

He emphasized the fact that Employment Security centers are only able to serve as points of contact between veterans and federal agents and should not be expected to interpret the law or settle reemployment cases. Bureau personnel will give full assistance to veterans in preparing the facts of their cases for the federal men, who will then precede to give the returned GI's the benefits of their reemployment rights in cooperation with Reemployment Committeemen in this area.

How To Fight Communism

BY J. EDGAR HOOVER
Director,
Federal Bureau Of Investigation

"Uncover, expose, and spotlight their activities. Once this is done, the American people will do the rest—quarantine them from effectively weakening our country.

Our best defense in the United States against the menace of Communism is our own American way of life. The American Communists cannot hope to reach their objective of destroying our form of government unless they first understand and corrupt it, causing confusion and disrupting public confidence in the workings of democracy.

Ours is the strongest democracy. We have more freedom and higher standards of living than any other people on earth. Yet our government—which has stood for almost two centuries as a beacon light amid world conflicts—is a central target of attack for the Red Fascists in the United States. It stands between them and world revolution.

We cannot ignore the attack. We must meet and repel it—but in the American way. We must shun the tactics of the Ku Klux Klan, the Columbians and native Fascists as earnestly as we shun those of the Communists themselves. There is as much danger in moving too far to the "right" as there is in swinging too far to the "left." There is little choice between Fascism and Communism. Both are totalitarian, antidemocratic and godless. Both use the same means of treachery and deceit to accomplish their goal of tyranny and oppression. In our fight against Communism we have no place for the political police that have dominated Fascist and Communist countries.

We effectively protected ourselves against spies and saboteurs during the late world war without sacrificing the civil rights of a single citizen. We can protect ourselves against the infiltration of Communism by the same defensive, democratic means in the American way.

Communism's Tools

Our surest weapon is truth. The Communists cannot endure the searching gaze of public observation. Their most effective work is carried on under a cloak of secrecy. Lies and deceit are their principal tools. No trick is too low for them. They are masters of the type of evasion advocated by that great god of Communism, Lenin, who observed: "Revolutionaries who are unable to combine illegal forms of struggle with every form of legal struggle are very bad revolutionaries."

The first step in the fight to preserve the American way of life is the exposure of the true aims of Communism and then a contrast of them with our American way of life.

There are two levels in the Communist organization. One level is "above ground" and its exposers are out in the open. They employ high-sounding deceitful phrases, and pin the label "Red-baiter," "reactionary," or "Hitlerite" on all who reject their doctrines. Anyone who opposes the Soviet Union is a "Fascist," "imperialist" or "monopoly capitalist." The Communist brigades of swindlers and confidence men extol democracy but when they do they are speaking of Communism and not the American brand of democracy. They conceal their real designs by attaching themselves to progressive causes, to the cause of labor, social security and education.

The other level—the Communist underground—is composed of the disciplined brigades of Communist conspirators who drop their dialectical double talk behind locked doors. There the dangers of Communism became real.

The preamble of the constitution of the Communist party provides that "The Communist party struggles for the complete destruction of Fascism and for a durable peace." This is typical Communist deceit.

We all remember when Communist and Fascism were open allies. In that period the Communists picketed the White House, opposed Lend-Lease, Selective Service, and the defence of America. Who Russia switched from an ally to an enemy of Germany, the American Communists shifted overnight to all-out aid, full production, and the second front.

The preamble of the Communist constitution also states that the party educates the working class "for its history mission, the establishment of socialism." This "historic mission," is a revolution intended to overthrow our democratic government and substitute a Soviet of the United States.

The fact that the Communists teach revolution by force and violence will be stated by statements of Communist functionaries. One instructor advised his class: "We must as workers learn to hate the capitalist class. We cannot fight unless we hate. We . . . the vanguard of the working class, must teach the worker . . . to hate. It will mean the spilling of blood. We will have streets of blood as they had in Russia. The worker must be organized so that revolution when it comes must not be a failure.

The Stooges

The Communists are agreed that the revolution will not come until the precipitation of a "great crisis" such as a general strike which could be turned into civil strife, or a great economic depression.

Our cue is to make Communists work so that the Communists will never have their "great crisis."

Father Wellnitz To Be Guest Speaker

Rev Father Michael Wellnitz, Assistant Pastor of St. Mary's Church, Columbus, will be Guest Speaker at the Parish Council Meeting of the D. C. W. to be held in their School Hall on Tuesday evening, September 16th at 8:00 p.m. His topic will be "Angels as we see Them in the Sacred Scripture". A social program has been arranged for the evening and refreshments will be served.

All the ladies of the Parish are asked to make a special effort to attend the meeting.

Squirrel Season Set To Open Sept. 13th

Ohio squirrel hunters who will head for the woods early Saturday morning, September 13, are expected to find fairly good shooting according to field men of the Division on Conservation, however, squirrels will be scattered somewhat due to the scarcity of nuts.

The daily bag limit will remain the same as the 1946 season, four squirrels a day and four in possession for each licensed hunter.

To the hunter who depends on Saturdays for his squirrel shooting, he will appreciate that the season will include three Saturdays, closing September 27.

Last year the Conservation Commission dropped the zone hunting system for Ohio, creating in 1941 because of the differences in nut harvest season in the northern and southern parts of the state. Hunters, however, found that the zone system made very little difference in hunting and asked that it be discontinued. The state of Indiana after trying the zone system for a few years will this year also return to the state-wide hunting program.

Squirrel hunters are cautioned to use extreme care again this year to prevent accidents due to carelessness. The tension that comes from sitting quietly on a stump in the woods listening for the rattle of a leaf tends to increase carelessness on the part of most squirrel hunters. Therefore hunters are asked to take it easy, wear bright red clothing and be easy with the trigger finger.

The army offers a splendid opportunity to learn a trade while earning.

Here is the chance for South Side boys to get an education while earning.

Garfield Exchange To Hold Open House

An "open house" to acquaint subscribers in the Garfield exchange with the inner workings of the telephone system will be held at the exchange building at 355 Thurman Avenue on Tuesday and Wednesday, September 17 and 18, from 2 p.m. to 9 p.m., according to an announcement by H. E. Smart, district commercial manager for the Ohio Bell Telephone Company.

"Purpose of the visitation period is to give the public an opportunity of seeing how their telephone calls are handled and to show the rapid development of telephone service in the Garfield area," said Mr. Smart.

"When the war ended two years ago, this exchange served approximately 8,700 telephones. Now it serves well over 12,000 instruments, a gain of almost 40 per cent in that short time."

Visitors to the "open house" will be escorted through the building by telephone employees, acting as guides, who will explain the dial apparatus and other equipment. Various displays will be set up throughout the exchange to give a complete picture of the telephone system and those attending will have an opportunity to hear their own voices on a special exhibit.

Dorothy Fralinger In 'Rhumba Time' Dance

Jimmy Rawlins "Rhumba Time" was presented at the Ionian Room of the Deshler-Wallick Hotel, Wednesday, September 10,—and one of the featured dancers was Dorothy Fralinger, 15 Deshler Avenue.

Miss Fralinger is a graduate of South High School. She recently joined the Jimmy Rawlins teaching staff to specialize in private instruction in Rhumba, Samba, Jitterbug, Foxtrot and Waltz.

The "Rhumba Time" show, according to Rawlins, was a gay 30 minutes of fun where the audience not only saw the latest steps in Rhumba, Samba, Jitterbug and Waltz, but actually danced with the experts themselves and vied for several handsome prizes."

Name Harry Gilchrist Director Of Races

Harry Gilchrist of Columbus, has been named director of big car races at Powell Speedway, located on route 750 two miles east of the Columbus Zoo, it was announced today by Charles Murphy, president.

Gilchrist has been connected with racing, in all capacities for 38 years—as a pit man, driver, builder, promoter and official. He is top representative of the Central States Racing Association in charge of racing and conduct.

"We were so well pleased with the manner in which Gilchrist directed the recent 100-lap state champion midget race at Powell that we have put him in charge of our big cars" Murphy said.

We believe the tie up with the Central State racing association will provide us with better big car races than we've been getting. Our first program under his direction will be Sunday, September 14.

Fire Prevention Week Proclaimed

Calling on the nation to join in a concerted effort to prevent fires, President Truman has proclaimed the week beginning October 5 as Fire Prevention Week.

In his proclamation, the President said: "I earnestly request every citizen to eliminate all possible causes for destructive fire in his home and place of business." That plea goes to the heart of fire prevention. The many organizations whose business it is to fight fire are doing a magnificent job, and their efforts have been brought to a peak of intensity this year. But they cannot do much without public support. The nation cannot provide an army of fire prevention experts to inspect every home and business building, correct dangers, and see that they stay corrected. All the authorities can do is to tell us how to prevent fire—and after that it is up to the individual.

If anyone doubts that fire prevention has assumed the stature of an emergency condition, he need only to look at the statistics. During the first six months of 1947 alone, fire loses in the United States reached the staggering total of $369,276,000—and that does not include the major portion of the Texas City disaster. Loss of life has shown a similar increase. In most homes a small expenditure of time and money will eliminate the common hazards—and no investment can produce better returns.

Sorry, We Have To Await Announcement Of Contest Winner

Johnny Keyes, owner of Whittier Cleaners, is forced to withhold the announcement of the name of the winner in his slogan contest due to an overwhelming flood of entries on the last day of the contest. The judges, Fred Krauss, William Hoermle, and Walter Snider have narrowed the field to about thirty entries, but being local businessmen they must devote some time to their respective businesses. However they will have the winner selected by next week and the Booster will announce the name.

Some entries contained Johnny's last name and several of those were very good. Unfortunately, the name of the business is not going be changed and these entries cannot be used.

Johnny wishes us to express his great appreciation for the unexpected response to the contest. The number of entries was far above that which he anticipated, contributing, in part, to the late date of the winning slogans selection.

SPORTS
By Walt Tompkins

Sportlight by Grantland Rice

THESE have been hard days for the British. Not only on the economic side, but also in sport.

Only recently they saw Babe Didrickson Zaharias, the Wonder Woman, remove their women's golf crown for the first time, but also had to watch an American, Willie Turnesa, take over the British Amateur championship, while an Irishman lugged home their Open Cup in golf.

Didrickson

Bobby Locke, a lone wanderer from the veldts of South Africa, has been the Empire's lone winner.

They have seen their boxers and tennis players, their scullers and others left behind. The latest is defeat of their Wightman Cup tennis squad by a stronger American group of girls.

Six years of war, under constant fire, plus the stringent food situation later have been partly responsible for the British debacle. The decline, however, began many years ago, in the wake of the Doherty Brothers, many fine polo players, Vardon, Taylor, Braid and Joyce Wethered, plus a number of Olympic stars.

More than one or two generations will pass before Great Britain will regain any part of her old glory, and even then, her domain will be outnumbered by the United States at least three to one.

At the moment, however, it seems that Great Britain has a much more important job ahead than winning games.

Olympic Discussions

There are now two so-called schools of thought about holding the next set of Olympic games in London. No one can say whether these games help or hurt international relations. Many believe they do. Just as many are certain they don't. They should help, of course, if the incredible human race had even a fair amount of sanity.

There is already a definite split over the translation of "amateurism," of which there is no large amount in any game today.

There are debates about food discrepancies. There is certainly no deep and abiding affection for the United States, and its constant victorious Olympic marches.

The Olympics at London, in 1908, almost brought on a break between England and the U. S., in an incident over the Johnny Hayes—Dorando Pietri marathon, where Pietri, exhausted and out, was dragged over the line ahead of Hayes. Eventually Hayes was declared the winner. There have been many other incidents that were not too happily wrought.

We believe the games should be resumed for several reasons. One is that England, the probable goat, one of the least likely to succeed, wants them.

Another is that after the 1940 lapse, thousands of young athletes in this country, as well as in other countries, are now in hard training to make the team, and are keen to have their chance. They deserve this chance.

Sweden's Track Stars

In addition to the U. S., there is little Sweden, with the best distance runners in the world, who deserves the chance to show what her stars can do against all-world competition. Can you imagine what Sweden's mile, and longer-distance runners would have done in 1940 to the rest of the world?

I don't believe any set of Olympic games can lower the present international standard of fellowship and friendliness, of which there is practically none left.

Insofar as track and field goes, the U. S. has always been given a big edge in other years, and has yet to fail. So there will be nothing new along this line.

So far as food is concerned, I have seen more than a few of our star athletes lose because they were overfed. In 1924, Paavo Nurmi, Finland's distance star, gave me a few chunks of his main training food, which consisted of hard bread studded with fish. It was stronger or tougher than my teeth, so I can't report on its personal effectiveness. All I know is that Nurmi had twice the stamina of any U. S. distance runner. The Swedes will probably have the same.

We excel in events that call for quickness and agility, such as the shorter dashes, the jumps, the pole vault, etc. But when it comes to stamina, we have rarely shown the fiber needed to go the longer routes.

In racing parlance, we belong to the sprint division, not to the Derby and longer tests. We have few athletes who have the patience needed to get ready for a 3,000, 5,000 or 10,000-meter drive.

Checking up both sides of the argument, I believe the 1948 Olympic games should be held, even if the margin in their favor is slight. The wishes of thousands of young competitors are more important than the sedate philosophies of older men.

Leading Dirt Track Winner To Appear

Jimmy Wilburn, leading dirt track money winner last year, will be in the field of big car drivers who'll zoom around Powell Speedway's half-mile oval next Sunday. Wilburn, who calls Los Angeles his home, won more than $44,000 last year.

"He's the boy who'll be my choice to break that track record of 25.08 set last year by George Robson, before he was killed in managing director of Powell's Big Car racing.

Gilchrist waxed enthusiastic, waggled his little mustache, and waved a sporting 6-karat diamond. "These Central States Racing Association drivers have the best times on dirt tracks everywhere they go," Sir Harry said flatly.

Then he reeled off a list of drivers who have already entered their cars. James Nagy of Detroit, Bill McGee of Zanesville, Ben Musick of Dallas, George Lynch of Detroit and Shorty Wolf of Columbus, in addition to Wilburn.

"Central Ohio racing fans have never seen real racing until they see these boys in action," Gilchrist continued. "They have better cars and put on better races than the AAA boys. And when they go after that special $25 for the fastest trial under 25.08 which Powell has offered, there'll be plenty of heavy footed drivers."

Sunday's program will start at 1:30 p.m. with time trials and the first race will be off at 2:30 o'clock.

THE OAKDALE—The close similarity of English rural cottage architecture to our own beloved Early American is strikingly illustrated in the charming story and a half Oakdale illustrated here. The diamond shaped dormer window panes, English as roast beef and Yorkshire pudding, give an old world air to the entire house. Replace the diamond panes with conventional sash and the cottage becomes as Yankee as Paul Revere. The differences are as simple as that!

The Oakdale is for the family that loves good sized rooms. Including a full basement, it cubes about 19,000 cubic feet, by no means the smallest possible house. The living room is really immense, 20 feet long including the dining end. It is 19½ feet wide in the deep "L" out of which the attractive open stairs arise. One bedroom has over 200 square feet, exceeding Federal Housing Administration requirements by 100%. The other has more than 130 square feet. The house features truly luxurious closets.

The living room and the large almost square living porch face the rear. The house may thus be placed near the street line to leave all the space possible in the back yard for garden and family recreation. Even the kitchen entrance is to the front, back of its own service screen.

For the small family that can afford to spend a little extra for the luxury of added spaciousness, The Oakdale is an admirable design. Complete architect's working drawings and the specifications that conform to Federal Housing Administration standards and those of National Adequate Wiring Bureau, may be purchased from Housing Plan Service—140 Nassau, New York 7, N. Y.—for $7.50 per set.

Man wants but little here below,
But when it comes to dress
A walk abroad will quickly show
That a woman wants still less!

It's The Law

According to an old Montana law, a couple may be married simply by filing a declaration of marriage for only fifty cents.

An ordinance in Fredericks-burg, Va., prohibits newsboys from crying 'Extra, Extra," on the streets. No one dares to read the Sunday newspapers on his front porch during church ser-vices.

The Madison Wis. City Coun-cil declared that bars are made to drink at, not to sing over and they thus prohibited "singing at the bar."

It is the law in Georgia that anyone bathing in a stream or pond of water in view of a road leading to a church on Sunday shall be guilty of a misdemeanor (Sections 26-5010 (421 P.C.).

Do You Remember When:

A popular book in our younger days was "Around the World in Eighty Days"?

We used corn starch for face powder and lemon extract for perfume?

Grandmother wore white night caps at night and black lace caps during the day, both tying under the chin?

You could borrow a fiver and make it last until the next pay day?

A sleek new car, a coat of mink,

If only in my dreams.

Carousel

There's a carousel down near the river's bank
And a carnival's grouped around,
And now and again on the even-ing breeze
Is wafted a medley of sound.
A steamboat's lusty whistle
Beneath the harvest moon,
Wafts on and on the carousel
Grinds out its tinny tune.

The winking, blinking Hello Lights
Whirl past on the merry-go-round
As like an overture to life
Comes the hurdy-gurdy's sound.
Past the winkling lights of the carnival nights
The river flows darkly past.
There'll be rivers and carousels, I wot,
Just as long as life will last!

Southway Post News

Commander Walter Lensenma-yer of Southway Post No. 144 of the American Legion, announces that Election Day, for Post Of-ficers for 1948, will be Wednes-day, September 17th from 2 to 5 and 6 to 9 p.m., set to accomodate all members, no matter what their working hours. Come down and vote and bring along that 1947 membership card; That's compulsory under your By-Laws Election Committee is headed by Leroy Gill as Judge.

The nominating committee, in picking out eligibles to run for the various elective jobs, analy-zed the meeting registration books for the entire Legion Year and came up with a few statistics that may reveal to some of you boys and gals, just why you have your "Brass Hats" and "Hot Shots" in any outfit, these are merely the men who carry on and do your official jobs, without whom you would have no organ-zatin!

Door registration for the regu lar meetings, show that out of a membership of nearly 1200, a-side from the "Super Notes", but 190 were in attendence at any and all meetings. Of the e 190, only 39 attended the 10 or more meetings necessary to be run for for elective office." Of these 39 around 15 are now in office, el-ective or otherwise.

Your oldtimer is, of course, the most constant by far in close attendence, with a small group of younger members gradually falling in line.

These figures do not shock the oldtimer, who can check back on his own haphazard attendence, when the Legion was in it's in-fancy and he too was fresh in from the battle of Bar Le Duc!! It's going to take a little time for a lot of you younger men to "get off and resolve to adopt the A merican Legion as your hobby!!!

However get down here with your vote on election day! Get that "10 or more meetings" un-der your belt during the next Le-gion Year and see what happens!"

You have the greatest Legion Post in Ohio at your disposal. Dues are $3.00 per year and the change to a new man is $5 back and some about his Honorable Discharge!!

KNIFE'S GOT HIS PENCIL SHARPENED, SO, PAY YOUR DUES NOW!"

Barrett Students Take Trip To South American Country

"Everyone speaks Spanish," said Joe Hightower, an 8A at Barrett, on telling of his recent South American trip. "My Gen-eral language course which I had at Barrett came in handy." Joe and his twelve year old brother, William, flew to Columbia, South America in June.

Thirteen year old Joe, says that Cucuta, Columbia has well kept parks, while the houses are main-ly built of tile. They have bars on all of the windows. The streets are cobblestone.

William and Joe were accom-panied by their grandmother, Mrs Lenore Hightower, to Miami, Florida. From there the two boys flew to Columbia to visit their father, W. Myron Hightower, who is associated with the Columbia Petroleum Company.

The two boys flew into the in-terior with their father to a camp in the jungle. They found this climate much warmer than the coastal weather which Joe claims was not as hot as Ohio weather. Among some of the oddities they saw were the huts of wild Indi-ans. The families ride into town on donkeys piled high with pack-ages and bundles. The boys also saw a bull-fight.

Joe and his brother, William who is a 7B at Barrett, live at 529 Markison Ave. Their sister Lenore, graduated from Barrett last year.

The Hightower boys returned to Columbus, August 22, flying from Columbia to Miami where they changed planes and flew to Cleve-land.

COMING TO THE SOUTHLAND THEATER

Teresa Wright Star of "PURSUED"

The comfortably air-cooled Southland Theater will feature three complete double programs this week, with Western dramas headlining the bills.

Thursday, September 11th, "Ramrod," starring Veronica Lake and Joel McCrea, will open a three-day engagement at the Southland. Donald Crisp, Charlie Ruggles, Preston Foster, Arleen Whelan and Don DeFore are among the expert supporting cast of this swiftly-paced, western drama. Miss Lake is especially fine in her role of a domineering beauty who employs her feminine wiles and charms in an attemp to gain control of a roaring cattle town. McCrea is seen as her "ramrod," or ranch foreman, who finally realizes the true character of Miss Lake. Jean Porter and William Mason appear in the gay co-feature, "Betty Co-Ed."

"Black Gold," the heartwarming story of Indian Charley Eagle and his beautiful horse, Black Gold, will be the Southland's feature attraction on Sunday, Monday and Tuesday. Anthony Quinn, Elyse Knox and Katherine DeMille star in this tender drama, produced in glorious Cinecolor. One of the highlights of the picture is when Black Gold wins the famous Kentucky Derby. Of sure appeal to both children and adults alike, "Black Gold," will be shown with a new Roy Rogers picture, "Bells of San Angelo."

Wednesday and Thursday, Niven Busch's newest western screenplay, "Pursued", will top the Southland's double bill. Niven, who penned the screen play of "Duel in the Sun," is the real-life husband of Teresa Wright who co-stars with Robert Mitchum in "Pursued." With a setting of New Mexico around the turn of the century, "Pursued" is the story of a family feud, and an unknown avenger who stalks the last of a clan, doomed to oblivion. Nancy Coleman and Philip Reed star in the second attraction, "Her Sister's Secret."

RUSSELL THEATER

The Russell presents Sunday and Monday "Buck Privates Come Home" with Bud Abbot and Lou Costello. They are the saddest sacks who ever came out of the army, but they pack a bombshell of laughs in a merry mess of mischief that could happen only to Abbott and Costello. They get in a stew with the sergeant, are cornered by the captain and pillored by the police when they try to hide a French War Orphan in their barracks bag. They'll lead you a hilarious chase that will double you up with laughter. Also "Michigan Kid". This is in technicolor with Jon Hall and Rita Johnson. "News and Cartoon".

Ideal Theater

The Ideal presents Sunday and Monday "It Happened on Fifth Avenue" with Victor Moore and Gale Storm. A comedy about the street where anything can happen one romantic night everything did happen, when a tramp played millionaire and an heiress plays thief. It is full of laughter you are after; also "Law of the Canyon" with Smiley Burnett and Charles Starrett and a "Cartoon".

Barrett Musicians Show Great Increase

The great increase in the number of musicians at Barrett created such a housing problem that a wall had to be moved at the East House, the home of the instrumental department.

The Barrett Orchestra now numbers 60 young musicians while the Band has a membership of 50. Nearly 40 students are signed up for beginning Violin instructions while classes of 20 clarinets, 10 trumpets, 5 trombones and 10 other instruments have been organized for the beginners.

All of these students receive their instruction at Barrett from H. L. Germain who is always on the lookout for a new player, a new horn or a larger place to put his musicians.

CHAMPION THEATER SUNDAY, MONDAY

The main feature at the Champion Theatre next Sunday and Monday will be HONEYMOON, starring Shirley Temple, Guy Madison and Franchot Tone. Miss Temple, quite the young lady now, is enchanting as the typical American girl, one noted above the bobby-soxer, who somehow lands in Mexico, and nearly disrupts the Government while there. The story is light and amusing, and always entertaining. Franchot Tone does an outstanding job as a vice-consul at the American Consulate. Second feature will be BEAT THE BAND, starring Frances Langford and Gene Krupa. The picture, a comedy with music, is strictly in the groove. With music by Krupa and songs, such as "I'm in Love" and "I've Got My Fingers Crossed", by Miss Langford the picture is sure-fire. The result is more than satisfactory as entertainment.

Columbia Theater

The Columbia presents Sunday, Monday and Tuesday "Ramrod" with Joel McCrea and Veronica Lake. A western drama with plenty of action. Veronica Lake is a deceitful hellion and Arleen Whealan is the lovely and sympathetic dressmaker who finally wins the hero; also "Blaze of Noon" with Ann Baxter and Sterling Hayden.

Champion Theater, Friday and Saturday

This Friday and Saturday the Champion Theater brings to you two old favorites: The ADVENTURES OF TOM SAWYER and THE PRISONER OF ZENDA. The former is the faithful picturization of the most beloved of all of the immortal Mark Twain novels. Starring Tommy Kelly as Tom, Ann Gillis as Becky and May Robann as Aunt Polly, the cast includes Walter Brennan, Victor Jory (as injun Joe) and other well-known screen players. It is a nostalgic story for the children, and one which all the older film-goers want to see to refresh their memories of childhood reading. Cmpanion attraction, the ever-popular PRISONER OF ZENDA, which is based on the novel by Anthony Hope—probably one of the most famous romantic adventure yars of all time. The cast includes Ronald Colemah, who plays a duel role, Madeleine Carroll, Raymond Massey, Mary Astor, David Niven, C. Aubrey Smith and Douglas Fairbanks, Jr. as the immortal Rupert of Hentzau. Its a double bill you won't want to miss, and one which the entire family will enjoy seeing.

Noon - Day Lunches Specialty Of AYRO

Elva Cooper has assumed management of the AYRO-Restaurant at 1519 S. Parsons Ave., and announces that she is specializing in noon-day lunches for local workers.

Realizing the difficulty of going from work to lunch and returning in an hour she has geared the service to almost spontaneous fulfillment of orders to allow patrons of the AYRO to make a leisurely return to their jobs.

In addition to the regular steaks, chops and short orders, the Ayro specializes in home-fried chicken on Sunday.

Mrs. Cooper formerly managed a famous local restaurant and from her experience believes that the majority of eat-outers do not expect to find food of home-cooked quality, and she takes great pride in serving just that. She invites you to come in soon.

News In The World Of Religion

By W. W. Reid

The Department of Home Missions of the Evangelical Lutheran Church has established its first "air parish" in western United States with the recent installation of the Rev. Norval G. Hegland, an ordained and seminary-trained minister and a licensed pilot, as pastor with headquarters at Lemmon, South Dakota. A former professor at Concordia College, Moorhead, Minn., and pastor in Montana and South Dakota, Pastor Hegland will fly by plane among five established congregations and numerous preaching centers in a 5,500 square mile area—the west river country of South Dakota, with Timber Lake on the east, the Montana border on the west, the North Dakota border on the north, and the township of Zeona on the south. He will cover this territory in a Piper Super-Cruiser, the gift of the Young People's Luther League of South Dakota.

Half of the Island of Okinawa's 580,000 population is "seriously considering" turning to the Christian faith, according to the Rev. Garland E. Hopkins, associate secretary of the Board of Missions of the Methodist Church, who recently returned from a visit there. He had been a Chaplain on Okinawa during part of the war. Dr. Hopkins says that before the war there were only ten scattered Protestant congregations, totally a few hundred people, before the war on Okinawa; and that today there are thirty organized churches in the Okinawa Christian Association, led largely by laymen, and that more are in the process of formation.

The Protestant Episcopal Diocese of New York has long been a great city diocese, centering about the multi-million dollar Cathedral of St. John the Divine, monument to Bishop William T. Manning, now retired. But on the outskirts of the city and "up the Hudson Valley" there are scores of so-called "forgotten parishes" of the Diocese—towered over by the spires of the Cathedral and metropolitan churches. Now Bishop Charles K. Gilbert, New York's new Episcopal head, has asked his suffragan, Bishop Horace W. B. Donegan to devote much of his time and energy to those hitherto neglected parishes. Bishop Donegan is especially noted as a teacher of youth.

Three of the oldest and best-known of China's Christian educational institutions of higher learning, all located in the city of Shanghai, are now merging into the new "East China Union University," with each of the three merging bodies reorganizing for specialized studies, and with a total freshman class limited to 800 students. Hangchow University, the oldest of the merging schools, was founded by the Presbyterians in 1845; it will have schools of engineering and commerce in the future. St. John's University, founded by the Episcopalians in 1865, will receive only students in arts and medicine; Soochow University, under the auspices of the Methodist Church (U. S. A.) and founded in 1871, will specialize in law and science. The new university will continue to receive funds from all three American churches.

"Morning Star VI" is now somewhere on the high seas sailing from Boston, Mass., via the Panama Canal, to the Caroline and Marshall Islands. The little two-masted schooner, boasting of a diesel engine, is "a missionary from Boston" to the South Sea islanders in the tradition of nine decades of Christian service. "Morning Star VI" goes as a missionary from the American Board of Commissioners for Foreign Missions (Congregational), the mission group that sent the first Christian missionaries to those islands, and that sent five earlier vessels there. It signifies the reopening of mission work in the Islands after the war. It is needed for the transportation of workers and supplies for island to island visitation, and is the only type of vessel that can be used where fuel is well-nigh impossible to obtain. "Morning Star VI" was sent to the South Seas in 1856 with some of the first Congregational missionaries; one was Hiram Bingham, an ancestor of ex-Senator Hiram Bingham of Connecticut. The newest of the vessels with a diesel engine (for the voyage only), a two-way radio, and modern long-range navigation equipment. Her skipper is Price Lewis, Jr. (Dartmouth 1942), an ex-lieutenant of the U. S. Navy; and the remainder of the crew are Dartmouth, Oberlin, and Amherst men. In the hold is a consignment of Bibles, in both English and Marshallese, presented by the Massachusetts Bible Society.

Fred Grimm Suffers Burns While Cooking

Fred Grimm of the Parsons Avenue Fire Department was recently burned while cooking for the crew at the Engine House.

The burn which was supposed to be only slight has now developed into second degree burns.

Meet The Side Clergy

Rev. Kaefer

With this issue the South Side Booster starts a series of articles in which we will publish the intimate side of the lives of your South Side ministers and priests.

This week we are introducing to you, the Rev. Paul C. Kaefer, of St. Paul's Evangelical and Reformed Church at 225 E. Gates Street.

He was born at Hamilton, Ohio and attended the Hamilton public schools, graduating from the Hamilton High School. After graduating from high school he attended and graduated from Elmhurst College, Elmhurst, Illinois, which is near Chicago.

From there he went to St. Louis, Mo., where he studied for the ministry at the Eden Theological Seminary and was graduated from there in 1919.

He was immediately ordained into the ministry at his home church at Hamilton, Ohio.

He was assigned for his first charge to St. John's Evangelical Church, Port Washington, Ohio where he served four years.

He next was assigned to the St John's Evangelical Church, Bolivar, Ohio and also had two other churches at this time, the Zoar Evangelical Church and a small country church. He served these churches five years.

He was then called to the South Side to serve St. Paul's Evangelical and Reformed Church, where he has been for the past eighteen years.

St. Paul's Church says Rev. Kaefer has outgrown their home as the church has grown from 133 to 550 members. Rev. Kaefer says that plans are now under way for a campaign to build a new church.

We asked Rev. Kaefer why he entered the ministry and his reply was typical of this minister as he said, "I like people and like to serve them."

His hobbies are attending baseball games and going fishing. Don't get him started on fish stories, as you will have to listen to some tall ones.

Rev. Kaefer has served for the past twelve years as Chaplain of the Columbus Fire Department. He was also Chaplain of the Ohio House of Representatives of 96 General Assembly.

Rev. Kaefer belongs to many groups among which are the South Gate Lodge of Masons, Achbar Grotto, Mt. Vernon Commandry, Knight Templars, Knights of Pythias, Woodmen of the World, Odd Fellows, Southern Way Eastern Stars, Honorary member of Druids, honorary member of Buckeye Twin's Club, Southeast Lions Club, Buckeye Republican Club and the South Side Ministerial Association.

Rev. Kaefer lives with his wife and daughter Suzanne at 221 E Gates Street. He also has a son James Paul Kaefer, 1621 S High Street who is an automobile salesman.

Rev. Paul Kaefer is a good mixer, a ready teller of good stories, and jokes, affable, genial and to the men he is a man's man. He is a tireless worker and a good minister and is constantly called for funerals and weddings of his church, as well as for the public.

He has served our community well which is one of the finest things you can say about any minister or person. If you haven't met Rev. Paul C. Kaefer you should, you are missing a real pleasure.

HIKING CLUB TO MEET

Central Ohio Hiking Club of the Columbus YMCA will spend this week-end at Camp Alfred Willson near Bellefontaine with Charles Fick, Shawnee Hill, a campmaster. Twenty young people from Toledo will join the local group at the camp.

Economic Highlights

Happenings That Affect the Dinner Pails, Dividend Checks and Tax Bills of Every Individual. National and International Problems Inseparable from Local Welfare.

* * *

No one knows how long it will last, but it is evident that this country is still enjoying a hell-for-leather period of economic prosperity. For more than a year, leading economists have been forecasting recessions and depressions, none of which have materialized. Last June, according to Department of Commerce figures, personal incomes in the United States hit the record annual rate of $193,000,000,000. In that same month the number of productively employed people passed the 60,000,000 mark for the first time, and the July figure was still higher.

It is true, of course, that there is much lower than in previous purchasing power of the dollar times. Even so, wage increases have, for the most part, kept pace with price increases, and in some industries have materially exceeded them. The major exceptions to the rule have been the white-collar and professional classes, whose earnings, measured by the yardstick of purchasing power, are less than during and before the war. People living on fixed incomes have taken a financial beating. It is the laboring groups which have benefitel most.

Herbert Hoover recently said that he could not foresee any important drop in business in the near future. That point of view is widely shared at the present time, even by some of the commentators who anticipated economic upheavals this summer. This optimism as to the immediate outlook is producing increased pessimism as to the long-term outlook, on the theory that the longer the boom lasts the more severe will be the break when it comes. It is a situation where the old prize-ring dictum that "the bigger they are the harder they fall" applies. But this is in the realm of speculation. The business indices are still going up, and the goal of "full employment" seems to have been reached. In many important lines, output would be a great deal larger than at present if more supplies were available.

Every customer knows what all this has done to prices. Here, again, those who forecast last fall that substantial price breaks would come by mid-1947 were badly fooled. The Bureau of Labor Statistics price index recently touched another new high, and it is expected to go higher still. That is the result of many factors—governmental fiscal policy, foreign buying in a tight market, ever-expanding business overhead, etc. To choose the most obvious reason, higher prices are inevitable when 60,000,000 people, earning the highest pay in history, are panting for goods and services of all kinds. There are still many people to whom price is of little consequence- as the so-called "used automobile" market abundantly proves. Throughout the country, 1947 automobiles bring bonuses of from $400 to $1500 on the used-car lots and dealers report that there is no dearth of purchasers.

The loosening of the regulations on time-payment purchases has been a factor in keeping sales of expensive articles at the peak level. When families run out of cash, they can keep on buying on liberal installment terms. In some fields, such as radios, evidence of over-production is apparent, especially of unknown brands. But staple, advertised goods of all kinds are selling well.

Very few people believe that this is a healthy economy. Economists for industry shake their heads when they start talking about the long-time future. So do the economists for industry shake their heads when they start talking about the long-time future. So do the economists for the labor unions. All of them are concerned with what might happen if we had a depression accompanied by high prices. It has never happened in this country. It has happened in many other countries. And is it definitely an unpleasant prospect.

List Of Barrett Band Boosters Is Growing

The list of Barrett Band Boosters is growing as more parents and friends help swell the instrumental fund. Donations of cash have been received from the American Legion Auxiliary, Mr. and Mrs. Cecil H. Smith, Mrs. Wilda Dornsife, Mr. and Mrs. H. B. Park, Mrs. Robt. Griffin, Mr. Louis Plank, Dr. and Mrs. O. L. Coddington, Mrs. Oscar Wohlfarth, Mrs. James McGrew, Mr. and Mrs. Tracy Peterfish, Mr. and Mrs. W. F. Huntley and Mr. and Mrs. Sidney Roy.

A trombone was given by Dr. and Mrs. Willis Merrill and four violins were donated last year.

The South Side merchants have been very helpful with the Band tax stamp collection which has helped pay the expenses of repair on several important musical instruments.

All of the money received in this drive is used to repair school instruments and purchase new ones to be loaned to Barrett Students. About 175 students receive free lessons during the school day under the supervision of the instrumental teacher, H. L. Germain.

More money and musical instruments are needed. If you have a donation call Barrett Jr. High School, Ga. 2405.

Mrs. Caris is teaching seventh and eighth grade history. Mrs. Hubbard and Mr. Aggas are teaching seventh and eighth grade science. Mr. Gill has eighth and ninth grade mathematics.

Your Home

By Eugenia Alexander

Our new basement recreation room has made our home the most popular place in town! We completed it two months ago—and the entire family is proud as punch.

It all started when my husband returned from Mexico with some gaily colored Navajo rugs. They were so vibrantly hued and richly designed that they demanded a setting all their own — and that gave us the idea for a recreation room.

Well, we made it a family project . . . decorating in the true Mexican manner. We began by painting the walls a deep, earthy brown shade . . . then gave some old occasional chairs a Monterey finish and decorated them with Mexican decals. We found some inexpensive Mexican pottery pieces and a few cactus plants for our window ledges and tables, then added some gaily colored Mexican travel bureau posters to the walls — and the room really began to take on atmosphere. By the time we had rigged up an imitation fireplace and hung a bridle and some silver spurs above it, we decided we were ready to be inspected and invited our friends in.

They were enthusiastic over our Mexican recreation room, and offered all sorts of good ideas for entertainment. One friend, Jim Martin, helped us to obtain a second hand juke box—and all our friends added dance records to our collection. We set up a gaming table for cards, backgammon and the like, and Jim helped us to get a couple of pin ball machines so we have plenty of less strenuous amusements, too. My son, Joe, is high man on the pinball machine so far . . . and, as we're donating the proceeds from the pay-for-play machine to our Church Guild, everybody has a wonderful time helping this good cause.

We've planned something for every member of the family in our recreation room — even to a miniature sand-box in one corner for the tiny tots. Nowadays we just stay at home, relax and have fun. Even the children stay home—their friends, as well as ours, drop in daily for they're always assured of a good time!"

ENROLLMENT LARGE AT SOUTH HIGH SCHOOL

The enrollment for the fall term at South High School totals 1,358 students. There are 607 senior high boys and 18 Junior high boys from the county schools. The Senior high girls at present total 699 and 34 Junior high girls from the county schools.

Meet An Outstanding South Side Citizen

L. G. Whitacre

With this issue of the South Side Booster, we are publishing articles about South Side business men and prominent citizens.

We are introducing to you, Louis C. (Lou) Whitacre of Whitacre Bros. Florists, 158 Southwood Avenue.

Lou was born near Wilmington, Ohio in a little town called Tansy, but was reared by his maternal grandmother, Mrs. Marie Fornoff here on the South Side.

Whitacre attended Southwood, Barrett Jr. High School, and South High School -all of which he graduated from.

He also attended Franklin University.

He has been actively associated with Whitacre Bros. Florists for fifteen years and today is the sole owner of that business.

We asked Lou Whitacre why he became a florist and his answer was "I have always loved flowers and the growing of them."

His hobby is Civic problems and he has always been in the lead of any development that will benefit the South Side.

He is a member of the Southeast Lions Club and has served on its board of directors. He has been active in the South Side Business Mens Association, a member of the Mantle Club, he is now president of the Council of South Side Organizations and is also president of the Columbus Retail Florist's Assn.

Whitacre and his family attend the South Methodist Church. Whitacre lives with his wife and family of three small children; Mary Beth, Louise and John at 158 Southwood Avenue.

Get Lou to talking about his children and he struts like a peacock. He is a fine family man. His whole being is wrapped up in his family.

The South Side needs more citizens like Lou Whitacre because he really gives of his time, money and any other services necessary for its benefit.

New Business Opens On Parsons Avenue

Employees Finance Co., specializing in Personal and Secured Loans in sums of $25 to $300 and more, is soon to open offices at 1947 Parsons Ave., near Marion Road, under the management of G. J. Dirksen.

Mr. Dirksen first came to Columbus in 1923 and since that time has been affiliated with some of the country's largest Finance Companies, as manager, . . . and as Supervisor. He was vice president of a large National Company for several years, besides, has operated his own Company for over 8 years. He is undoubtedly well qualified to assist anyone who has a financial problem, whether it is large or small.

He tells us that ones honesty and paying ability are his company's principal requisits in securing a loan. Physical security is really secondary. However, in some cases it is necessary.

We selected as a location for our business the South part of Columbus because of the many diversified industries located here, since so many of our loans are made to industrial workers and employees. Besides, the South Side deserves a Company of this type to enable the many Southside residents greater convenience in attending to their financial matters. For one thing, parking in the down town area is getting to be a very serious problem.

In the large metropolitan cities, suburban offices, such as ours, are becoming increasingly more popular. They participate in the activities, doing their share to foster the growth and development of their particular community, . . and they soon understand the particular needs of their neighbors, adjusting their services to better meet those needs. The policies of his company, Mr. Dirksen assures us, will always be flexible, . . and always be friendly. No one, regardless of his color or creed, and regardless of how little he may need, will receive other than the most courteous and friendly treatment when they call at our office.

We fully realize our great responsibility to the people we serve, as customers, as well as the businessmen in this fine community and we shall ever strive to merit the full respect and confidence of everyone with whom we come in contact.

Mr. Dirksen extends a sincere welcome to everyone to stop by and see his new office, . . and he will gladly answer any inquiries as to the service.

Garden Clubs Plan Motor Trek To Hills

There will be a motor trek into the Hocking Hills, Sunday, Sept. 14, sponsored by the Franklin County Council of Garden Clubs. Anyone interested in the natural beauties of this famous district is cordially invited to pack a basket lunch and meet the crowd at Rock House at noon.

Mr. James D. Wells, Asst. State Forester, has arranged the itinerary and will assign one of the State Forestry staff as guide on this tour. There will be no charge.

For further particulars call the Garden Center — MA-4622 open Tuesday through Friday-10 a.m. to 4 p.m.

Large Crowds Attend Eagles Big Ox Roast

The South Side April 2244, order of Eagles, in their recent ox roast report 3000 people attended.

This is the largest attendance that has ever attended the Eagles Ox Roast.

The South Side Eagles membership has grown so rapidly that they are now in the shape of "the old Woman that lives in the shoe."

Their quarters are inadequate to properly house the lodge home and its membership. Their only recourse is to build or buy a large home. They are now planning to do this very thing.

Poster Contest For Children Of Parochial Schools To Be Held

Parochial school pupils in all parishes in the diocese of Columbus were invited today to participate in a poster contest, calling attention to the Holy Hour, sponsored by the Holy Name Society to take place in the Red Bird Stadium, Columbus, Oct. 26 under auspices of the Diocesan Holy Name Union.

The invitation to participate in the contest was issued on the opening day of the 1947-48 school year by Monsignor Robert F. Coburn, Diocesan Holy Name Union Director. Two contests will be arranged, one for elementary and the other for high school students.

Posters submitted by school children should be at least 9 x 12 inches in size. It is required that they carry the words, Holy Name Holy Hour, Red Bird Stadium, Columbus, Ohio, October 26. Design and color choice are optional with the artist. Each school principal has been requested to submit the three best posters to Holy Name Headquarters, where a committee of judges comprised of Msgr. H E. Mattingly, Editor of the Register, Dr. Joseph A. Cousins, pageant director of the Holy Name Holy Hour and Rev. Robert Harwel, Supt. of schools of the Diocese will judge the entries.

Prizes will be provided for winners in both classes, and the winning posters will be reproduced in the Register.

"NOT FOR A MILLION DOLLAR"!

A. A. Sebastian, pastor of the South Church of Christ, is announcing a special sermon for the ten o'clock service of worship, Sunday morning. The message, he says, has come to him by a kind of special inspiration, and he is using as his subject, "Not For A Million Dollars." The public is invited.

Dana Reinhart Gives 92 Yr. Old Newspaper To Booster Editor

We recently had a Columbus newspaper 92 years old given to your editor by Dana Reinhart, 1515 Parsons Ave.

The paper which was called the Daily Ohio Statesman, and dated Dec. 12, 1855, was full size and seven columns wide.

The Crimean War between Russia and England was being waged at that time.

Here in our country at that time in Kansas they were having slave trouble, the forerunner of the Civil War.

Wheat at that time was selling from $1.50 to $2.00 per bushel and flour was selling from $8.75 per barrel.

The Ohio Statesman was published and edited by Sam Medary, who later was Ohio's Civil War governor.

The type in the paper was very small and the lines were set close together. Of course the type was hand set. It contained four pages.

Cuts used in the paper were wood cuts, as hand engraving was unknown.

We have sent this copy of the Ohio Statesman to the Ohio Archeological and Historical Museum, as we consider it should be preserved for all the people of our city to see as it is much too fragile to be handled and can be kept by them in as good a shape as is possible.

This summer I went to Camp Friendly at Jackson, Mich. It was located on Lake Alcott. There were three cottages which were painted white and green. There were row boats and motor boats. There were 21 children and five counselors. We rowed boats and hiked to Price Lake and Wolf Lake. One day we had a Treasure Hunt. Helen Bajus found the treasure. It was a box of candy. Our group was proud of her.

While I was there, I celebrated my ninth birthday on August 7th. I had a nice birthday cake. I certainly had a lot of fun.

USED TIRES

The last 1000 miles are the danger miles
...don't drive past the danger point

B. F. Goodrich Silvertowns that outwear prewar tires... now at less than prewar prices!

We have a big market for sound used tires.

On your car, it is impossible to detect the exact condition of a tire. But we have the experience and equipment to examine them thoroughly, to detect flaws and to select casings suitable for repairing, recapping or reconditioning. This knowledge is extra money in your pocket, because we can give you a bigger allowance if your tires can be made safe for further use.

And this allowance comes off the already lower-than-prewar price of most popular-sized B. F. Goodrich Silvertowns that *outwear prewar tires.* This new tire has a wider tread that runs flush-to-the-road, gives greater road contact, firmer footing, more even wear, more road grip. Finer, sturdier cords and more of them give the tire greater strength and suppleness to resist the road pounding of high speeds.

So don't be satisfied with less than the best when the tire that outwears prewar tires costs so little.

Mayor J. Rhodes Promises Needed Repairs For Park

Mayor James A. Rhodes

Mayor James A. Rhodes was the principal speaker at the annual fried chicken and corn on the cob dinner of the Council of South Side Organizations.

Mayor Rhodes announced that $40,000 was being spent on Schiller Park grounds and shelter house for much needed repairs of the building and beautifying the grounds.

The lake will be placed in condition, picnic tables and benches installed, trees planted and the shelter house will get a much needed face lifting.

Mayor Rhodes further announced that the new Soldiers Field on Greenlawn Avenue was now in the process of having its drainage system improved, and when that work is completed the ground will be seeded with grass.

He also announced in the month of November, that 400 trees will be planted on this tract for its beautification.

Mayor Rhodes further promised that there will be ready, by next spring, eight soft-ball diamonds, and one baseball diamond, and a football grounds, which will be ready for next spring for the baseball-softball season.

Mayor Rhodes says he will install lights for these diamonds, making it possible to have night games on these grounds.

For the benefit of the Greenlawn Veterans Housing project, two Quonset huts will be installed at once for a recreation center and meeting purposes.

We wish to say that Mayor Rhodes will need a pat on the back when these improvements are completed. They have been sorely needed, and we of the South Side are deeply appreciative.

New Radio Adventure Show Begins Sept. 28

"Christopher Wells", a brand new radio adventure show which starts Sunday, September 28, over the Columbia Broadcasting System, was described today by Clevenger and Redifer, De Soto-Plymouth dealers here.

The program, which is sponsored by the more than 5,000 De Soto Plymouth dealers from coast to coast, will be heard locally at 10 p.m. over Station WHNS.

"The show is built around the character of "Christopher Wells", an enterprising, adventurous newspaper columnist," according to Harry Yates, business manager of Clevinger and Redifer. "It is being produced by Edward A. Byron, the producer of 'Mr. District Attorney', one of radio's most popular shows. I think it will please the whole family and I'm happy to be one of its sponsors.

"The program was designed to entertain the radio listener and to call to the attention of the public the fine facilities the local De Soto-Plymouth dealer has for prompt, expert, friendly sales and service."

Blue Cross Sponsors Citizens Enrollment

Enrollment of new members in the Blue Cross plan of hospital care on a community and county-wide scale will be conducted all next week in Columbus and Franklin County. According to Ralph W. Jordan, Executive Vice President of the Blue Cross Plan, individuals working where there are less than 5 persons will be accepted during this community enrollment week. Also self-employed individuals including farmers will be eligible to membership. Persons employed where there are 5 or more employees can only enroll by forming a group at their place of employment.

Jordan states that only during Community Enrollment Week will individuals be accepted who are not in employment groups of 5 or more. Thereafter, until another community enrollment is held, membership in Blue Cross can be obtained only in employed groups.

More than 28,000,000 persons in the United States and Canada now are covered by the 88 non-profit Blue Cross plans for hospital service, says Jordan. He points out that the third quarter enrollment gain of 1,500,000 persons was surpassed in only two previous quarters in Blue Cross history. Blue Cross takes no profits and provides its members with the best hospital service that can be furnished. The officers and board of trustees receive no pay directly or indirectly. They comprise Columbus public spirited citizens whole heartedly interested in providing adequate hospital service for residents of the community at a nominal cost any wage earner can afford, states Jordan.

Enrollment booths will be located in the foyers of all Columbus hospitals, on the mezzanine of the Neil House and at the Blue Cross offices, Hartman Theatre Building.

Twenty-Six Windows Are Broken In Schiller Park Shelter House

Ray Dietz, superintendent of City Parks, announced yesterday, that twenty-six windows were broken in the Schiller Park Shelter House, over the Labor Day weekend.

Isn't it just about time that parents in this district take the boys doing this, and give them a good dose of the old-fashioned wood-shed treatment?

The city is spending $40,000 to improve and beautify Schiller Park and vandalism starts while the improvements are being made.

We suggested to Dietz that the parents be billed for the broken windows when the boys are caught.

PROPERTY OWNERS TO MEET

"The Property Owners' Association of Franklin County, will meet Friday night at the Neil House at 8 P. M. Members are urged to attend, and the public is invited." Important matters will be discussed.

SOUTH HIGH BULLDOGS OPEN SEASON

2nd half action in Souths opening game.

Show Great Promise In Holding Heavier Arlington Team To 13-12

To those present at the opening game between South and Arlington the game proved to be full of surprises. The stadium held a capacity crowd with south's bleachers containing students, former members of South teams alumnae and several scouts from other high schools which the team will meet later in the season.

A definite air of impending disaster was present when the Arlington team ran onto the field, their greater weight was so obvious that we wondered if we would be able to hold the score to a recognizable sum with our light weight and lack of experienced players.

After Werner's kickoff and for several plays we still wondered. The team wasn't hitting hard. It seemed they would rather reach a little to the side for the tackle than hit head-on, which is often the case when experience and weight are lacking. This tendency was obliterated almost entirely when Arlington broke loose for a twenty-yard run which was brought to an abrupt halt by a smashing tackle by Cacatoria. Then we saw some oldtime South football.

Werner's fourth down punt was hit by an Arlington player and recovered by South to give our team the stimulus to advance to the opponents fifteen, but Franklin's pass was intercepted by Arlington who was held to no appreciable gains.

Our first touchdown was commenced by Levy's punt return, some very rugged field running by Mosier, and a 14 yd. run by Franklin through tackle to the 3 yard line Franklin to the 1 and Levy through center standing for the touchdown. Werner's kick for the point, held by Dowler, was wide.

The game at all times was fast. At no time did either team seem to drag or lose drive. Both teams used deceptive plays but the greater number were tried by our opponents. The spectators, probably unconsciously, seemed to feel some of Coleman's spirit. He was constantly popping-up the line between plays as was Belt who stopped a sure run for a touchdown by Arlington in the second quarter.

During the second quarter South tried several passes by Levy but the line was not holding well enough to allow him to pick a receiver. Levy and Franklin could both be valuable in the air but since the opposition was in almost as fast as the ball most of the passes were thrown on the run destroying their accuracy. Several should-have-been tackles were missed during the second period allowing Arlington two first downs.

South received at the start of the third half, and recalling Arlington's kicks, which were not held but kicked from the ground, we felt deep sympathy for our team or any team trying to catch that erratically bounding ball. Franklin stopped this particular kickoff by snatching it in the air on a very low bounce at a speed almost too fast to see.

Several passes were attempted by South in the third quarter, notably those from Levy to Linden. With a more experienced line this pair should provide the team with notable gains. Linden was observed making some nice tackles also, mostly shoestring.

South's second touchdown, made about five minutes after a second by Arlington, was prefaced by a beautiful pass Levy to Linden who lateralled to Adams and ran with him over the goal. The blocking on this play seemed perfect, South had four players in the pass area to insure a clear field for Adams.

According to the score South lost the game, and scores do not lie, they lost the game 13 t 12. But something was won which, if continued, will provide more than victories for south. The SPIRIT which has been lacking in South teams is working its way back and with this SPIRIT will come a team which will play and hit and win in spite of size or weight of the opposition. The Booster, all south side business and civic organizations, the student body, the faculty, parents and alumnae are boosting our team. With this backing and a packed stadium for every game we place the fate of our football season on the shoulders of the team which can bring victory to our school. Coach "Red" Trego has shown us a team, with but a very few seniors, that has the stuff to win, but win or lose we're with the coach and the team who can show the "fight" we saw Saturday night.

During the game our cheer leaders were constantly on duty, giving yells, leading applause for retiring players who had done a good job. Mona Kline, Betty Ann Thompson, Patty Nolan, Wilda Meyer, Joe Siddle, Bob Curnutti and Dick Krebs are the members of the cheer-leading staff. Well done cheerleaders!

In summary; WE NEED better blocking, more aggressive tackling. WE HAVE the coach to teach it and the players to do it. Levy, Coleman, are indeed spark plugs if this game is to be the criterion, but watch them all and as the season progresses you may find the team hitting on eleven.

S-Sgt. Jack Jordan Captures Deserter

Mrs. Cynthia Denny, 418 Mithoff Street has just received an interesting letter from her nephew, S-Sgt. Jack Jordan, whom she raised and who is now stationed in Sasebe, Japan.

He also sent a copy of the Dragon News, the newspaper for the 34th Infantry at Camp, Mower, Kyushu, Japan, which had an article in it about him capturing an armed deserter who was wanted for manslaughter and three bank robberies in Tokyo. He was an M. P. before deserting. Sgt. Jordan chased him for about two miles on foot and even swam thru the ocean with his clothes on, and caught him the next morning at 4:55 while he was asleep in a Jap house.

S-Sgt. Jordan attended South High School where he graduated and he was employed by the Buckeye Telephone Supply Company, Parsons Avenue, before enlisting in the service. This December he will have served two years and has one more year to serve. He is due for a 30 day furlough, but is going to wait until his two years are served and he will then be entitled to 76 days furlough, which will be worth while.

S-Sgt. Jordon is entitled to wear some ribbons now and has asked his aunt to send them to him, as it is impossible to get them in Japan.

He can wear the Good Conduct, Victory, Jap Occupations, Asiatic-Pacific and American Theater ribbons, plus the Unit Citation. He said he wants to look a little bit like a Christmas tree when he comes home.

S-Sgt. Jordan is 19 years of age and his home address is 866 S. Fifth Street.

Given in marriage by her father, Miss Irene Mildred Gantner became the bride of Mr. Charles Ross Diltz on Saturday, Aug. 23, at 8:30 a.m. in St. Leo's Church, with the Rev. Klinec, officiating before an altar decorated with white gladioli, ferns and candelabra.

The bride is the daughter of Mr. and Mrs. Joseph P. Gantner 589 Reinhard Ave., and the bridegroom is the son of Mrs. Elmer Diltz, 918 Lockbourne Rd., and the late Mr. Diltz.

For her wedding the bride wore an ivory satin gown, cut with an off-the-shoulder trupunto neckline forming a bow-knot in front. The tightly fitted bodice had long sleeves, and the bouffant skirt cascaded over an old fashioned crinoline skirt into a full cathedral train. There was a huge bustle bow at the skirt back. Her fingertip veil was held in place by a halo of orange blossoms and she carried a bouquet of white roses and stephanotis.

Mrs. John H. Ambrose was matron of honor for her sister, and the bridesmatrons were Mrs. Thomas W. Davis and Mrs. Charles F. Elsner, also sisters of the bride. They were dressed alike in blue sheer gowns and carried colonial bouquets of pink roses with matching halos of flowers in their hair. The flower girl was Miss Connie Lee Davis, niece of the bride, who wore a blue gown and carried a miniature bouquet. The ring bearer was Joseph Michael Gantner.

Forget-Me-Not Day To Be Observed In Columbus This Week

On Friday and Saturday, September 19 and 20 the local Chapter of the Disabled American Veterans will conduct its annual Forget-Me-Not Drive Campaign.

For the past 24 years the Disabled American Veterans have devoted their whole energies and resources assisting those who served their country in World War I and suffered a disability as a result of that service.

However, by recent Amendment to the charter of this Organization granted by the Congress of the United States in 1924, the services of the Disabled American Veterans now are being rendered to the disabled veterans of any war, including the injured or disabled veterans returning from the present conflict. This will greatly multiply the demands and opportunities for the rehabilitation services extended by this organization to all veterans, and to his widow, and to his dependents.

The Disabled American Veterans is desirous and anxious to be of every assistance possible to the number of disabled soldiers who have returned from their war services and the battlefields of the far-flung countries.

The Disabled American Veterans is composed exclusively of those veterans who were wounded, gassed, injured, or in some way physically handicapped as a direct result of their war service, and is the only Organization of its kind ever to receive a charter from the Congress of the United States.

We hope that this Annual Forget-Me-Not Drive will receive the generous support of the public.

Community Chest To Seek Huge Amount

This year's goal for the Community Chest campaign will be $1,247,200, according to an announcement by Roy B. Weed, campaign chairman.

This figure was set by the trustees after hearing a report from the budget committee, of which Robert Weiler is chairman. "We believe, that the agencies have asked for only the amounts they absolutely require to meet unduplicated local needs in the health and welfare field," Mr. Weiler said.

Some 4500 volunteers will conduct the solicitation between Oct. 16 and Nov. 3. The money is for the 1948 operating expenses of the 66 Community Chest agencies.

Beulah Park To Open Sept. 20th-Oct. 18th For Banner Session

Columbus, Ohio, Sept. 18 - with the best caliber of horses ever to race at Beulah Park slated to display their speed, the impending fall meeting at the Grove City course Sept. 20-Oct. 18 promises to be a banner session.

Labeled the "Tenth Anniversary" meeting, since Beulah graduated into the mile, major track ranks in 1937, the fall racing season has attracted stables from Detroit, Narragansett, Thistledown, Chicago, Dade Park, Hamilton, O., and elsewhere.

The Detroit contingent includes Al Wellman's 27-horse stable. Wellman was the champion trainer at Beulah both last fall and in the autumn of 1945.

From all indications, Wellman one of the nation's top horsemen will experience no little difficulty in his efforts to repeat. His rivals from Detroit will include the following owners and trainers: George Krehbiel, the Auto City turf writer; J. W. Johnston, who conditions the horses of Charles Williamson; Anthony Graffagnini, the New Orleans turfman; Frank Forrestiere, Dave Jardon, Allan Long and C. C. Heverly.

The purse distribution for the 26 days will be the highest in Beulah's history. The minimum purse is to be $800, an increase of $100 over the spring meeting. However, numerous purses will be in the $900-$1500 bracket while the Ohio Championship is to be contested for a $500 purse, the highest offered in the state.

Post time for the first race every day will be 2:30 p.m.

Dana Reinhart Gives 92 Yr. Old Newspaper To Booster Editor

We recently had a Columbus newspaper 92 years old given to your editor by Dana Reinhart, 1515 Parsons Ave.

The paper which was called the Daily Ohio Statesman, and was dated Dec. 12, 1855, was full size and seven columns wide.

The Crimean War between Russia and England was being waged at that time.

Here in our country at that time in Kansas they were having slave trouble, the forerunner of the Civil War.

Wheat at that time was selling from $1.50 to $2.00 per bushel and flour was selling from $8.75 per barrel.

The Ohio Statesman was published and edited by Sam Medary, who later was Ohio's Civil War governor.

The type in the paper was very small and the lines were set close together. Of course the type was hand set. It contained four pages.

Cuts used in the paper were wood cuts, as hand engraving was unknown.

We have sent this copy of the Ohio Statesman to the Ohio Archeological and Historical Museum, as we consider it should be preserved for all the people of our city to see as it is much too fragile to be handled and can be kept by them in as good a shape as is possible.

This summer I went to Camp Friendly at Jackson, Mich. It was located on Lake Alcott. There were three cottages which were painted white and green. There were row boats and motor boats. There were 21 children and five counselors. We rowed boats and hiked to Price Lake and Wolf Lake. One day we had a Treasure Hunt. Helen Bajus found the treasure. It was a box of candy. Our group was proud of her.

While I was there, I celebrated my ninth birthday on August 7th. I had a nice birthday cake. I certainly had a lot of fun.

B. F. Goodrich Silvertowns that outwear prewar tires... now at less than prewar prices!

We have a big market for sound used tires.

On your car, it is impossible to detect the exact condition of a tire. But we have the experience and equipment to examine them thoroughly, to detect flaws and to select casings suitable for repairing, recapping or reconditioning. This knowledge is extra money in your pocket, because we can give you a bigger allowance if your tires can be made safe for further use.

And this allowance comes off the already lower-than-prewar price of most popular-sized B. F. Goodrich Silvertowns that *outwear prewar tires.* This new tire has a wider tread that runs flush-to-the-road, gives greater road contact, firmer footing, more even wear, more road grip. Finer, sturdier cords and more of them give the tire greater strength and suppleness to resist the road pounding of high speeds.

So don't be satisfied with less than the best when the tire that outwears prewar tires costs so little.

Mayor J. Rhodes Promises Needed Repairs For Park

Mayor James A. Rhodes

Mayor James A. Rhodes was the principal speaker at the annual fried chicken and corn on the cob dinner of the Council of South Side Organizations.

Mayor Rhodes announced that $40,000 was being spent on Schiller Park grounds and shelter house for much needed repairs of the building and beautifying the grounds.

The lake will be placed in condition, picnic tables and benches installed, trees planted and the shelter house will get a much needed face lifting.

Mayor Rhodes further announced that the new Soldiers Field on Greenlawn Avenue was now in the process of having its drainage system improved, and when that work is completed the ground will be seeded with grass.

He also announced in the month of November, that 400 trees will be planted on this tract for its beautification.

Mayor Rhodes further promised that there will be ready, by next spring, eight soft-ball diamonds, and one baseball diamond, and a football grounds, which will be ready for next spring for the baseball-softball season.

Mayor Rhodes says he will install lights for these diamonds, making it possible to have night games on these grounds.

For the benefit of the Greenlawn Veterans Housing project, two Quonset huts will be installed at once for a recreation center and meeting purposes.

We wish to say that Mayor Rhodes will need a pat on the back when these improvements are completed. They have been sorely needed, and we of the South Side are deeply appreciative.

High-Sycamore Gets Needed Traffic Light

After many months of constant effort of the Booster, a traffic light has now been placed at South High and Sycamore Streets.

We wish to commend C. C. Cole, City Safety Director for remedying a bad situation here, as due to the crowds coming from the Moose, K of P and Bingo games, this light was needed definitely.

New Radio Adventure Show Begins Sept. 28

"Christopher Wells", a brand new radio adventure show which starts Sunday, September 28, over the Columbia Broadcasting System, was described today by Clevenger and Redifer, De Soto-Plymouth dealers here.

The program, which is sponsored by the more than 5,000 De Soto Plymouth dealers from coast to coast, will be heard locally at 10 p.m. over Station WBNS.

"The show is built around the character of "Christopher Wells", an enterprising, adventure loving newspaper columnist," according to Harry Yates, business manager of Clevinger and Redifer. "It is being produced by Edward A. Byron, the producer of 'Mr. District Attorney', one of radio's most popular shows. I think it will please the whole family and I'm happy to be one of its sponsors.

"The program was designed to entertain the radio listener and to call to the attention of the public the fine facilities the local De Soto-Plymouth dealer has for prompt, expert, friendly sales and service."

Blue Cross Sponsors Citizens Enrollment

Enrollment of new members in the Blue Cross plan of hospital care on a community and county-wide scale will be conducted all next week in Columbus and Franklin County. According to Ralph W. Jordan, Executive Vice President of the Blue Cross Plan, individuals working where there are less than 5 persons will be accepted during this community enrollment week. Also self-employed individuals including farmers will be eligible to membership. Persons employed where there are 5 or more employees can only enroll by forming a group at their place of employment.

Jordan states that only during Community Enrollment Week will individuals be accepted who are not in employment groups of 5 or more. Thereafter, until another community enrollment is held, membership in Blue Cross can be obtained only in employed groups.

More than 28,000,000 persons in the United States and Canada now are covered by the 88 non-profit Blue Cross plans for hospital service, says Jordan. He points out that the third quarter enrollment gain of 1,500,000 persons was surpassed in only two previous quarters in Blue Cross history. Blue Cross takes no profits and provides its members with the best hospital service that can be furnished. The officers and board of trustees receive no pay directly or indirectly. They comprise Columbus public spirited citizens whole heartedly interested in providing adequate hospital service for residents of the community at a nominal cost any wage earner can afford, states Jordan.

Enrollment booths will be located in the foyers of all Columbus hospitals, on the mezzanine of the Neil House and at the Blue Cross offices, Hartman Theatre Building.

Twenty-Six Windows Are Broken In Schiller Park Shelter House

Ray Dietz, superintendent of City Parks, announced yesterday, that twenty-six windows were broken in the Schiller Park Shelter House, over the Labor Day weekend.

Isn't it just about time that parents in this district take the boys doing this, and give them a good dose of the old-fashioned wood-shed treatment?

The city is spending $40,000 to improve and beautify Schiller Park and vandalism starts while the improvements are being made.

We suggested to Dietz that the parents be billed for the broken windows when the boys are caught.

PROPERTY OWNERS TO MEET

S-Sgt. Jack Jordan Captures Deserter

Mrs. Cynthia Denny, 418 Mithoff Street has just received an interesting letter from her nephew, S-Sgt. Jack Jordan, whom she raised and who is now stationed in Sassebe, Japan.

He also sent a copy of the Dragon News, the newspaper for the 34th Infantry at Camp Mower, Kyushu, Japan, which had an article in it about him capturing an armed deserter who was wanted for manslaughter and three bank robberies in Tokyo. He was an M. P. before deserting. Sgt. Jordan chased him for about two miles on foot and even swam thru the ocean with his clothes on, and caught him the next morning at 4:55 while he was asleep in a Jap house.

S-Sgt. Jordan attended South High School where he graduated and he was employed by the Buckeye Telephone Supply Company, Parsons Avenue, before enlisting in the service. This December he will have served two years and has one more year to serve. He is due for a 30 day furlough, but is going to wait until his two years are served and he will then be entitled to 76 days furlough, which will be worth while.

S-Sgt. Jordon is entitled to wear some ribbons now and has asked his aunt to send them to him, as it is impossible to get them in Japan.

He can wear the Good Conduct, Victory, Jap Occupations, Asiatic-Pacific and American Theater ribbons, plus the Unit Citation. He said he wants to look a little bit like a Christmas tree when he comes home.

S-Sgt. Jordan is 19 years of age and his home address is 866 S. Fifth Street.

Irene Mildred Gantner Bride Of Charles Diltz

Given in marriage by her father, Miss Irene Mildred Gantner became the bride of Mr. Charles Ross Diltz on Saturday, Aug. 23, at 8:30 a.m. in St. Leo's Church, with the Rev. Klinec officiating before an altar decorated with white gladioli, ferns and candelabra.

The bride is the daughter of Mr. and Mrs. Joseph P. Gantner 539 Reinhard Ave., and the bridegroom is the son of Mrs. Elmer Diltz, 918 Lockbourne Rd., and the late Mr. Diltz.

For her wedding the bride wore an ivory satin gown, cut with an off-the-shoulder trupunto neckline forming a bow-knot in front. The tightly fitted bodice had long sleeves, and the bouffant skirt cascaded over an old fashioned crinoline skirt into a full cathedral train. There was a huge bustle bow at the skirt back. Her fingertip veil was held in place by a halo of orange blossoms and she carried a bouquet of white roses and stephanotis.

Mrs. John H. Ambrose was matron of honor for her sister, and the bridesmatrons were Mrs. Thomas W. Davis and Mrs. Charles F. Elsner, also sisters of the bride. They were dressed alike in blue sheer gowns and carried colonial bouquets of pink roses with matching halos of flowers in their hair. The flower girl was Miss Connie Lee Davis, niece of the bride, who wore a blue gown and carried a miniature bouquet. The ring bearer was Joseph Michael Gantner.

Mr. Elmer Diltz was the best man and seating the guests were John Ambrose and Laurence Carpenter. A half an hour of music, with Mrs. Stu Jones as vocalist, preceded the ceremony.

The bride is a graduate of St. Mary High School and Mr. Diltz was graduated from Aquinas High School. The bride-elect is employed at Wizard Weavers, and Mr. Diltz is employed at the Caskey Cleaning Co.

Forget-Me-Not Day To Be Observed In Columbus This Week

On Friday and Saturday, September 19 and 20 the local Chapter of the Disabled American Veterans will conduct its annual Forget-Me-Not Drive Campaign.

For the past 24 years the Disabled American Veterans have devoted their whole energies and resources assisting those who served their country in World War I and suffered a disability as a result of that service.

However, by recent Amendment to the charter of this Organization granted by the Congress of the United States in 1924, the services of the Disabled American Veterans now are being rendered to the disabled veterans of any war, including the injured or disabled veterans returning from the present conflict. This will greatly multiply the demands and opportunities for the rehabilitation services extended by this organization to all veterans, and to his widow, and to his dependents.

The Disabled American Veterans is desirous and anxious to be of every assistance possible to the number of disabled soldiers who have returned from their war services and the battlefields of the far-flung countries.

The Disabled American Veterans is composed exclusively of those veterans who were wounded, gassed, injured, or in some way physically handicapped as a direct result of their war service, and is the only Organization of its kind ever to receive a charter from the Congress of the United States.

We hope that this Annual Forget-Me-Not Drive will receive the generous support of the public.

Community Chest To Seek Huge Amount

This year's goal for the Community Chest campaign will be $1,247,200, according to an announcement by Ray B. Weed, campaign chairman.

This figure was set by the trustees after hearing a report from the budget committee, of which Robert Weiler is chairman. "We believe, that the agencies have asked for only the amounts they absolutely require to meet unduplicated local needs in the health and welfare field," Mr. Weiler said.

Some 4500 volunteers will conduct the solicitation between Oct. 16 and Nov. 3. The money is for the 1948 operating expenses of the 66 Community Chest agencies.

Beulah Park To Open Sept. 20th-Oct. 18th For Banner Session

Columbus, Ohio, Sept. 18 - with the best caliber of horses ever to race at Beulah Park slated to display their speed, the impending fall meeting at the Grove City course Sept. 20-Oct. 18 promises to be a banner session.

Labeled the "Tenth Anniversary" meeting, since Beulah graduated into the mile, major track ranks in 1937, the fall racing season has attracted stables from Detroit, Narragansett, Thistledown, Chicago, Dade Park, Hamilton, O., and elsewhere.

The Detroit contingent includes Al Wellman's 27-horse stable. Wellman was the champion trainer at Beulah both last fall and in the autumn of 1945.

From all indications, Wellman one of the nation's top horsemen will experience no little difficulty in his efforts to repeat. His rivals from Detroit will include the following owners and trainers: George Krehbiel, the Auto City turf writer; J. W. Johnston, who conditions the horses of Charles Williamson; Anthony Graffagnini, the New Orleans turfman; Frank Forrestiere, Dave Jardon, Allan Long and C. C. Heverly

The purse distribution for the 28 days will be the highest in Beulah's history. The minimum purse is to be $500, an increase of $100 over the spring meeting. However, numerous purses will be in the $900-$1500 bracket while the Ohio Championship is to be contested for a $500 purse, the highest offered in the state.

Post time for the first race every day will be 2:30 p.m.

Show Great Promise In Holding Heavier Arlington Team To 13-12

To those present at the opening game between South and Arlington the game proved to be full of surprises. The stadium held a capacity crowd with South's bleachers containing students, former members of South teams alumnae and several scouts from other high schools which the team will meet later in the season.

A definite air of impending disaster was present when the Arlington team ran onto the field, their greater weight was so obvious that we wondered if we would be able to hold the score to a recognizable sum with our light weight and lack of experienced players.

After Werner's kickoff and for several plays we still wondered. The team wasn't hitting hard. It seemed they would rather reach a little to the side for the tackle than hit head-on, which is often the case when experience and weight are lacking. This tendency was obliterated almost entirely when Arlington broke loose for a twenty-yard run which was brought to an abrupt halt by a smashing tackle by Cacatoria. Then we saw some oldtime South football.

Werner's fourth down punt was hit by an Arlington player and recovered by South to give our team the stimulus to advance to the opponents fifteen, but Franklin's pass was intercepted by Arlington who was held to no appreciable gains.

Our first touchdown was commenced by Levy's punt return, some very rugged field running by Hawkes, and a 14 yd. run by Franklin through tackle to the 3 yard line. Franklin to the 1 and Levy through center standing for the touchdown. Werner's kick for the point, held by Dowler, was wide.

The game at all times was fast. At no time did either team seem to drag or lose drive. Both teams used deceptive plays but the greater number were tried by our opponents. The spectators, probably unconsciously, seemed to feel some of Coleman's spirit. He was constantly pepping-up the line between plays as was Belt who stopped a sure run for a touchdown by Arlington in the second quarter.

During the second quarter South tried several passes by Levy but the line was not holding well enough to allow him to pick a receiver. Levy and Franklin could both be valuable in the air but since the opposition was in almost as fast as the ball most of the passes were thrown on the run destroying their accuracy. Several 'should-have-been tackles were missed during the second period allowing Arlington two first downs.

South received at the start of the third half, and recalling Arlington's kicks, which were not held but kicked from the ground, we felt deep sympathy for our team or any team trying to catch that erratically bounding ball. Franklin stopped this particular kickoff by snatching it in the air on a very low bounce at a speed almost too fast to see.

Several passes were attempted by South in the third quarter, notably those from Levy to Linden. With a more experienced line this pair should provide the team with notable gains. Linden was observed making some nice tackles also, mostly shoestring.

South's second touchdown, made about five minutes after a second by Arlington, was prefaced by a beautiful pass Levy to Linden who lateralled to Adams and ran with him over the goal. The blocking on this play seemed perfect, South had four players in the pass area to insure a clear field for Adams.

According to the score South lost the game, and scores do not lie, they lost the game 13 t 12. But something was won which, if continued, will provide more than victories for south. The SPIRIT which has been lacking in South teams is working its way back and with this SPIRIT will come a team which will play and hit and win in spite of size or weight of the opposition. The Booster, all south side business and civic organizations, the student body, the faculty, parents and alumnae are boosting our team. With this backing and a packed stadium for every game we place the fate of our football season on the shoulders of the team which can bring victory to our school. Coach "Red" Trego has shown us a team, with but a very few seniors, that has the stuff to win, but win or lose we're with the coach and the team who can show the "fight" we saw Saturday night.

During the game our cheer leaders were constantly on duty, giving yells, leading applause for retiring players who had done a good job. Mona Kline, Betty Ann Thompson, Patty Nolan, Wilda Meyer, Joe Siddle, Bob Curnutti and Dick Krebs are the members of the cheer-leading staff. Well done cheerleaders!

In summary; WE NEED better blocking, more aggressive tackling. WE HAVE the coach to teach it and the players to do it. Levy, Coleman, are indeed spark plugs if this game is to be the criterion, but watch them all and as the season progresses you may find the team hitting on eleven.

QUEENSLAND FLOOR PLAN

THE QUEENSLAND– The trouble with many contemporary (modern) homes is that they range over so much territory that they are beyond the price level of the modern inclined family that must build on a limited budget.

The Queensland is a contemporary home designed especially for those who must watch costs carefully. Under an attractive hipped roof its floor plan arranges logically in the modern fashion. The living room is large and open to light and air on three sides. The kitchen is in front looking out over the street on what, since the advent of the automobile, has become the least attractive outlook of most plots. Like most modern houses, this house need not have a cellar. An adequate heater room is provided in the first floor. For those who insist on a basement the detailed working drawings provide a cellar alternate.

From a flagstone terrace, one enters a vestibule equipped with a good closet. A turn to the right and one enters the large living room. The kitchen opens to the left of the vestibule and is large enough for a permanent dining alcove. This is attractively placed in the corner window giving unobstructed views up and down the street. To balance the corner window in the dining alcove, a similar window is placed in the bedroom on the other side of the house. The exterior effect achieves the symmetry of fenestration that is a fundamental of good architecture. And, on the inside the use of corner windows in two strategic spots helps to make the attractive arrangement of furniture easy.

Like all the houses of our series, The Queensland was designed to the exacting requirements of Housing Plan Service as well as to conform to the standards and construction requirements of Federal Housing Administration. The electrical plan was checked by the National Adequate Wiring Bureau. Blueprints and specifications may be had from Housing Plan Service—140 Nassau Street—New York 7, N. Y.—for $7.50 per set.

TIME, supposed to be endless, also can work in a hurry. It can make or break you in a week or a month. Or even in a day. In the course of a year it can turn everything upside down. Especially in baseball.

This thought happened along as we looked over the records of 1946 and 1947, as the roulette wheel of fate kept spinning.

Vernon

For one example, a year ago Mickey Vernon of the Senators led both big leagues with a .353 batting average. It was reported that Larry MacPhail had offered $150,000 for Vernon's contract, as at that time the Yankees had no hard-hitting first baseman in sight.

Vernon is now around 40th place among American league hitters, not including over 50 hitters in the N. L., when we'd leave Mickey in a spot close to the 30th mark. A year ago, there were wordy arguments as to whether Bob Feller of Cleveland or Hal Newhouser of Detroit was the greater pitcher. Bob Feller is now in about 30th place among the winners and Hal Newhouser's ranking is in 43nd.

A year ago, Dave Ferriss was on his way to winning 25 games. At this writing Dave counts the 20th spot on the pitching side.

A year ago, Bowie Pollet and Murry Dickson were the two Cardinal stars, close in the top. Pollet was a 20-game winner. Currently, Dickson has been in the 45th slot and Pollet down as low as 58th place, among those who threw a baseball for a living.

These are just a few of many examples to show what the Old Doc with the sharp scythe can slip you, when he feels in the mood. He can lift you up and he can also yank you down at even greater speed. He doesn't seem to care.

They Go Up and Down

Old Doc Time is a temperamental mug. He doesn't bother about names or reputations. He lets nature take its course. I interviewed him once and this is all he had to say:

"As this old world goes roun' and roun',
Some go up — and some go down."

In baseball more than any game I know. Up and down — down and up. A year ago Vernon hit above .353 and George McQuinn was around .225. Now with Vernon at .273, McQuinn has been close to .300 most of the year. A combined shift of some 150 points. Even more.

But there are always a few who hang on, looking the Old Doc in the eye.

One of these is Ted Williams of the Red Sox. There seems to be a vague idea around that Ted has taken a dip this season. I'd like to take the same brand of dip.

They have built up a defense against Williams that was supposed to wreck him. He may not be the annihilator of other seasons, but he is still up there challenging for the home-run title in the A. L., the batting leadership and the runs-batted-in-honors.

I would say that in an off year for so many stars, Ted Williams is doing a great job.

Other Old Timers

So is Joe DiMaggio. In spite of numerous ailments, Joe DiMaggio is still the top artist in baseball.

A few of those who starred last season are still delivering.

One of these is Kiner of the Pirates, who led the National League in the home-run roundup a year ago, and is likely to lead it again. Johnny Mize always a power hitter, is still shooting his salvos. So is Hank Greenberg.

But so far, 1947 has been featured by stars unknown a year ago. One is Ewell Blackwell of the Reds, with a 20-game season in his pocket. Blackwell has been rated far above Feller and Newhouser with a weaker bull club. The tall and lanky one, the human No. 1 iron, has been the pitcher of the year.

Another leading star is Harry Walker of the Phillies. Eddie Dyer, one of baseball's smartest, traded him to the Phillies in exchange for Ron Northey. At which point Harry Walker, Dixie Walker's brother, promptly took charge of the batting mark in both leagues. Working with a tail-end ball club, Walker has been one of the season's star performers. So has Blackwell.

You heard few rumors about Blackwell and Harry Walker a year ago. But they have driven the stars of 1946 into the gravel ditch.

Young Yankee Stars

The team feature of the year has been the number of winning performers George Weiss of the Yankee farm system has rushed to Yankee help. This list includes Yogi Berra, Frank Shea, Allie Clark, Vic Raschi and a few others who have carried the Yankees along.

With almost no advance build-up, the Yankee farm system has been far better than that of the Dodgers, rated, last spring, as the best.

St. Leo's C.Y.O. News

Eight stood anxiously while thirty-two sat impatiently waiting for the opening signal to begin. There goes the signal and balls whizzed down the alleys and pins flew in all directions and the 1947-48 bowling league of St. Leo's Adult C.Y.O. was officially opened.

The bowling season opened at Gettrost Alleys on Sunday, Sept. 14 at 8:30 p. m. and will continue bowling there every Sunday night at the same time for 35 weeks.

The bowling officers are: Bill Rodgers, President; George McLaughlin, Vice President, and Jack Beckert, Secretary. There are eight teams and are named after the big league baseball teams, they are the Cubs, Giants, Yankees, Indians, Cardinals, Tigers, Red Socks and Pirates.

St. Leo's is holding a skating party Tuesday, September 23, at Rollerland from 8 p. m. to 12. The price of admission is 50 cents if you purchase your tickets before the night of the party, and 60 cents at the door. For tickets see Helen "Sociable" Murphy. St. Leo's will leave as a group from their school yard at 7:30 the night of the skating party.

Friday, Sept. 25 is Open House for parents and we would like to take this opportunity to remind all the parents and guardians of all St. Leo's Adult C.Y.O. members to plan an evening of fun and entertainment with their boys and girls. One form of entertainment will be a variety show featuring the talent of Ruth Dill well known accordian player, Mitzi "Lily Pons" Hendrick, who will sing a few operatic scores, her celebrated sister, Maud Hendrick at the piano, the golden music of Jack Beckert the lovable, likeable, imitator Pat Groom and many others. Besides this there will be refreshments and fun for all.

Bill Eisele bowled 1 point per game the other night at Gettrost to win a dollar bet from Ernie Schneider.

There was some nice leg art shown by a certain girl whose initials are M and H at the bowling alley.

Southway Post News

The complete results of the election at Southway Post No. 144 of the American Legion, for officers for 1948, will arrive a little too late for this issue of the "Booster." The installation of Officers however, will be held at 8 P. M. on Wednesday October 1st.

Unopposed candidates, who will be inducted on that nite are, Commander, Oscar Ruckel; First Vice, Harold Emrich; Second Vice, Harry Simeral and Third Vice, Frank Kunz; Chaplain Art. Palmer will once again assume his office, for the umpteenth time! We understand that Simeral's new Degree team will be in action for the first time, thus depriving Chet Molt of the annual job of escorting Palmer!

The job of selecting over 30 American Legion Committees will fall to the lot of the Commander and the several Vice Commanders; if you would like to get your feet wet, on one of these jobs, then see any one of them and volunteer. Write down your name and address and hand it in, glad to have you and it will give a few of these Committees a "Shot in the arm." The Commanders do not know all you birds personally; They must therefore, end up with these jobs filled the easy way.

Your Dues are now Due. That is of course, if you want to make a big job a whale of a lot easier, for your new officers. You can only get one card for your 1948 dues no matter when you pay them. Get them off your chest now, while you've got 5 bucks; Xmas is coming and you might be busted again, or yet!!! The older guys pay up fast and will have a 16 month hop on the dues that you may still be sweating out, when the snow flurries flutter and stuff!!!

It's the Law

La Cross, Wis., Ordinance No. 19, declares that it is "... unlawful for any person or persons to climb upon the fence or other enclosure of any public park or unoccupied lot . . . and remain sitting thereon . . . in such manner as to annoy or incommode persons. . . ."

In Plymouth, Mass., it is against the law to smoke on Sunday within two miles of a meeting house.

It is unlawful to drive a horse in Pennsylvania while under the influence of intoxicating liquors.

The famous "blue laws" of Connecticut prohibit all housekeeping activities and cooking on the Sabbath. The lawbound Colonial was forbidden to eat mince pie, to travel, to cut his hair, to shave his face, to dance, to kiss his children, to cross a river, or to play any instrument of music except the drum, trumpet or Jew's harp.

Champion Theater, Friday and Saturday

THE LOCKET is the main feature at the Champion Theatre this Friday and Saturday. Starring Laraine Day and Brian Aherne, it is the story of a kleptomaniac. Miss Day, the reasons for her becoming so, and the results of her thievery. This purely psychological drama is told in a series of flashbacks with the different characters acting as narrators. Robert Mitchum and Gene Raymond lend their very able support to the film, all of the men concerned at some time or another having loved Miss Day. The story takes place in various localities ranging from New York's art circles, to Miami, to London during the blitz, but all of the picture is emotionally effective. Second feature will be DARK DELUSION, starring Lionel Barrymore, Lucille Bremer and James Craig. This latest in the Dr. Gillespie series ventures into the domains of psychotherapy and again presents Lionel Barrymore in his accustomed role as the genial old man of the medical profession.

Club Alexander

A new emcee at Club Alexander this week, Franky Belasco, the only Hungarian emcee with clever songs and comedy. Peggy O'Neil, lovely exotic dancer. Ideal Theater

The Ideal presents Sunday and Monday "The Harvey Girls" with Judy Garland and Ray Bolger. This is a musical done in technicolor and it features several fine song numbers, especially "On The Atcheson Topeka and Santa Fe." Also the gay glittering saga of a by-gone era, you will find out why they called it the Gay Nineties. Also "Law of the Lawless" with Johnny Mac Brown and Raymond Hatton. A clever "Cartoon" completes this billing.

Gene Stinson Needs Sales Tax Stamps

Gene Stinson has had some tough luck, his auto went bad and in the physical shape he is in, it is very hard for him to collect his sales tax stamps.

Gene, you know, is a spastic paralysis victim and has made his living by selling a gadget for a mail box.

He is trying to set-up a woodworking shop to make practical novelties, so that he can support his family more adequately.

Gene now has some machinery set up and is about ready to go, but he still needs more sales tax stamps, as he still needs more machinery and some additional capital to operate on.

Send or bring your sales tax stamps to the South Side Booster, 1542 Parsons Avenue or to Gene Stinson, 164 Mithoff Street.

Help Gene to help himself to support his wife and four children.

Your sales tax stamps cost you nothing and go for a good cause.

He gave up his gun for a girl; also "Dick Tracy Versus Cueball" with Morgan Conway and Anne Jeffreys, "News and Cartoon."

COMING TO THE SOUTHLAND THEATER

One of the most delightful comedy hits of the year, "Miracle on 34th Street," will play at the Southland Theatre on Friday and Saturday, September 19th and 20th.

Maureen O'Hara and John Payne share honors with little Natalie Wood and loveable Edmund Gwenn in this hilarious and refreshingly different film, set against the shiny background of New York's fabulous 34th Street shopping district and Macy's gigantic department store, between Thanksgiving and Christmas. Gwenn is outstanding in his role of a hired department store Santa Claus, by the name of Kris Kringle, whose insistence that he IS Santa Claus ensues in a legal court battle. Miss O'Hara and John Payne carry the romantic interest. "Miracle on 34th Street," will be on a double program with "Spook Busters," with those Bowery Boys, Leo Gorcey and Huntz Hall in the starring roles.

"THE HUCKSTERS" Opens Sun.

Frederick Wakeman's widely read and much discussed best-selling novel, "The Hucksters," comes to the Southland screen, for a three-day run, starting Sunday, Sept. 21st. The one-and-only Clark Gable plays Vic Norman, high-powered advertising account executive in this sophisticated comedy romance and lovely Deborah Kerr, one of Britain's brightest stars, plays the woman with whom Gable falls in love. Set against the fast tempo of the entertainment world of New York and Hollywood, "The Hucksters" is one of MGM's top pictures of the year. Ava Gardner and Sydney Greenstreet very capably portray the roles of a nightclub singer and the eccentric owner of the Beautee Soap Company respectively.

Old Fashioned Revival Hour Coming Sept. 23

Dr. Charles E. Fuller

To the many Columbus and Central Ohio friends who have listened over the past 22 years to the Old Fashioned Revival Hour, comes the privilege of seeing and hearing Dr. Charles E. Fuller in person, Tuesday evening, Sept. 23, at the Ohio State Fairgrounds Coliseum.

This one-night meeting is sponsored by a group of Columbus Christian business men, with Ray Wunderlich of Cussins & Fearn as chairman of the committee.

The Old Fashioned Revival Hour was the first coast to coast religious broadcast in America. Besides the regular broadcasts to the North American continent, the program is sent short wave to South America, Africa, China, Cuba, Panama, Puerto Rico and the Philippines. The combined gospel programs top in popularity many of the best-known coast to coast programs, according to recent radio surveys. It is estimated that Dr. Fuller is reaching 20 million people all over the world with the gospel each Sunday.

Dr. Fuller will be accompanied by the Old Fashioned Revival Hour Quartet with Rudy Atwood and due to the large crowd expected at the piano. Admission is free, early seating is suggested. Both the 11th avenue and the 17th avenue gates will be open for the convenience of all. The Coliseum doors will be open at 6:30 p.m., and the meeting will begin promptly at 7:30 p.m.

News In The World Of Religion

The Touro Synagogue, Newport, R. I., the most historic Jewish synagogue in America and one of the oldest religious edifices in the continent, is the first Jewish temple to be dedicated as a national shrine. Almost two hundred years old, the Synagogue is an architectural gem of colonial days. It was built a century after the first fifteen Jewish families arrived in Newport from Spain and Portugal (1658), and was named after their leader, Rabbi Isaac Touro. Members of its congregation were prominent in colonial and Revolutionary enterprises, and George Washington once spoke from its rostrum. As a national shrine it will be under the protection and care of the United States Government.

American church aid has been promised the National Christian Council of India in its efforts to relieve some of the more serious situations growing out of famine in that land described as "generally worse than last year but not as widely publicized. According to advices received by Church World Service, in New York City, from Dr. L. A. Blickenstaff, its representative in Bombay, food and grain stocks are low in Bombay; supplies and rations are very low in the Central Provinces; foodstuffs are "short" in Madras Presidency; distribution of food is handicapped by civil disturbances in the Punjab. The new famine may last into 1948, it is believed, and the American organization is planning to ship to India powdered milk and various cereals to be distributed under the direction of the National Christian Council.

"The continued development of highly scientific weapons of widespread mass destruction and obliteration will never be a way to plan for peace and security," says Dr. Charles F. Boss, Chicago, Ill., secretary of the Peace Commission of the Methodist Church. "These, and the maintenance of universal conscription, will always be a threat to the peace of the world and do actually constitute plans of war-making. . .The United Nations must seek to bring about a reduction of war-hysteria, both by the adoption of political means of international security, and by the reduction of war-making processes in all nations, doing so by International agreement. There is no other security."

"The church has long proclaimed that if Christianity is honestly believed and fully practiced, it will solve all problems of human maladjustment," says a recent statement of the Interdenominational Foreign Mission Conference of North America. "It brings all men into right relationship with the one God and Father of all. In him, they ground their faith in the moral order of the universe. As disciples of Christ, they learn to live together as God's children, using their intelligence and ability in loving cooperation. It is the task of the church not only to make these teachings more effective in the daily life of every Christian and in the church itself, but also to increase the number of Christians, linked in a steadily growing worldwide Christian fellowship. Through foreign missions, the churches of North America carry on this twofold task overseas. In the name of Christ they minister to the whole range of human need, from hunger and disease to man's restlessness until he finds God. The critical needs of mankind the fact that Christians believe that Christ they have the Way to meet these needs, and the techniques making change, demand that the Christians of the world work harder, faster, and more effectively than ever before. They must embody the love of God in lives of Christian action as well as proclaim it with all the newest techniques for conveying ideas."

Dr. Shui Tsai Hwang, professor of soils at the mission-supported College of Agriculture and Forestry of Nanking University, China, believes he has found a clue to the prevention of soil erosion in the hilly areas of the country — erosion being one of the causes of China's agricultural poverty as well as of her disastrous flooding floods. Experimenting on land slopes as steep as forty percent, he found that broadcasting a cover crop of soybeans on hillside cornfields (rather than planting them in rows) almost completely stopped the loss of soil. Because of the waste of hillside lands and soil, many Chinese farmers use only the lowlands and raise rice. He believes that the right use of strip farming and the use of permanent strips can save the land, and add peas, corn, beans, wheat, and peanuts to the national diet.

Miss Ruth Mahley Weds Walter Scholl

Saturday, August 23, Miss Ruth Marie Mahley, daughter of Mr. and Mrs. Robert M. Mahley, 577 Reinhard Av, exchanged wedding vows with Walter J. Scholl, son of Mr. and Mrs. R. C. Scholl, 1017 Stewart Av. The 10 o'clock ceremony took place at St. [illegible] Church, the Rev. Linus Dury officiating.

Given in marriage by her father, the bride wore a gown of light ivory satin. Her fingertip veil of English illusion fell from a coronet of seed pearls, and she carried a white prayer book topped by an orchid.

Miss Jo-Ann Green was maid of honor and bridesmaids were Miss Helen and Miss Hilda Fox.

Raymond F. Scholl acted as his brother's best man and ushers were Joseph Mahley, brother of the bride and Charles Holt.

Mrs. Scholl and her husband are graduates of St. Mary's High School. The bride is employed by Ohio Bell Telephone Co., and Mr. Scholl is in business with his father.

Leafy Oak Coon Dog Trials Set Record

The 20th Annual National Leafy Oak Coon Dog Field trials of North America staged over the Labor Day week-end near Mt. Victory in Hardin County set a new record in not only attendance but entries, according to Ralph Woodard, Kenton, general manager of the Association.

The Coon Dog classic of the nation drew over 6,000 persons from as far east as Massachusetts, as far south as Alabama and as far west as Nebraska and a total entry of 467. Dogs on the grounds were estimated at 1700.

The Leafy Oak Trials, started 20 years ago by Col. Henry "Hank" Pfeiffer of Kenton, is considered the biggest coon dog field trial in the world. Mr. Pfeiffer's death in 1943 threatened to halt the annual event but as a tribute to a great dog man and conservationist other dog men have carried forward the big show which keeps the grand old coon dog the reigning queen along about Labor Day each year. Associate manager of the association is Mack Weise of LaRue. Lester Nance of Arcadia, Indiana, handled the Bench Show which also set new records this year in both quality and number of entries.

Blue Cross is owned and supervised by the hospitals. There are 88 Blue Cross plans in the United States, Canada and Puerto Rico with 28 million members.

WHY SHOULD I JOIN? Your chance of going to a hospital is 1 out of 10. The cost of hospital services has increased approximately 60 per cent. Records show that 9 out of 10 persons are unprepared to meet the unexpected emergency of paying a hospital bill. Blue Cross furnishes the best hospital care for yourself or any family dependent.

ENDORSED BY CIVIC LEADERS—

Ralph D. Henderson
President of Central Hospital Service

"Blue Cross started as an idea with a humanitarian ideal. During its sixteen years of phenomenal growth, it has become a potential for national health security.

"On their own initiative, the hospitals of this country with the endorsement of the American Hospital Association, are attaining under private supervision, the goal of putting adequate hospital care within the means of every individual.

"By their own resourcefulness and sincere interest in the health welfare of the Nation's populace, the Blue Cross plan now furnishes hospital services to 1 out of every 5 persons.

"Authorizing this week for a Community and County-wide enrollment makes Blue Cross available to many eligible persons not now members."

Presbyterian Church Is Scene Of Wedding For Findley-Hewitt

Miss Rosemary Hewitt, daughter of Mr. and Mrs. John M. Hewitt, 567 Berkeley Rd., became the bride of William Richard Findley, son of Mrs. Russell L. Bettker, 980 Linwood Av, and Edward M. Findley of Jackson, Tenn., Sunday, June 15, at 4:30 p.m. in the First Presbyterian Church. The Rev. A. W. Wright officiated at the double-ring ceremony.

The bride chose for her wedding, a white slipper satin gown made with a deep sheer yoke of marquisette in an off the shoulder effect. The yoke was edged with a ruffle of alencon lace. Her veil of imported French illusion was attached to a Mary Queen of Scots bonnet of the French illusion edged in seed pearls. She carried a cascade bouquet of white roses, lilies of the valley and shattered carnations, centered with gardenias.

Miss Isabel Hardy was maid of honor and wore a gown of chartreuse moire, style with a V neckline, cap sleeves, peplum and very full skirt. She wore matching guantlets and a chartreuse bonnet in the Mary Queen of Scots style. Her colonial bouquet was of lilies of the valley and pink roses, with pink satin ribbon. Little Miss Shirley Jean Fearing, was flower girl in an Alice Blue Gown, styled similar to the bride's. She carried a colonial bouquet of pink roses with pink satin ribbon and wore her hair in coronet braids entwined with pink rosebuds. Miss Jo-Ann Fearing, Miss Marion Given, Miss Joan Yount, bridesmaids, and Mrs. Charles Lambert, bridesmatron, wore shell pink moire gowns in identical styles as the maid of honor. Each carried a colonial bouquet of yellow roses with purple delphinium, with blue satin ribbons.

Mr. Edward M. Findley, twin brother of the groom, was best man, and ushers were Mr. Robert Hewitt, brother of the bride, Mr. Ray Ellis, Mr. Cliff Olson and Mr. Ralph Hudson.

The new Mrs. Findley, a graduate of East High School, is a senior in the College of Commerce and Administration at Ohio State University, where she expects to resume her studies in the fall. Mr. Findley, a graduate of South High School, attended Capital University until he entered the U. S. Army Ordnance and is now in business as co-owner of The Foreign Grocery Company.

Legions Urge Voters To Register

COLUMBUS, Sept 25—A campaign to persuade veterans of both World Wars to register before Oct. 6 and to vote Nov. 4 is under way in most communities where American Legion posts exist, Ohio Commander Don W. Schoeppe announced today at state Legion headquarters here.

The non-partisan objectives are to carry out the ideal of Citizenry Week, Oct. 28-Nov. 2, for exercise of the right of franchise, and to secure a large vote, particularly by veterans, on the Ohio World War II veterans' bonus issue, he explained.

Posts have been urged to form teams for the dual purpose of getting eligible veterans to register and vote and to explain and seek support for the constitutional amendment providing for the bonus payment.

"Veterans asked the Ohio Department of the Legion to go to bat for them and get the bonus on the ballot this fall, and this we helped to do," Commander Schoeppe said in a message to Legionnaires. "It is apparent that the organized groups opposed to it will be out in droves. If the veterans want the bonus, they will have to get out and do a little work

"Every World War II veteran should be urged, first, to visit his election board and see if he is registered," he advised. "He should be informed that, if he became 21 after induction into service, if he was not registered at time of induction, or if he has moved since last voting, he must register or he can't vote. These regulations are in effect in all places where registration is required."

War Veterans Bonus Is Very Liberal

COLUMBUS — Ohio's proposal for a World War II veterans' bonus, subject to the Nov. 4 election, is more generous than six of the 37 bonus plans now in effect in others states and Alaska, Commander Don W. Schoeppe of the American Legion pointed out today at state headquarters here.

"I mention this because of exaggerated reports which have been circulated about [illegible] there are still Legionnaires and other veterans to qualify for the bonus and have not and vote their qualifications on election day," he added.

Payments under the proposed Ohio constitutional amendment would be $10 a month for domestic service and $15 a month for foreign service, to a maximum of $600. Of the eight states in effect only those of Illinois and Michigan offer more compensation, and that only to veterans of long service. Both have the $10-$15 monthly rates, but Michigan has a $500 maximum and Illinois has no maximum.

Maximum payments in other states run as low as $100 in New Hampshire.

Commander Schoeppe appealed to all Legionnaires to make sure they are registered before Oct. 6, the closing date, to cast their votes on the bonus and all other issues according to other convictions, and to urge all other veterans to do likewise. Legion efforts in this direction will be topped by local "get out the vote" drives during Citizenry Week, Oct. 28-Nov. 3.

Bill Kaufman Goes Hunting

Some one played a dirty trick on Bill Kaufman. It seems Bill, Bob Geetinger (of the city's inhalator quad), Andy Boros and his pretty sister Anna decided to go in search of squirrels on the first day of the season.

The day thus far hadn't produced a squirrel, and the party of hunters was getting mighty anxious to shoot at something. Bob had just found a good location to sit and wait for a squirrel that might find the nut tree that Bob was watching. Just as he sat down he was startled by a ball of fur at his side. He jumped to his feet. Then he recognized that he had just sat beside a dead groundhog. Andy Boros was close by and together the two contrived a fiendish plot. Bob and Andy carefully placed the groundhog on a fallen tree, so that the dead animal looked as if it were watching something on the ground. Then they looked for Bill.

When they found Bill, they asked him if he'd like to work back towards the car. As they hunted back Bob pointed the dead groundhog out to Bill and told him that he could have first shot. Bill took good aim and fired. The animal fell off the log and started to roll a few feet. Bill was excited at the first shot of day, and broke out in a run toward his game yelling that the groundhog was running for its hole. Then he stopped and cried "No I got him. A nice head-shot." By this time Bob and Andy were laughing so hard that Bill could guess that some one had played a dirty trick on him.

Heavier Marion Team Wears Down Stubborn South

In a well played game Friday night, before a capacity filled stadium a heavier, more Marion team wore down a stubborn smaller South Team. For the 1st quarter, it was a see-saw battle with both teams alert and South especially playing heads-up ball, but it was evident to everyone in the stadium that sooner or later that the big Marion - Hartig team would get going. Score: At the start of the 2nd quarter, on two pass South gained seven yards and Werner punted to Marion's 41 yard line, after two plays Marion booted on the exchange of punts Marion had gained 30 yards. At this point of the game, Marion's weight was beginning to tell on smaller South, they repeatedly broke thru the line and broke up South's plays before they could be executed. Levy of South tried two passes at this point but was hurried and could not pick out a receiver. Werner punted and then Marion started its 1st march for a touchdown. After a series of running plays thru the line Marion finally scored making it 7-0 But they had to do it the hard way, with their back to the wall, South's defense on three plays was terrific, the Bulldog was fighting mad, but also tired and Marion pushed over. Marion kicked off to South and soon had the ball again on a pass interception and again Marion was deep in South's territory. At this point Marion was thrown for a 4 yard loss by Carriature on a smashing tackle. South held for no gain and took over the ball. Dowling made a nice off tackle run for 10 yards but South couldn't go any further and Werner kicked to midfield. On the next play, big "Wildcat" Smith, Marion's colored star broke loose and was on his way to pay dirt but for pint-sized Levy who forced him out of bounds on about the 20 yard line, with a minute to go in the 1st half Marion ran out the clock.

Marion kicked off to start the 2nd half and on the next play Dowler made a nice run thru Marion's line for 8 yards, South then fumbled and lost 7 yards and finally punted out of bounds on their own 45. Again big Smith broke loose to the 28 yard line, and on the next play Franklin broke thru and broke up a lateral pass for no gain. After a 10 yard gain on the next play Smith fumbled but recovered and it was 1st down and 22 yards to go for a touchdown, here again was South with its back to the wall, but with a determination that just couldn't be denied. Dowler broke up the 1st play by throwing Smith for a 6 yard loss on a beautiful breakthru. Smith took the ball again and made up the six. South playing like champions took over the ball on the 2 yard line. Werner kicked on 2nd down. On the 1st play, Hill, on a beautifully executed play romped 31 yards for the second score. The try for the point wasn't good and the score read 13-0.

Early in the 4th period, Marion scored again on a 40 yard romp by Hill. South then started to move with a fine run by Dowler for 15 yards. Levy on the next play had his pass intercepted, and Marion started on the march again. Dean Adams intercepted a Marion pass and made a 25 yard run back, that would have put Davis of Army to shame, cutting and dodging the entire Marion team before he was brought down from behind. Marion then recovered a South fumble. South held and took over on downs with 2 minutes to go in the game. South then filled the air with desperation passes, but Levy was given no chance to pick a received., being constantly hurried, at one time Levy threw a pass with three men dragging him down, the game ended with South in possession of the ball, but they couldn't seem to go any place.

It was a well played game and but for South's fighting spirit the score would have been larger. The big difference in the two teams was one "Wildcat" Smith, without him in the lineup the game could have gone either way. South need never be disgraced in that defeat, Marion was just too big. All in all it was an enjoyable evening, the half time ceremonies were very good with both bands holding the crowds attention at all times, the various formations were executed with fine precision considering it was the first appearance for both bands. South's new uniforms have not arrived as yet, but even with the mixed uniforms they looked good. Again we say it was a very enjoyable evening altho South was defeated. Next Friday night, St's Aquinas, so let's everyone turn out for this opening League Game, and start the boys off in fine fashion, they're a good team, they are small but there isn't a team in the league with more spirit or spunk than this group of boys. South is putting on the field this year. Let's make this a big night and show the school that the South Side is really behind them.

The following is the lineup for the game.

FIRST FLOOR PLAN
THE NELSON

FINISHED ATTIC PLAN
THE NELSON

THE NELSON—Flexibility is as important to a house plan as to an elastic band. In the design of The Nelson, the architect has achieved the utmost in flexibity so that the plan may be adapted to fit the varying needs of families of different needs and tastes.

First, it is a small house that looks much larger than it is because the garage is turned endways and a grand porch placed in front of it. It may be a two bedroom, a three bedroom or a four bedroom house. It may have the conventionally sized living room shown in the floor plan here, or, by leaving out the partition between living room and front bedroom, might be built with an oversized living room 22.x16,. The smaller downstairs bedroom might be a dining room and all sleeping confined to the second floor. Or, it might be a study. Or, the second floor may be left unfinished and the house built as a four room bungalow. There are numberless possibilities.

The plan conforms to Federal Housing Administration construction requirements and to the standards of National Adequate Wiring Bureau. Architect's blueprints and specifications may be had from Housing Plan Service—140 Nassau Street—New York 7, N. Y.—for $7.50 per set.

SPORTS

By Walt Tompkins

Sportlight by Grantland Rice

Grantland Rice

THERE is a certain change due in the setup of baseball's two major loops.

No sane person who knows sport can deny that Los Angeles and San Francisco are far better sporting centers than most of the major league cities, now occupying the "Standing of the Clubs."

Los Angeles in many ways is well beyond New York and Chicago. On a general average, it outdraws both at racing and football, to name two leading sports. I've seen 93,000 at a Rose Bowl game in nearby Pasadena and on the same afternoon, over 65,000 were at the Santa Anita race track. Given any sort of competition in football, Los Angeles can turn out from 80,000 to 100,000. San Francisco isn't far away. Both Los Angeles and San Francisco are also sport keen and sport-conscious to a high degree. They are far beyond at least 10 Big League centers. For that matter, Baltimore is also a much better big-league spot than many teams now listed.

When you look over attendance records at Browns park in St. Louis, ranging from 400 to 1,100, you get the answer.

The shift has to come at an early date, a fact which a number of sleepy or half-awake big league magnates will have to swallow, no matter how little they like the medicine.

There has been a big change in major league baseball which can have some interesting developments. A few years ago only the winner in a big city could pass the one million attendance mark in one year. You had to have a winner, or at least a good ball club, to make any money. Today, cellar champions or cellar challengers can pass the one million roundup. Owners no longer need good ball clubs to have big years. This easily can lead to a big letdown in the way of any financial incentive.

Sectional Strength

Football began in the East, where, for more than 30 years, Yale, Harvard, Princeton and Pennsylvania had most of the All-Americans and the strongest teams.

The first strong outside challenge came from Hurry-Up-Yost's fast and powerful Wolverines around 1901. But, even then the East was well in the lead, when you look back to the days of Tom Shevlin, Gordon Brown and big Jim Hogan of Yale. DeWitt of Princeton, Graydon of Harvard and many others who wore the Orange and Black or the Red and Blue. From 1901 through 1904 Michigan was the national leader.

Twenty years ago, the tide turned westward as Stanford, Southern California and California came along with such able coaches as Pop Warner, Howard Jones and Andy Smith. These were great days on the Pacific slope, where such teams as Ohio State, Pittsburgh, Army and others were badly mauhandled by western speed and power.

In the last few years, there has been another shift. The two strongest football sections in the country today are the Midwest and the South. The argument between these two sections, in the last few years, has developed more smoke than a burning oil well, with a considerable amount of flame attached.

The leader in the Midwesterns' uprising was Notre Dame, with Knute Rockne leading the charge. But Notre Dame has since been joined by Michigan, Ohio State, Illinois, Indiana, Minnesota, Wisconsin and others who have shown solid strength.

There is one debate that is full of ringing tones and vocal cataclysms How would the 10 best teams from the South finish against the Big Nine, plus Notre Dame?

For reasons of their own, these two rival football sections leave out the East, the Far West and the Southwest, in the matter of general team strength.

South Caught Up Fast

After a slow start, the South first derived its upward move from such roaches as Dan McGugin, Wallace Wade, Bernie Bierman, Frank Thomas, Jack Heisman and Bill Alexander. Later Bob Neyland came along to add new coaching strength; also Carl Snavely and a few others.

Once under way, the South moved in a hurry to take its place around the front row, long after the Midwest had moved up.

What chance would the 10 best teams from Dixie have against the Big Nine and Notre Dame? Notre Dame would give the Midwest a rousing breakaway from the barrier.

But the South has a stout argument to offer. Her 10 selections would come from Georgia, North Carolina, L.S.U., Alabama, Duke, Kentucky, Tulane, Vanderbilt, Tennessee, Auburn, Mississippi and Mississippi State, North Carolina State, Virginia and one or two others.

OSU Mails Programs To New Students For Orientation Week

Columbus, O., — Programs now have been mailed to more than 2,300 new students who will take part in Ohio State University's Orientation Week Sept. 24 to 29, William S. Guthrie, Orientation Week director, announced today.

The remainder of the 5,000 new students expected to participate in the week's activities preliminary to the opening of autumn quarter classes Sept. 30 will be mailed programs at the rate of 500 per day, Mr. Guthrie said.

Instructions also have been transmitted to 172 OSU faculty leaders who will assist during Orientation Week. They will be directed by Everett Walters, assistant Orientation Week chairman. A faculty leader will head each of the 172 sections into which the 5,000 new enrollees will be divided.

Mr. Guthrie said that students intending to enter Ohio State this fall should not plan to continue working at summer jobs until the actual opening of classes Sept. 30.

"It should be pointed out that students enrolling for the first time at Ohio State are required to attend Orientation Week," Mr. Guthrie said, "and that unexcused absences from the week's activities are treated in the same manner as absencies from regular classes."

The campus Orientation Week Office opened Sept. 2 in Room 1, University Hall, and Archer E. Reilly, Jr., assisted by Mrs. Lois Robinson, are on duty daily to help new students with the scheduling of their activities for the week.

"Did you have any luck in your bout with the champion?"

"I sure did. They called it off."

Economic Highlights

An article in Foreign Affairs entitled "The Sources of Soviet Conduct," and signed only with the initial "X", has aroused a tremendous amount of comment. The reason for the comment is that "X" is authoritatively reported to be one of the top men in the State Department, whose official position forced him to write anonymously.

The basic attitude of the article, so far as U. S. Soviet relations are concerned, is summed up in three unequivocal sentences: "It is clear that the United States cannot expect in the foreseeable future to enjoy political intimacy with the Soviet regime. It must continue to regard the Soviet Union as a rival, not a partner, in the political arena. It must continue to expect that Soviet policies will reflect no abstract love of peace and stability, no real faith in the possibility of a permanent happy coexistence of the socialist and capitalist worlds, but rather a cautious, persistent pressure toward the disruption and weakening of all rival influence and rival power."

The pattern of events has proven that this, in all essence, is the underlying theory of the Truman Doctrine. It is obviously the motivating force behind recent statements and actions of Secretary Marshall. And, to remove it from any cloud of political partisanship, it pretty well sums up the point of view of such Republican experts on foreign policy as Senator Vandenberg and John Foster Dulles.

A good many people believe that it is a dangerous and mistaken attitude. Some of these people belong to the extreme left, pro-Soviet fringe — such as the group which are presently giving their allegiance to Henry Wallace's appease-Russia program. Others, however, are of a much more conservative turn, and fear that the policy is wrong because, long enough perpetuated, it will make war inevitable. But, regardless of who is right and who is wrong, those whose duty it is to determine this nation's policy toward Europe are convinced that U. S. goals and Soviet goals are generally irreconcilable.

It is probable that many Americans do not yet realize the extent to which U. S.-Soviet relations have deteriorated. The brave hopes of world unity which were held during and immediately after the war are still fresh in mind. We can still remember the photographs of the first meetings between our troops and Soviet troops in Germany, with the handshakes and the toasts and the pledges of eternal friendship.

On the practical side, only an unqualified optimist can believe that this country is making much progress in the diplomatic and political war with the Soviet Union. The Soviet policy of causing dirruption, distrust of U. S., and internal discord is producing tangible results on two continents. The Greek problem is more difficult than ever, and communist strength is undoubtedly growing. China is in complete chaos — and, as in Greece, the power and the prestige of the communists are in the ascendent. Germany is torn between the two conflicting ideologies, and the Russians — aided by the powerful communist faction in France — have prevented any real start toward German rehabilitation.

The Marshall plan for helping Europe to help herself has not failed. It may still produce tremendous dividends. But it has become apparent that even the cooperating nations are far from agreement. This has produced strong repercussions in the United States. Congress will view future requests for money for European aid with an analytical and jaundiced eye. That doesn't mean that Congress it turning isolationist. But it does mean that it will be exceedingly reluctant to turn a flood of dollars loose unless it is certain that they will really be used to help put Europe on her feet and to once again make her self-sustaining.

Another unpleasant fact that must be recorded is that the world is on what amounts to a war footing. It is evident that the possibility of war underlies both American and Soviet foreign policy. Unsettling reports of the magnitude of Russia's military preparations have been drifting in. Enormous factories have been built beyond the Urals, it is said, to produce war materials of all kinds — including long-range bombers. Vast armies of workers have been pressed into service, and some think that Russia is now using slave labor to an extent unequalled even by Nazi Germany. Every resource is being given to atomic research.

This doesn't make a pretty picture, but those who should know best say it is a true one. Perhaps the best hope for peace lies in the current fear of war, to all the thought being given to trying to prevent it — and to the fact that the peoples of the world, no matter what their leaders may have in mind, are exhausted, and must have a prolonged peace if civilization is to be maintained and strengthened.

South High News

The South High Student Council last week secured a plaque that was placed on the school's Mahaffey stadium in memory of the late Mr. Evan L. Mahaffey, principal at South from 1920 to 1931.

Work on the stadium began May 18, 1936. It has 16 tiers of steps and wooden seats are anchored onto the steps. Miss Alva Edwards, then a member of the stadium committee and later principal, broke the ground for the foundation of the new stadium. This was built at a cost of $17,417, the school and community pledging $1,928 or 11% of the cost. It has a seating capacity of 2,080.

With the dedication of the Mahaffey Stadium came the fulfillment of the long cherished dream of Mr. Mahaffey and Miss Edwards. It is a monument of their industry, achievements and as a reminder to the school of their spirit and willingness to give to South High.

It was by unanimous consent of the alumni, faculty and students that the stadium be named for Mr. Mahaffey.

* * *

A plaque also has been purchased in memory of the late Mr. Harold E. Dunlap, chemistry teacher at South High School for 25 years. Money for the memorial was collected soon after his death on March 6, 1942, but a plaque was unattainable during the war. It has been placed on the wall outside of room 104, which was Mr. Dunlap's registration room.

Mr. Dunlap came to South in 1919. From that year until 1932 he was coach of the football, basketball and baseball teams. He was the teacher of Chemistry, receiving his Bachelor of Science degree at Denison University. During his teaching career at South he was chairman of the Science department and official with the Ohio Conference.

To the students and faculty that knew Mr. Dunlap his name shall live forever in their memory.

Mary Ann Falls Is Lovely Bride

First Community Church was softly lighted by eight seven-branch candelabra for the wedding Saturday, September 20, at four thirty o'clock of Miss Mary Ann Falls and Richard Frank Schnoor.

Palms and ferns formed a background for the bouquets of gladioli which also decorated the church.

The double ring ceremony was performed by the Rev. Roy A. Burkhart.

The bride is a daughter of Mrs. Alexander Sydney Falls of Chicago, Illinois, and the bridegroom is a son of Leonard M. Schnoor, 1099 Lockbourne Avenue.

A bridal gown of ivory skinner satin styled with a high round neckline and sheer yoke outlined with a wide bertha of imported Irish lace was worn by the bride, who was given in marriage by her uncle, Donald Durfey, of Chicago. The gown featured a basque bodice and full bouffant skirt which terminated in a circular train. Her fingertip veil of pure silk French illusion was caught to a small sweetheart bonnet of ivory satin, and her bouquet was of mellowed gardenias and stephanotis against a background of illusion. She wore a fleur de lis necklace of pearls and diamonds and the Alpha Phi wedding bracelet.

The bride's attendants were dressed in gowns of velveteen styled alike with square necklines, draped shoulders, long torso bodices and full skirts with pannier drapes. They wore matching gauntlets. Maid of honor, Miss Nancy Schnoor, sister of the bridegroom, wore American Beauty, while Miss Nancy Richter of Chicago and Miss Doris Crult wore Copenhagen blue, and Miss Bette Matt of Chicago and Miss Pat Viashamp of Dayton wore emerald green.

The bridesmaids' bouquets were of American Beauty gladioli and the maid of honor's was of yellow-throated ivory gladioli. All wore crescents of matching gardenias in their hair.

Robert T. Schnoor served as his brother's best man, and ushers were Bailey D. Adair, David L. Auld, Charles L. Dittoe and James B. Wiltberger.

The reception followed at the Alpha Phi house, Mrs. Falls receiving her guests in a softly draped gown of green crepe complemented by black accessories and an orchid corsage.

The bride is a graduate of Ohio State University, where she was president of Alpha Phi Sorority. She is now associated with F. & R. Lazarus and Company.

Mr. Schnoor is a graduate of Upper Arlington High School and attended the University of Rochester. He is as associate of Jones Witter and Company.

CHAMPION THEATER SUNDAY, MONDAY

ROMANCE OF ROSY RIDGE
Starring Van Johnson, and Janet Leigh

The Champion Theater is bringing you ROMANCE OF ROSY RIDGE, for its main attraction next Sunday and Monday. Starring Van Johnson, in an entirely new role, and introducing a newcomer, Janet Leigh the films cast is augmented by such splendid actors as Thomas Mitchell Guy Kibbee and young Dean Stockwell. ROMANCE OF ROSY RIDGE is a Civil War story and one whose message will endear itself to families everywhere. The bitterness and hatred between the north and south, following the war is brought out, and the picture tells how common sense and good will triumphed over it. Folk dancing, a duel and a fist fight all add their two cents' worth to the film, and it should be interesting to everyone. Van Johnson, as a former school teacher, comes to a farm in the South and helps take the place of their son who had died in the war. It's a pleasure to see Johnson in something like this and shows that he has a talent for dramatic roles as well as the light ones. Companion attraction is MR. DISTRICT ATTORNEY, starring Dennis O'Keefe and Margaret Chapman, a superior melodrama, following in the current vogue for beautiful heroines with a bent for homicide. The picture has all the breath-taking and mysterious in it that one could desire and ends to the satisfaction of all.

Ideal Theater

The Ideal presents Sunday and Monday "The Gun Fighters" with Randolph Scott and Barbara Britton. A western in technicolor on which Scott a famous gunfighter lays aside his guns to take up a more peaceful life riding the range with his old partner Bob Tyrel. Champion Theater, Friday and Saturday

SONG OF SCHEHERAZADE
Starring Brian Donlevy and Yvonne De Carlo

Next Friday and Saturday the Champion Theatre brings you SONG OF SCHEHERAZADE as its main feature. Starring Brian Donlevy and Yvonne De Carlo, there is an excellent supporting cast, including Jean Pierre Aumont, Eve Arden, Phillip Reed and Charles Kullman. SONG OF SCHEHERAZADE is a fictionized biography of the Russian composer, Rimsky-Korsakoff, splendidly played, but never belaboured in the manner commonly accorded to the classics. The story opens with the arrival of a Russian cruiser in a Spanish port in 1865. The crew, sternly captained by Donlevy, includes Aumont as Rimsky-Korsakoff. Miss De Carlo portrays a singer in a cafe, and during the week's stay of the ship in port, many things happen, none of them humdrum, and including a love story winding up satisfactorily. Charles Kullman, well-known in operatic circles is a voice which you will long remember, and which it is a pleasure to have an opportunity to hear. It is a story suitable for all the members of all the families, in all cities. Second feature will be KING OF WILD HORSES, starring Preston Foster and Gail Patrick. This is a heart-warming story of a boy (played by Bill Sheffield) and a horse, and the outdoor scenes and shots of the wild horses are exceptionally well-done. Its worth seeing.

RUSSELL THEATRE

The Russell presents Sunday and Monday "Miracle on 34th Street" with John Payne and Maureen O'Hara. A comedy with sentimental angles. A Merry mixup of the realistic and miraculous. Santa Claus turns cupid to bring two grownups together. Rivals become partners under the kindly influence of the White bearded old Man. Kris Kringle brought to trial because he dared to bring happiness to others; also "Bells of San Angelo" in technicolor with Roy Rogers and Dale Evans. "News and Cartoon"

New Radio Adventure Show Begins Sept. 28

"Christopher Wells", a brand new radio adventure show sponsored by the more than 3,000 De Soto-Plymouth dealers from coast to coast, will be heard for the first time next Sunday, September 28, at 10 p. m. over Station WBNS.

Clevenger and Redifer, local De Soto-Plymouth dealers, described the show as a fast moving adventure show built around the character of "Christopher Wells", an enterprising newspaper columnist.

"The program is being carried over the 160 stations of the Columbia Broadcasting System starting Sunday, September 28," Harry Yates, business manager said. "You can be sure that we De Soto-Plymouth dealers have been anticipating the birth of this new radio show. It's our show, designed to acquaint radio listeners with the facilities we have to give them prompt, expert, and friendly service. We think that it's the kind of a program that the whole family will like and I'm proud to be one of its sponsors.

"The show is being produced by Edward A. Bryon, the man responsible for the outstanding popularity of 'Mr. District Attorney'," Mr. Yates said.

ROSALIND RUSSELL,
Star of "The Guilt of Janet Ames"

Two Screen Hits Booked For Southland

Barbara Stanwyck and Humphrey Bogart co-star in Warner Brothers' psychological melodrama "The Two Mrs. Carrolls," feature attraction at the Southland Theatre on Friday and Saturday, Sept. 26 and 27.

Based on the stage play by Martin Vale, the film was produced by Mark Hellinger and tells of a neurotic artist (Bogart) who poisons his first wife and attempts to do the same to his second wife (Stanwyck). Filled with suspense, the picture's excellent cast includes Alexis Smith, Nigel Bruce, Pat O'Moore and Barry Bernard. Co-feature with "The Two Mrs. Carrolls" is "Santa Fe Uprising," a rootin' tootin' Western drama starring cowboy Bob Steele.

Sunday and Monday, "Thief of Bagdad," Technicolor extravaganza starring Sabu and Conrad Veidt, will share a double program with "Black Angel," mystery thriller with Dan Duryea and June Vincent in the starring roles.

"The Guilt of Janet Ames," a psychological drama that's decidedly different, will be the Southland's feature film on Wednesday and Thursday. Rosalind Russell and Melvyn Douglas appear together again in the story—Miss Russell as an embittered widow whose husband had sacrificed his life on the battlefield to save five of his buddies, Douglas as a broken-down journalist, addicted to drink, who was one of the five men saved.

How these two meet and gradually find love has resulted in one of the top dramas of the year. Charming Nina Foch, and comedian Sid Caesar appear in the capable supporting cast.

"Magnificent Obsession," dramatic hit of yesteryear starring Robert Taylor and Irene Dunne, is the second feature.

Coronation Dance To Be Semi-Formal

The Adult Catholic Youth Organization of St. Leo's parish will sponsor a semi-formal dance called "Coronation Cotillion" for all the parish C.Y.O.'s of the city, its suburbs, their parents, friends and for whomever wishes to attend. The dance will be held at the Neil House in the main ballroom, Friday, October 17, from 10 P. M. 'til 1 A. M. Dance music will be furnished by Ray Mund and his orchestra. The price of admission is $2.50 per couple.

The main event of the evening will be the choosing of a contestant for queen who will reign at the dance as "Miss C.Y.O. of Columbus." The girls are representatives of their respective parish C.Y.O.'s and one will be selected to reign by a board of impartial judges consisting of Fern Sharp, well known woman commentator and stylist; Robert Anderson, manager of the Columbus branch of Arthur Murray Dance Studio and Robert Corley, sports announcer for CBS studio. His honor, Mayor James Rhodes will be an honorary judge and will place the crown on the queen's head. A cash prize of $50 will be awarded the lucky girl.

General chairman of the dance is Helen Murphy; Ticket Chairman, Helen Leitwein; Patron Chairman, Rita Herderick; Publicity, Pat Groom, William Eisele and Don Hennes. Other members of the patron's committee are: Ernestine Schneider, Don Sauer, Bill Theado, Bert Deroux, Betty Kulp, Norb Cowan and Dolores Herderick.

Meet The South Side Clergy

Rev. Sebastian

Father Smith Holy Hour Speaker

Rev. Ignatius Smith

This week we are introducing to you a minister, small in stature who is doing a big job.

The Reverend Arthur Adam Sebastian is just the type of man. Born at Cincinnati, Ohio, he was educated in the Cincinnati public schools.

Reverend Sebastian received his high school and University diplomas from the Transylvania University at Lexington, Ky.

Reverend Sebastian's first pastorate was at the Central Fairmont Christian Church at Cincinnati, Ohio, and he seems to have been well liked in the churches he has served, as he remained at each one for quite a period of time.

During his service in the church he has served four years at the Forest Avenue Church of Christ, Buffalo, N. Y. Nine years at First Church of Christ, Urichsville, Ohio and fifteen years here on the South Side at the South Church of Christ at Woodrow and Bruck Streets.

Reverend Sebastian lives with his wife at 212 Woodrow Avenue. The Sebastians have two children: A. M. Sebastian, a member of the law firm of Benoy and Sebastian and a daughter, Mrs. Ned Draudt, who teaches at the Reeb Avenue Elementary School.

Reverend Sebastian is the type of minister who is never too busy to listen to someone in trouble. He is affable, likes a good joke, and is both devout and sincere. He is inspired as to his ministry and gives much of his time to his congregation and people of the community.

Very Reverend Ignatius Smith, O.P., dean of the School of Philosophy of the Catholic University of America, will be the principal speaker at the Holy Hour to be presented at Red Bird Stadium, October 26. Father Smith's acceptance of the invitation to speak here was announced today by Rt. Rev. Monsignor Robert F. Coburn, Director of the Diocesan Holy Name Union.

The sponsoring organization comprises all of the Holy Name Societies in parishes throughout the Diocese of Columbus. T. Vincent Martin is general chairman of the ceremony.

Rev. Fr. Smith is a native of Newark, N. J. He has been a speaker on 'The Catholic Hour," a feature of the National Broadcasting Company, and on Catholic programs on stations in the District of Columbia. He has also frequently appeared at Holy Name meetings in many parts of the country.

He received his early education in Newark, attended Seton Hall College and was ordained to the priesthood from the Dominican House of Studies in Washington. He has served as National Director of the Holy Name Society and of the Third Order of St. Dominic. He has also edited the Holy Name Journal and The Torch. From 1922 to 1928 he was Prior of the Dominican House of Studies in Washington. He also has been professor of philosophy and sociology at the Dominican College.

Catholic clergy and laity from all over the Diocese of Columbus will participate in the program being panned for October 26, when the Catholic Church celebrates the Feast of Christ the King. Parochial school pupils are participating in a poster contest announced by the Holy Name Society last week. Prizes will be awarded to young sters of elementary and high school grades who submit the best posters publicizing the event.

Other details of the program will be announced in the near future.

News In The World Of Religion

By W. W. Reid

Responding to the need for new church structures and the continuing shortage of materials, the Protestant Episcopal Diocese of New Jersey is experimenting with a prefabricated church edifice to be erected at Pleasantville, New Jersey, and if this is satisfactory may build twenty four others. The church will have a seating capacity of about 200 persons, will have a structural steel frame, and walls of fireproof composition board. It is estimated that the cost will be $6,000 per building.

The University Christian Mission through which the Federal Council of the Churces of Christ and the Student Christian Council send groups of Christian leaders to hold missions on college campuses, has a new director in the person of the Rev. James Lloyd Stoner, of Bowling Green, Ohio. At the age of 27 years, he is the youngest man to fill this post in the organization's history. In the c... school period, he expects to have religious emphasis programs at perhaps 100 universities and colleges.

At the recent celebration of Jewish New Year 5708, the Synagogue Council of America addressed Jews and Christians and people of other faiths the world over this "message of things which should not be forgotten": "Let none forget the price paid in millions of lives, in treasure, and in suffering by the Jews of Europe whose survivors languish in displacement camps. Once the world remembers the sacrifice and heroism they represent, they may become, as they should, the objects of concern and not of indifference. Let us be watchful of new alliances being forged which do not augur well for the peace of the world, because too many have forgotten too soon that the last war was brought on by doctrines of hatred and strategies of horror of erstwhile enemies who now seek to be our new found friends. Let us remember that it is imperative that the free peoples of the world, and of this land of destiny above all, do not revitalize the ideologies or the nations that brought the last war and its misery upon our civilization. Let us not forget that the same human ingenuity and genius of man which can discover and devise atomic bombs can be employed to find and to frame techniques of national and international action which will foster a genuine and lasting peace."

OAKWOOD WOMEN TO MEET

The Womens Society of Christian Service of Oakwood Methodist Church will meet in the Church parlor, Wednesday, [illegible] 1, at 10 a. m.

[illegible] will preside [illegible] on the United Nations [illegible] conducted by Mrs. J. A. Jacks, Mrs. D. F. Davis and Mrs. Charles Phipps.

At the afternoon session Mrs. P. Crato will have charge of the [illegible].

Mrs. H. Snyder will speak on prayers of the Bible. Mrs. H. Dunham will use "True Christian Message and the Waiting World" for her topic.

Welcome and Shower For New Sisters

A most hearty welcome and a shower of [illegible] awaited the new Nuns at the regular monthly meeting of the Rosary Altar Society of St. Ladislaus Church, 227 Reeb Avenue, which was held August 27 in the school hall.

The new Nuns are as follows: Sister David, principal; Sister Rose, Sister Rosmarie and Sister Ruth Michael. These sisters of Charity of Nazareth replace the Ursuline Nuns who were here for the past 21 years, and we know that these Nuns will be missed very much and we hope that the Sisters of Charity can fill their place.

The [illegible] Nuns, whose Mother house is at Caldwell, Ohio, in the diocese of Steubenville, were assigned to various schools in the diocese.

A pot-luck was held at our meeting, September 24, with Mrs. William Ellis and Mrs. Charles Finke acting as hostesses.

Lake-Schweiger Nuptials Solemnized In Double Ring Ceremony On August 23rd

On the evening of Saturday, Aug. 23, at 6:30 o'clock, before an altar banked with white gladioli and candelabras, Miss Vivian Schweiger became the bride of Mr. William A. Lake in the rectory of Corpus Christi Church. The Rev. Father Kessler read the double ring ceremony.

The bride is the daughter of Mrs. Helen Schweiger of 820 Deshler Ave., and Mr. George Schweiger of Columbus, O., and the bridegroom is the son of Mr. and Mrs. Grove C. Lake of 1232 S. Champion Ave.

The bride wore a white marquisette gown featuring a satin bodice with a scroll work design, long tight sleeves ending in points over the wrists and tiny satin covered buttons down the back with a cathedral train. Her fingertip veil fell from a crown of Valencia lace and orange blossoms. She carried a white satin-covered prayer book with streamers of white satin and sweet peas topped with a purple throated orchid. Her only jewelry was rhinestone earrings, a gift of the bridegroom.

Miss Ruth Schweiger, a sister of the bride, was the maid of honor. Her gown was of mint green marquisette styled with an off-the-shoulder effect, a pleated bertha, puff sleeves and a large bustle. She carried a colonial bouquet of yellow shattered carnations outlined in maline. The bride's other sister, Miss Thelma Jean Schweiger, acted as bridesmaid. Her gown was of yellow net featuring a short jacket with puff sleeves. She carried a colonial bouquet of green shattered carnations outlined in contrasting shade of maline. Both attendants wore head bands of rose buds matching their gowns. The best man was Mr. Harold Reeb and the ushers were Mr. Edward Fisher and Mr. Melvin Lutz.

The bride's mother wore a gown of blue crepe with a comsage of Talisman roses, while the bridegroom's mother wore a gown of gray crepe and she wore a corsage of American Beauty roses. A reception for 200 guests was held at the home of the bridegroom. Miss Florence Detello, Mrs. Harold Reeb and Mrs. Helen Moffitt acted as hostesses.

Before leaving for a wedding trip through Canada the bride changed to a three-piece gray and white pin stripe suit with lizard accessories of a deep cranberry shade. Her hat was of a soft gray felt. The couple resides in Henderson, Ky.

As death has come into the Longnecker home at 320 Reeb Avenue for the second time within this month, we extend our sympathy to Patricia, Robert, and their parents. We regret the hazardous circumstances that confront so many of our parents as they bring up their families. We can do little to relieve the congested living conditions but we can all be on the alert to prevent accidents.

Reeb Avenue School held its official Safety Patrol installation last Monday morning. We certainly appreciate the fine work of our boys in protecting over 500 children as they move back and forth between home and school. The boys now serving are: Andy Barkie, Joe Barkie, William Bowman, Barney Close, Carol Fellure, Melvin Hawa, Daniel Henry, Carlos Honaker, Richard Kerns, Lyman Lindesey, Ernest Martin, Jack Rinehart, William Shinn, and John Vargo. Miss Grace Hanna supervises the work of the patrol. They have their regluar inspections in order to keep our service at the highest possible level.

We solicit your comments regarding the work of these boys as you see them functioning. If they act improperly while on duty, please do not hesitate to report to GA 1326 giving us definite information. Should you have a word of commendation, we would like to hear from you so that we may pass your compliments on to the proper ones.

Holy Name Pageant Director Named

Dr. Joseph A. Cousins has been named director of the pageant which will be the feature attraction of the October Hour sponsored by the Diocesan Holy Name Union in Red Bird Stadium October 26. This was announced today by Monsignor Robert F. Coburn, Diocesan Holy Name director, who pointed out that the seven-part program will honor "Christ the King," and His Blessed Mother.

Floats, a procession of the clergy, members of Catholic organizations in the Diocese, bands, school children and a "living rosary" to be formed by nearly 700 Catholic school students will provide the spectacle to be climaxed by the celebration of Solemn Benediction.

Charles E. Leach is president of the Diocesan Holy Name Union and T. Vincent Martin is general chairman of the committee sponsoring the October Hour. Rev. Fr. Ignatius Smith, Dean of the School of Philosophy of the Catholic University of America, will deliver the principal address during the ceremony.

According to Dr. Cousins, the principal episodes of the event will include: The Gathering of the Servants of the King and His Blessed Mother; The Glory of the Coming of the Lord; Fealty to the King and His Blessed Mother; The Joys of the King's Mother; The Coming of the Eucharistic King; The Benediction of the King, and The Departure.

Running through these seven episodes will be two principal themes revolving around the festival of Christ the King celebrated by the Church on October 26 and the Rosary, symbol of devotion for the month of October.

"A FRIENDLY WARNING"
About that old prescription Dr. Jones wrote for you two years ago. The bottle is on the shelf in your medicine cabinet, about one-fourth full. It would be safer for you and your family to discard it. Someone might take it by mistake, or a child may be attracted to it by the bright color and do himself harm. Many medicines deteriorate after exposure to light and air. On long standing, some compounds change their chemical structure. Yes, the safe thing to do is to throw it away. If illness again overtakes you, see your doctor. Bring his prescriptions to us for accurate compounding.

Conservation Has Film For Public Showing

The Public Relations Section of the Ohio Division of Conservation this week announced the completion of a sound and color motion picture entitled "Land of Ohio" [illegible] October 1 [illegible] Ohio Show" was produced by Karl Maslowski of Cincinnati, naturalist-lecturer-[illegible] with narration written by Emil Velasco of New York City.

One of the most interesting sequences in the film shows beaver at work building a dam. It depicts the work of the animals from the time a dam is started until it is finished—how the beaver carries the stones, sticks and mud—how it cuts down trees and the engineering skill of the animal.

Maslowski has caught all of the beauty of nature in the butterfly sequence of the picture, showing the transition from the larvae to the cocoon to a beautiful monarch butterfly pausing momentarily on a goldenrod before taking off on its maiden voyage under Ohio skies.

Other members of the wildlife family of Ohio in the picture include game birds, song birds, field mice, fox, moles, grasshoppers, rabbits, [illegible] and many others that will delight the heart of every outdoorsman.

Meet An Outstanding South Side Citizen

Wm. Hoermle

This week we wish to introduce to you one of the South Side's outstanding business men, William P. (Bill) Hoermle.

Hoermle was born here in the South Side and has spent his life in this community.

He attended St. Mary's School and graduated from the old Commercial High School, which is now Central High School.

Hoermle, twenty-two years ago, opened the Hoermle Electric Appliance Store at 1894 Parsons Avenue, and he says he started with a prayer and enough money to make change with. Today, Bill has one of the largest businesses of his kind in the community.

Hoermle is deeply civic minded, and is a member, and has filled some kind of office in the Southeast Lions Club, The Steelton Merchants Association, The South Side Civic and Industrial Association. He is at present chairman of the Advisory Board of St. Stephen's Community House. He is also a member of the Governing Board of the Southeast division of the Boy Scouts, and President of the Columbus Retail Electrical Dealers Association.

Showing further his Civic mindedness, Hoermle is now a candidate for the Columbus City Council.

Hoermle is also interested in Fraternal affairs and is a member of the Knights of Columbus, Eagles, Moose and the Foresters.

Bill Hoermle lives with his wife and two sons at 1433 Linwood Avenue. His sons are William F. Jr., who is associated with his father in business and John Robert, who is seven years old.

REEB CALENDAR

On Sept. 26th the 4B's in Mrs. Blackburn's Room will have charge of the Auditorium Program. There will be songs, Bible verses, and piano solos. Roger Hackett will announce the program.

—R—

We have four new pupils with us this year. They are John Wemmer, Betty King, Mary Ann Wright, and Stanley McWilliams. Stanley comes to school on the Lockbourne Bus.

We are learning to do choral reading and have been learning the verse Vespers.

Our Bible verse for the week is "Thou, God, seest me."

Mrs. Slee's Room

—R—

The Annual Garden Exhibit was held last Thursday and Friday at Reeb Avenue School. Twenty-six pupils participated by bringing flowers and vegetables. We were very interested in the Night Blooming Cerus brought by Payton Black.

—R—

The 6A's and B's will conduct the first auditorium program on Friday morning, Sept. 19th. They will stress the need for cleanliness in a little play entitled, "The Court Is Now In Session."

Daniel Henry will take the part of the little sick boy, Donna McColley will be the mother, Melvin Haws, the judge, Donald Ward, the milkman, Charles Santee, the grocer, Anne Cooke, the foreman of the jury, Barney Close, the prosecuting attorney, William Bowman, the defense attorney, and Ernest Martin, court stenographer. The remainder of the class make up the jury.

Our friends and relatives are invited to be with us for the program.

—R—

Mrs. Draudt's children send their sympathy to Robert Longnecker, one of their classmates. His sister, Sharon, died Tuesday.

207 has started a spelling contest. We will report the winners next month.

—R—

Reeb Avenue School is announcing the need for clean rags that might be used by our special room boys for weaving rugs. We can use any quantity of clean rags and will be glad to send after them if you will call the school office, GA 1326. Of course, you can easily see the reason for emphasizing that the rags be clean for health standards must be maintained.

—R—

Many purchases, such as a set of Brittanica Junior, a set of World Book Encyclopedia, two radios and several magazines, have been made from our school treasury. This means that our balance must be added to in order that other needs may be taken care of. In order to do this, we will have our first POP CORN sale starting this next Friday afternoon, at the close of school. All Reeb pupils may have sales slips upon which we would like to have you write your orders. Deliveries will be made next Tuesday, Wednesday, and Thursday, Sept. 23rd, 24th, and 25th.

—R—

Reeb's teaching and building maintenance staff includes the following for the beginning of this school term: Mrs. Irma Dill, 1C-1B; Mrs. Evelyn Tidd, 1C-1B; Mrs. Eleanor Beyer, 1B-1A; Miss Adaline Bradford, 1A-2C; Mrs. Nellie Shannon, 2B; Miss Octa Power, 2A; Mrs. Marjorie Draudt, 3B; Mrs. Marjorie Slee, 3B-3A; Mrs. Frances Blackburn, 4B; Miss Mary May, 4B-4A; Miss Marie Oelgoetz, 4A-5B; Mrs. Suzanne Betson, 5B-5A; Miss Grace Hanna, 5A-6B; Mrs. Faye Dellenbaugh, 6B-6A; Mrs. Helen Jones, Special; Miss Mary Malin, Nurse; Miss Agnes Curtis, Speach; Mr. Charles Kauffeld, Head Janitor; Mr. Albert Tanner, Janitor; and Mr. C. O. Callahan, Principal.

The following pupils presented garden exhibits at our annual display, which was held at Reeb: Ruby Sutherland, Marjorie Hunyady, Darlene Carl, Rose Conrad, Sue Chapman, Jack Sutherland, Kay Francis, Roland Cunningham, Wayne Cunningham, Lois Erwin, Mary Conrad, Shirley Moore, Charles Bolin, Stephen Sziarto, Peyton Black, Margaret Sziarto, Bertha Price, Paula Martin, Harold Blann, Jean Davis, Patty Bruses, Elona Sabo, Starlene Geis, Irene Bajus, Helen Bajus, James Sabo, Jesse Sutherland. Many canned vegetables were displayed along with the raw exhibits. Flowers were also shown in separate groups, mixed bouquets and miniatures.

We certainly appreciate the interest shown by our young gardeners and hope that many more of our pupils will be able to participate next year. This is one part of parental planning that we would like to recommend for much can be accomplished thru such labor during the summer vacation.

THE PENN—The solid burghers of many of our early American towns chose brick for their homes because of its strength and durability. Thousands of these early homes are today still worthily fulfilling their function, permanent testimony to the shrewdness of their builders.

The Penn pictured here, is a fine example in perfect architectural taste of the brick bungalow of the twentieth century. Though its appearance is that of a small house ample space is provided in the plan to include a good sized living room, two bed rooms with good cross ventilation a bath room and a kitchen large enough to incorporate a dining nook.

Sturdy dependability is not the only quality of brick. In addition to this desirable characteristic, it combines beauty and charm in its varied mellow colors, delightful textures and simple ornamental design effects. The penn, like all the brick houses of our series carries the seal of approval of the forms to the standards and construction requirements of the Federal Housing Administration, and its wiring and electrical installation complies with the efficiency and safety standards of the National Adequate Wiring Bureau.

Complete detailed working drawings and specifications from which this house may be built may be had for $7.50 per set from Housing Plan Service—140 Nassau Street New York 7, N. Y.

SPORTS

By Walt Tompkins

Sportlight by Grantland Rice

SOMETHING like 20 years ago, or close to that spot on the calendar, Chick Meehan and N.Y.U. came up with one of the greatest football players the game has ever known.

Slightly over 6 feet, weighing 205 pounds, he was a brilliant ball carrier, a smashing blocker, a fine forward passer and above all one of the best pickers that ever applied shoe leather to a pigskin. His name happens to be Ken Strong. Barring possibly Jim Thorpe, Ken could do more things well than any back I ever saw in action.

S. Chandler

When Ken Strong practically wrecked a fine Carnegie Tech team, a team that already had crushed Notre Dame, Judge Wallie Steffens, Carnegie's coach said to me that night:

"At last I've seen a back greater than Willie Heston. Strong is the only back I ever saw who could run over one of my best teams, pass, kick, block and tackle. I've never seen his equal."

It was about that time that Coach Gwinn Henry of Missouri wired me—"I've got your All-America this year. Don't bother any more. Just Ken Strong. Forget the others."

Recently I ran into Ken Strong (Sid) Ken is now around 40. What a guy, Ken! Well, one of his jobs is playing for the New York Giants. Ken isn't running, blocking or passing any more.

"But I've still got the toughest job in football," he said.

'Like Kicking an Egg'

"I'm kicking." Ken explained. Did you ever try to punt, place kick or drop kick this oval-shaped ball they have today? It's a ball shaped entirely for the passing game, thin and long. Compared to the ball we used to kick 20 years ago, it is like kicking an egg.

"The old football was much rounder. It was easy to get your toe into it. It was easier to punt or to drop kick or place kick. It was far easier to kick off—to drive one beyond the goal line. But today you have a target to hit that is about the size of a silver dollar—and I'm having a tough time betting a kicking shoe that has the proper kicking space. You need a square-toed shoe that can drive into the limited space the modern football has to offer the kicker.

"No wonder so many college teams have so much trouble getting anyone who can kick off or place kick. And no wonder there are so few fine punters left, either in the college or the pro game. Naturally the pros with their greater experience, have more good punters. But I can promise you it's a tough job. But I still hope to get a few over the crossbar—or over the goal line on a kickoff. It's a good thing for me that I have all these kicking years to call on."

Ball Made to Throw

Ken Strong is quite close to being 100 per cent right about the modern football. It was arranged for the passer. It has long, thin—easy enough to throw—but harder to kick than a hot dog or a pretzel.

I've asked at least 20 leading college coaches why they used so many varieties of action on the kickoff—such as placing the ball sideways.

"We have no one who can kick off," is the usual answer.

I've asked them why they had no first-class punters, "There's no one who can kick this ball," they tell you.

Then we began looking back to the old days of football—with its great kickers—George Brooke of Pennsylvania, Sweeley of Michigan, Herschberger of Chicago, Brink Thorne and Bull of Yale and one of the greatest—Kercheval of Kentucky. "He was the best of all," Shipwreck Kelly tells me, "60 or 70 yards on a dime." Not bad kicking.

The old game was packed with fine kickers, and one of these was Spud Chandler of Georgia, long with the N. Y. Yankees as a brilliant pitcher.

Among the half-modern group I'd name Frank Reagan of Pennsylvania, now with the Giants, and Harry Kipke of Michigan.

Hurry-up Yost was a great believer in the kicking game, both as a form of attack and defense. It was here his slogan came along—"A punt, a pass and a prayer."

Baugh Can Kick, Too

One of the best modern kickers is a lean, thin, somewhat aging Texan known as Sammy Baugh, formerly of T.C.U. and now with the Redskins. Sammy has always been a great passer. He has been just as much a kicker. He is one of the best.

Ward Cuff of Marquette, the Cards and the Packers is still a one-man marksman with the right toe. The best all-around kicker I ever saw was Jim Thorpe, who could punt, place kick and drop kick.

65 Musicians In South Band

South High School's Marching Band has 65 musicians, four color guards, five majorettes and one Drum Major. The band played at the Marion game and will participate in coming games.

Last year's set in Concerts, costing $1,250.00 were purchased for the band, through the sales by camp collectors. Instruments bought were Cello, Baritone Sax, Alto and Base Clarinet, Flute, and French Horn. Still needed are Oboe, Bassoon, String Bass and French Horn.

If any South Side resident has any musical instrument not being used that he would care to donate to the South High Band, it would be greatly appreciated. A band member will call for them.

South High Home Coming Game

The South High School's homecoming game will be October 10, when the Bulldogs play Linden-McKinley.

Arrangements for the dance are being planned by the War Memorial Committee of the South High Alumni Association. The P. T. A. will be in charge of refreshments. Alumni are being aided by a committee from the school's Student Council, headed by Don McIndoo.

The queen, Florence Lechner, surrounded by her court, Mary Lang, Rozanne Mees, Wilda Meyer, Monna Klein, Bettyanne Thompson and Helen Scott, will be crowned at the dance after the game.

Dale Thatcher's Orchestra will furnish the music. Admission to the dance will be $.50.

Optic To Appear October 10th

The first issue of the South High Optic will come out Oct. 10, 1947.

The Optic has news of the school activities, sports reviews, humorous columns, editorials and other things of interest. There are 7 issues of the Optic, costing 50 cents a semester.

Meet An Outstanding South Side Citizen

Miles V. Hoover

This is one of a series of articles that the Booster is publishing of prominent South Side Citizens.

Probaby one of the best known and beloved men of the South Side is Miles V "Cap" Hoover, who has accomplished so much with the youngsters of our community.

Cap was born in Columbus on West Town Street, facing the F & R Lazarus Company store.

As a youth he attended Sullivant Elementary School, now the (Columbus Board of Education) and West High School, and after graduation he attended Geneva College at Geneva, Wisconsin.

For the next five years Cap worked in the business world, but was not satisfied because his heart was with helping the youth of our city.

Twenty-four years ago Cap came to the South Side in charge of the South Side YMCA which is now located at 854 South Third Street.

Thru all these years he has served the youth of our community by building their characters and making their problems his.

Often you will find Cap planning a hunting or fishing trip with some of our boys, or as Cap would say, his boys.

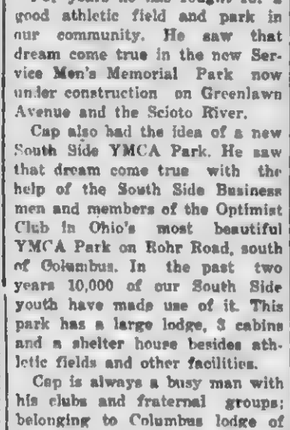
Cap was the originator of South Side Organizations, of which he is executive secretary.

For years he has fought for a good athletic field and park in our community. He saw that dream come true in the new Service Men's Memorial Park now under construction on Greenlawn Avenue and the Scioto River.

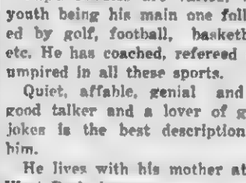
Cap also had the idea of a new South Side YMCA Park. He saw that dream come true with the help of the South Side Business men and members of the Optimist Club in Ohio's most beautiful YMCA Park on Rohr Road, south of Columbus. In the past two years 10,000 of our South Side youth have made use of it. This park has a large lodge, 3 cabins and a shelter house besides athletic fields and other facilities.

Cap is always a busy man with his clubs and fraternal groups; belonging to Columbus lodge of Masons, Scottish Rite and Shrine. He belongs to the Agonis Club, Optimist, Council of South Side Organizations and the YMCA.

In interviewing Cap he told us that he needed new quarters, and while looking over their quarters we certainly saw great need of a new South Side YMCA.



Cap is also a member of the Columbus Board of Education and also was the first Chairman of the Columbus Recreation Commission of which he is still a member.



Cap's hobbies are varied, with youth being his main one followed by golf, football, basketball, etc. He has coached, refereed and umpired in all these sports.

Quiet, affable, genial and a good talker and a lover of good jokes is the best description of him.

He lives with his mother at 83 West Park Avenue.

Editor's Note: Cap is rather modest and has very few photos taken. This is the best picture we could locate of him.

Fifty posters are ready for shipment, by way of the Jr. Red Cross to hospitals in Germany where American boys are convalescing. Barrett Jr. High pupils made these posters last spring, finishing some of them this fall.

A stained glass window design, now a permanent property for Christmas programs at Camp Sherman, Chillicothe, was a similar Jr. Red Cross project undertaken two years ago by the Barrett art pupils.

This work is entirely voluntary on the part of the pupils, but may be considered as their class work if they elect to work on these special projects according to Mrs. Margaret Baker, art teacher.

The 9A boys are taking a course in first aid along with their physical education according to Mr. Charles Koterba, Barrett's coach.

The boys are eligible for a Jr. Red Cross First Aid card when they complete the course in January.

The new 7B boys are receiving instruction in personal hygiene and health education.

Several of the boys interested in track had the opportunity of seeing a film on field and track events recently.

Mr. Koterba said that seventy five boys are out for track every Monday.

Junior Leag[illegible] To Present Follies

Columbus, Ohio, Oct. 2—Officials of Powell Speedway announced that a 100 lap Midwest Championship midget race classic has been scheduled for Sunday, Oct. 5, at the beautiful Delaware County raceway.

"We are staging this race because of the tremendous number of requests from Central Ohio racing fans", Herman H. Murphy, Speedway President said. "The first midget event in July received enthusiastic praise from race fans who saw it and there has been a consistent demand ever since for another."

The first 100 lapper at Powell was won by Clarence LaRue of Akron, state midget racing champion who won his title in that event, and Clarence has filed the first entry for the Midwest Championships of Oct. 5.

He'll drive the same speedy and durable black Syl Offenhauser with which he showed his heels to a great field, and in view of his victory here and at the 150 mile classic at Bainbridge early in September, he must be rated as the man to beat in this race.

He'll have real competition however, for Bobby Harnar, the hard driving fellow townsman of LaRue is also entered, and it was [illegible] head until the [illegible] laps in that first 100 lapper in July.

Harry Gilchrist, veteran track manager, feels that this event will draw the finest field of race pilots ever to compete at the Central Ohio track.

Meet The South Side Clergy

Rev. Paul Kenneth Haymen

This week we are continuing the articles about South Side Clergymen.

This week we wish you to meet one of the newer members of that group, the Rev. Paul Kenneth Haymen, pastor of the Parsons Avenue Church of the Nazarene, Parsons Avenue and Forest St.

Rev. Haymen was born at Letart Falls, Meigs County, Ohio and attended the Letart Falls elementary school, Racine High School, Racine, Ohio and graduated from Rio Grande College and Ohio University.

For ten years Rev. Haymen taught school in the Pomeroy elementary schools.

He was ordained following this at the Nazarene Camp Grounds north of Columbus. Following ordaination he spent six years as pastor of the Church of The Nazarene, Fayette, Ohio; two years at the church of the Nazarene, New Boston, Ohio, and three years at the Church of the Nazarene, Westerville, Ohio and two years at the First Nazarene Church, Zanesville, Ohio.

We asked Rev. Haymen about his hobbies, and he said they were gardening, hunting and fishing.

Rev. Haymen lives with his wife and two children at 996 Wilson Avenue. Mrs. Haymen is also an ordained minister and a graduate of Cleveland Bible School. She acts as co-minister with her husband.

Their son, Paul Kenneth Haymen, Jr. is on the reserve football team at South High School Their daughter Marian attends Roosevelt Jr. High School.

You will find, when you visit the Parsons Avenue Church of The Nazarene, that Rev. Haymen is a man's man, genial, a good mixer and devout in his pastorate

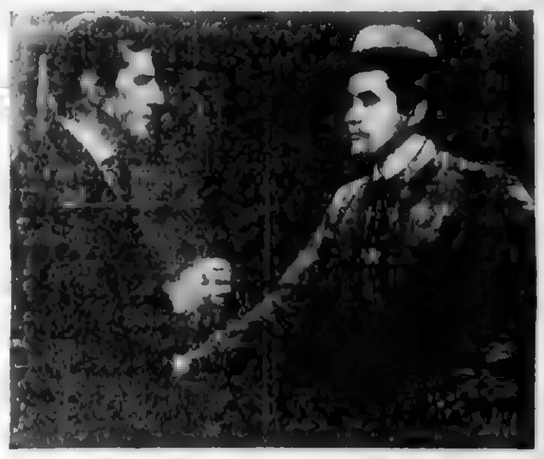
CHAMPION THEATER SUNDAY, MONDAY



"DESERT FURY"

John Hodiak and Lizabeth Scott Stars In

The main feature at the Champion Theatre next Sunday and Monday will be DESERT FURY, starring John Hodiak and Lizabeth Scott. The scene is a desert city. The time is now. The people are ruled by those who live from the proceeds of a gambling control and have lived in the past by other means. Filmed in beautiful Technicolor, this picture moves like an express train thru a crowded 95 minutes of running time and explodes in a climax which will send audiences out to tell their friends there is a picture really worth seeing. Burt Lancaster (of THE KILLERS fame) fits beautifully into the story, along with Mary Astor, owner of the gambling resort. It's strikingly unusual type of picture, combining the more violent elements of both east and west, but it makes a stronger bid for adult interests than it does for the kiddies. Second feature — SPORT OF KINGS starring Paul Campbell and Gloria Henry. This story of horseracing, deals with an old man's homestead and the rivalry of two brothers. The horse in the picture solves all complications, including the romantic one.

Champion Theater, Friday and Saturday

"CHEYENNE" Staring Dennis Morgan

The Main feature at the Champion Theatre this Friday and Saturday will be CHEYENNE. This western has for its principals, Dennis Morgan, Jane Wyman, Janis Paige and Bruce Bennett, and is something different from the run-of-the-mill westerns heretofore seen. It is longer, more elaborate and livelier than most of the rawhide operas. Miss Paige brings great gusto in her portrayal as the dancehall girl, and for those who love horses, we believe they have as many in the picture as possible, with their chases and stage coach robberies. It's an excellent western and one worth seeing. Companion attraction will be MICHIGAN KID with Jon Hall and Rita Johnson. For an outdoor adventure picture this is enjoyable entertainment for the whole family. Victor McLaglen and Andy Devine add their two cents' worth in the good of the story.

Quakers To Show German Films

Otto R. Hauser, National President of American Relief for Germany, Inc., an organization affiliated with the American Friends Service Committee (Quakers), will present a film on present day Germany at Mees Hall, Capital University on Monday, Oct. 6, at 8:15 P. M., it was announced by Mr. Erwin Rossbach, president of the local branch of the organization. Mr. Hauser, a prominent Milwaukee business man, has for two years headed the largest American organization interested in relief for German victims of the war. He spent the late winter and early spring touring Germany under the auspices of the American Military Government, inspecting the living conditions and the distribution of the relief supplies sent by voluntary American relief agencies. The pictures were taken under Mr. Hauser's direction by professional photographers. They depict the ruins of the German cities, living conditions of the population, and interesting aspects of relief work.

Last June the film had its premier in the National Archives Building in Washington, D. C., before an audience composed of Senators and Representatives, and members of the Executive and Judicial Branches of the Federal Government. The film was highly praised on the floor of the House of Representatives. Several Government Departments have asked permission to circulate it. There will be no admission charge. There will, however, be a free will offering, the net proceeds of which will be contributed to relief in Germany and Austria under the auspices of the American Friends Service Committee.

Alfred Hitchcock's "Shadow Of A Doubt" Returns To Southland

Radio's inimitable Senator Claghorn of the popular Fred Allen program makes his screen debut in "It's a Joke, Son," rollicking comedy with a Deep South setting, now playing at the Southland Theater. The Senator, who in real life is Kenny Delmar, is aided by the comedy talents of Una Merkle, back on the screen after a long absence, and pretty June Lockhart who portrays their daughter. Filled with chuckles for the entire family, "It's a Joke, Son" shares a double bill with a return engagement of the Alfred Hitchcock suspense thriller, "Shadow of a Doubt," which stars Joseph Cotton and Teresa Wright.

Sunday and Monday, "Slave Girl" and "Kilroy Was Here" will comprise the Southland's double offering.

Yvonne De Carlo, George Brent and "Lumpy," the talking camel, are the stars of Technicolor "Slave Girl," which takes the audience to the splendor of an Asiatic court, where Miss De Carlo is a harem favorite. When Brent, portraying an American State Department official arrives, love blossoms between the harem beauty and the handsome American. Produced in a "tongue-in-the-cheek" manner which will delight you movie-goers, "Slave Girl" is featured with "Kilroy Was Here," a collegiate comedy starring those two ex-child actors, Jackie Cooper and Jackie Coogan.

Mrs. Dellenbaugh's and Miss Hanna's Classes went to the museum on Wednesday, Sept. 24th. Mr. Jenny was our instructor. Miss Hanna's Class studied Insects. Our Class studied Pre-Historic Ohio People. We learned what they ate, what their clothing was made from, the tools they used, things from which their beads were made, and the animals they knew. Our trip proved very instructive.

Southway Post News

Commander Oscar Rueckel, of Southway Post No. 144 of the American Legion, is probably the last of the World War I Vets to hold this office, that is, of course, unless one of the oldies men installs a few monkey glands, or something, and gets into action within a very few years!

All 3 Vice Commanders, customarily next in line for the top spot, are No. 2 Vets; Birds like Emrich, Simeral and Kunz have enuf on the ball to some day cinch the job. The No. 2 boys are also very much in action on the "Key" Post Committees with "Chuck" Cavener and Tommy Conin as the latest additions to the Executive Board.

Here are the former Commanders of Southway Post since its founding by Fred Baas, away back there in 1927. Yes, we know, we've published it before but, the majority of you younger men were spending your vacations abroad at that time, and how!!

Fred Baas was the first Commander and served 3 terms. Colonel Alfred Ballin, once more a 3 termer. Leo O'Connor took over at this point followed by Joseph Grumbine with Emil Rueckel next in line. Otto Schedorf and then C. L. "Doc" Lensenmayer followed by Chas. "Liberty" Mitchell. Robert Nitsche moved in, back in 1943 and Chet. Molt in 1944. It was Earl Hayes in 1945 and Walt. Steller in 1946. Walter "Bill" Lensenmayer just now moved over to make room for Rueckel!

Yes, as you can see, we are the only Post with 2 BROTHER COMBINATIONS in service on the top job as Commander, the Lensenmayers and the Rueckels! No other Post can make this statement!!

Harry Simeral in his capacity as 2nd Vice Commander, succeeds Emrich as membership chairman; Simeral has decided that, while Southway had a membership of nearly 1300 last year, there were 3000 names on the H. R. Board and around 1000 of the older men living down in these parts, eligible for membership. The annual drive will be planned along these lines.

Pay those dues now!! Chase the wife or girl friend down here with the 5 bucks if you can't make it yourself!! Big entertainment is program is on tap shortly!!

Now, please, excuse the author of these odds and ends; we have a date with the scalpel man, over there at Mt. Carmel.

North Defeats Stubborn South 14-0

South Holds Highly Touted North To 2 Touchdowns

Before a capacity crowd at Mahaffey Stadium, Friday night, a heavier, talented loaded North team eked out a victory over South, and they had to do it the hard way. The Bulldogs went into the game outweighing man to man by at least 20 to 30 pounds and played hard, fast and heads up football, by far the best game they have played this year.

To start the 1st quarter, South kicked off to North's 18 yd line, North immediately went into a series of fumbles and Linden of South finally recovered on the 25 yd. line. In three plays South gained 5 yds. and booted on 4th down to their own 45 yd. line. Two cross bucks brought North a 1st down on the South 25 yd. line and a fumble. South then started their best march of the evening going from their own 25 yd. line to the North 20, alternating their plays beautifully between Franklin, Dowler and Levy and the line charged and blocked North off their feet. In three plays they carried to the North 17 yd. line and with 4th down and one yd. to go, North held and took over, at this period of the game, North's weight was beginnong to tell as South was very tired. Big Eddie Clark, North fullback made a fine run of 83 yds. for the first score, making it 6 to 0. North ran for the conversion and made it 7 to 0. North kicked off to South and in 3 plays they could do nothing, booting on 4th down to the North 40 yd. line. South at this point was penalized 15 yds. for unnecessary roughness. North then fumbled and South recovered on their own 13 yd. line as the half ended.

At the start of the 2nd half Levy made a nice return of Norths kick-off to his own 35 yd. line, a South fumble then gave North the ball on the 34 yd. line, on the next play Linden made a smashing tackle to throw Clark for a 7 yd loss North kicked on 4th down and South on the next play quick kicked to North's 31 yd. line, Dowler doing a beautiful job. At this point South put up its best defense of the game. Right of South was particularly outstanding making tackle after tackle and North was finally forced to kick, in this quarter North could only garner 21 yrs. offensively. With 4 minutes left to go in the game, the Polar Bears started to move from the South 35 and 8 plays later Marcus Eaton scored, conversion was missed and the game ended with North 14, South 0.

The Bulldogs need never how their heads in this defeat, they were outweighed, out manned — but definitely not out spirited, it was by far and away the best game South has played this year.

The general sentiment of the people who watched the game was that, South played hard, fast, heads up football and if they continue to play that kind of ball they'll be a threat to any team in the league. It was good to see Coach "Red" Trego back again, and I know the boys wanted to win it for Red and no one can say that they tried their best. Next week it's Linden and homecoming week and we've a bunch that will be a grand evening for Scott [illegible] there to watch "Red's Bulldogs Growl."

The following is the lineup:

South High Booster Club Starts With Bang

Hardly had the membership [illegible] been printed for the South High Booster's Club when people started asking for them.

Our first call came from Cap Hoover who wanted 200 of them and each of the 50 original members took 50 each. Then the money started rolling in and contributions came from Ralph Paul our sheriff for $10, Ted Hysell $5, Rader's Market $6, South Side Booster $5 and $1 each was donated by Clarence Haag, Frank Kullmer, E. Nonnemacher, Al Sunker, William Kleinlein, C. Reinhart, Jack Moore, Mary Priest and John Varso.

We know that many more contributions will be announced in our next weeks paper, as no movement has had such an appeal to out community since the Honor Roll solicitation.

The South High Boster's Club was formed for the prime purpose of creating a better spirit in the South High Students, to give most valuable player awards, to give dinners after the season for players, to purchase a radio control score board and to furnish the many, many necessities for good old South High School, that the Columbus Board of Education does not furnish.

This movement should do much to stimulate school spirit for South High School, which has been lacking, and it has already been perceptibly noticed in the South High School team; altho they have been beaten, they no longer have [illegible] and 60 to [illegible] scores as in the past.

Tickets are being placed in the various business places and to date you may come in and subscribe at the following places: Lucky Ann Grocery, 241 E. Morrill Avenue; Betty Lee Grocery, 287 Siebert Street; Devany Cleaners, Parsons and Gates Streets; The Early Bird Record Shop, 1517 Parsons Avenue; and the South Side Booster, 1542 Parsons Ave.

Other stores will be added this week for the convenience of the people of the South Side.

Let's get going South Siders and show the people of the other sections of the city that the South High Booster's Club is the biggest, peppiest and go-getting-est bunch in the city of Columbus.

If we do this, next year South High School will produce for you, a championship team.

South High Booster's Club is on its way with a big bang. they are back of South High School Athletics.

Let's Go South Siders.

Forest Fire Warning

Division on Conservation officials in line with the Fire Prevention Movement warned outdoorsmen and hunters who spend leisure hours in the fields and woodlands of Ohio in pursuit of small game an for recreation to use extreme caution against leaving unextinguished campfires or careless use of matches and discarded cigarettes.

[illegible] and [illegible] at this time of the year are dry and once a [illegible] fire starts [illegible] control.

People, according to forest fire records, are the forest's number one enemy insofar as fires are concerned. Smokers cause 25.5% of all forest fires; incendiaries (picnic, bonfires, etc.) are responsible for 24.8%, rubbish burning causes 13.6% and lightning causes 9.1%.

Each year, forest fires destroy property worth from 30 million to 45 million dollars and in some [illegible] has reached over a [illegible] million dollars. The [illegible] and in addition lose denuded vital watersheds encouraging floods and soil erosion.

Agricultural officials are united in their opinion that nothing is gained from the "burning-off" practices indulged in by some farmers at this time of the year claiming that here is no basis for the opinion that weed seeds are destroyed "giving the land a fresh start." Burning off practices are dangerous and destructive and when out-of-control, which is very common, they are often responsible for major forest fires.

Siebert Kindergarten

The first meeting of the Kindergarten Mother's Club of Siebert Street School for the current year was held on Friday morning, September 26, at the school. Twenty-three of the thirty mothers attended and all were very enthusiastic and cooperative during the informal discussion of the future activities of the group. The president had each mother introduce herself and give the name of her child. The teacher, Mrs. Margaret Ream, told the mothers that she was in need of beanbags for the children and furnished the material for them and asked for volunteers to make them. One mother offered to get rag-beans to fill them and several others volunteered to sew them at home.

The principal, Miss Dorothy Morris, was introduced to the group by the president and she said a few words to the mothers and assured them that they would have her cooperation in new activities done to benefit the kindergarten.

After a short business meeting consisting of the treasurer's report, and secretary's report of the last meeting of the previous semester, cookies and coffee were served by the Social Chairman and her committee. During this time the mothers got around talking and getting acquainted with one another. When the refreshments were finished the mothers were taken to the room where the kindergarten is conducted to enable them to see how the children were taught and entertained. Everyone seemed well pleased with the methods of Mrs. Ream and were assured that their child is under excellent supervision.

Since this is only the third year of Siebert Kindergarten, the group is still very much in need of additional supplies and due to the rising cost of merchandise it is impossible to buy everything needed at this time. If any mothers have [illegible] books, dolls, puzzles, crayons, small automobiles or trucks, toy telephones, etc. that they are no longer using and would care to donate them to a good cause, the kindergarten would appreciate receiving them. Call Mrs. Hendricks, Ga. 41421, or Mrs. Lehman, Ga. 8278 if you wish to donate any article.

Mr. and Mrs. Bayless have one daughter Mrs. Jessie Barron, of Los Angeles, Calif.

Miss Rudman A Recent Bride

Holy Rosary Church was the scene of the recent marriage, a [illegible] of Miss Anna Louise Rudman and Mr. Charles T. Knoefel. The bride is the daughter of Mrs. Catherine Rudman, [illegible] and the late [illegible]. The bridegroom is the son of Mrs. Emma Schubert, 1288 Oakwood Ave.

Given in marriage by her brother, Mr. William K. Rudman, the bride wore a white lace gown, fashioned with a sweetheart neckline and ruffled edged yoke and long sleeves, ending with a lace ruffle over the wrist. The fitted bodice and bouffant skirt were divided by a satin girdle. The gown had been worn also by the bride's sister, Mrs. Howard Dean Smith. The costume was completed by a veil of sheer illusion, caught by a scalloped tiara of seed pearls and bugle beads. Her only jewelry was a gold cross and chain. She carried a prayer book with a white orchid and rosaries, a gift of the bridegroom.

Mrs. John T. Koetz was matron of honor for her sister, wearing a yellow rayon silk gown with batteau neckline double puff sleeves torso bodice and shirred draped skirt. She wore a matching horsehair bonnet with a cascade of ribbons [illegible] the back.

Miss Anne Schubert, sister of the bridegroom, was bridesmaid, and Mrs. Ralph E. Bruck was bridesmatron. They were attired in peach and blue gowns, respectively, made like the matron of honor's. They wore hats of matching colors and gold chokers, gifts of the bride.

All attendants carried colonial bouquets with streamers to match their gowns. Carol Lee Schneider, a niece of the bride, was flower girl in a blue net dress with rows of ruffles from the waist to the floor. She had a band of rosebuds on her head and carried a calla lily with the ring of the bridegroom placed on its stalk.

Mr. William J. Schubert was best man for his brother. Mr. William Whitman and Mr. Paul Tanner acted as ushers.

A wedding breakfast for 40 guests was held at the Virginia Hotel following the ceremony. Two hundred guests attended a reception at Corpus Christi school hall during the evening. For the occasion the bride's mother selected a beige silk crepe dress, green accessories and a corsage of red rosebuds. The bridegroom's mother was dressed in a green crepe dress and white accessories and a corsage of talisman roses.

The former Miss Rudman is a graduate of St. Mary's High School and attended Ohio State University. She is now associated with the F. and R. Lazarus Co. Mr. Knoefel, a former pilot in the Army Air Force, is now a junior in the college of engineering at Ohio State.

The couple resides at 152 E. Twelfth Ave.

Dream Of 60 Years Realized In America

There's a lady in Columbus today who is experiencing the happiest moment of her life.

She is Mrs. Lena Kreutz, 78 years old, who arrived from Hagenbach, Germany, Thursday night to be reunited with her two sons, Louis Kreutz, 176 Thurman-av, and Fred Kreutz, 109 Mithoff-st.

For 60 years, Mrs. Kreutz dreamed of coming to America. Twenty-four years ago, one of her sons left Germany for this country, and four years later the other son went to America.

At 6 p. m. yesterday, Mrs. Kreutz saw her dream come true. She arrived at a New York City pier aboard the S. S. Marine Flasher. Fred and Louis met her at the pier. She cried when she saw them.

The three of them came into Port Columbus by plane.

THE JEFFRY—Under economical hipped roof lies a world of charm and livability. The design takes advantage of the planning axiom that the closer a house approaches the perfect square, the cheaper it is to build. This house, 35 feet by 28 feet, is the almost square house. It is a compact four room house, becomes five rooms by enclosing the dining porch. A heater room makes it possible to save the cost of basement. The 18 foot living room, has the luxury of an open fireplace. All rooms have cross ventilation. This attractive, functional home meets the standards of FHA. Electrical plans approved by National Adequate Wiring Bureau to insure maximum electrical efficiency at a minimum cost. Blueprints available at $7.50 per set from Housing Plan Service, 140 Nassau Street, New York 7, N. Y.

THERE seems to be an opinion around that major league baseball's playing standards reached a new low in the season just closed This is a point hard to prove, and I doubt that it is true.

J. Gordon

In the ebb and flow of the last 40 years, we've looked at a long parade of stars. We also have peered at a still longer parade of pretty sour ball clubs, and that goes for hitting, pitching and fielding.

No one can doubt that the four war years held back many a budding rookie, lifted from minor league training to war service. Some of these were killed. Many more were wounded. All were removed from training action at vital years—19 to 23

This doesn't include such veterans as Hank Greenberg, who lost five years, Bobby Feller, Johnny Mize and so many others who were halted in their prime.

Many of these have had remarkable comebacks—Greenberg leading the home-run makers last season; Ted Williams, three years away from baseball, leading his league in practically every department where a bat figures; Joe Gordon; Johnny Mize, challenging Babe Ruth's incredible figure of 60 home runs in a year; not to overlook Walker Cooper.

And what two seasons—meaning 1946 and 1947—can you recall that produced a longer list of young stars: Ewell Blackwell, Ralph Kiner, Yogi Berra, Bobby Thompson, Jackie Robinson, Spider Jorgenson, Spec Shea, Earl Torgerson, Bruce Edwards and many other first or second-year men?

Always Been That Way

There have been bad major league ball clubs this season, and many rather sour big league ball players. But this has happened since Uncle Abner Doubleday had his dream.

The Phillies, in last place, are a far better bunch than the tail-end Phillies of years we still remember. And I could give you the names of many other clubs in the past that were strictly moth-eaten, of many other ball players who were not even good minor leaguers.

To listen, and to read, you might think at times there were no good ball players left. What about Harry Walker, Williams, Joe DiMaggio, Pee Wee Reese, Ed Stanky, Pete Reiser, Mize, Willard Marshall—most of the Cardinals—Cooper, Gordon, Bob Feller, Tommy Henrich, Augie Galan, Bob Elliott, George Kell, Grady Hatton, Johnny Sain, Warren Spahn and many more who would have been good in any past baseball season?

It is pleasant for those growing older to look back on the glories of the past when they, too, were young. But they overlook one major point—that practically every athletic achievement that can be timed or measured has known a long run of broken records.

Modern Athlete Better

Practically every past athletic record has been smashed year after year. You can't measure football, baseball, golf or tennis by the clock or the tape. But in all games that can be timed and taped, there has been a big improvement. Other games must depend upon opinions, which are about as stable as will-o'-the-wisps.

Those talking and writing of baseball's past glory have forgotten teams that couldn't draw 300 into the gate—teams that couldn't draw 300,000 in 154 games.

Baseball in 1947 has been far from flawless or spotless, but it has been one of the most interesting campaigns yet offered. One answer is an attendance total for all parks that will reach or pass 20 million where in many past years a nine million total was rated an exceptional turnout.

Baseball always has had one weakness. This was the average condition of its players. Few ball players keep in the condition needed to play 35 exhibition and 154 pennant games—a total close to 190 games a year. Poor condition accounts for so many bad legs, arm trouble, back trouble and other ills and ailments that afflict so many of the hired men.

Keeping in Shape

One famous athletic trainer told me recently that he could take a tail-end team and get it into condition that would net a pennant He probably meant: "If I could get it into condition." Which he probably couldn't.

"A ball player should live on his legs just about all the year round.' This statement was given me by Ty Cobb and Joe Medwick. Cobb went in for hunting, Medwick for golf. I don't believe either ever got out of shape. You know Cobb's record. And look at Medwick's amazing work this season, long after he was supposed to be through.

It Happened

Twenty-Five Years Ago (1922)

At Hamilton, Bermuda, Sybil Baugg of Chicago broke the world's 440 backstroke mark for both men and women in 6:24.3 minutes. . . . At the Garden in N. Y., 185-pound Billy Miske, of St. Paul, Minn., beat Tommy Gibbons of St. Paul, Minns., in 10 rounds . . . . Rogers Hornsby of the Cards ended the season with a .401 batting average. . . . For the first World Series radio broadcast in history, the announcer was Grantland Rice. The New York Giants won the Series, taking four straight from the Yankees. . . . At Greenbrier Golf Club, White Sulphur Springs, W. Va., Miss Glenna Collett, 19, of Merion, Pa., won the Women's National Golf title, beating Mrs. William A. Gavin of England. . . . Iowa's grid team, coached by Howard Jones, defeated Yale, coached by brother Tad Jones, 6-0. . . . Harvard beat Centre College, 24-10, to avenge that '21 defeat.

Ten Years Ago (1937)

Tony Lazzeri of the Yanks was the World Series hero, handling 27 chances without an error. Lefty (El Goofy) Gomes won two games as the AL champs beat the Giants in a five-game Series. Then in a surprise move, the Chicago Clubs signed Lazzeri as a player-coach . . . . For the third time in three years, Fordham and Pitt fought to a 0-0 grid tie. . . . Leo Durocher was traded to the Dodgers by the Cards for four players. . . . The AAU All-American swimming team listed Ralph Flannagan of the Miami, Florida, A. C. for five posts — the 440, 500, 880, 1500 meters, and 1 mile. . . . Menow won the Futurity at Belmont in world's record time of 1:11.2. . . . Newark, winner of the International League title by 25½ games, beat Columbus for the Little World Series title, in four games.

Five Years Ago (1942)

Count Fleet set a new world-mile record of 1:34.8, fastest time for a two-year old, in the Champagne Stakes at Belmont. . . . The Cardinal pitching ace, Mort Cooper, won the NL's Most Valuable Player award. . . . After the Yankees won the first game, the Cards took four straight to wrap up the Series. . . . The USO got a $362,926.65 share of the $1,105,249 total gate receipts. . . . Ray Robinson won his 36th fight in a row, beating Jake La Motta in a Garden tenrounder. . . . Notre Dame beat Bernie Bierman's Iowa Pre-Flight Seahawks, 28-0, after the latter stopped Minnesota's winnig streak at 18. Minnesota, also upset by Illinois, 20-13, lost its two-year hold on the Big Nine football championship.

One Year Ago (1946)

The National Hockey League opened its new 180-game schedule. Montreal shut out the Rangers, 2-0, in the first game for both teams. . . . Illinois, on its way to the Western Conference title, and Rose Bowl fame, rolled over Purdue, 43-7, in its first Big Nine game. . . . In the play-off for the NL baseball title, St. Louis beat Brooklyn and went on to win the World Championship from the favored Boston Red Sox . . . Harry Brecheen won three Series games for St. Louis, and became the first left-hander to turn that trick. . . . In an early grid poll, Texas ranked first. . . . Army won its 24th straight, over Duke, 19-0 . . . . The New York pro football Giants upset the mighty Chicago Bears, 14-0.

Meet An Outstanding South Side Citizen

This is one of a series of articles, the South Side Booster is publishing in regard to a project of the South Side Civic Club.

This week we wish to introduce to you Glenn E. Schweinley.

Glenn, as everyone call him, is manager of the Steelton office of the Ohio National Bank.

He was born on the South Side and as a child he attended Stewart Avenue and Siebert Street elementary schools and graduated from South High School.

For his life work Glenn went to Banking School of which he is a graduate. Schweinley has been the Steelton Branch Bank since 1926

and has been the manager since January 1937.

Glenn believes in the South Side as show by his community interest, belonging to or holding office in the following South Side groups: Southeast Lions Club, of which he is treasurer; Steelton Merchant's Association, also it treasurer; Council of South Side organizations of which he is also treasurer. Member of the Board of Management South Side YMCA member of the Board of St. Stephens Community House, has served as controller and advisor of the South Side Teen-Age Canteen. He is treasurer of the newly formed South High Booster Club and is a member of the South Side Civic and Industrial Association.

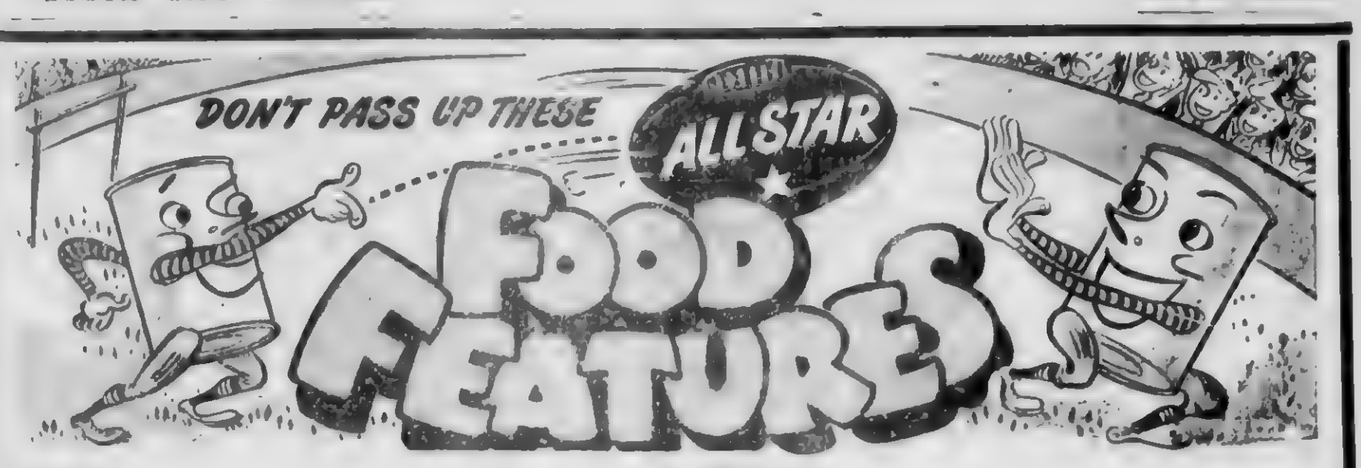
Fall Program

The outstanding Fall contribution for the Fish Management Section is the control of excess submerged, floating and emergent aquatic vegetation in the east end of Buckeye Lake. For the first time since 1924, Mr. E. L. Wickliff and Mr. Harold Chow, operator of the Buckeye Lake pop boat, feel they have the situation in mass (hornwort), the floating duckweeds and duckmeats and the emergent lotus lilies and spatterdock under control.

Open channels and holes now honey comb the mass of aquatics so that motor boats, outboard boats and row boats are free to use the net work of paths for hunting, fishing and coon and duck hunting for thirteen years. Pickerel weed has been an aquatic vegetation problem and started in 1934 a new curly leaf pond weed were first noted. Recently the saw tooth exotic European pond weed heavily took over the east end of the lake during the spring. But channels and open holes made by the mass cutter solved the problem.



The Ohio Division of Conservation [illegible] to keep them under control and after many years of study and hard work feel the efforts are not in vain. Upon completion about hopeless weed situation between 1950 and 1951 take another look during October, 1947.

News In The World Of Religion

Generalissimo and Madame Chiang Kai-shek, of China, have presented to the Methodist Church their Chungking estate of more than 50 acres and twenty stone buildings to be used as a school and home for orphan children of Chinese soldiers and for other needy and unfortunate children. They have also given $50,000 toward the school. Announcement of the gift was made when Dr. Walter Judd of Oshkosh, Wis., China missionary-turned congressman, arrived in New York to attend the 1947 meeting of the Council of Bishops of the Methodist Church. Dr. Judd is a member of the Board of Missions of the Methodist Board of Missions and Church Extension. Bishop Oxnam accepted the property on behalf of the Methodist Church and the Board. It is understood that in addition to the Chiang's endowment gift, the Women's Advisory Committee in Chungking has raised over $20,000, and that friends of China in America and in China will add substantially to the fund. The estate was the wartime headquarters of Generalissimo and Madame Chiang Kai-shek.

Dr. [illegible] Lautsch, former missionary to Japan in the Philippines, and now the "apostle to Liberia," is part of the world-wide movement to Christianize Africa and the interests of the Committee on Work, Literacy and Christian Literature of the Foreign Missionary Conference of North America. In most of these countries he will address [illegible] Literature [illegible] Christian [illegible] and [illegible].

Dr. [illegible] is in India of [illegible] Christian [illegible] of [illegible] Sunday School [illegible] and [illegible] Literature [illegible] Christian [illegible] and [illegible].

Edward W. Rowand

A dramatic monologue based upon the verse translation of the Gospel of St. John by the late Dr. Henry Huivingn will be presented at Gates-Fourth Methodist Church Sunday, Oct. 12, at 7:30 p. m. by Mr. Edward W. Rowand.

Mr. Rowand comes with the highest recommendations of many Columbus clergymen. The public is cordially invited.

Holy Name Society To Hold Pageant

Everyone residing within the boundaries of the Diocese of Columbus is invited to attend the ceremony honoring Christ the King, to be sponsored by the Holy Name Society in Ohio Stadium, Columbus, October 26. The invitation has been extended by His Excellency, Michael J. Ready, Bishop of Columbus.

There will be no admission charge at the Stadium, it was pointed out today by Monsignor Robert F. Coburn, Diocesan Holy Name Director. He also announced that the program will get underway at 3:00 p. m. Nearly 15,000 seats are available to the public on a first-come first-serve basis. At least 1600 persons will participate in the spectacular program, which will include the formation of a "living rosary" by approximately 700 Catholic boys and girls from high schools of the Diocese.

A specially prepared program will be distributed free at the stadium, it was also announced by Henry A. Reinhard, co-chairman of the Holy Name Committee actively responsible for arrangements. This will be a 32-page book of information about the Holy Name Society, a greeting from Bishop Ready, the events comprising the seven-episode program, biographical material and interesting information about Rev. Fr. Ignatius Smith, principal speaker at the event, and lists of patrons who are helping to make the celebration possible.

The cover of this program will be a specially designed impression of the two-fold theme drawn by Walter C. Hensally, art director of the Byer & Bowman Advertising Agency in Columbus. A rosary is depicted clutched in hands poised in prayer. On the rosary is a crucifix depicting the vested Christ which is a symbol of Christ the King.

Special arrangements for transportation in Columbus, and from surrounding communities will be announced within a few days by James A. Neilan, head of the transportation committee. Many parishes in the diocese are planning to charter special buses or trains to bring them to Columbus.

This article is one of the articles we are publishing in the Booster, of our fine South Side clergymen.

This week we are introducing to you the Rt. Reverend Konsignor Bernard P. Vogel, pastor of St. Leo's Roman Catholic Church, corner Hanford and Bruck Streets.

He subsequently served at Neff's Point, Belmont County, Murray City, Ohio and at Barton Belmont County.

In 1920 he was assigned to St. Leo's Church where he has been ever since.

STADIUM IS OFFICIALLY NAMED BY PRESENTATION OF PLAQUE

Do you know the name of our stadium? If you'll notice the newly erected plaque on the south end of the home stands you will find that its name is "Mahaffey Stadium," in memory of Evan L. Mahaffey, who was principal of South High School from 1930 to 1935. The plaque was purchased by a committee appointed by Miss Alva Edwards last spring. The committee—Mr. William M. Scofield, chairman, Mr. T. R. Stahl, and Mrs. Arema Kirven—took it upon itself to see that this and a smaller plaque were put up. The larger one was purchased from Mrs. F. W. Darden, of 291 North Hague Ave. who not only made it but donated a smaller one, which has been erected in the north front hall beside room 104. The smaller plaque is in memory of Harold E. Dunlap.

There is quite a story behind how our stadium was erected in 1930. A committee, of which Mr. Stahl was chairman, raised most of the money needed to begin the construction. The home stadium was built by the P.W.A. through the federal government, who donated a portion of the cost which was $17,417. The visitors section was later built on a [illegible]

When the stadium was built it was hoped that in the near future locker rooms, showers, and rest rooms could be installed beneath it. Eleven years have passed. The locker rooms, showers and rest rooms are still awaiting completion.

A graduate of Urbana High School [illegible] degree at Denison University, where he majored in Chemistry. During his college career he was very interested in sports. [illegible]

Money [illegible] collected after his death March 6, 1943, but was unable to be purchased during the war years.

"Romance of Rosy Ridge" Offers Van Johnson In Finest Role to Date

Van Johnson and Janet Leigh in MGM'S "The Romance of Rosy Ridge"

Romance, adventure and an excitement-packed story of the after-feuds between Yankee and Rebel factions after the Civil War make [illegible] for big entertainment in "Romance of Rosy Ridge," opening Sunday at the Southland.

Van Johnson has a totally new type of characterization in this Macklinlay Kantor story of a young schoolteacher whose buddy dies while fighting with him in the Union Army, and who goes to the latter's Rebel family in Missouri and falls in love with his buddy's sister.

The conflict enters when Gil MacBean (Thomas Mitchell), father of the dead soldier, discovers that Henry Carson (John-son) has fought on the Union side. Despite the fact that Carson has helped him to save his crops from night raiders who have been pillaging and burning the farmers' barns, the hardened Rebel cannot tolerate the thought of his daughter, Lissy Anne (newcomer Janet Leigh), falling in love with the Yankee stranger. It is in the picture's thrilling climactic scene in which MacBean attempts to kill Carson, that the conflict is resolved and Carson's true position made clear. "Fool's Gold," a Hopalong Cassidy western starring William Boyd will be co-featured with "Romance of Rosy Ridge."

Columbia Theater

The Columbia presents Sunday and Monday "Twilight on the Rio Grande" with Gene Autry and Adele Mara. A musical western in which Autry is super, and there is action aplenty and thrills all in this picture. Gene rides again in relentless pursuit of a gang of border jewelry smugglers. Guns too hot to handle, women too wild to hold in this rip-roaring, six-gun blazing battle for law and justice; also "Desert Fury" in technicolor with John Hodiak and Lizabeth Scott.

Club Alexander

This week at Club Alexander Paddie Mack, comedy emcee introduces the Wolf Girl who is back again with plenty of allure in her exotic strip tease number. Sherry LaRue, next on the bill, clever exotic dancer, beautiful to behold. Betty Mitchell, song stylist with a lovely voice and all the latest catchy tunes. A good, good show, don't miss it.

South Loses To Linden Team 13—9

BULLDOGS OUTWEIGHED AND OUTMANNED

As has been the case all season, South was again outweighed by a heavy Linden-McKinley team. At the start it looked like South was out to make it a perfect home-coming night, as early in the 2nd quarter the Bulldogs jumped into a 6-0 lead when Captain Danny Franklin plunged over center from the one yard line behind the fine blocking of his team-mates. It capped a 24 yard march, started when Dean Adams recovered a Linden fumble. Werner's try for the point was blocked by nearly all of the Linden line. South kicked off and then the defending city champs began to move and in 10 plays made a touchdown. Zoog, flashy Linden halfback smashed over on a fourth down play. South was trying hard to hold that 6-0 lead but weight again told the story. Hanawald calmly booted between the uprights to make it 7-6.

Again in the 3rd quarter Linden's quarterback Borean threw a pass, which Franklin deflected and in some manner Hanawald managed to grab the ball and scoot over for another tally making it read 13-6 in favor of Linden. It was a hard fought game from start to finish with plenty of hard tackling and hard blocking by both teams, the quick kicking of plays of both elevens was very good. Linden booting one in the 2nd quarter for 51 yards and Dowler of South getting one off of 47 yards also in the 2nd quarter, in the line, the hard playing of "Belt" South's center was again impressive, Levy, Dowler, and Franklin in the backfield all played a fine game, Franklin particularly good on those center bucks, as Linden's heavier line worried the South backfield all evening. All in all it was a fine evenings entertainment, and an estimated crowd of 7,000 the largest of the year felt that it was money well spent.

The half time ceremonies were very impressive both bands putting on a fine show and of course the Queen and her attendants circling the stadium in those two shining new convertibles made most of us just a little envious.

The Council of South Side Organizations were the guests of the school and had special side line seats for the game, the spirit being shown by those organizations is tremendous, so let's everyone get on that South Hi Band wagon.

Just before the start of the game, the flag as usual was raised and the Star Spangled Banner was played by both bands, then in memory of the war dead, who had arrived on the West Coast that morning, the flag was then lowered to half-mast as taps were sounded. It was a fitting tribute to those heroes and we know that it hit deep into the hearts of everyone present.

Next week it is East and another tough game, let's hope it breaks the ice for South and they land in the win column. Let's everyone be out, they need our support, they are all fine boys and they deserve our support. Come on you South High Boosters, Let's make that Bulldog growl.

The more South Side men on City Council the more improvements the South Side can hope to attain.

The general public is invited to attend this picnic where you will meet your friends, make new acquaintances, have a good time, maybe win one of those lovely prizes and at the same time you will be helping the South Side Eagles to swell that Christmas fund.

You May Enlist

Veterans with certain Military Occupational Specialties may reenlist in the grade for which they are qualified by previous training and experience, providing they were honorably discharged on or after May 12, 1945.

Capt. Thomas J. Madigan Jr., in charge of the U. S. Army and Air Force Recruiting Station, stated that the grade in which enlistment is authorized depends upon the number of months of active service in the specific job specialty. In no case will a man be enlisted in a grade higher than the one held at time of discharge.

Enlistment of photo laboratory technicians, for example, is authorized in grades of Corporal, Sergeant and Staff Sergeant, depending upon experience; and supply clerks are needed in the grades of Corporal and Sergeant. An automotive repairman could reenlist as a Technical Sergeant (grade 2) if he has the proper experience, and was discharged in that grade or higher Capt. Madigan explained.

Full information concerning job opportunities in the Regular Army is available at the Recruiting Station Room 102 Old Post Office Bldg., Columbus, Ohio.

FINISHED ATTIC PLAN
THE INGRAM

THE INGRAM—The home that can grow with expanding family needs serves a real function in these days of high costs and housing shortages. The most economical expandable house is one than can grow upstairs when more rooms are needed, and that in the meantime provides all the comforts and needs of a complete home on the ground floor.

The Ingram is this intelligent and economical type of "expandable" house. In a floor area approximately 24 feet by 27 feet, it offers a complete four room and bath home on the first floor. Two additional rooms and second bath may be finished upstairs either at the time of original building or at a later date.

Every downstairs room has two way ventilation. The house lends itself readily to the construction of an attached garage which of course, might be left off in the interest of economy. The exterior, with its dignified entrance, louvred shutters, black capped chimney and dormer window makes an attractive picture. The Ingram conforms to FHA standards and its electrical plan carries the approval of the National Adequate Wiring Bureau. Blueprints and specifications may be obtained from Housing Plan Service, y40 Nassau Street, New York 7, N. Y., at $7.50 per set.

SPORTS

By Walt Tompkins

Sportlight

by GRANTLAND RICE

THE toughest job in sport isn't sinking a six-foot putt in a pinch—or emerging from a heel print in the sand. It isn't throwing a 40-yard pass—or pitching to a clutch hitter with the bases full. It isn't umpiring a baseball game.

If you care to hear the correct answer it is working as a football official. The baseball umpire has a setup in comparison. Hurry-up Yost of Michigan told me once that he doubted that any play was ever run off in football that was completely minus some form of penalty—off side, starting too quickly, holding, illegal interference, pass interference, illegal use of hands or other infractions.

Grantland Rice

Here you have 22 keen, active, overeager young men scattered over a good part of the field in a game that is packed with penalties. No four sets of eyes can follow every infraction, especially on the part of those who know how, when and where to slide by a rule

I'd like to say here that no set of officials work harder, train harder or try harder than 90 per cent of all football officials. They are honest, intelligent, well-selected, and they usually take a deep pride in their work.

But they are up against an impossible job. Having worked five years as a football official in the South, before groping later for the older age of hazy reason, I have found it somewhat difficult to ride officials who have impossible jobs to handle.

There is holding, of one sort or another, on almost every play. Ask some of the players in the line—who have been jerked off balance by a quick hand, a movement that took less than a split second.

Or this matter of pass interference in the rush and jump for the ball—or the split second start of the backs—or the smart ones who know how to time and beat off side by half a stride.

It isn't too easy to say which penalties affect a play—and which don't. But this is where the smarter officials come in—where in other years, Ed and Tom Thorpe were supreme—two of the best football ever has known

Certainly too much whistle and horn blowing can wreck any game, coming from too many over-conscientious callers, who now and then have the idea they are the afternoon's main attractions. But this doesn't happen often.

An official with sound, sane judgment in handling a game, where one close decision can make or break either team, is football's major asset. But don't let anyone tell you it isn't a tough assignment—the toughest one I know in sport.

The horn is certainly no instrument of merriment or melody.

All Bowled Over

Old King Cole now has more bowls than he ever dreamed about as he called for his Fiddlers Three and proceeded to get pie-eyed. But the two big money bowls are the Rose and the Sugar, where the two capacities are 93,000 and 73,000 at $4 a crack.

Not a bad financial goal for those lucky enough to crowd into the final picture, although this cash is scattered around as far as the Rose Bowl is concerned. Here, no one makes any big killing. Which is the way it should be. College football still has a long way to go in getting away from too much finance.

New Golf Champion

More than a few followers of the ancient and well-trapped green want to know more about Skee Riegel, the new amateur golf champion of the U. S.

Skee is much better known in the Far West than he is throughout the rest of our bunkered domain.

The impression seems to be that some rank outsider has taken over the amateur throne of golf. This idea is strictly incorrect. Only a fine golfer could have won over the Pebble Beach test, one of the toughest in golf.

What sort of a golfer and what brand of a fellow is the new champion—meaning Mr. Riegel?

We took this problem to Al Ciuci, one of the best golf instructors in the country, now in charge at Lakeville, Long Island.

"I can tell you this," Ciuci told me. "A worthy champion and a fine fellow now wears the crown. Craig Wood and I worked with Skee in 1941, when he had been playing golf only three years. He was then in the high 70s. He had come along in a hurry because he wanted to learn, and he was willing to practice all day.

"Here's an odd angle on Skee. They call Frank Stranahan 'Muscle' Stranahan or 'Mr. Muscle.' But in my opinion Riegel is much stronger than Stranahan. They ought to call Skee, 'Double Muscle.' I've never seen anyone close to his weight, 185 pounds, with such powerful upper and forearms. Skee is what I'd call a power hitter, or a smash hitter.

Did You Know?

That the first broadcast of a football game took place at Texas A & M in 1902. The information was transmitted by dots and dashes. . . . The first huddle was used by Georgia in an 1896 game with Auburn. . . . Columbia made the first field goal try (a miss) in 1872. . . .

That the world's biggest referee is now handling bouts in New York City. He is Abe Simon, the six-foot seven 260-pounder who fought Joe Louis twice and was knocked out both times by the Dark Destroyer. . . . When Lew Worsham, the new Open Golf Champ, teed off at the beginning of this year's Open at St. Louis, Missouri, there were only five people following his threesome, but before the tournament was over, there were 5,000 people watching every move he made.

That Moose Swaney, who used to pitch in the International League, is now 60 years old and is still throwing them for the House of David team. . . . Lou Gehrig batted under .300 only twice as a regular on the Yanks. His first full season he hit .295 and his last full season he batted the same.

That at Salinas, California, recently there was a double knockout in a boxing bout between featherweights Wally Gonzales and Bobby Bower. Each let go with rights in the first round of a scheduled four-rounder. Both rights landed and both fighters hit the canvas. The referee, Frank Bramhall, counted them both out. . . . In the 1929 World Series between the Chicago Cubs and the Philadelphia Athletics, the Cubs used eight pinch-hitters and not one of them came through with a hit, which is a record for the Series.

That only one regular on John McGraw's 1922 champions batted under .300 for that season. He was Heinie Groh, who hit for .265. The team average was .305. . . . Jim Ferrier, the new Professional Golf Champ, won 10 Australian Open Golf Championships in 1937 while he was still an amateur.

That Larry (Yogi) Berra, catcher for the New York Yankees, recently made an unassisted double play against the St. Louis Browns in the ninth inning. This was the 14th unassisted double play by a catcher in modern baseball. . . . Ted Lyons, who came straight from Baylor University to the Chicago White Sox and never played with any other major-league club, played under eight managers, William Gleason, Johnny Evers, Eddie Collins, Ray Schalk, Russell (Lena) Blackburne, Owen (Donie) Bush, Lew Fonseca, and Jimmy Dykes, before he was named for that spot.

Our room acted as wholesaler for the Popcorn sale last month. We delivered 5400 fritters to the various rooms. We are now making our plans for the November sale and hope to improve our sale with prompt service, accurate records, and courteous manners. Last month we had a working staff of 28 carriers, a bookkeeper, and several substitutes. This will remain the same.

We are planning to listen to radio broadcasts with Miss Everkind on WHKC on Tuesdays. The program this week was about the birds flight south.

Twenty-seven people in our room attended the Jitney Luncheon on Thursday, Oct. 9th.

This week will be an especially busy week for us getting ready for our Chapel Program on Friday. We will also work hard on our lessons for report cards are due next Monday.

Living Memorial To Honor Dr. J. F. Stone

COLUMWBUS,O., Oct. 4—A living memorial has been created to the late Dr. Julius F. Stone by the Board of Trustees of Ohio State University, it was announced today by President Howard L. Bevis.

The Julius F. Stone Research Professorship in Physics has been established to perpetuate "his spirit, purpose and vital interest in scientific research." Dr. Stone was Chairman Emeritus of the Board at the time of his death, July 25, 1947, in Santa Monica, Calif., and had served on the Board for more than 20 years.

The research professorship in physics set up by the Board is yet to be filled. It will have special reference to nuclear physics, according to Dr. Bevis, and the fundamental relationships between matter and energy and the biological and medical applications of radiations.

Creation of the research professorship grew out of a recommendation to the board by Dean Emeritus Alpheus W. Smith of the OSU Graduate School. Dr. Smith pointed out that "a research professorship would not only remind us of his (Dr. Stone's) scientific interests and his desire to penetrate the unknown, it would also provide guidance and stimulation for young men and women endowed with inquiring minds and scientific curiosity. They could carry forward the torch the master has relinquished."

Dr. Stone was one of Columbus' most prominent philanthropists, a noted industrialist and civic leader. He was long identified with leading business and banking interests, and in addition to being a trustee of Ohio State University was one of its leading benefactors.

News In The World of Religion

By W. W. REID

There are more than 700,000 children and young people living within the city of New York who are not in contact with either church or synagogue, according to the Rev. Herman E. Wornom, executive secretary of the Board of Christian Education of the Protestant Council of the City. "This is a tragic condition at any time and especially in these fateful days," says Mr. Wornom. "The zero hour has come when our churches must find a more adequate strategy for reaching these multitudes."

Two church-sponsored hospitals in Gary, Indiana, have recently lifted long-standing restrictions against the admission of Negro doctors and surgeons to practice in their operating rooms and wards. They are the Methodist Hospital, and the Mercy Hospital (Catholic). Gary has ten Negro physicians. Negroes have been admitted as patients to both hospitals even when their doctors were barred.

A current visitor to the United States is Ernest D. Jeffs, of London, England, who is supervising the restoration and reconstruction of bombed churches for the Congregational Union of England and Wales. He is visiting a number of American cities — notably, New York, Washington, Boston, Chicago, and Indianapolis — studying America church architecture, building materials and construction methods.

"We do not know what the ultimate fate of the United Nations will be; but we do know that no plan, however perfect on paper, can result in peace and understanding unless there is in the hearts of men a true Christian spirit of love and brotherhood," says the Rev. Dr. Wilbur LaRoe, Jr., moderator of the Presbyterian Church in the U.S.A. "This is why our foreign missionary enterprise is so vitally necessary. It provides the spiritual foundation upon which any enduring international structure must be built. I solemnly warn you, unless you are now willing to share with others the blessings God has showered upon us, we stand to lose them as the great tide of secularism and totalitarianism sweep across the world. Where men are hungry, we must carry bread. Where men are spiritually dying, we must carry Christ. A stricken world pleads for our help."

Captain William Kiefer, of the Crime Prevention Bureau of the Police Department of Louisville, Kentucky, believes that the Louisville Council of Churches has found a large part of the answer as to how to prevent and overcome juvenile delinquency in a city. And the clergymen think they have, too .... Two years ago, when juvenile delinquency had reached its peak in Louisville, the Council of Churches began a study of the situation with Captain Kiefer. It was found that almost all the delinquents in the city came from a ten-block area. Within that area the poker and crap games were played, the street lamps were broken, the cars were stolen. And there was not a recreation or play area, or a church clubroom in the neighborhood. So a committee of the Council leased a church-owned building, and opened a supervised boys' club with playroom, game tables, library, classes, workshop — all under the direction of a trained man. And during a recent period of eight months, Captain Kiefer reports, not one boy from that ten-block area of Louisville has been in court. "You have shown the kids a better life," says the Captain to the clergymen.

Pointing out that 46.5 per cent of the members of the Methodist Church in the United States are rural (in the U. S. census definition of living in communities of less than 2,500 people), and that these rural Methodists support 78.7 per cent of all Methodist churches in the nation, the denomination's Department of Evangelism is endeavoring to develop a more adequate service to these rural peoples by the churches. According to th Rev. Eugene E. Golay, of Red Cloud, Nebraska, a rural Methodist pastor, there are four ways in which Methodism can "build an effective rural evangelism": develop a "sense of mission" by the rural church; develop a technique that differs from that used in urban communities; train pastors for rural church service; give the rural churches adequate consideration in the naming of pastors by sending them dedicated men for lifetime service.

The Assemblies of God — one of the newer denominations of the evangelical faith in the United States — has added 234 new parishes during the past two years, according to General Secretary J. Roswell Flowers. He reports that there are 5,548 assemblies or churches of the denomination; 5,746 ordained ministers; and a membership of 243,515 persons.

Meet The South Side Clergy

The Rev. Stephen Sziarto

This week in our series of Meet Your South Side Clergy, we introduce to you The Reverend Stephen Sziarto, pastor of the Hungarian Evangelical & Reformed Church, S. E. Corner Woodrow and Washington Avenues.

He was appointed pastor of his present charge about eight and one-half years ago, and during that time Rev. Sziarto has aided over 100 Hungarian persons to become U. S. citizens. Under his leadership, during the past five years, many improvements have been made on the church; such as; the church auditorium painted cove lights, new pulpit, and complete chancel; church floors refinished, pews repaired, individual and sick service communion sets; new concrete steps and Colonial electric lights in front of church; Estey Organ console. In the kitchen new cupboards, new sinks, newer stove and 144 stainless steel service.

Buses To Run To Catholic Meet

Special Columbus and Southern Ohio buses will run between Long and Front Streets and Red Bird Stadium at four-minute intervals on the afternoon of Sunday, Oct. 26 when the Diocesan Holy Name Union sponsors a ceremony in honor of the Catholic feast of Christ the King, it was announced this week by James A. Neilan, chairman of the Holy Name transportation committee.

Arrangements for transportation of visitors to the city and the more than 1600 persons who will participate in the exercises are being planned by railroads, bus companies and other organizations serving the 23 counties comprising the Diocese of Columbus.

Red Bird Stadium will be the focal point of the throngs of people expected to attend the ceremony to which Bishop Michael J. Ready has invited all residents of the Diocese, regardless of faith.

Eight extra gasoline powered buses will augment the regular West Mound Street service preceeding and following the ceremony. Choral and instrumental organizations to participate in the ceremony will be transported from Josephinum College, North of Worthington, to the stadium in three buses provided by the 166th Infantry Regiment of the Ohio National Guard and three buses furnished by the Commanding Officer of the Ohio Military District at Fort Hayes, Neilan said. Other school units participating in the ceremony will use school buses and chartered vehicles for transportation to the West Mound street location.

Special posters have been placed in railroad and bus stations throughout the Diocese, and in all churches and school buildings, calling attention to the event.

Stalin's Ten Commandments

Of late, there has been much drumbeat about the alleged restoration of religious freedom in Russia, and our credulous community seems inclined to believe that in this case, for once, the leopard did actually change his spots. The legend of Stalin's "reformation" is largely based on the fact that during the war a few churches which had previously been desecrated by the soviets and converted into anti-religious "museums," cinemas, and similar establishments, were reopened for public worship. Likewise, the soviet propaganda machine has been cleverly publicizing the cordial relations prevailing between Stalin and his appointee—the renegate Moscow Patriarch Alexis This much for foreign consumption.

However, behind the iron curtain, virulent atheistic propaganda in the government controled press is in full swing. As a typical example of the official attitude toward religion in the soviet Eldorado, I cite a leading article in the fortnightly Moscow magazine, Bolshevik (No. 23-24, December, 1946, pp. 11-24), entitled "Communistic Education of Youth Is the Principal Task of the Komsomol" (Union of Communist Youth), which gives the following version of the "Ten Commandments."

"1. Never forget that the priests are the bitterest enemies of the Communist state.

"2. Sway your friends toward communism. Remember that Stalin, who has given the Russian people a new constitution, is the head of the godless not only in the soviet union but in the whole world.

"3. Advise your friends and the godless to shy the clergy.

"4. Beware of spies and bring to light those engaged in sabotage.

"5. Disseminate atheistic literature among the population.

"6. A real member of the Union of Communist Youth is at the same time a militant atheist. He must know how to use his weapons and he must know strategy.

"7. Wherever possible wage war against the religious elements and prevent their influence on the comrades.

"8. A real godless must be an efficient policeman. It is the duty of every atheist to protect the safety and stability of the state.

"9. Support the godless movement also with monetary contributions which are particularly needed for our foreign propaganda since the latter, owning to existing conditions, can only function clandestinely.

"10. You cannot be a good Communist without being a convinced atheist. Atheism is organically tied to communism. Both conceptions constitute the basis of soviet authority."

Such then, are the "ten commandments" of Josef Stalin, the pious patriarch of the soviet union and the inspirer of the world-wide godless movement.

Meet An Outstanding South Side Citizen

Wm. M. DeVany and

Ralph DeVany

In this article, we wish to introduce to you, two of the South Side's prominent citizens; Ralph C. DeVany and William M. DeVany, owners and operators of DeVany's Cleaners, Parsons Avenue and Gates Street.

Ralph DeVany was born at Circleville, Ohio and came to the South Side at the age of one year.

William DeVany was born at Washington Court House, Ohio and came to Columbus in 1921. Both men attended Siebert Street elementary, Barrett Jr. and South High Schools.

Both Ralph and William, or Bill as he prefers to be called, were three letter men in sports at South High School.

Ralph belongs to the Moose, Swan Club, St. John's Evangelical Church and is president of the newly formed South High Boosters Club.

Bill belongs to the Agonis, Wyandotte Country Club and the South High Boosters Club.

Both Ralph and Bill have the same hobbies, sports of all kind, but Bill adds a couple more to the list than Ralph, as he likes both motor-boating and golf.

Both men are vitally interested in the South Side and give much of their time for the betterment of the community.

With Ralph DeVany as head of the South High Boosters Club, and Bill DeVany pushing, you can expect this new organization to go over with a bang, because they are successful business men and have the same push and go in anything they attempt.

Ralph and Bill DeVany live with their parents at 1308 Parsons Avenue where they have lived since 1921.

Third Ward Dem't Club Meeting

The Third Ward Democratic Booster Club will hold a meeting at the South High Street Auditorium, 581 S. High Street, on Thursday, October 16 at 8:00 o'clock P. M. All candidates will be introduced. There will be refreshments and door prizes.

Parents Council Of University School To Try Radio Technique

The Parents Council of University School, Ohio State University's experimental kindergarten-through-high-school, will launch a new radio technique on October 30th with the beginning of a series of broadcasts on "What Is a Good School Today?" over WOSU, Ohio State's 5,000-watt educational station.

The series, to be generally titled "Panel on Democracy," will feature the combined resources of Ohio State University and the Columbus community and will be slanted at the areas of the state where new school buildings are planned, as well as for parents and the general radio audience.

The program, to be aired at 3:45 p.m. each Thursday beginning the last week of October, will pool the advice of school building experts, curriculum planners, school health officials and parents drawn from the Ohio State staff and from the parents council of University School.

Dramatic format, airing of a typical committee meeting at work on the series, and various other "livening-up" techniques will be used to make the programs useful for lay parents and for school administrators.

Major effort will be concentrated on keeping the series from sounding too "expert" and on giving school boards, parents and teachers understandable and practical ideas on the physical plant, curriculum, health and social factors which go into making a good school.

The October 30th program will be a prologue explaining the items which go into the making of a good school and the following four broadcasts will be devoted to talking about the school building of tomorrow.

Ideas for the "School Building of Tomorrow" series will come from the Bureau of Educational Research at Ohio State whose Survey Division has the responsibility for working with Ohio boards of education who want expert advice on school building and planning.

WOSU's script department will then re-fashion the latest ideas in education on the subject of school building into a non-technical script. Where called for, WOSU's newly-built talent pool will provide actors for the dramatic sequences and parents and OSU staff members will also take part in the series.

John A. Ramseyer is acting director of University School and Henry E. Worley is chairman of the radio committee of the Parents Council.

NEWS BEHIND THE NEWS

By Paul Mallon

Released by Western Newspaper Union.

GOP Presidential Race

WASHINGTON. — A Republican leader in New England (former Willkie domo) says Governor Dewey will not get a convention delegate in his whole area. "As between Dewey and Taft, it would not take me ten seconds to make up my mind," he has been heard to tell top national Republicans. Apparently a Saltonstall movement is to be launched in the fall up there and this leader presumably expects New England to go for the Massachusetts senator, who put over the army-navy unification bill.

All this talk, however, ignores Joe Martin, the house speaker, who has been chosen legally by congress as next in line for the Truman chair. Martin could logically be chosen by the New England Republicans at their next convention as their own man to supplant the Democratic president in recognition of the fact that he is now practically serving in that capacity. However, Martin seems unambitious of political organization, which is essential to control conventions, although he certainly did well in organizing the house for unity.

In any event, the story of this unnamed New England leader displays how top Republicans generally are taking the Dewey trip west. They looked on it as a well-contrived publicity venture, but now view the results to be that Dewey got more newspaper space out of it than he will get delegates.

CHOOSE FAVORABLE SPOTS

They say it was well-contrived because the New York governor went to the places he knew he would be well received, and avoided the areas where his welcome might not achieve the best publicity. His first stop was St. Louis, where a favorable national committeeman (Mattingly) promised him the delegation. But immediately the Kansas City Republican group, including Senator Kem, came forward in opposition, which achieved no publicity. It became clear, however, Mattingly would have trouble delivering Missouri Republicans.

[illegible]-way in Oklahoma. Lew Wentz, [illegible]ted oil man, promised the delegation to Dewey, but Senator Moore, Saully, (former committeeman) and others insisted they would not go along with Wentz. Oklahoma was left in doubt.

Then Harold Stassen, the career candidate, [illegible] forward with what he had been indicating privately, namely a suggestion that the Republicans should consider only candidates who have taken public stands on public national questions (which Dewey largely had not). California Governor Warren's people, meanwhile, made no effort to stop the inside news within the party that he had not tied up with Dewey or anyone. What the news actually said was: "Warren won't play with anyone." Pennsylvania and Illinois obviously have other (anti-Dewey?) ideas, and Michigan will surely be for Vandenberg. So the question seems to be Where outside New York will Dewey get enough delegates to win?

The emergence of Senator Taft [illegible] candidate [illegible] sensation at the Columbus convention [illegible] had a greater significance [illegible] was known. Taft's radio address [illegible] is being called around [illegible] rather [illegible] speech of [illegible] although he said he would let Ohioans know definitely when he came back from his vacation. Quite plainly Taft is coming up against Dewey with a western trip which will certainly be watched as a competitive test journey.

VIGOROUS BATTLE AHEAD

Taft is a remarkable worker and hair will surely fly. He worked almost day and night to get the congressional session ended, and then doubled his work on the following Sunday in his office, so he could get away Monday. The unions have picketed and plastered him as a "slave bill" author, but he said in his speech his Taft-Hartley bill provisions were demanded largely by union workers, and he named the provisions (majority vote of workers before the [illegible] can impose a union shop [illegible] written consent of a check-[illegible] authority for them [illegible] funds, and the way the unions spend their money in politics free speech, getting rid of communist leaders, and so on). If this is true, Taft will have a union labor following which has not been apparent in the publicity which is contrived largely by the leaders' headquarters in Washington. In fact, this support might not show until there is a well protected occasion, such as provided by the Australian ballot system in elections.

The first strong fight for the Republican presidential nomination in 27 years certainly seems to be developing.

South High Grads Wed

The marriage of Miss Elizabeth H. Hegyi and Mr. Elias J. Hrdzick took place on Saturday morning, August 30, in St. Ladislaus Church. The Rev. Father Riehl read the service before an altar arrangement of white gladioli.

The bride wore a white satin gown, cut on princess lines, and a fingertip veil held in place by a beaded crown.

Miss Mary Seidenschmidt, as maid of honor, wore an aqua colored gown. Miss Violet Hrdzick, Miss Katherine Yandrich and Miss Ann Karsko, the bridesmaids, had gowns of yellow, pink and aqua respectively. They carried multi-colored gladioli.

Ideal Theater

Champion Theater, Friday and Saturday

"CYNTHIA"

Starring Elizabeth Taylor and George Murphy

The main feature at the Champion Theater this Friday and Saturday is "Cynthia", starring Elizabeth Taylor and George Murphy. This uncommonly good, tender and moving story is simple, its cast high grade and performances excellent. It is a "family" picture with wide and popular appeal. The story deals with an over-sheltered sickly high school girl whose health does not permit her to take part in the many activities of her school mates. Never given a real chance to become healthy by her parents, and an over-cautious doctor, the girl has few friends, but it takes young James Lydon to gain her way back to normalcy. Don't miss this picture, because if you are young you will see yourself portrayed in all your enthusiasm, fun and awkward seriousness that spice the hectic years before college, and if you are older, you will see a moving experience mirrored of your own problems and feelings. Companion attraction is "Make Mine Music" with all your favorite radio entertainers. This terrific Walt Disney Feature Cartoon includes such notables as Dinah Shore, Nelson Eddy, The Andrew Sisters and Jerry Colonna.

CHAMPION THEATER SUNDAY, MONDAY

"FIESTA"

Starring Esther Williams – Ricardo Montalban

"Fiesta" will be the main feature at the Champion Theater next Sunday and Monday. It stars Esther Williams and Ricardo Montalban, a young Mexican star, well-worth watching. Filmed almost entirely in Mexico, and in blazing Technicolor, it is a sight to delight and the name could mean an hour and a half of thorough relaxation and enjoyments for movie audiences. Cyd Sharisse who excels in the dancing scenes adds all her worth to the story, and there are hair-raising bullfight scenes, some exquisite folk dancing sequences and a number of haunting background melodies. This a musical with a story, and one which audiences will enjoy. The beautiful coloring of Mexico adds all it has to the story. The second feature will be "Fear in the Night", another Paul Kelly and Kay Scott thriller. This picture of murder and hypnosis, emerges with a spine-tingling melodrama of murder. Unlike other pictures on this theme, "Fear in the Night" is primarily concerned with the sinister and a man haunted by his dream.

Special Meeting For Jr. Police

Jr. Police Division D. which meets every Wednesday evening at 6 p.m. in Schiller Park, will have a special meeting Wednesday October 22, to which all the fathers and mothers of these boys are especially invited. The object of this meeting will be to make arrangements for a Hallo'ween Party for the boys on Wednesday, Oct. 29.

This division of Jr. Police is under the direction of officers C. W. Stevenson and Ed Mundy and it is the largest in the city, and the boys take a great interest in it, it's chief aim, to curb juvenile delinquency

Mr. Lewis Nexon, 558 City Park Avenue has also given his time and help to these boys, having never missed a meeting which has been over four years ago

Another topic to be discussed at the meeting Octobr 22, is the probability of forming a girls choir among the girls who are the age of the Jr. Police. This should be favorably received as the girls like to be busy also, and of course the Jr. Police is soley comprised of boys.

Parents take little of your time to attend this meeting, you will become enlightened as to the good they are doing, of course as always, there are a few parents who never miss a meeting. Attend. You are very welcome. Become one of them.

Southwood Kindergarten

The second meeting of the Southwood Mother's Club was held on October 3, which proved to be a success. The guest speaker, Mrs. Ashcraft, Red Cross nutrition expert, gave a very interesting talk on "Meal Planning For The Entire Family."

Southwood mothers have great plans for the Kindergarten children. To begin with, a Halloween party is to be given for the children on Halloween Day. Refreshments and prizes are included to make for much fun and frolic for the little folks.

Mrs. M. L. Skobrak is taking registration for the present class of Kindergarten. It isn't too late to enroll your child, so if your child is 5 years of age on or before January 31, call GA 86062 for further information. Registration for the February class are also being taken.

Washington Avenue Church Wedding Scene

Washington Ave. Evangelical Church was the scene of the marriage of Miss Vivian A. Bluff and Mr. Chester L. Short, which took place on Aug. 30 at 7:30 p. m. with the Rev. Boyd D. Rife reading the ceremony before an altar decorated with candelabra, palms and gladioli. The bride is the daughter of Mr. and Mrs. C. F. Bluff, 546 Jenkins Ave., and the bridegroom is the son of Mr. and Mrs. George Short, 764 E. Starr Ave.

A half hour of wedding music preceded the ceremony with Miss Emma Ratcliff as organist and Miss Annis Shepherd as vocalist.

Given in marriage by her father, the bride wore a gown of ivory satin with a portrait neckline and long shirred sleeves ending in points over her hands. The skirt ended in a circular train and her fulllength veil fell from a tiara of orange blossoms. She carried a colonial bouquet of white roses, centered with a lavender orchid. Her only jewelry was a strand of crystal beads belonging to her late paternal grandmother.

The matron of honor, Mrs. Ernest A. Leo wore a gown of dusty rose nylon with a matching hat. The bridesmaids, Miss Diane Bluff, sister of the bride, and Mrs. William Short, were dressed alike in pale yellow nylon, while the junior bridesmaid wore a similar gown in pale pink. The matron of honor carried pale yellow gladioli, edged with pink in cascade fashion while the bridesmaids carried orchid gladioli in cascade arrangements.

Mr. William Savely was the best man and seating the guests were Mr. Ernest A. Leo and Mr. William Short, brother of the bridegroom. Tommy Short, nephew of the bridegroom, was the ring bearer.

A reception in the garden at the home of the bride's parents followed the ceremony. Miss Emmalee Bachtel and Miss Virginia Moridith were hostesses.

Antique Show, Sale At St. John's Parish To Be Held Oct. 21-23

St. John's Episcopal Church, Worthington, Ohio will again bring antique lovers and collectors the "biggest little show in the State". This semi-annual event is sponsored by the Women's Auxiliary of St. John's. It will be held for three days and evenings starting October 21, 22 and 23, Tuesday, Wednesday and Thursday from 11 a. m. until 10 p. m.

Twenty-three well known and well informed antique dealers will show their carefully selected collections including china, glass, silver, old prints, buttons, jewelry and many other treasures dear to the collectors heart.

Priceless pieces of furniture in the much sought after light tones as well as rich mahogany, walnut and cherry will be shown.

St. John's was founded one-hundred forty-four years ago and has a wealth of history surrounding it. Located on the village green it forms an ideal setting for the display of the lovely old articles of the past and is a delight to those of us who are interested in their preservation.

Fourth Annual Mum Show

Mayor James A. Rhodes today announced the formal opening of the city's Fourth Annual Mum Show on Friday, October 17. This will be the largest Mum Show the city has yet had. Over 15,000 plants are being planted in the flower beds around the City Hall and many new varieties are being shown, among them two varieties which will have their world premiere.

Among the many features of the Show will be an Indoor Flower Show in which over forty local florists will participate, with elaborate displays of cut and potted flowers and outdoor Landscaping displays by over twenty of the better nurseries in and around Columbus.

While the Mum Show will open formally Friday, the 17th, the Superintendent of Parks and Forestry, Ray S. Dietz, predicted that if weather conditions remain favorable, many of the mums should be in full bloom by this weekend and the landscaping displays are expected to be completed in time for this weekend.

Mayor Rhodes said that while the chrysanthemum had its origin in the Far East, today Ohio is the leading State in the growing and propagation of mums and it is only fitting that Columbus, as Ohio's capital city, should give recognition to this fact by its Mum Shows, which are already famous through the country and attract visitors from all over Ohio. The Mayor added that invitation to attend the Show are being sent to near-by cities.

In addition, there will also be the annual Art Exhibit sponsored by the Columbus Art League.

East Takes Win From South 27-7

Bengals Prove To Fast For Bulldogs

East came South last Friday nite and went home at 10 p. m. with 27 points, South stayed where they were with 7 points. Before a crowd of about 4,000 persons, East, displaying a pair of flashy backs in Wallace and Agnew had little difficulty in defeating the Bulldogs.

The first 5 minutes the two teams see-sawed back and forth, highlighted by the quick kicking of Ray Dowler, who got off a beautiful punt to the East 20 yd. line, but it didn't phase East's Wallace, two plays later the speedy back out ran the entire South eleven for a, 63 yd. touchdown jaunt. Conversion was good and East led 7-0. Not to be out-done, South started a march of its own, starting from their own 34, Woodward sub quarterback, passed to Raymond for 7 yds., then mixing their plays beautifully they went to the North 39, where Woodward whipped a pass to Ray Dowler for Souths first and only score. Dan Franklin rammed over for the extra point and the score read 7-7.

East then took matters in their own hands and once again Wallace the boy who was a thorn in South's side all evening, broke loose for a 31 yard romp for a score, conversion was good and the score read 14-7. East kicked off to Dowler who made a fine run of 30 yds. Levy then whipped a pass to Linden, South end good for 8 yards, and Franklin on center buck made it 1st down and 10 on the north 40 yd. line. East then held and took over on downs and began a march to the South 20 yard line where South turned the tables and took over on downs. South on three plays went nowhere at all and booted on 4th down to 50 yard line as half ended. The third period started with Levy running back Easts kick off for thirty yds., then Dowler again quick kicked to the East 10. East then fumbled and South recovered on the East 10 but the Bengals then roared and when it was over South was on East's 21 yd. line.

East took over and the Bulldogs started a little growling themselves, holding East and forcing them to punt on 4th down to the South 39 yd. line. Two plays later East intercepted a South pass and wound up on South's 18 yd. line. The Bulldogs again held and took over on downs, South's running and passing attack wouldn't click and they kicked to the East 40. East then went to town and scored two touchdowns in short order, the first came on Bill Agnew's 4 yd. center buck and on a 35 yard run again by Agnew, sewing up the game, the final read 27-7. South played hard tough football but as has been the case all season, they just couldn't seem to click consistently. At times they looked and played like champions at other times they appeared dull and listless, and nothing seemed to go right and at this stage of the season it looks like a good case of inexperience and lack of spirit on the part of some of the players, most of the boys have played their hearts out all season as can be seen by the hard tackling, blocking, and hard running. As to the lack of spirit on the part of a few men, we sincerely hope that we're wrong and that it's inexperience. South at the present has the reputation of being the scrappiest and most spirited team in the league, so even in defeat they've looked good. The season isn't over by far, there's three tough games left, two of them in league play. South could certainly throw the league wide-open with a couple of victories. The South Side is behind you 100% as long as you keep that reputation you've gained, so let's go, Bulldogs, "make with the growl and watch 'em run." P.S. Where did Coach "Red" Trego acquire that red cap? It's St. Marys next so let's everyone by out, the boys need our support.

"ANTU" Wages War On Rats

This month is a good time to start fighting rats on your premises if you are using the new rat poison, ANTU. Latest news on ANTU is that it is more toxic in September than in February. Dr. A. R. Latven and co-workers at the Munch Research Laboratories, Philadelphia, reported this to the recent meeting of the American Pharmaceutical Association.

He pointed out that the poisonous effect of ANTU varied when determined by different research workers and that the different values obtained were in part explainable by the seasonal variation in the response of rats to this compound. White mice, on the other hand, showed no variation in their response to the rodent poison due to the season of the year. Different strains of mice vary in their sensitivity to the chemical, however.

Dr. Latven stated that ANTU depresses the gastro-intestinal tract so that if the ANTU itself does not kill the rodents, they starve to death. Mice and rats both accept ANTU readily and to the same degree, the investigators found.

ANTU was discovered to be a rat poison in wartime researches by Dr. Curt Richter of John Hopkins Medical School. The chemical, known technically as alpha-naphthyl thiourea, comes in the form of a fine bluish gray powder with no perceptible odor and only a very transient bitter taste. It is a highly specific poison for the Norway rat, which is the one most commonly found in cities, towns and farms.

It does not poison chickens, pigeons, rabbits, guinea pigs or squirrels. It can kill cats and dogs but does not do so often because usually the animals vomit before the poison is absorbed. So far as is now known it is not poisonous to humans except in large amounts.

If you live in a town where ANTU will be used, co-operate with the authorities in their survey of your neighborhood to find rat harborages and runways and in removing food for dogs, cats and birds during the poisoning period, so the rats will have to eat the poisoned bait. Keep children away from the bait and keep dogs leashed. — Issue Columbus Citizen 9-22-47 2

South Has Fine Band

Have you seen the South High School Marching Band of 70 pieces? They really are something.

We would rate them the best in the city.

Headed by their snappy drum major, Clyde Smith, in a new white gabardine suit with gold trimming and assisted by 5 pretty drum majorettes, Nancy Eversole Mildred Cordle, Harriet Redrup, Melba Nerny and Dora Schultz in new white gabardine skirts and blue jackets followed by the band in new blue uniforms with gray trimmings they make an outstanding appearance.

Randall Near, the director of the band, can certainly be congratulated, both from the musical standpoint and from the formations that he has developed. The double quick step in marching gives an appearance of snappiness, which shows a lot of practice.

When the state contests are conducted you can certainly look for a lot of prize winners here at South High School.

Children's Party

Watch for notice in next week's Booster for Council of South Side Organizations, Children's Hallowe'en Party, at Schiller Park.

An Open Letter

During the past week the spotlight in the coming election was directed to the Municipal Clerk of Courts race.

Some misguided supporters of the present clerk's office sought to gain voting support by discrediting the war record of Ted Hysell, Independent Republican candidate for the Clerk of Courts race.

It all started when County Prosecutor Ralph J. Bartlett at a ward meeting charged that financial assistance had been offered to the Democratic candidate for clerk in the primary election by Fred T. Hawkes, chief deputy to the present appointed Clerk of Courts.

Mr. Bartlett charged that Hawkes offered to provide the Democratic candidate with $450 worth of advertising if he would "take a crack at Ted Hysell's war record."

Hawkes was forced to admit he had made the offer and in his futile effort to explain he rashly attempted to involve other Republicans and veterans who actually upon investigation, had no part in the plan.

As it was the whole affair turned out to Hysell's advantage. He had at numerous times before stated he intended to conduct a clean campaign. Hysell's "defense" of his war record was simple but devastating. In spiking the idotic statements made by Hawkes he merely pointed to the records and Hysell said

1 . . . "When a man is drafted he becomes a name and a number and goes where his superiors choose to send him.

2 . . . I was drafted from Board No. 1 here in Franklin County before the European War had ended and after serving several months in a local war plant.

3 . . . At no time was a deferment granted to me because of my duties at the war plant.

4 . . . I was 34 years old and had a son at the time. Any man who has left his home and family to enter the armed forces made a sacrifice regardless of where he was called to serve and what he had to offer."

In summing up his "defense" Hysell stated:

"I have been purposely quiet during this campaign because the objectionable practice of mud-slinging is frowned upon. But I now charge that while many of Columbus veterans were serving their country Fred T. Hawkes, now Chief deputy Clerk, was indicted and found guilty in Federal Court of dealing in black market tires. . . according to the municipal charter Fred Hawkes would succeed the present clerk of courts should he resign or pass away during his term of office."

Editor's note: Since Ted Hysell a South High graduate was former Publisher and editor of this paper we think it is necessary to print the above article.

THE RUSSELL—The floor plan of the ADAMS, one of the earliest of the small houses of our present Housing Series, received wide popular acclaim. It seemed to have most of the practical features that so many homebuilders are seeking today. First it was an expandable house that might start off as a four room bungalow and later grow naturally into a two story, three bedroom, six room home. Its simple lines made it not only attractive but economical to build. Its style was early American which remains probably the favorite architectural style of most home building families. It could have a basement or not, depending on personal preference and climatic conditions. It could be built with or without an attached garage. It would fit on a small lot. There wasn't an inch of wasted space. It was a home anyone might be proud to own.

This week in the RUSSELL, pictured above, we publish by request another house with practically the same floor plan as the popular ADAMS. In outside appearance it is entirely different, but equally charming. The RUSSELL shows the influence of early Dutch settlers of New Amsterdam and of the rich Hudson farm country. It features a high pitched roof and a wide front overhang, both characteristic of the Dutch Colonial style.

The inside room arrangement is practically the same except that the house is turned differently on the lot and the plan is reversed. Living room and kitchen are to the front, the two bedrooms in the rear. It is the simplest and cheapest type of expandable house. It provides all needed first stage accomodations for the small family on the ground floor. As the family grows two additional rooms and a second bath are preplanned for the second floor. It is derived from a proven floor plan used by many professional builders who are always on the alert for good practical plans that permit low cost construction. Of course it meets Federal Housing Administration requirements and its electrical plan was checked and approved by the National Auequ Wiring Bureau. Complete archi and specifications—everything needed to build the RUSSELL—may be had by readers of this newspaper for $7.50 per set by writing to Housing Plan Service, 140 Nassau St., New York 7, N. Y. Use the coupon.

On to Next Year

IN THE wake of the world series, a collection of managers, oldtimers and other experts were talking about next year. Last fall at this time the same discussion went on. The question then was — who can head off Boston and St. Louis, Red Sox and Cardinals?

At that time, no one could quite see any challenger in sight. The Red Sox had won in a canter. The Cardinals had overcome a seven-game deficit down the stretch. These were the two teams the world series crowds had to watch.

B. Southworth

It didn't quite work out that way. The Yankees wrecked the Red Sox, and the Dodgers left the Cardinals well behind.

What about next year, again? The majority of the experts once more are picking the two winners to repeat.

"For one thing," a veteran said, "both Yankees and Dodgers have too much reserve strength. This season, neither the Red Sox nor the Cardinals had any reserves to call on — especially in pitching, where they took the big flop.

"Next spring, the Dodgers can report with a young but well-seasoned club, once again fully protected by substitute material. The Dodgers have two or three veterans against a swarm of younger players. Their pitching staff will be, or should be, much more consistent."

"What about the Yankees?" someone asked.

"The same thing goes for them," he said. "They are not as young as the Dodgers are, but they are not too old. Joe DiMaggio still has some time to go. Johnson, Rizzuto and Stirnweiss are all under 30. Lindell and Henrich are not much over. Berra is only a kid. Shea and Raschi are both young. Newsom and McQuinn are close to the end of the road.

"Once again, the Yankees have a strong reserve infielder in Brown. They will need more help than the Dodgers will need. Both Tigers and Red Sox must strengthen a number of spots to get back in the running. They won't do it with the players they have now. Neither will Cleveland."

What About the Giants?

"What about the Giants?" was a natural question. "Two more high-grade pitchers are their first need," the veteran came back. "Walker Cooper and John Mize have time left. Cooper is only 33 while Mize is 34. They are not too young, but they still can hit with anybody. Lockman should be a big help next spring to an already strong outfield. The Giants need pitching more than anything else. They have a star in Jansen, who proved what a good pitcher could do with all that run-making power to help him along.

"Boston will be even tougher next year as Billy Southworth gradually is working his way to another pennant. Two pitchers such as Sain and Spahn can't be overlooked. Neither can Southworth. He still needs another top-ranking pitcher.

"The Reds will be better, but they have a long way to go. I can't see much hope for the other clubs. Most of them will have to be rebuilt around the three or four good ball players they have.

"Pittsburgh has shown how tough it is to get good ball players today. They are willing to pay any reasonable or even unreasonable price for someone who can help. But where can they find players, except from farms? With attendance what it is, no one is going to sell a good ball player today.

"The Cardinals have a lot of rebuilding to do. The regulars are getting older. Moore will be 36 and Slaughter will be 32 next spring. Marion is only 31. They still can be dangerous challengers, with one or two additions."

Last fall, it was the Red Sox and the Cardinals. Both took a hard beating. It may happen again, but for the moment at least, the Yankees and the Dodgers get the call.

* * *

Crowds and Stands

Only two teams can crash into a world series. This year it was the Yankees and Dodgers. In 1946 it happened to be the Red Sox and Cardinals. In neither case was there any possibility of accommodating the crowds that wanted to see these two events.

There are now only three sizable major league parks in baseball. They are Yankee stadium, Briggs stadium and the Polo grounds. They range from 72,000 to 55,000 and 54,000. Of the 16 major league clubs, at least 12 can pack in only something like 35,000.

The main point is that baseball interest has far outgrown the old-fashioned stands of past years. The main crime happens to be in Brooklyn. Here we have a 35,000 park, that day after day could play to some 45,000 to 70,000 customers.

Seen And Heard On The South Side

Al Kursten, owner of Dangler's Restaurant, was up on a ladder cleaning the ceiling the other day when we stopped in. We never expected to see him up in the air.

Orval Furniss, who has held numerous offices in Southway Post American Legion is in Mt Carmel Hospital recovering from an abdominal operation.

* * *

Harry Sells has just returned from a vacation in Florida. We haven't heard his fish stories yet, but we bet they're doozies.

* * *

The Hysells are expecting a new youngster soon. Of course you remember Ted Hysell, who was former Editor of the South Side News, which is now the South Side Booster.

* * *

Judge Rodney Ross, former South High teacher, has joined the South High Boosters Club.

* * *

We understand a certain chain store operating on the South Side is putting out hand bills.

Don't be fooled your independent grocer has their prices beat because not only does he sell you nationally known brands but also he gives you full packed cans, full weight vegetables and first grade meat at below chain store prices.

* * *

The Grubb family are expecting a new addition to the family. Eddie Grubb used to be one of the South Side Booster carrier b

Of Eddie is equally as proud of h... ...ew youngster as he is of his first one the South Side won't hold him.

Every time he drops in our office the stories go on and on and on about his boy.

Kennel Clubs Skate For Loud Speaker

"Skate with the Kennel Club at Rollerland" is a familiar caption at South High School this time of year. The club's annual skating party will be held Monday night, Nov. 10. On the air at South yesterday was the following ad:

"Novermber the 10th—reserve that date. No school next day—you can stay out late and skate with the Kennel Club, and skate and skate at Rollerland. Such a litte expense! Only fifty cents!!

This club which is back of South's athletic program all the way, will give the proceeds of the skating party to establish a fund for a loud-speaker system for the football field. Alumni and all South boosters are urged to support the project. Tickets may be obtained from any Kennel Club member. The puppies in the adjoining cut belong to Jack Myers, 367 Sheldon Ave., a former Kennel Club member who graduated last June.

Meet The South Side Clergy

This week in our series of South Side Clergy, we are introducing to you Rev. John Wiley Clutter who was born at Rockford, Mercer County, Ohio. He graduated from Ohio Wesleyan University with a degree of Bachelor of Arts. His degree of Bachelor of Sacred Theology was received from the Boston University, School of Theology from which he graduated in June 1921. Later while he was in a pastorate in Cincinnati, Ohio he attended the graduate school of the University of Cincinnati on a two year scholarship.

Following part of the years at Ohio Wesleyan Rev. Clutter taught two years in Puerto Rico under the direction of the War Department.

After his graduation from Boston University he entered into Spanish work as pastor of the First Methodist Church (Spanish) at Albuquerque, New Mexico. Later going into English work.

For several years Rev. Clutter held pastorates in different parts of Ohio and he is now in his third church of Columbus, having been for a year associate pastor of Bexley Methodist Church and for four years he was at West Park Methodist Church. Rev. Clutter is now in his sixth year at South Methodist Church.

His hobby has been remodeling building new churches or parsonage houses, debt raising in connection with his church work.

His personal hobby is tinkering with his automobile, for recreation.

Rev. Clutter says, "I am in the pastorate and like it for its many sided phases. Not many dull moments enter into this kind of work, but many faces, and many difficult things. I like people and want to make them see their need of God.

He is married and lives with his wife at 165 E. Morrill Avenue. He has a married son in Minneapolis and a married daughter living in Marion, Ohio.

Rev. Clutter is a good mixer, a teller of good stories and one of the best liked ministers on the South Side.

Thought for the Day

We doubt there is sufficient reward on earth for those who, unsolicited, come to the aid of one in distress.

Victory Campaign Launched Nov. 2

Rev. & Mrs. Rinebarger

The "Victory Campaign" launched in the Parsons Avenue Church of the Nazarene last Sunday will continue thru Nov. 2. Rev. and Mrs. C. C. Next Sunday, Oct. 26 is Homecoming Rally Day in both Sunday school and church. All who ever attended Parsons Avenue are cordially invited to be there Sunday. The Rev. Mrs. W. E Zimmerman, of Marion, Ohio, who assisted her husband in the founding of the church will be present Sunday and speak to the church school group. Miss Mary Endres Married At St. Mary's

Blush pink satin was the shade worn by Miss Mary Helen Endres for her marriage to Mr. Anthony Straquadine on Sept. 18 at a nuptial high mass performed by Father Michael Wellnitz in St. Mary's Church.

The bride's gown was styled with a high round neckline, formed by a sheer yoke, and an off-the-shoulder effect was made by a shirred bertha. The long tight sleeves ended in points over the hands. A bouffant skirt was gathered to a basque bodice and extended into a full circular train. She carried white carnations in a heart-shaped bouquet. Her blush pink fingertip veil of sheer illusion was caught by a scalloped coronet of satin, trimmed with orange blossoms. The veil had been worn by the bride's mother, Mrs. Adam Endres, 838 S. Third St. Mr. Endres gave his daughter in marriage.

Married At St. John's Church

In a formal wedding ceremony on October 1, Miss Rose Rinella, daughter of Mr. and Mrs. Joseph Rinella, 368 N. Grant Ave., was united in marriage to Anthony J. Mangia, son of Mr. and Mrs. Joseph Mangia, 895 Studer Ave.

The double ring service and nuptial high mass was read by Rev. Father Patracca at 9.30 a.m. in the church of St. John the Baptist in the presence of a large gathering of relatives and friends. Palms and ferns decorated the church altars while lighted candelabra marked the pews.

The bride, given in marriage by her father, wore a wedding gown of Skinner satin. Style details were an illusion yoke, bordered with sequins and seed pearls and a bustle skirt. Her full length veil was held by a crown of sequins and pearls. She wore a pearl necklace, a gift of the bridegroom. She also carried a white prayer book from which fell satin streamers and orange blossoms and mother of pearl rosaries, given to her by an aunt in Italy.

The bride was attended by her sisters, Mary Rinella, as maid of honor, and Mrs. Paul Capone, as matron of honor. Bridesmaids were Mrs. William Baptista, another sister of the bride, Mrs. Kenneth Winkler, sister of the bridegroom, and Theresa Sberna, both from Bellevue. Salvatore Mangia attended his brother as best man. Ushers were Mr. William Baptista, Joseph Mangia, Anthony J. Purpura and Francis Purpura. Mary Jo Stewart, niece of the bride, was miniature bride, while Roland George acted as miniature bridegroom.

The attendants wore white taffeta gowns, styled with tight bodices, bustle skirts falling from fitted waistlines. They wore matching head pieces and lavaliere and earrings, gifts of the bride. Their flowers were red roses.

Mrs. Rinella, the mother of the bride, wore a navy blue dress with blue accessories and Mrs. Mangia, mother of the bridegroom, wore a black dress with black accessories. Both wore gardenia corsages.

Later a dinner was served to 100 guests at Presutti's Villa. In the evening a reception was held at K. of C. Hall for 300 guests. The bride and bridegroom will reside at Santa Monica, Calif., after October 30.

The bride changed to a gray gabardine suit with black accessories, before they left for a short trip to the east.

Ladies Auxiliary Supports Blind

The Ladies Auxiliary of the Lion's Club was organized in 1925 for the purpose of supporting the Lion's Club of Columbus in Civic and welfare work among the blind. Membership is composed of women from the families of Lion Club members. They work in conjunction with the Ohio Commission for the Blind. Their purpose is to bring the blind the greatest service, entertainment and happiness possible in so far as the available time and authorized money will permit. Each member has adopted one or more "little sister" from the Blind School. Many give time each week to visit the school and read to the children. Parties are given nearly every month for the children at the School. One of the pet projects of the Auxiliary is their work at Monett House. The last two years the Auxiliary has completely rebuilt and refurnished the kitchen. The big undertaking this year is our plan to establish a rotating Loan Fund similar to a Scholarship. The Auxiliary stages one large event each year to raise money to continue their work with the Blind. This year a dance will be held October 31 at Seneca Hotel. For those not interested in dancing, rooms for cards will be available. Patrons tickets or dance tickets or any other information may be obtained from Mrs. Earl Gheen club president or Mrs. B. F. Michels general chairman of the dance.

Red Cross Nurses Training

A Red Cross volunteer nurse's aide training course will be given starting Tuesday, November 4. The 80-hour course consists of six weeks of classroom work followed by 45 hours of hospital training.

The class will meet twice weekly on Tuesdays and Thursdays and is open to women 18 years of age or over. Volunteers who have already registered for the class are asked to get their physical examination reports in as soon as possible.

The necessity for Red Cross to train more nurse's aides is due to a request from hospital officials for this service. If all requests are met by the Red Cross, 200 more women are needed. There is still a shortage of nurses and a request for this service is also being met at the Columbus Cancer Clinic.

More than twenty Red Cross nurse's aides are working with the polio patients at Children's Hospital.

To enroll in this volunteer nurse's aide class, call the corps chairman, Mrs. George C. McConaughey, 2179 Fairfax Road; vice-chairman Mrs. Frank J. Connor, 1663 Bryden Road, or Red Cross Headquarters, Ma-8841. Arrangements will be made for a personal interview.

Club Alexander

This week the Club Alexander has an all star revue led by the imitable Herby Burke, emcee, who is both a comedian and acrobat. The revue starts off with a bang.

Assisting Burke, are Gustine, a sweet singer of songs, Betty Fellow a tapster of merit and Bonnie Baer, who does exotic and Hawaiian dances.

This is a well balanced revue with plenty of zip and go and the Club Alexander has a show well above average in this billing, this week.

Ideal Theater

This Sunday and Monday the Ideal Theater presents, "Wild West" featuring Eddie Dean and his horse Flash. It is a story of a battle for justice and civilization. This time it is fight to get telegraph lines through against the opposition of local racketeers. There are plenty of Indians woven into the plot. Of course there are four songs in the Dean manner. A truly bang up show in color.

Also playing is "Fun for a Week End" with Priscilla Lane and Eddie Bracken and a cartoon.

Champion Theater, Friday and Saturday

"COPACABANA"
Groucho Marx and Carmen Miranda

The main feature at the Champion Theatre this Friday and Saturday is COPACABANA starring Groucho Marx and Carmen Miranda. This combination is terrific! They are riotously noisy and riotously funny. For added value we have Andy Russel, Gloria Jean and Steve Cochran and all the glamor that has been attached to the Copacabana Night Club from New York to Kankakee. We catch glimpses in the picture of the columnists, Louis Sobol, Earl Wilson and Abe Green, and there are half dozen or so songs sung as only Miss Miranda can sing them. Groucho is strictly Groucho and gets his best laughs by appearing the sanest and most logical figure in a topsy-turvy world. Companion attraction is THE STORK CLUB starring Betty Hutton and Don Defore. This is an old favorite with everyone, and one of the best things Miss Hutton has ever done.

CHAMPION THEATER SUNDAY, MONDAY

"Living In a Big Way"
Starring Gene Kelley and Marie McDonald

LIVING IN A BIG WAY is the main feature scheduled for the Champion Theatre next Sunday and Monday. Starring Gene Kelly and Marie McDonald, Kelly really shows us what magnificent footwork is. His dancing is perfect and carries the whole story from beginning to end. Kelly's routine of dancing with the statue of a gigantic woman in the courtyard of an incompleted building to an audience of delighted children; his dancing with a dog; and his other difficult dance numbers are enough to win the praise of any audience. Included in the cast is Spring Byington playing another of her flighty characterizations; Charles Winninger, and Phyllis Thaxter. Second attraction will be THE WEB, starring Edmond O'Brien and Ella Raines. This is a straight-forward mystery story without any psychiatrical, mystic, morbid or shocking phenomena about it. It tells a straight story about a cunning murderer's all but successful career, giving solid entertainment every member of every family can enjoy. The picture is among the best of its kind and has been finely produced.

Everyone will take part.

—R—

Our thots are being turned, once again, to Hallowe'en. From an adult point of view we could probably dispense with this celebrating. However, we will have to admit that the children can have a lot of good wholesome fun if we are willing to give sufficient time to train them in preparing for it.

Reeb Avenue School, being anxious to contribute in any way that will help in good citizenship training, has conducted a Hallowe'en Parade for a number of years. Before this is done, there is quite a lot of preparation made in each and every room that participates. Each room has talked the Hallowe'en situation over and agreed that they will do no Hallowe'ening until the evenings of Oct. 29th, 30th and 31st and that they will be careful not to damage any property while they are having their fun. The parade is being conducted as an incentive to young folks to let them know that we are willing for them to have harmless fun at the proper time.

Our line of march will be: Leave Reeb front door at 1:30, going west to S. 4th; north on 4th to Woodrow, east on Woodrow to Parsons, south on Parsns to Reeb, and west on Reeb to the building.

A $.50 prize of U. S. Savings Stamps will be given the pupils having the funniest and the one having the prettiest costume in the five lower grade rooms and the same prizes will be given to the middle grade rooms and the upper grade rooms. Immediately following the parade each room will select its funniest and prettiest costume and then Miss Christie Zollinger, 811 Kelton Avenue will be the judge to determine who receives the prizes. Miss Zollinger is a former teacher in the Columbus Schools, working with Mr. Callahan at Siebert St. School, for several years. She is now acting as a member of the Board of Control for the South Day Nursery.

Eatless, Meatless, High Tax Harry

Truman's plan for America:

"1—Use no meat on Tuesdays,

"2—Use no poultry or eggs Thursday,

"2—Save a slice of bread every day."

If Mr. Truman can have his way your Thanksgiving dinner will consist of one: Crabless crab; one generous helping of sugarless cranberries; one half slice of wheatless bread; three glasses of iceless water and three podless peas.

The New Deal has been fooling the American people for 16 years but Lincoln said: "You can't fool all the people all the time."

When Hoover left the White House there were 5 Million out of work.

When Roosevelt got us into World War 2, 30 Million people were Ill Fed, Ill Clad and Ill Housed in the United States, so said FDR. Roosevelt said: "Again and Again and Again, that your boys would not fight on foreign soil. (Fooled again)

The New Deal killed the little pigs to Raise Prices so Truman could have Meat-Less Tuesdays and Thursdays for You (Fooled again) The New Deal burned thousands of bushels of potatoes in the fields to Raise Prices, Create Shortages so they could force back rationing on the American workers and set up a Snooper government with millions of Snoopers on the government payroll before the 1948 presidential election. Are they Fooling you again? Don't let the New Deal fool you into a Regimented Dictatorship.

Is Truman's plan to fight communism in Europe just a smoke screen to cover up communist activities in the United States? Is the New Deal seeking a presidential candidate pledged to destroy America and reduce the American people to the Asiatic level of baggery where they can be governed by the chosen few, in an atmosphere of Universal Poverty?

Present conditions in America were Planned that way by the Truman New Deal. Why should we rob our children of one slice of bread each day? Why should we go hungry when the New Deal has potatoes to burn? Send the New Deal back to Russia and elect a president in the United States in 1948 who believes in helping America First and then we will not need the slogan:

"Use No Poultry and Eggs on Thursdays." — Observer

Meet An Outstanding South Side Citizen

Mrs. Anne Stephens is the first woman we have had the honor of running in this column.

Mrs. Stepheson operates her own millinery and accessory shop, known as the Anne Stephens Store at 1863 Parsons Ave., which she has operated for the past 6½ years.

Anne was born here on the So. Side and when she went to school she was called Annabelle Borchers by her teachers at Siebert Street and South High Schools.

Ann who is artistic, when going into business, naturally went into making and selling ladies hats where her art could best be used.

We asked Anne about her hobbies and she said they were raising English bulldogs and flashlight photography.

Ann is a member of the Pilot Club and the ladies chorus of the Columbus Maennerchor.

Anne and her husband, Brent Stephens live at 1328 W. Mound Street. Anne also has a son, Chalmers Wilson III who is in the Navy stationed at Guam.

A party asked, the other day, what we liked about Anne Stephens, and we replied "Her charming sunny disposition, her love of good jokes and the ready repartee when you start kidding her."

For those who haven't visited Anne Stephens Shop, and met her, and seen the beautiful hats and accessories she carries, well, they have certainly missed a treat.

Barrett School Events Of Interest

Forty-eight pupils had an exciting evening of games, stunts and dancing last Thursday when the Barrett P. T. A. honored the winning rooms 305 and 206 in the membership drive.

Room 305 under Mrs. Thompson took first place in the recent Barrett Parent Teacher's Association membership drive. Miss Wallace's home room, 206 took second place. The association had promised the two top rooms a party.

Mrs. Fred Basler, president of the Barrett P. T. A., and Mrs. T. W. Peterfish, membership chairman planned and arranged the party. They were assisted by Mrs. Harold Goodrich, 305 home room mother, Mrs. Roy Huiss and Mrs. Charles Loudermilk, room mothers for 206.

Following the activities the entire group sat down at a long table where refreshments were served with plenty of fun and song.

Joe Miller, Bob Call, Buddy Brown and Robert Harris won a 440 yard relay race against three other Barrett teams Friday morning with a time of one minute and three tenths seconds.

Willard Brumfield took the half mile in three minutes and five tenths seconds while Clyde Huston came in second place.

Buddy Brown won the hundred yard dash against four other contestants. Don McMillan came in second.

These track events were held during the Activity period at Barrett J. High under the supervision of Mr. Koterba last Friday morning.

The Halloween Costume dance at Barrett Jr. High will feature Walt Schumm's Orchestra, October 31 from 7:30 to 10:30 p.m.

The dance will be open to all teen-agers in the South Side.

No masks are to be worn but prizes will be given for the two outstanding costumes.

Walt Schumm's thirteen piece orchestra will play instead of the Gremlins.

Refresments will be on sale.

Mother And Teacher Candidate For School Board

Mrs. Mary K. Jugel independent candidate for the Columbus Board of education, on the November 4th ballott, is the wife of H. N. Jugel and the mother of two children, Marcia 14 and Mary Franke age 6, and resides at 271 Brighton Rd. Mrs. Jugel a graduate of O. S. U. teaches French and English at Powell High School.

Mrs. Jugel was born in Lehigh County near Allentown, Pa. and was the ninth of twelve children, she came to Columbus to make her home when her husband was transferred here in 1936.

Besides caring for her family and home and her intersts in education she finds time to be a member of the Players Club of Columbus and aid in the choral and dramatic reading project of Girl Scout troops 45 and 96 Clintonville. She is a member of the Wilson Ave. Ev. and Ref. Church, the Clintonville Woman's Club, the Ohio Education Association and the Ohio State Alumni Association.

She has entered the race for School Board because she feels she understands the problems of the parents; has experience in the school as a teacher and is interested in the children. It is her firm belief that it is a challenge and a duty for a woman to serve in such a capacity and if elected will serve to the best of her ability on the board. The growing school population, she thinks necessitates more buildings and smaller classes in order that we may get away from our present tendency to teach too much for average intelligence, and allow more time for the individual needs of the fast or slow learning pupil.

Mrs. Jugel has the endorsement of "Cap" Miles V. Hoover of the South Side YMCA.

"The Cathartic Habit"

● Too many people are influenced by stories concerning "intestinal cleanliness" or "stimulating the flow of bile." Many cases of simple constipation do not require a laxative at all, but only a minor change in diet and habit.

The habitual use of cathartics is dangerous. Such misuse is often followed by chronic ill health. Strong laxatives are particularly dangerous when taken to relieve abdominal distress. The source of the pain should always be accurately determined by your physician. The safe procedure is to consult him. If a laxative is needed, he will prescribe a safe preparation with proper instructions for dosage. Then bring your prescription to us for expert compounding.

ST. MARY'S WALLOPS SOUTH 26-0

South Is Helpless Against St. Mary's Terrific Attack

What was to have been a see-saw battle between the two South Side Schools turned out to be a rout, last Thursday evening. St. Mary's producing a terrific running attack, completely out played a hapless South team. The 1st quarter opened with South kicking to St. Mary's, in 3 plays St. Mary's made a 1st down, South then stiffened and forced St. Mary's to boot to South's Levy who brought it back to his own 40 yd. line, Franklin and Dowler combined to make it a 1st down on St. Mary's 45. Woodward and Dowler then carried to St. Mary's 25 yard line, in 4 plays South could go no place against St. Mary's fine defense and St. Mary's took over. St. Mary's made a 1st down on the fine running of Kurelic and Donnelly in three plays were forced to boot and it was South's ball on the St. Mary's 37 yard line. In two plays they made no gain. Levy then attempted a pass and Donnelly intercepted, making it St. Mary's ball on their own 40 yd. line, on the 1st play Sergio made six yards, Kurelic then carried for a nice gain to the South's 31 making it 1st and 10 for St. Mary's. Three plays later they were on the South 26, South held and took over. Dowler on a fine run made 20 yards and a 1st down on their own 45, St. Mary's again proved too strong and forced South to kick, St. Mary's then started it's first of a series of touchdown marches. Combining a fine running and passing attack they scored, making it read 6-0. Neither team was going any place as the 1st half ended.

St. Mary's came out for the 2nd half with a determination to show South some really good foot ball and they did just that, the running attack of Kurelic, Donnelly and Sergio was slightly less than terrific, sweeping the ends and through the tackles almost at will, South at this point was a completely de-moralized team and as the 3rd period ended the score read 19-0 and no let up on the part of St. Mary's. The 4th period started and before many minutes St. Mary's again scored on a fine pass from Donnelly to Kurelic making it read St. Mary's 26 and South 0.

Both Coaches then swept the bench and it wound up in a battle of the reserves and we do mean a battle too. It wasn't the best football ever played at South, but it was one of the roughest, with penalties being handed out left and right against both teams, in fact the referee carried the ball more than either team. it looked like one or the other of the teams was going to score via the penalty route as the game ended.

St. Mary's played a splendid game, they gained a well earned victory, in fact it was one of the best examples of team play we've seen all season. The half time ceremonies were very good, the South band put on it's best show of the season. every South Sider should make it a point to see this band in action. The kids are really good and each week shows a marked improvement. I wish we could say the same about the "Football Team."

Next week it's Central at Central Field, let's everyone get out to see this game. It's really worth your money to see the band go to town during the half time ceremonies.

DONNELLEY RIPS THRU SOUTH FOR GAIN

Spence For Clerk

Voters of the South Side will have an opportunity to vote for P. W. Spence for Clerk of Municipal Court who is a candidate to succeed himself in office.

Mr. Spence, a former committeeman was a resident of the first ward for twenty-one years, and was always active in all civic affairs.

Mr. Spence has had a long record of service in the office, having been Chief Deputy to the late Arthur J. Blosser whom he succeeded. The Municipal Court handles tens of thousands of criminal and civil cases: the work is highly technical and requires considerable skill and ability to administer. The lawyers of the community and the judges realize the importance of the Clerk's duties and all five of the Columbus Judges have unanimously endorsed the Candidancy of Mr. Spence.

The Columbus Federation of Labor, after a thorough study of the office and the candidates for the office, endorsed Mr. Spence and recommended his retention.

Since assuming the office of Clerk of the Municipal Court, Mr. Spence has made six appointments, five of these have been World War 2 Veterans. In recognition of his ability, the Executive Committee of the War Veterans Republican Club of Franklin County desiring the continued, Capable, Service in the office of Municipal Court as given by P. W. Spence, and recognizing his interest in War Veterans, unanimously endorsed Mr. Spence for the Election of Clerk of Municipal Court.

Since taking office as Clerk, Mr. Spence has revamped the bookkeeping and filing system, and his Half-Sheet Record of cases has elicited wide commendation. By introducing a new system of Cost Collections, he has increased the Revenues in the Clerk's Office considerably.

"If re-elected," said P. W. Spence, "citizens of Columbus can be assured of the same economical, efficient and courteous service which characterized my tenure in the Clerk's office."

Tarbutton Protests Alley Conditions

Election of George Tarbutton to City Conucil in the forthcoming Municipal Election will insure a forthright, honest and energetic presentation of the following critical problems new confronting the city. Veteran's Housing will be one of the most important problems to receive the attention of City Council and every effort will be made by Tarbutton to put this problem ahead of all others. Tarbutton is a veteran of about four years service in the Army with three of those years overseas where he was always aware of the problems of the common soldiers. Since returning to the practice of law, Tarbutton has revealed a continued interest in the problems of war veterans and their readjustment to civilian life. Tarbutton has stated on numerous occassions throughout his campaign that the most urgent confronting veterans is Housing and feels that all other veterans problems are closely related to their individual housing problems.

Another problem that has received considerable attention from Tarbutton during this campaign is the condition of the various parks and playgrounds of the city. An overall recreation program for all sections of the city is strongly advocated

The present condition of streets and alleys has been assailed by Tarbutton with criticism of the present administration for announcing the same repairs and improvements with big newspaper stories and no action. The same streets have been announced as part of different projects, with no repairs on any of them.

Tarbutton served overseas with the Army in Africa, Italy and Germany for about three years, he has law offices in the Huntington Bank Building and lives at 2917 Crescent Drive with his wife and daughter, Ann.

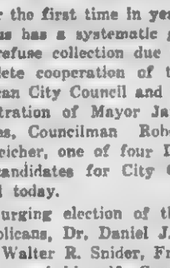
R. T. Oestriecher Endorses State



For the first time in years, Columbus has a systematic garbage and refuse collection due to the complete cooperation of the Republican City Council and the administration of Mayor James A. Rhodes, Councilman Robert T. Oestreicher, one of four Depublican candidates for City Council, stated today.

In urging election of the four Republicans, Dr. Daniel J. Whitacre, Walter R. Snider, Frank H. Kearns and himself, Councilman Oestreicher pointed out that when the Republicans took over control of Council and the Mayor's office almost four years ago, they found rubbish had not been collected in many sections for more than five years.

"Despite a shortage of labor and insufficient number of motor vehicles and the poor condition of most of the city's rolling stock," Councilman Oestreicher said, "a program was developed and today there are 30 rubbish and 30 garbage trucks making regular collections."

Oestreicher, Dr. Whitacre and Snider are incumbents and Kearns is seeking return to council after an absence due to service in the Navy during World War II.

Veterans Indorse Hysell And Hoermle

WILLIAM HOERMLE

The South Side War Veterans Non-Partisan League today announced the indorsement of Ted Hysell for Clerk of the Municipal Court and William P. Hoermle for City Council.

Officers of the League are Walter Shott, Pres., Charles Mileusnich, Sec'y., and Frank Dodson, Treas

Mr. Shott stated, "South Side voters should support Hysell and Hoermle as they are ably qualified to give the best in public service in the coming years."

Ted Hysell, a South High graduate, was inducted into the service from Board No. 1 on South Parsons Avenue. He is qualified for the office he seeks by seven years experience in the Clerks office before entering the armed forces.

TED HYSELL

William Hoermle, a successful South Side business man gave many hours of his own time to aid our community's war effort. He is civic minded and has interested himself in the city's progress and development and now seeks to serve in our City Council."

VOTE YES

The fire fighters of Columbus are pleading with the voters to make possible a reduction of working hours for them. This can be done by the voters marking an "X" before the "Yes" on the ballot, on Tuesday, November 4, and changing the section in the City Charter. At the present time the firemen work seventy-two hours per week, twenty-four hours on and twenty-four hours off, but subject to call in case of a catastrophe. This necessitates the preparation of meals at the fire house at their own cost, and experiencing many other inconveniences. No other city employe is required to give that many hours per week.

The duties of a fireman are hazardous, and the work of fighting a fire has often proven a physical and mental strain. A perfect physique is one of the requisites, and men cannot fill the requirement. The wages paid are not in keeping with the demands.

While we, as men and women, are having our working hours reduced, we should not be unmindful that the firemen have a perfect right to expect us to give them the same consideration.

Help these men and their families to have some of the better things of life. Vote "YES."

Employers Must File Reports

Columbus, Ohio, October

Frank J. Gillespy, administrator of the State Industrial [illegible] ment Compensation Law, announced that employers [illegible] being subjected to a new penalty under the Ohio law must file their quarterly contribution reports no later than midnight, Friday, Oct. 31.

The penalty, which was written into the Unemployment Compensation Law at the last session of the General Assembly, provides That any Ohio employer, subject to the Law, who fails to file his contribution report within the time set by the administrator, shall have his contribution account increased [illegible] due to circumstances beyond the employer's control

Such an increase, [illegible] would amount to $5 for contribution reports that are not more than [illegible] plus an additional $5 for each additional 30 overdue days or fraction thereof. The maximum penalty for a single violation is $25. Covered employers throughout the state have been sent letters explaining the new penalty in detail.

Moose Lady's Meeting Friday

Mary F. Weiler College of Regents Chairman of the Women of the Moose Chapter 206, is calling a meeting on October 31st in the evening at her home 585 Reinhard Ave. All college members please attend.

Support For Trantham

Homer Trantham, 120 Overbrook Drive, is asking residents of the south side for their support for one of the four vacancies on the Columbus Board of Education at the November 4 election.

Mr. Trantham states that he has no ax to grind and that he is not advancing any pet ideas, reforms or innovations. He believes he will, therefore, be in a better position to consider open-mindedly and objectively the many matters that will come before the Board and to do a good all-round job for the schools.

Columbus schools, it is pointed out, are big business requiring a 1948 operating budget, exclusive of debt charges, of $6,962,550 and employing 1910 teachers and others workers in its 74 buildings valued at $17,516,038. Mr. Trantham believes that his business experience as a practicing attorney in Columbus for the last 23½ years will enable him to render valuable service to the schools.

Mr. Trantham is a member of the Board of Trustees of Tenth Avenue Baptist Church and Chairman of its Finance Committee. He was formerly superintendent of its Sunday School for many years. He served as an aviator in World War I and is a member of the American Legion, all masonic bodies and the downtown Lions Club. He resides with his wife and two grown foster sons at the Overbrook address.

RHODES ANNOUNCES INTENTIONS FOR SOUTH SIDE

On occasion we have criticized the present City Administration. We realize that no City Administration can satisfy all people and all demands and honor every request that is made of it.

At a recent meeting of the Council of South Side Agencies Mayor James A. Rhodes, in a forthright speech outlining the aims and objects of his Administration, cited the mess in which the City was in at the time he became Mayor. He followed through with the steps taken to put the City's house in order. He then produced the plans that are being made for the betterment of the City. At this meeting he invited and answered every question concerning the City's business and the conduct of the Office and how it affected the South Side.

Without pulling any punches he showed how the Suburbs, like parasites, were living off the City and contributing little to the City's up-keep. He spoke of the vigorous steps he had taken to force the Legislature to act to return to the cities a just portion of the great sums of taxes collected in the Cities.

He revealed the plans for improving Schiller Park and overhauling the antiquated conditions in the Shelter House. He cited the Greenlawn Avenue Park where new baseball and recreation fields soon will bloom. He pointed out the street improvements that have been made in the South end. His fight for better transportation services extending Whittier Street lines, Frebis Avenue lines, etc. He brought in some of the intimate details connected with getting the million and one-half dollars out of the Columbus & Southern Ohio Electric Company for franchise fees for using our streets.

In the over-all Sewer Program the South Side has gotten many badly needed sewer lines.

Obviously the South Side has also benefited by the many other City-wide public improvements that have been made such as the: Crime Laboratory, the Health Clinic, the Flower Shows, Water Works Improvements, etc.

We believe that the progress that has been made by the City of Columbus under the capable leadership of Mayor James A. Rhodes merits the thoughtful consideration of all South Side citizens, Democrats and Republicans.

THE UNDERWOOD—Not a hint of the commonplace can you find in this attractive, four room cottage. The UNDERWOOD is a mellow house, pleasantly flavored with English cottage characteristics from the dove cote on the front gable to the hospitable trellised porch with its wide, deep seats. It's a warm, friendly kind of a home with its huge squat chimney the focal point of the exterior and the cosy brick fireplace the family center of its well-planned interior.

The little gable with flush siding above the entrance door gives the house the impression of clinging close to the ground, a desirable characteristic of the cottagey type of architecture. Its wide bay of casement windows brings in light and air and add an unusually attractive note to the exterior. The large covered porch, 15 ft. long by 10 ft. wide, invites comfortable, outdoor living. A garage may be attached to the opposite side of the house to balance the porch if desired.

The UNDERWOOD working drawings show a conventional, full basement with plenty of room for laundry tubs, storage, work shop or for a game room in which the youngsters can entertain their guests.

The living room is not large but ample. It is meant to be supplemented, whenever weather permits, by the porch that opens off it. The kitchen is the efficient straight-line or corridor type. The bedrooms have two-way ventilation. The childless couple or the family whose children have married and started homes of their own might very easily convert the front bedroom into a dining room or combination dining and guest room. In such a case it should have a door opening into the living room. If it is to be used solely as a bedroom this door should be left out.

As with all the plans of our Housing Plan Series, the UNDERWOOD was designed to comply with the requirements and standards of the Federal Housing Administration. To insure convenience, efficiency and safety in its electrical installation, the wiring plan has been checked and approved by National Adequate Wiring Bureau. Complete detailed blueprint and specifications from which this home may be built are available at $7.50 per set from Housing Plan Service, 140 Nassau St., New York 7, N. Y.

Settlement Opens Fall Season

On Tuesday, October 22, the South Side Settlement House, formerly opened its fall session with a dinner for many prominent South Side people and other people of importance including the Honorable James A. Rhodes, who was one of the speakers.

Rhodes, in his talk to the group made one remark which we think should be passed on to you when he said, "For 17 years the South Side Settlement House has been serving the people of the community. Thru its doors have passed boys and girls who have since become leaders in professions and industrial life. If it had not been for this place many of these boys and girls might have ended in a far different place in life. There is a need for many more settlement houses."

The South Side Settlement, work is in charge of Mrs. J. H. Barden, who has a staff of 10 people.

GO FORWARD COLUMBUS!

BY RE-ELECTING THESE DEPENDABLE MEN

For Mayor

James A. Rhodes

These Men are giving to Columbus a clean, honest, efficient administration. Every citizen can remember back during the past fifteen years and recall disturbing crisis after crisis because of incompetent city officials.

Now for the first time in many years, Columbus is fortunate in having men with vision, courage and ability to run the city government and to intelligently plan for its future.

Their retention and re-election made possible by YOUR VOTE on Tuesday, November 4, 1947, will insure the forward progress of your city. Their records are based on PERFORMANCES, not PROMISES.

South Side Y Football League

The "Marshmallow Softies" bowled over the "Bargainers" eleven 20 to 6 to win their first game in the Heavyweight Class of the South Side YMCA Community Boys Junior Football League, played Wednesday October 15 at Southwood field.

The "Softies" scored their first touchdown on a nine yard end run by Willard Brumfield. John Kirby plunged the center of the line for the extra tally.

Don Cannaday returned the opening kickoff at half for 50 yards. Two plays later he scored on an end run. Being a penalty on the play, the extra point was no good.

Later in the third quarter Rowell tossed two consecutive passes to Brumfield who carried the ball to the Bargainers one yard line. Dale Rowell scored on a quarterback sneak. The pass for extra point was incomplete.

Quarterback Rowell, playing an outstanding game, intercepted a Bargainer pass and returned it to the fifteen yard line in the fourth quarter. Kirby passed to Brumfield for the touchdown. Bob Call plunged the line for the final point.

The Bargainers made a late fourth quarter threat but was halted by a pass intercepted by Call.

A light but speedy "Brown Bomber" team won from a heavier "Buckeyes" eleven by a score of 19 to 0, in the first game of the "heavyweight" class of the South Side YMCA Community Boys Junior Football League, played October 14, at the Champion and Thurman Avenue Playground.

Fullback Otis Crowder, served notice of what was to come when he returned the Buckeyes opening kickoff forty yards.

"Bombers" Captain Buddy Lucear scored the first touchdown with a 35 yard run after taking a pass from Ronald Moore. A Lucear to Glenn Chaffin pass provided the extra point. Later in the same quarter Lucear passed to Ronald Moore for another touchdown.

In the third quarter end Martin Allen took Lucears pass over the goal line for the Bombers final six pointer.

Steadiest performer for the lovers was right end Dale Debolt whose tackling frequently stopped the Bombers ground attack.

A well drilled "Redskin" eleven had a none too easy time in downing a green and stubborn "Tigers" combination by a score of 13 to 6, in the first game of the Lightweight class of the South Side YMCA Community Boys Junior Football League played October 13 at Southwood Field.

The Redskins quarterback, Lefty Bingmer, took all their scoring honors but not without the capable aid of his entire team. Bingmer made the first score in the second period after intercepting a Tiger pass and dashing twenty yards to pay dirt.

The Tigers fought back in the same period and scored on a flat pass to the right from "Hoppie" Chamberlain to Bronson who streaked thirty-five yards to tie the score at 6 all as the half ended.

Late in the third quarter the Redskins took to the air again as Fridley heaved a long pass to Bingmer who raced sixteen yards for their second pay-off. Bingmer also scored the extra point on a quarterback sneak.

The "Kittens" took advantage of a slow starting "Rams" team in defeating them 7 to 6 in the Middleweight Class of the South Side YMCA Community Boys Junior Football League played Tuesday, October 14 at Southwood Field. The game was the first of a series of three to determine a champion.

Early in the first quarter the Kittens started a series of line plays that netted them a touchdown when fullback Bob Peters plunged through from the one yard line. Quarterback Fred Grumley scored the extra point on a wide end sweep.

There were no scores in the second and third periods but the Rams got hold of themselves and started their drive in the fourth quarter. After working their way from midfield, fullback Dave Mallory scored on an end run from the two yard marker. After a penalty for backfield in motion, the Rams were unable to put their extra point over.

Emick-Kiechle Wed In Lutheran Church On September 5th

Candles marked the aisle of the Emmanuel Lutheran Church on Sept. 5 when Charlotte Joy Kiechle became the bride of Charles Curtis Emick. The Rev. E. J. Katterhenrick performed the ceremony at 8:30 p.m. The bride is the daughter of Mr. and Mrs. Harry Kiechle, 637 Thurman Ave., and the bridegroom is the son of Mrs. Isoah Emick, 246 Mithoff St.

The bride was given in marriage by her father and wore a blush pink gown of satin with an off-the-shoulder neckline accented with a gathered band. The skirt was padded at the hipline and trimmed with a gathered band. Her blush colored veil of lace-edged illusion fell from a tiara of pearl leaflets and she carried a white orchid on a Bible tied with lilies of the valley and white streamers.

The attendants, Mrs. Russell Simpson, Miss Dorothy Weldon and Miss Betty Hildenbrand, wore matching gowns of alpine rose taffeta with off-the-shoulder necklines edged in a scalloped bertha. The skirts had a draped bustle back. They wore matching gauntlets and bands of pink and rose ostrich plumes, were worn in their hair. They carried bouquets of pink roses.

Mr. Bert Emick, brother of the bridegroom, was the best man and the ushers were George Evans, Paul Kiechle, Robert Draudt and Russell Simpson.

Hostesses at the reception at the home of the bride were Mrs. Paul D. Kiechle, Mrs. Robert Draudt and Mrs. Elvin White.

The bride is a graduate of South High School and is employed at the White Orr Co. while the bridegroom was graduated from the same high school and is attending Franklin University. He is employed at the Graybar Electric Co.

The couple resides at 367 Thurman Ave.

Miss Gladys Anderson A Recent Bride

Greenery and gladioli formed an altar background at the Gates Fourth Ave. Methodist Church for the wedding of Miss Gladys M. Anderson and Mr. Dean V. Wertz on Friday, Sept. 26. The Rev. Harry Zierer read the service at 7:30 p.m.

The bride is the foster daughter of Mr. and Mrs. Roland Werner, 1771 Sycamore St. The bridegroom is the son of Mrs. Ethel Wertz, 909 Wilson Ave.

For her wedding, the bride chose a gown of marquisette and satin, styled with a sheer yoke and leg-o'-mutton sleeves which came to points over the hands. The skirt was adorned with satin bows and fell into a circular train. Her fingertip veil was attached to a tiara of beads and orange blossoms.

Mrs. Robert Werner, as matron of honor, wore a teal blue crepe de chine gown and a corsage of gardenias. Mr. Gerald Wilt was the best man.

Mrs. Herbert Kisker, 1764 Sycamore St., was hostess at a reception for 75 guests.

The bride is a graduate of South High School and is employed at Cannon's Studio of Charm. Mr. Wertz is a graduate of Pleasantville High School and is employed by the Ohio Bell Telephone Company.

CHAMPION THEATER SUNDAY, MONDAY

"POSSESSED"
Starring Joan Crawford and Van Heflin

POSSESSED will be the main feature at the Champion next Sunday and Monday. Starring Joan Crawford and Van Heflin, this adult and credible story of a woman whose day dreams slowly become more real to her than reality, murders the man she loves. The picture opens on a high-level of excitement and maintains this level throughout. It leaves people shattered in their seats and packs a terrific wallop. It is fundamentally, a straight-forward story of a case history of a split personality right out of the doctor's files, and shows the slow process of insanity developing before your eyes. The acting of all characters is superb and Miss Crawford is outstanding. Second feature will be DANGER STREET, featuring Jane Withers and Robert Lowery. In this melodramatic variety of incidents Jane Withers takes the role of a photographer-reporter, gets some scoop pictures of a gambling place and barely escapes with her films as she is pursued by the racketeer manager. There is nothing but action throughout and for those who like their murders simple and sweet, this is for you.

Champion Theater, Friday and Saturday

"Trail Street"
Starring Randolph Scott and Anne Jeffreys

The main feature at the Champion Theater this Friday and Saturday will be TRAIL STREET, starring Randolph Scott and Anne Jeffreys. This action Western is one of those unheralded pictures for the audience that prefers the better type of outdoors film Salted with a touch of romance, and spiced with cowboy humor by George "Gabby" Hayes, this action-packed picture is rounded out in entertainment value by Anne Jeffreys as a dance hall girl. This is the story of Kansas in 1880, when pioneering wheat farmers were being robbed of their land by unscrupulous cattlemen. Companion attraction will be LAST OF THE RED MEN with Jon Hall and Evelyn Ankers. This period-drama takes place at the height of the French and Indian War, when a general sends a party including two young girls to a nearby fort for safety. Enroute the party is attacked by Iroquois. They are helped by Mohicans, who bring a rescue party in the shape of a column of cavalry. For an action-packed and thrilling double bill this is it.

An Open Letter

South Side Booster
Mr. C. R. Walcutt
1452 Parsons Avenue
Columbus, 7, Ohio
Dear Ray:

Following are the names of the candidates for Columbus Board of Education who have so boldly and unprecedented organized as a bloc: Charles B. Mendenhall, Mrs. Dorothy Jones, Donald L. Littell and Wm. H. Holloway.

The names of the other candidates, who are running independently are: Robert M. Draper, Mrs. Mildred Bickel, Mrs. Mary Jugel, Fred C. "Mike" Dunn, Homer Trantham and Carl Tresemer.

Mr. Robert Draper is qualified because of many years on the School Board. Mrs. Mildred Bickel is the only person running from the South Side and should be our representative. You are acquainted with Mrs. Mary Jugel and her qualifications, and know of Fred C. "Mike" Dunn. I have not had close association with Homer Trantham nor a great deal with Carl Tresemer, therefore I cannot make any comment except that any one of the six, in my judgment, should be considered before any one in the bloc.

I do not have any grievance in person for any member of the bloc, but I feel they forfeit their right for consideration since they have organized as such, and in my way of thinking, such an obvious political machine should be discouraged when it involves our school system.

Sincerely, M. V. Hoover

The position of Office Girl at Reeb Avenue School is one that carries with it a number of responsibilities. Throughout every school day the job of meeting visitors, answering the telephone and taking care of errands and messages keeps our staff quite busy. Two different girls are on duty each half day. As soon as they come on duty, they place an attractive card on the office door showing just who is on duty. These name cards help those coming into the building to know with whom they are dealing. Assignments to this work are made by Mrs. Faye Dellenbaugh.

The girls, now on active duty, are: Betty Roy, Helen Bajus, Jacqueline Thompson, Lois Erwin, Virginia Hylton, Janis Flowers, Margaret Bordy, Shirley Knapp, Lilly Griffith, Eva Vancver, Donna McColley, Rose Malone, Ann Chamberlain, Evelyn Holbrook, Betty Rinehart, and Jerry Morgan.

South Side Y Football League

The "Marshmallow Softies" bowled over the "Bargainers" eleven 20 to 6 to win their first game in the Heavyweight Class of the South Side YMCA Community Boys Junior Football League, played Wednesday October 15 at Southwood field.

The "Softies" scored their first touchdown on a nine yard end run by Willard Brumfield. John Kirby plunged the center of the line for the extra tally.

Don Cannaday returned the opening kickoff at half for 50 yards. Two plays later he scored on an end run. Being a penalty on the play, the extra point was no good.

Later in the third quarter Rowell tossed two consecutive passes to Brumfield who carried the ball to the Bargainers one yard line. Dale Rowell scored on a quarterback sneak. The pass for extra point was incomplete.

Quarterback Rowell, playing an outstanding game, intercepted a Bargainer pass and returned it to the fifteen yard line in the fourth quarter. Kirby passed to Brumfield for the touchdown. Bob Call plunged the line for the final point.

The Bargainers made a late fourth quarter threat but was halted by a pass intercepted by Call.

A light but speedy "Brown Bomber" team won from a heavier "Buckeyes" eleven by a score of 19 to 0, in the first game of the "heavyweight" class of the South Side YMCA Community Boys Junior Football League, played October 14, at the Champion and Thurman Avenue Playground.

Fullback Otis Crowder, served notice of what was to come when he returned the Buckeyes opening kickoff forty yards.

"Bombers" Captain Buddy Lucear scored the first touchdown with a 35 yard run after taking a pass from Ronald Moore. A Lucear to Glenn Chaffin pass provided the extra point. Later in the same quarter Lucear passed to Ronald Moore for another touchdown.

In the third quarter end Martin Allen took Lucears pass over the goal line for the Bombers final six pointer.

Steadiest performer for the losers was right end Dale Debolt whose tackling frequently stopped the Bombers ground attack.

A well drilled "Redskin" eleven had a none too easy time in downing a green and stubborn "Tigers" combination by a score of 18 to 6, in the first game of the Lightweight class of the South Side YMCA Community Boys Junior Football League played October 13 at Southwood Field.

The Redskins quarterback, Lefty Bingmer, took all their scoring honors but not without the capable aid of his entire team. Bingmer made the first score in the second period after intercepting a Tiger pass and dashing twenty yards to pay dirt.

The Tigers fought back in the same period and scored on a flat pass to the right from "Hoppie" Chamberlain to Bronson who streaked thirty-five yards to tie the score at 6 all as the half ended.

Late in the third quarter the Redskins took to the air again as Fridley heaved a long pass to Bingmer who raced sixteen yards for their second pay off. Bingmer also scored the extra point on a quarterback sneak.

The "Kittens" took advantage of a slow starting "Rams" team in defeating them 7 to 6 in the Middleweight Class of the South Side YMCA Community Boys Junior Football League played Tuesday, October 14 at Southwood Field. The game was the first of a series of three to determine a champion.

Early in the first quarter the Kittens started a series of line plays that netted them a touchdown when fullback Bob Peters plunged through from the one yard line. Quarterback Fred Grumley scored the extra point on a wide end sweep.

There were no scores in the second and third periods but the Rams got hold of themselves and started their drive in the fourth quarter. After working their way from midfield, fullback Dave Mallory scored on an end run from the two yard marker. After a penalty for backfield in motion the Rams were unable to put their extra point over.

Emick-Kiechle Wed In Lutheran Church On September 5th

Candles marked the aisle of the Emmanuel Lutheran Church on Sept. 5 when Charlotte Joy Kiechle became the bride of Charles Curtis Emick. The Rev. E. J. Katterhenrick performed the ceremony at 8:30 p.m. The bride is the daughter of Mr. and Mrs. Harry Kiechle, 637 Thurman Ave., and the bridegroom is the son of Mrs. Isaah Emick, 246 Mithoff St.

The bride was given in marriage by her father and wore a blush pink gown of satin with an off-the-shoulder neckline accented with a gathered band. The skirt was padded at the hipline and trimmed with a gathered band. Her blush colored veil of lace-edged illusion fell from a tiara of pearl leaflets and she carried a white orchid on a Bible tied with lilies of the valley and white streamers.

The attendants, Mrs. Russell Simpson, Miss Dorothy Weldon and Miss Betty Hildenbrand, wore matching gowns of alpine rose taffeta with off-the-shoulder necklines edged in a scalloped bertha. The skirts had a draped bustle back. They wore matching gauntlets and bands of pink and rose ostrich plumes, were worn in their hair. They carried bouquets of pink roses.

Mr. Bert Emick, brother of the bridegroom, was the best man and the ushers were George Evans, Paul Kiechle, Robert Draudt and Russell Simpson.

Hostesses at the reception at the home of the bride were Mrs. Paul D. Kiechle, Mrs. Robert Draudt and Mrs. Elvin White.

Miss Gladys Anderson A Recent Bride

Greenery and gladioli formed an altar background at the Gates Fourth Ave. Methodist Church for the wedding of Miss Gladys M. Anderson and Mr. Dean V. Wertz on Friday, Sept. 26. The Rev. Harry Zierer read the service at 7:30 p.m.

The bride is the foster daughter of Mr. and Mrs. Roland Wernor, 1771 Sycamore St. The bridegroom is the son of Mrs. Ethel Wertz, 909 Wilson Ave.

For her wedding, the bride chose a gown of marquisette and satin, styled with a sheer yoke and leg-o'-mutton sleeves which came to points over the hands. The skirt was adorned with satin bows and fell into a circular train. Her fingertip veil was attached to a tiara of beads and orange blossoms.

Mrs. Robert Werner, as matron of honor, wore a teal blue crepe de chine gown and a corsage of gardenias. Mr. Gerald Wilt was the best man.

Mrs. Herbert Kisker, 1764 Sycamore St., was hostess at a reception for 75 guests.

CHAMPION THEATER SUNDAY, MONDAY

"POSSESSED"
Starring Joan Crawford and Van Heflin

POSSESSED will be the main feature at the Champion next Sunday and Monday. Starring Joan Crawford and Van Heflin, this adult and credible story of a woman whose day dreams slowly become more real to her than reality, murders the man she loves. The picture opens on a high-level of excitement and maintains this level throughout. It leaves people shattered in their seats and packs a terrific wallop. It is fundamentally, a straight-forward story of a case history of a split personality right out of the doctor's files, and shows the slow process of insanity developing before your eyes. The acting of all characters is superb and Miss Crawford is outstanding. Second feature will be DANGER STREET, featuring Jane Withers and Robert Lowery. In this melodramatic variety of incidents Jane Withers takes the role of a photographer-reporter, gets some scoop pictures of a gambling place and barely escapes with her films as she is pursued by the racketeer manager. There is nothing but action throughout and for those who like their murders simple and sweet, this is for you.

Champion Theater, Friday and Saturday

"Trail Street"
Starring Randolph Scott and Anne Jeffreys

The main feature at the Champion Theater this Friday and Saturday will be TRAIL STREET, starring Randolph Scott and Anne Jeffreys. This action Western is one of those unheralded pictures for the audience that prefers the better type of outdoors film. Salted with a touch of romance, and spiced with cowboy humor by George "Gabby" Hayes, this action-packed picture is rounded out in entertainment value by Anne Jeffreys as a dance hall girl. This is the story of Kansas in 1880, when pioneering wheat farmers were being robbed of their land by unscrupulous cattlemen. Companion attraction will be LAST OF THE RED MEN with Jon Hall and Evelyn Ankers. This period-drama takes place at the height of the French and Indian War, when a general sends a party including two young girls to a nearby fort for safety. Enroute the party is attacked by Iroquois. They are helped by Mohicans, who bring a rescue party in the shape of a column of cavalry. For an action-packed and thrilling double bill this is it.

An Open Letter

South Side Booster
Mr. C. R. Walcutt
1452 Parsons Avenue
Columbus, 7, Ohio
Dear Ray:

Following are the names of the candidates for Columbus Board of Education who have so boldly and unprecedented organized as a bloc: Charles B. Mondenhall, Mrs. Dorothy Jones, Donald L. Littell and Wm. H. Holloway.

The names of the other candidates, who are running independently are: Robert M. Draper, Mrs. Mildred Bickel, Mrs. Mary Jugel, Fred C. "Mike" Dunn, Homer Trantham and Carl Tresemer.

Mr. Robert Draper is qualified because of many years on the School Board. Mrs. Mildred Bickel is the only person running from the South Side and should be our representative. You are acquainted with Mrs. Mary Jugel and her qualifications, and know of Fred C. "Mike" Dunn. I have not had close association with Homer Trantham nor a great deal with Carl Tresemer, therefore I cannot make any comment except that any one of the six, in my judgment, should be considered before any one in the bloc.

I do not have any grievance in person for any member of the bloc, but I feel they forfeit their right for consideration since they have organized as such, and in my way of thinking, such an obvious political machine should be discouraged when it involves our school system.

Sincerely, M. V. Hoover

The position of Office Girl at Reeb Avenue School is one that carries with it a number of responsibilities. Throughout every school day the job of meeting visitors, answering the telephone and taking care of errands and messages keeps our staff quite busy. Two different girls are on duty each half day. As soon as they come on duty, they place an attractive card on the office door showing just who is on duty. These name cards help those coming into the building to know with whom they are dealing. Assignments to this work are made by Mrs. Faye Dellenbaugh.

The girls, now on active duty, are: Betty Roy, Helen Bajus, Jacqueline Thompson, Lois Erwin, Virginia Hylton, Janis Flowers, Margaret Bordy, Shirley Knapp, Lilly Griffith, Eva Vanover, Donna McColley, Rose Malone, Ann Chamberlain, Evelyn Holbrook, Betty Rinehart, and Jerry Morgan.

"Thanks A Lot!"

Yes, from furnaces all over the country, regardless of brand or breed, we receive that simple statement: "Thanks a lot!" It expresses so well the feeling of furnaces when they get to burn nothing but CAVALIER COAL.

And, we might add, we don't blame them for feeling that way.

Newborn Babies Get

The South Side's newest citizens—the newborn babies—are now getting an official welcome, shortly after their arrival in the community, and along with the welcome they receive valuable gifts and mementoes from well wishing and civic minded merchants and officials of the city.

Mrs. George Hood calling on the new mothers and the carrier, with her a baby basket with a bow of ribbon on the handle, filled with choice gifts. She explains for the Baby Trade Council's Welcome Wagon committee, and each day she drives over the South Side of the city following the stork from birth to home.

The Bowers Are Married 52 Years

Mr. and Mrs. Frank Bower

On Chet Long's radio program recently Mr. and Mrs. Frank Bower, 1014 Buick St. were honored as the good neighbor of the week.

Mr. and Mrs. Bower on Oct. 23 celebrated their 52nd wedding anniversary.

While in their eighties they are both spry and do all the work around their home.

Mr. Bower was superintendent of the sewage disposal plant of the Columbus Citizen, for many years, and retired about four years ago.

That's the Spirit

My brother told me he saved a lot of money by not drinking a quart of whiskey. Tomorrow he is going to save twice as much by not drinking two quarts of whiskey. It surely counts up fast.

Meet An Outstanding South Side Citizen

A. C. Wilson

Most every one here on the So. Side knows Officer Albert C. Wilson, or as he is commonly called A. C. Wilson.

Wilson was born at Leaksville South Carolina and moved to Columbus, about 33 years ago.

For 17 years Wilson was in the army and during that period he served through World War I. It was when he was stationed at Fort Hayes that he resigned with the rank of sergeant.

Upon his resignation from the army he entered the Columbus Police Department, where he has served for the past 22 years.

Wilson has been a good officer, having perfect record with the Police Department.

They tell this story about Wilson, when he tried to enter the Police Department, that he had to go on a diet before he could pass the examination.

For the past 11 years Wilson, has patrolled the far South Side.

It was during the time that he was in the Mt. Vernon Ave. district, that Wilson, got the nickname of Rare Back.

Through his service of carrying the various stores of the South Side, receipts to the Steel ton Bank, Wilson has kept robberies at a minimum.

Wilson's hobbies are fishing, hunting and listening to the radio. Through the hunting hobby he has acquired the reputation of being a crack shot.

Wilson belongs to the York Lodge of Masons, Scottish Rite, Franklin Post American Legion and the Fraternal Order of Police.

He lives with his wife at 432 Marion Rd.

Wilson has a ready wit, and is known and respected thru our community.

Mrs. Helen Ish Is South High Nurse

Mrs. Helen Ish started her work at South this term as the new school nurse. This will be her first year of service in the public schools of Columbus.

Mrs. Ish came from her home town of Cresline, Ohio to attend Ohio State University. For her work at State she received an B. M. and the degree "Bachelor of Science" in education.

After college because of her interest in mental diseases, she attended Mashu State Hospital which cares for mental cases. Her position there was that of Nursing Arts Instructress. She remained there for a year and a half and then moved to Columbus to become associated with Universite High as the school nurse. Then after being married here in Columbus she continued her work by becoming teacher of the Red Cross Nurses Aid Classes in Pennsylvania. Her next position took her to Texas where she was affiliated with a Methodist hospital as the clinical instructress in the school of Nursing. She has spent many a summer as the nurse at various camps. Her husband, Carl Ish, is a chemist who is now taking graduate work at Ohio State.

Mrs. Ish reports that the city schools have fourteen nurses which are hired by the Board of Education. Each nurse has four or five schools under her care depending on the enrollment of the school. The city's health program is mostly of a prevention nature. The idea is to reach the pupils before they must come to the nurse.

Out of a week's time Mrs. Ish spends three half days at South which are Monday and Friday mornings and Wednesay afternoon. She must examine all the eleventh grade pupils. Classes are also examined when they are in the first and sixth grades. Another of Mrs. Ish's duties is an inspection of the school which must be done once every two months. This is a sanitary inspection.

Mrs. Ish has been working on the eleventh grade pupils since the beginning of the fall term and is now only three-fourths of the way through. These duties give Mrs. Ish a full day but she finds the work interesting and South a very cooperative school to work with. She welcomes anyone who would like her service or advice on any health problem.

* Recently, a study was made to determine the present state of health and well-being of 78 diabetics who had been placed on a diet and insulin twenty years before. Previous to Dr. Banting's descovery of insulin in 1922, their chance of survival for more than two or three years would have been slight.

It was found that 77 of the 78, or 98 percent, were alive and living active, useful lives.

Diabetics cannot be cured, but scientific management under the direction of a physician gives comfort and happiness to otherwise hopeless people. Do not be misled by claims for so-called diabetic cures. There is but one safe treatment, and it is thoroughly understood by your physician.

REEB CALENDAR

Friday, Nov. 7, 1947—Assembly Program—Mrs. Draudt's room leading.

Tuesday, Nov. 11, 1947, no school—Armistice Day.

Wednesday, Nov. 12, 1947, 9:10 A. M.—Sale of War Bonds and Stamps.

The above calendar of the events of the coming week is announced so that our parents and adult friends may plan to come to Reeb to visit us.

—R—

I brought a chestnut burr into my room which my grandfather got in West Virginia. The class was very interested in it because they said it looked so much like a living animal. Miss Hanna, my teacher, was glad I brought the burr to school because some of the children had never seen one before.—Sue Chapman, 5A

—R—

Mrs. Draudt's class will have the chapel service on Nov. 7th. The theme of the program is "Thanksgiving." Patricia Latham will do our announcing. Cora Moon, Sandra Powers and Rosemary Brown are to lead the class in verses of Scripture. Francie Smathers, John Hunyady, Patty Walters, Charles Juliano, Gary Goodrich and Diana Giles will recite "Grandma's Thanksgiving." Several songs will be sung by the class. Karl Naumoff will sing "I Pray To My Father Above."

On Oct. 17th, our room visited the Art Gallery. First we were given a short talk on the Art Gallery, since it was the first visit there for many of us. Then we were taken around the Gallery. We saw tapestries, Chinese Goddesses, Buddhas, and statues. We were also one of the first to see the new exhibit on the Revolutionary Period.

One Of Our Best Stories Prompted By Hallowe'en

It was 12 o'clock, midnight. We were going home from a party. We had to pass, what was supposed to be, a haunted house. We didn't believe in ghosts so the haunted house didn't bother us. As we were passing we heard a noise. The door was open so we decided to investigate. We tried the lights but they didn't work. We then lit matches that were in our pockets. We groped our way to an open door. By this time we no longer heard the noise. At this moment there was a loud snore followed by violent coughing. Did we say we weren't frightened? We were so terrified we couldn't [illegible]. One of the girls began to scream. Just then we saw a figure jump out of the window right into the arms of a policeman. The policeman had heard the scream and came to investigate.

Our ghost was a tramp who was spending the night in the haunted house. The noise we heard was his loud snoring.

Mary Paul, Room 110.

—R—

Reeb's annual Hallowe'en parade was presented to our community according to schedule as announced in The Booster. Our 520 girls and boys seemed to enjoy it and the large number of adult spectators was very encouraging. Discipline was very fine thruout the entire time. The costumes were exceptionally colorful and interesting.

The winners of the 50 cents Savings Stamps for the prettiest costumes were: Judith Vogt, Room 104; Patricia Walters, Room 207; and Barbara Waugh, Room 204. These having the funniest costumes were: Paul Washington, Room 109; Chester Wolfe, Room 209 and William Gartin, Room 210. We take this opportunity to express our appreciation to Miss Christine Zollinger, a member of the South Side Day Nursery Board, who made the costume decisions.

— R —

One of the methods that Reeb Avenue School uses to raise money for additional equipment is the collection of Sales Tax Stamps. Several friends and former students of Reeb realize how much this helps their school and save the stamps for us. We appreciate this interest and wish to encourage the practice. We will be glad to collect stamps if you will call the office, GA 1326.

—R—

Some time ago we asked for clean rags to be used by our special room boys for weaving rugs. Some Booster readers, outside of our own school district, gave us quite a quantity and have promised us more. The rags are being used very effectively as our boys carry on this work. If you would like to have rugs woven for you, please call the school office, GA 1326, and we will be glad to talk over the details with you.

South High's Red Cross

The Red Cross Club of South High School, does many worthwhile and interesting projects. The club is under the direction of Mrs. Lena McFadyen, faculty member.

Members of the American Red Cross have long had a project of packing gift boxes for children in other lands. The boxes are small only 9x4x3 inches, but they hold a surprising number of items.

Some of the items which the Red Cross members purchase, and pack are: pencils, crayons, paper, cake of toilet soap, toothbrush, wash cloth, pocket comb, handkerchiefs and marble bags. The marble bags were made and donated by the sewing classes under the supervision of Mrs. Margaret Burton.

The boxes themselves bearing the words "Greetings From the American Junior Red Cross" are purchased through the National Childrens Fund, which also pays expenses for shipping boxes to their destination.

The boxes have been sent to such places as Norway, Italy, Holland, Philippines, Wales, Greece, Belgium and Poland.

Letters were written back from these countries thanking the American Junior Red Cross for the boxes which filled the children's hearts with happiness, proudness and thankfulness to all those who contributed.

Other clubs and registration rooms also helped in this project.

Kennel Club Chooses

The traditional Uncle Sam and Miss America who will reign over the Kennel Club skating party at Rollerland, Nov. 10, were elected this week. Their names will be announced in next week's Booster. Proceeds for the Kennel Club skating party will go toward purchasing a loud speaker system for the football field.

Meet The South Side Clergy

Rev. Edward Arthur Basile

This week we are presenting to you the Rev. Edward Arthur Basile pastor of the South High Baptist Church of 1621 South High Street.

Rev. Basile was born at New Haven, Conn., and received his elementary school education at Buffalo, New York. He was graduated from high school, Brooklyn New York. Upon graduation he entered Washington and Lee University where he received his B. A. degree with a Cum Laude citation. Upon graduation he entered the Divinity School of Colgate University, from which he was subsequently graduated.

Rev. Basile was ordained by his father in his father's church, St. John's Baptist Church, Brooklyn, New York.

Four years ago he entered his first full ministrate of the South High Baptist Church, 1621 South High Street.

Rev. Basile's hobby is watching baseball games, but he says his church work keeps him so busy he can attend very few of them.

A deep thinker, and rather on the serious side, Rev. Basile has made his church more than a full time vocation. Because of this he has very few idle hours.

Rev. Basile lives with his wife and daughter, Susan Jane Basile, who is 2½ years of age at 863 Gilbert Street.

Miss Wilma Trout A Recent Bride

Ferns and vases of white gladioli decorated the candlelit altar of Corpus Christi Church on Saturday, Aug. 23, at 10 a. m., when Miss Wilma Trout, daughter of Mr. and Mrs. Norman G. Trout, 578 Southwood Ave., became the bride of Mr. John Weilbacher, son of Mr. and Mrs. George F. Weilbacher, 222 E. Whittier St., with Rev. John Graf officiating at the double-ring ceremony.

Given in marriage by her father, the bride chose a gown of white bridal satin fashioned with a sheer marquisette yoke edged with seed pearls. A full skirt ending in a long circular train was gathered to a tight-fitting bodice with long sleeves extending in points over the hands. Her fingertip veil of bridal illusion fell from a halo of pearlized orange blossoms. She carried a bouquet of white rosebuds and pink carnations. Her only jewelry was a gold cross, a gift of the bridegroom.

Mrs. George Weilbacher, sister-in-law of the bridegroom, as matron of honor, was dressed in a gown of orchid nylon. She wore a matching picture hat with black velvet streamers and carried an arm bouquet of yellow rosebuds and carnations. She wore a rhinestone bracelet, a gift of the bride.

The best man was Mr. George B. Weilbacher, brother of the bridegroom, while Mr. Edwin Zang, Mr. Paul Beals and Mr. Dale Bruns seated the guests. Following the ceremony, a wedding breakfast was served at Hoovers Restaurant for the immediate families and bridal party.

A reception for 150 guests was held in the evening at the Corpus Christi auditorium. The bride's mother was dressed in a blue and white print dress with white accessories. The bridegroom's mother was attired in an aqua and white print dress with black accessories. Both wore corsages of white carnations and pink rosebuds.

Assisting hostesses were the bride's sisters, Mrs. Howard Pierce, of Cleveland. Miss Jean Trout and Miss Phyllis Trout.

Cordray Poenisch Nuptials Read

Candlelight glowed softly in the interior of St. Paul's Evangelical and Reformed Church on Saturday Oct. 25, when Esther Elizabeth Poenish became the bride of Carl W. Cordray, with the Rev. Paul C. Kaefer officiating. The bride is the daughter of Mrs. Charles F. Poenish, 338 E. Stewart Ave., and the bridegroom resides at 682 Butler Ave.

For her wedding the bride chose a turquoise crepe with a shoulder yoke of gold stencil embroidery. Her hat of brown feathers was accented with a gold-tipped ostrich plume and her accessories were of brown suede. For the traditional "something old" the bride carried a mother of pearl and ivory prayerbook topped with an orchid. Her only jewelry was a gold choker and necklace given her by the bridegroom.

Mrs. Max Borst was matron of honor for her sister and wore a brown crepe dress accented by a turquoise hat and brown accessories. Ralph Messmer was the best man.

A reception at the home of the bride's mother followed the ceremony.

Following a motor trip through northern Michigan the couple will reside at 682 Butler Ave. Mr. Cordray is associate manager of the Western and Southern Life Insurance Co.

Hollywood's Wonder Horse
ROLLICKING WESTERN RODEO—FUNFEST
947 BARTHMAN AVE.

Conductors Fritz Reiner and Leopold Stokowski with Lovely Soprano Rise Stevens, all of whom can be seen in "Carnegi Hall," outstanding musical event opening a week's first-run engagement at the Southland Theater on Wednesday, November 12th.

For the second time in the history of Columbus, a first-run motion picture will be presented simultaneously in neighborhood film theatres when "Carnegie Hall," the greatest music event the screen has ever known, opens full week engagements at the Southland, Beechwold, Boulevard, Arlington, University Cleve, Westmont and Esquire Theatres, on Wednesday, November the 12th.

Filmed principally on the stage and in the auditorium of the world-famed old temple of music on New York's West 57th Street, "Carnegie Hall" unfolds the colorful story of the half-century history of the famous hall which the late Andrew Carnegie built and opened in 1891.

"Carnegie Hall" is a unique picture in that its cast includes some of Hollywood's biggest names, plus a long list of the greatest musical celebrities who have ever scored a bit at Carnegie Hall or any other place. From Hollywood, the producers brought the cast selected to carry the romantic story of the Hall's greatest history—Marsha Hunt, William Prince, Martha O'Driscoll, Frank McHugh and Hans Yaray.

For the enchanting musical phases of the production, performers who had been connected with the actual musical history of Carnegie Hall were chosen. The first conductor to wave a baton on the great stage—Walter Damrosch—was signed up first. Mr. Damrosch plays himself in the modern scenes, with a younger actor impersonating him in the early 90's.

The world-famous New York Philharmonic - Symphony orchestra and such directors as Leopold Stokowski, Bruno Walter, Fritz Reiner and Arthur Rodzinski were contracted. Lily Pons, Rise Stevens, Jan Pearce and Ezio Pinza were selected as the soloists. The choice of instrumentalists brought such outstanding stars as Gregor Piatigorsky and his famed Stradivari cello, Jascha Heifetz and his violin and Artur Rubinstein at the concert grand. As representatives of the field of poular music which has itself achieved success on Carnegie's stage, there are such modern-day stars as Harry James and Vaughn Monroe and his orchestra. Charles Previn, well-known conductor of music at the Radio City Music Hall in New York City, wielded the baton for Miss Pons and Miss Stevens.

Sunday and Monday "Women On The Beach" with Joan Bennet and Robert Ryan; also "Jungle Flight" with Robert Lowery and Ann Savage. Matinee Sunday. Tuesday, Wednesday and Thursday "Blaze of Noon" with Anne Baxter and Sterling Hayden; also "Dishonored Lady" with Hedy Lamarr and Dennis O'Keefe.

RUSSELL THEATRE

The Russell presents Sunday and Monday "Song of Scheherazade" with Bryan Donlevy and Yvonne DeCarlo. This is a magnificant picture in technicolor, exotic splendor Miss DeCarlo dancer in a Moroccan seaport town, falls in love with Pierre Aumont, Russian sailor with a bent for composing. The year is 1865. Aumont's ship sails. His rival for Miss DeCarlo's affections later reunites the couple of the premiere of the composer's ballet, "Scheherazade"; also "Lone Star Moonlight" with Ken Curtis and Joan Barton. "News and Cartoon".

Columbia Theater

The Columbia presents Sunday and Monday "Mother Wore Tights" with Betty Grable. A warm and tender story of show business. Dad wore the pants but mother wore the tights. Here's a family who wowed 'em from Broadway to Kokomo; also "It's A Joke Son" with Una Merkle.

Sagebrush Team Stars Old Paint At Club Alexander

The unusual in late after-dark shows came to the Club Alexander this week. California Joe & Company, with Joe's wonder horse "Pinto" is doing the wooly west proud. It wouldn't be amiss to label the act "Pinto" & Company as folks rarely see a horse, especially one who seems to know all the answers, as the feature attraction of a floor show.

If "Pinto" could talk he probably wouldn't be as smart as he is, for without a word he produces the laughs and gets the biggest hand of the evening.

Although he can identify the brand of cigarets you smoke, and the kind of beer in the bottle, he places plenty of confidence in California Joe. He is the first horse I've seen to lay squarely on the flat of his back with his four feet in the air and allow someone to stand on his haunches and spin a rope.

California Joe is a real expert with a rope and does about all the tricks in the book. His work with two ropes spinning simultaneously is outstanding. Montana Frank is the crack shot of this act with a rifle held in various ways. And is equally at home in handling a bull whip, with the assistance of the attractive Oklahoma Judy.

Completing the revue will be Jackie Allen, an exceptional, exotic dance.

SOUTHLAND AND ALL ACADEMY THEATER

Orchestra leader Vaughn Monroe and Hollywood star, Martha O'Driscoll, get ready to sing some lilting swing music in the famous "Carnegie Hall" appearing for one week at the Southland starting Nov. 12.

CHAMPION THEATER SUNDAY, MONDAY

"Woman on the Beach"
Starring Joan Bennett and Robert Ryan

The main feature at the Champion Theatre next Sunday and Monday will be WOMAN ON THE BEACH, starring Joan Bennett and a newcomer to screenland, Robert Ryan. This story is strong in dramatic power and Miss Bennett, as the woman on the beach, is as sultry as she is intended to appear. Charles Bickford portrays the role of her blind husband, and Robert Ryan, enamored of her beauty, is caught in the meshes of intended murder, and likes it. Charles Bickford steals the show from the point of acting as the blind artist, and dominates the entire cast. It is a different story, and is predicted on the novel by the name "None So Blind." Companion attraction will be JUNGLE FLIGHT starring Robert Lowery and Ann Savage. This adventure-romance story of a cargo flying service over a mountain range in South America shows many scenes of aerial action of planes piloted by former AAF fliers, who are working to make money to buy a commercial airline in Texas. It is a stirring picture and one you will enjoy.

Champion Theater, Friday and Saturday

"Destry Rides Again"
Starring Marlene Dietrich and James Stewart

DESTRY RIDES AGAIN will be the main feature of a double bill containing two reissues of old, but always among the favorites, at the Champion Theatre this Friday and aturday. Starring Marlene Dietrich and James Stewart DESTRY RIDES AGAIN, is a large-scale Western Drama, a stirring action-filled picture originally released in 1939. Besides the two main stars, we find Charles Winninger, Mischa Auer and Brian Donlevy in the cast. It is a far cry from Miss Dietrich's sophisticated roles of today. The second of these two well-known reissues is WHEN THE DALTONS RODE, starring Randolph Scott and Kay Francis.

Taking place in the middle of the last century, there is more tragedy and action packed into 81 minutes than has been seen on the screen in many a year. It is the story of the time when the Dalton gang terriorized Kansas and the surrounding territory. There is romance, comedy and force of action in this one.

WEST DEFEATS SOUTH BY 20—0

City Champ Too Strong For South

West's hi-geared team defeated South 20-0 Friday night before the smallest crowd of the season. Three plays after the opening kickoff, Walter Hicks, West's fleet halfback, tore through tackle and raced 67 yards for the first score. Thrush made the point and it read 7-0. It looked like it was going to be a rough night for South, but that wasn't the case by far. They gave the City Champions all they could bargain for.

In the second period South fumbled on its own three yard line, but Ray Dowler, on a beautiful heads-up play, quick-kicked to the South 44. Then West's power again began to show and in seven plays, they punched over for another touchdown, the placement was wide and it read 13-0.

South started out in the third quarter like they meant business and did manage to get to the West 15-yard line, but their attack bogged down and with 6 inches to go fora first down they failed and West took over. West couldn't do much in this period as South was really playing heads-up football.

West's score in the final period came as they blocked Coleman's kick on his own 16. In three plays they had punched over for another score, placement was good and it read 20-0.

The game ended without either doing much damage from there on. South had compiled five first downs to West's seven, that alone gives you an idea of the brand of ball South played.

In the backfield, Dowler and Franklin both played a fine game. Ray Dowler was particularly a standout as he out-smarted the West line nearly every time he carried. Franklin, as usual, played a steady heads-up game. In the line it would be hard to name any one man. They were all fine and carried the fight to West's heavier line all evening. It was the last game of a rather tough season for South, but not nearly as bad as had been pictured. We believe football at South is on the up-grade, and we hope that we can give everyone a detailed explanation in next week's Booster.

The following is the line-up:

Pos.—South	West
LE—Adams	Thrush
LT—Cacciatore	Weeks
LT—Wright	Thumberg (C)
C—Belt	Andrews
RG—Maser	Westerman
RT—Hendricks	Hostettor
RE—Linden	Buckingham
QB—Levy	Slager
LH—Dowler	Hicks
RH—Raymond	Chinn
FB—Franklin (C)	Hutt
South	0 0 0 0—0
West	7 6 0 7—20

Scoring—West touchdowns: Hicks, Chinn, Hutt; Extra points: Thrush 3 (placements). Officials—Referee, Stanton Jones (Rio Grande); umpire, A. B. Long (Purdue); headlinesman, Walter Heischman (Capital).

The Joy Of Giving

Although our present weather does not remind us of Christmas, there are some folks who are already making plans for the less fortunate. Among those planning something nice for the old folks at the Franklin County Home is the Grotto Band which, under the direction of W. Dean Sisson, has given a concert each year at the Home a few days before Christmas.

This year, with your help, the residents of the Home will have both music and gifts.

Members of the band and their friends are gathering together gifts of all descriptions. There will be various points throughout the city where gifts may be left and will be collected. South Side residents may leave their gifts at the office of the J. Leukart Machine Co., 40 E. Columbus St.

Packages should be marked whether suitable for a man or woman.

The two gifts which are most universally enjoyed by the old folks are candy or cookies and smoking tobacco. So, in the days ahead, let's all remember those who are less fortunate than ourselves and take at least one gift to one of the collection centers.

Points Of Pantomine

The dramatic classes of Mr. John Sittig, have been for the last few weeks, engaged in single person pantomines.

Ideas were of their own choosing, but help in developing them was received from books.

Th single person pantomine, is the first of two series of pantomines. The next in the series is the pantomine in which two or more persons are permitted to take part. This type of pantomine is the best because, it makes it possible to add variety.

In producing a pantomine, there are no properties such, as chairs, tables, etc., to be used. The person putting on the pantomine has to carry on his acting by imagining that he is on a fully equipped stage.

Mr. Sittig is teaching pantomine now leading up to monologues, dialogues, and then up to plays.

The Musical Bar

The grand opening of the Musical Bar at 1928 Parson Avenue, held last Thursday, November 6, was a huge success and the co-owners "Bill" Bless and "Alex" Clowsen, are taking this means of thanking you, for making their opening night a grand ...

The boys believe they have added to the South Side, one of the most modern night clubs in Columbus. They certainly have spared no expense or hard work in making it so.

The bar is of the finest Teakwood and upholstered in red alligator leather. The latest flourescent lighting gives an atmosphere of coziness and complete relaxation, which is so badly lacking in most places of this type. Add to all this, "Dick" Lynch, "the poet of the Solovox" and you have one of the most enjoyable evenings you can spend anywhere.

Of course, nearly everyone knows or remembers "Alex" Clowson, one of the co-owners. Alex graduated from Ohio State in '35. At that time he was considered one of the finest baseball players to ever come out of State. He was All Big Ten selection in '34, '35 and was captain in '35. Upon graduation, he was signed by Billy Evans, then general manager of the Cleveland Indians, who signed him against eight other major league ball clubs, who were bidding for him.

He was sent to the Pennsylvania State League, where he lead in hitting with .397 and was named all-star second baseman. In 1940 a knee injury slowed Alex down and he was named manager for Gloversville in the Canadian American League. In 1942, found him in the Army where he served 46 months. Upon discharge he gave up pro ball and settled in Columbus with his wife and son. Alex is now far away from baseball but he still likes to reminesce about his playing days, so you sports-minded people drop in and lend an ear with Alex. Remember it's the "Musical Bar" for time delightfully spent.

South High Booster Membership Is Rolling Again

With the advent of basketball in the offering at South High School, the South Side Booster Club has started to roll again.

South High's basketball team looks like it will finish at the top or very close to it.

We are printing a letter below from Jerry Keyes from Hawaii to Jim Tapia, 726 Mithoff Street asking for a membership to the South High Boosters Club.

Monday Noon

Dear Mr. Tapia

I would like very much to become a member of the South High Booster Club. I am leaving the two days work I went to go to the Corporation. You see I am now in the Marine Corps, stationed in Hawaii and my mother sent me the South Side Booster of October 2. I saw your name as the agent for membership.

Although I'm not a graduate of South High. I did attend there two years before entering the service. I will enclose my address and it would be greatly appreciated if you would mail me a membership ticket.

I hope the Club is a great success.

I'll close now and here is my address.

Chapel Service At South High

The Hi-Y and Y-Teens are sponsoring chapel services for the student body of South High School. The frst of these was held at 8:15 a. m. on November 6, in the auditorium. This is a new feature being added to the school activities.

Breakfast's Ready

Breakfast's ready — but are you ready for breakfast? When the spiteful alarm clock jolts your soggy earthbound carcass out of bed, remember that only a good breakfast can rouse your spirit.

Breakfast is not just a quaint old custom handed down by your ancestors, it's an urgent human need, following sleep. Nutritionists agree that a "basic breakfast" fits the human interior as well as a smart costume fits the exterior. The "basic" elements are — cereal, fruit, milk, bread and butter. Since it is pretty plain, most people perk it up with such accessories as eggs, muffins, breakfast meats, or other titbits. And, naturally, no breakfast pattern will or should fit everybody. It has to be adapted to age and to activity.

Whether you dig ditches, ride bicycles or wax floors, you need those calories you burn up evenly spaced during the day, starting, of course, with breakfast. A bit more hotsie in the bedroom makes less in the kitchen, for it's a wise and happy family that is ready for breakfast.

James Billiter served as best man for his brother, and seating the guests were Paul Siniff, Eugene Doughty and Frank Lewis.

Mr. Billiter is with Hill's Floral Products Co.

Meet An Outstanding South Side Citizen

Fred J. Baas

In this article, we wish to introduce to you one of the South Sides' best known citizens, Fred J. Baas.

A born and dyed in the wool South Sider, Baas was born in the South Side and attended Beck Street Elementary School and South High School, graduating from both.

Formerly Superintendent of Station G Postoffice, Parsons and Parthman Aves., Baas is now Superintendent of Station H Postoffice at 510 E. Whittier St.

He belongs to the Supervisors' Club of Postal Employees, Moose, 40 and 8, Veterans' Republican Club and the First Community Church.

He is also a charter member of the Ralph Rickley Lodge F. & A. M., and was the organizer of Southway Post 144 American Legion.

As to hobbies, he would rather fish than eat. He likes to bowl and go to football games.

Ask For Cooperation Of Hunters In Curbing Game Law Violations

In a final appeal to all good sportsmen, whether they are hunters or not, Lester G. Bailey, Chief of the Law Enforcement Section of the Ohio Division of Conservation this week urged all persons to report hunting violations immediately to the nearest game protector.

The opporunity of legally harvesting a surplus of game in the field through the sport of shooting must be equally shared by everyone. Laws imposed on the hunting public is not a restriction on the huntor but a means of helping to guarantee equal opportunity to all sportsmen. Sportsmanship is needed above all else if we are to continue to enjoy the game shooting sports and the Golden Rule is as good a self-imposed law that one will find and good sportsmanship means many things. Asking permission from the farmer or landowner to hunt, taking only the legal limits and hunting during the specified hours of the law are only a few of the musts for every person going afield, especially this year when the surplus supply of game is not expected to adequately serve the increased number of hunters.

There will be empty or very light game bags for some but all there will be the brisk anticipation of the sport of all sports enjoyed only in a land of free and independent people.

South Side Settlement

On Wednesday afternoon a new kind of program was introduced to the children registered at South Side Settlement. Since the object behind an organization of this kind is to build better citizens and a better community in which to live, each child should be acquainted with his own surroundings. With this object in view our Wednesday afternoon program is opened with a devotional period using the life story of a Biblical child as a topic. Hymn singing and music also have a part in the half hour session. After this the group is divided into special study groups according to ages. Each group is called a committee and has a definite subject to study. The report is then given at the following assembly. Some of the subjects being studied are: History of the South Side, Social and Clean Up, Sight Seeing, Who's Who in South Side, Where we work and play, Finding our Churches, Art and music.

The South Side Settlement Boy Scout Troop No. 3 have started their meetings on Monday evening and welcomes any boy who might wish to join. Scout Master is Mr. Lewis and assistant Scout Master is Mr. Frank Sweeney.

Regular Wednesday movies are being held free of charge for the boys and girls at 4:30 and 7:00 o'clock. "America All" and two comedies were shown Wednesday, November 5.

The Honor Club had its regular monthly meeting at 5:30 Wednesday with a dinner-meeting at the South Side Settlement. There were about 35 members present. This club meets the first Wednesday of each month, Ivan Young is president.

On Sunday morning, November 9, the South Side Settlement Club under the direction of Mrs. Jeanette Lewis presented a play entitled "America for Americans" at the Asbury M. E. Church of Canal Winchester. The girls taking part in the play were Sue Chapman, Helen Bajus, Betty Roy, Jacqueline Thompson, Rose and Mary Conrad, Patty Brunk and Ruby Sutherland.

A fine display of crafts made by various Clubs and Classes of the South Side Settlement were displayed at the Ohio Conference at the Deshler-Wallick Hotel.

The South Side Settlement kindergarten under the direction of Mrs. Oran Moore has an enrollment of 45 children. Any child from four years of age to school age is eligible for enrollment. The children are starting practice for their Christmas program. Get your child in for this happy time.

Our Director, Mrs. J. H. Basden, was out of town on speaking engagements two days last week. On Wednesday she spoke at Brice, Ohio and on Thursday at Lancaster. On Saturday, Nov. 8, Mr. and Mrs. Lewis attended a meeting at Dayton, where Mr. Lewis was speaker for the occasion.

South Side Settlement Athletic News

South Side Settlement athletic program is getting into full swing. A lightweight football team has been organized and entered into the South Side Y. M. C. A. League. They are playing a two out of three series. The first game has been played. The team went down in defeat, score 28-0. Next game was scheduled for Nov. 6 but the other team did not appear. The game will be played at a later date. Games are played at Sunshine Park, corner of Thurman and Champion. Some of the regular players are: LE—Leon Garnes, LT—Cornelius Gilchrest, LG—William Shinn, C—Robert Fletcher, RG—Harold Blann, RT—Charles Martin, RE—Donald Wilke, QB—James Wilkie, LH—Kerll King, RH—Carol Fellure, FB—Lyman Lindsey, RT—Roger Hackett, RH—David Gantt, LE—Richard Kerns, LT—John Reed.

Regular periods of Physical Education at the Settlement House are filling up fast. One period on Tuesday evening is used by the Women of the Community for Volley-Ball. Clubs occupy many of the other periods.

The boys too have taken an interest in volley-ball and have had some hotly contested battles. The volley-ball game most talked about is the game won by Glenn Pearson. Yes, Glenn actually served out a 15-0 game of volley-ball the evening of Nov. 5. Can you match that one?

Registration for pre-season basketball leagues will take place November 10 to 14. Teams must register and pay entrance fees between these dates. This year there will be three leagues. They are Juniors (10 to 13), Intermediates (14 to 17), Seniors (18 and up). Register your team early! It is a six team league.

Registration is taking place this week for a ping-pong tournament. Registration is slow.

Scout Troop No. 230 from Lincoln Park has joined the Settlement House and has a period in the gymnasium every Monday night. Their leader is Mr. Mallory.

The children in Mrs. Blackburn's Room enjoyed reading the letters from children in Poland who received our Red Cross boxes last year. In their letters they told us that we were very lucky not to live in a country where the war was. They also told us about the bombing and the bomb shelters they escaped to. They were so glad to get the boxes they jumped up and down. Some of the children even tried to eat the marbles. We are glad to be able to help fill a Red Cross Box again this year. — Barbara Barry and Esther Patterson.

Following is the Program to be given by the 1B-1A pupils in Room 109 on Friday, Nov. 14th: Good Morning Song, Pledge of Allegiance, Song, America, Lord's Prayer, Song, Morning Hymn, Bible Verses, Poem, The Friendly Night, Song, Child's Prayer, Poem, Growing Up, Bible Verses, Poem, Friends of All, Bible Verses, Poem, Coats, Song, God Will Take Care of You, Bible Verses, Song, Praise God.

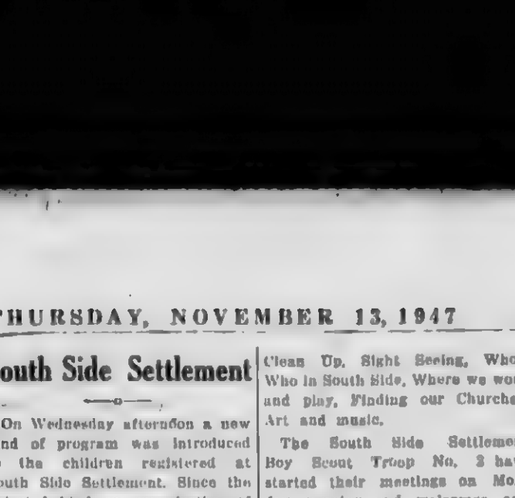
—R—

The 3A and 3B group in Mrs. Slee's Room has been enjoying a unit on Indians and Early American people. Mrs. Jones' Room has transferred a number of pictures for us to color and cut out.



In music class we have been learning a new song, "The Rabbits Lunch".

If you are a Reeb Avenue School parent, here is a question that we would like for you to ask of yourself: "Have I been to school this fall to see what my child is doing in the classroom?" If you cannot say "Yes" to this question we sincerely believe that you are overlooking a very important part of your job as a parent. We know that you are interested in your child, but, have you taken timt to really show him that you ARE interested? If you will so plan your work to come to the school for 15 to 30 minutes, you will not have to tell your child that you are interested in his work because he will know thru your presence to observe what he is doing.

We are firmly of the belief that every parent should visit school at least once each term so as to have first-hand information regarding the details of school room management. When you come to visit, we ask that you do not knock but go into the room quietly and find a seat so that the work will not be interrupted. If you do not know just where your child is located, please come to the office and our polite and efficient office helpers will give you proper directions.

Meet The South Side Clergy

In this article, you are going to meet one of the newcomers to the South Side. Rev. Francis Riehl, Administrator of St. Ladislaus Roman Catholic Church.

Rev. Riehl was born at Zanesville, Ohio, and was educated in St. Nicholas Grade and High Schools there.

Upon graduation he entered St. Charles College Seminary to study for the Priesthood.

After St. Charles College, he went abroad and took post graduate work at the University of Innsbruck, Innsbruck, Austria.

In 1935 he was ordained to the ministry and was appointed assistant at Holy Family Church here in Columbus for three years.

Rev. Riehl's next assignment was at the Holy Trinity Church, Jackson, Ohio, for nine years.

Last February Rev. Riehl was appointed to fill the vacancy of Father Klinic at St. Ladislaus.

Rev. Riehl is a member of the Knights of Columbus.

His hobbies are golfing and bowling.

He is extremely popular with the children of his parish as well as the adults.

His ready wit, love of good jokes and his deep sincerity to his ministry, we would say, are his outstanding qualities.

Rev. Riehl lives at the Parish House at 277 Reeb Ave.

News In The World Of Religion

The Board of National Missions of the Presbyterian Church in the U. S. A. reports that it is allocating one million dollars in 1948 to assist Presbyterian groups erect new buildings in growing suburban and industrial communities across the nation. The Board has received more than 500 applications from communities in 71 presbyteries for aid for new churches remodelling old edifices, or the purchase of sites. These projects call for expenditures of $13,000,000.

During the war years the American Bible Society printed and distributed more than 58,000,000 copies of the Scriptures in 158 languages. Today its presses are providing Scriptures for all the world. Reports show that in Germany, 4,000,000 Bibles, 6,000,000 New Testaments are needed; 2,500,000 New Testaments and 150,000 Bibles are asked for in Japanese; and millions more are to be prepared for the people of China, the Philippines, various European countries and Latin America.

Speaking at the recent Provincial Eucharistic Congress of the Roman Catholic Church, held in Buffalo, N. Y., Francis Cardinal Spellman, of New York City, expounded his church's attitude on labor relations. He said in part: "In his great goodness God quickened the earth with riches for man's use, not for his abuse; for his rise, not for his ruin. Labor and capital can reap the rewards of God's goodness only if labor unstintingly produces with the skills with which God has so abundantly endowed it, and capital unsparingly distributes the produce of labor for all men's welfare. Labor has the right and duty to expand its service and usefulness to the social body and to progress thru orderly processes. Capital too has its right and duty to increase its usefulness to society through free enterprise, fair competition and reasonable profits. Thus may labor and capital together glorify God in this fair land bequeathed to man, fulfilling their debt to God and their duty to relieve man's needy estate. God has gifted man with brawn and brain, with the good earth and the fruits thereof, opening before his widening avenues for service to all humankind. Possessed of these gifts, it is the sacred duty of labor and capital faithfully to remain the repository and stronghold of God's trust, rendering unselfish service to society, service which can prosper and endure only by steady production and fulsome distribution."

If world powers will repudiate intolerant methods, there need be no war between the Soviet Union and the nations of the West, says the Federal Council of the Churches of Christ in America, in a message marking the second anniversary of the United Nations —"World Order Day", October 26. The present time is the great moment for peace action, says the Council, adding: "Fear is perhaps the greatest peril to peace." In every area of international life governments and people are taking counsel primarily of their fears. The growing threats to national and social security, heightened by the permanent military insecurity of this atomic age, lead more and more to a panic psychology. The impulse to bold and generous action is paralyzed, the nerve for patient goodwill is cut, and the causes of fear are intensified. Fear among the victors delays the peace settlements and makes them more difficult. Soviet fears have deadlocked the crucial atomic negotiations and Western fears are in turn speeding up the new race in arms. Economic fears hamper effective reconstruction in Europe, and fear of depression in America is enlarging the factors of depression. The nations are caught in a vicious spiral of their reciprocal fears. . .The deadly consequences of fear and cynicism will not be averted by timid half-way measures, any more than by the desperate excesses of panic. The peoples and their government of the most powerful nation, must be willing to take farsighted and sacrificial risks for peace, as they have been willing to take calculated risks in time of war. They must be willing to act as citizens of one world without the assurance of such a world. They must be willing to live by faith — faith in man's potentialities under God to create brotherhood on earth. God still rules. Only in this faith is there hope of overcoming the present crisis . . .The United State has an opportunity to exercise bold and generous leadership along with the lines required, in responding to the present need of war-torn countries in Europe and Asia for material and technical aid in reconstruction. A comprehensive approach to the economic crisis, such as that proposed by the Secretary of State, involves disciplines which will measure the moral stature of our people and test the spiritual vitality of our churches."

Carelessness Leads Causes of Accidents In Hunting Season

One of the most comprehensive reports on causes of hunting accidents has just been released by the Pennsylvania Game Commission covering the 1946 season that deserves some attention of every hunter who plans to go afield in search of game.

Ohio hunters who will pursue the popular rabbit and pheasant beginning at 9 a. m. on Saturday, November 15, should heed the warning carried in the report that hunting accidents just don't happen—they are caused—and usually through carelessness. Figures compiled show that out of a total of 366 accidents, 29 were fatal, 15 from self-inflicted wounds and 14 were killed by others. Of the total accidents, 22.1 percent were self-inflicted and 77.9 by others.

Contrary to popular belief, most accidents according to this report, were caused by people over 21 years of age since only 23.2 percent were charged to persons under 21 while 55.8 percent were caused by those over that age who, because of years of hunting experience consider themselves safe hunters. Shotguns caused 80.1 percent of the total number of accidents while rifles were responsible for 19.4 percent.

Causes of the accidents varied but 35 percent did not see victim in line of fire; 21.6 percent were caused by guns placed in dangerous positions and 20.5 percent resulted from ricochet or stray bullets. Another 9.8 percent were caused when hunters slipped and fell with safety off; 7.9 percent mistook person for game; 3 percent in loading or unloading and 2.2 percent by unsafe firearm explosions.

The open field claimed 31.1 percent of the locations of accidents and 30.9 percent occurred in brush.

According to the Bureau of Vital Statistics Ohio's firearms accidents totalled 84 in 1946 and considering the total number of hunters in the field this number is too high but is still inexcusable. Add to this number, however, are automobile accidents that happen in the process of getting to and from hunting grounds.

Hunters are cautioned to use common sense safety measures and prevent the annual kill and injury of not only themselves but hunting partners. Taking it "easy" on the trigger finger may mean a loss of a pheasant or rabbit but will many times prevent loss of life to the sportsmen.

Redskins 13 — Tigers 13

The Redskins and Tigers battled to a 13 to 13 tie in their second game of the Lightweight Class, played Monday, October 20 at Southwood field. Left end "Butch" Blackburn of the Tigers made the first touchdown when he capitalized on a bad pass from center and recovered behind the goal line of the Redskins in the first quarter. The attempted point after touchdown was no good. In the second quarter fullback Dick Stedman scored for the Redskins on an end run from the nine yard line. He also tallied the extra point on an identical play to put his team ahead 7 to 6 at the half.

"Hoppie" Chamberlain heaved a beautiful pass to "Pug" Settles who raced thirty-five yards for the second Tiger touchdown in the third quarter. "Pug" scored the extra point on an off tackle plunge.

In the closing quarter, "Lefty" Bingmer heaved a 20 yard pass to left end Ray Adams who was standing on the goal line and caught the pass, thus tying the score 13 to 13. The extra point was no good.

Rams 19 — Kittens 12

The "Rams" who were handicapped by having only nine men present, defeated a stubborn "Kittens" team by a score of 19 to 12 in their second game in the Middleweight Class played at Southwood field, October 21.

Dave Mallory made the first Rams touchdown on an end run in the second quarter. The Kittens fought back and scored in the same quarter when Capt. Fred Grumley heaved a pass to Russ McCotter to bring the score to a 6 to 6 tie at the half.

Capt. Bob Kilbourne scored the second Rams touchdown on a wide end run early in the final quarter. Kilbourne passd to Dick Baker for the extra point. Fullback Bob Peters ran the kickoff back 55 yards to score the second Kitten touchdown. This run was made possible by the effective blocking of Jim Black, Dick Capehart and Ronald Cowman. The Rams wouldn't settle for a 13 to 12 score so they took to the air as Kilbourne heaved a 25 yard pass to Dick Baker for the final tally.

Brown Bombers 18 - Bargainers 7

A fast moving Brown Bomber eleven scored a second win in the heavyweight class, Wednesday, October 22, by defeating the Bargainers on Southwood field. The Brwn Bombers got off to a fast start in the first quarter. Lavonne Poindexter set his team up for the first score when he intercepted a Bargainer's pass on the 20 yard line. Poindexter completed a pass to Buddy Lucear for the first score. Lucear again scored in the second quarter on a 14 yard end run.

Don Cannady passed 20 yards to Harley Erwin for the Bargainers only score in the third quarter. Cannady scored the extra point on an off tackle play. The Brown Bombers final score came in the third quarter on a pass from Lucear to Don Myrick. Above Left: Lily Pons sings her famous "Bell Song." Top, Center: Leopold Stokowski puts those dramatic hands into action. Above, Center: Maestro Bruno Walter wields his baton. At Right: Rise Stevens sings the "Seguildilla" from "Carmen." Scenes are from the musical masterpiece, "CARNEGIE HALL," which features 11 world-famous musical artists, now showing as a first-run engagement at the Southland Theater and all Academy Theaters.

—o— —o— —o—

"Carnegie Hall," the picture that is a pleasure to hear as well as to see, now playing a first-run engagement at the Southland and all Academy Theatres, brings to audiences the most stimulating program of music ever arranged. It has rightly been called by nationally known critics "the greatest concert ever screened."

The richly instrumented renditions of the famous New York Philharmonic Symphony-Orchestra vie with the smart modern tunes of Vaughn Monroe and His Orchestra and Harry James, while the superb vocalizations of such artists as Lily Pons, Rise Stevens, Ezio Pinza and Jan Peerce are a brilliant complement to the instrumental solos of such renowned performers as violinist Jascha Heifetz, cellist Gregor Piatigorsky and pianist Artur Rubinstein.

Producer Boris Moros, who has been a concert conductor, musical director of many films, as well as a stage and screen producer, literally hand-picked the beautiful music played in "Carnegie Hall", giving you a concert unrivalled in film annals. The following will give you some idea of the musical treat ahead of you:

Leopold Stokowski conducting the New York Philharmonic-Symphony Orchestra in the Second Movement of Tschaikowsky's Fifth Symphony.

Mezzo-soprano Rise Stevens singing "My Heart At Thy Sweet Voice" from "Samson and Delilah" by Saint Saens, and the "Seguidilla" from Bizet's opera, "Carmen," with Charles Previn conducting.

Ezio Pinza singing the popular bass aria from Verdi's opera "Simon Di Bocanegra" and the drinking song from Mozart's "Don Giovanni."

Tenor Jan Peerce's solos are the famous Neapolitan ballad, "O Sole Mio" and "La Danza" by Rossini.

Coloratura Lily Pons gives her entrancing "Bell Song" from Delibes' opera, "Lakme", under the superb direction of Charles Previn.

Heading the list of instrumentalists, Jascha Heifetz renders Tschaikowsky's "Concerto For Violin and Orchestra in G Major", accompanied by the New York Philharmonic-Symphony Orchestra, with Fritz Reiner conducting.

Gregor Piatigorsky brings his talents as the world's greatest cellist to the screen for the first time in his rendition of "The Swan Song" by Saint Saens.

Artur Rubinstein, who has no rival among contemporary pianists, performs Chopin's "Polinaise In A Flat" and the exciting "Fire Dance" by De Falla.

Vaughn Monroe and His Orchestra lead off the presentation of popular music with Sam Coslow's new song hit, "Beware My Heart", and Harry James hits a new screen high when he appears as trumpet soloist with the New York Philharmonic-Symphony Orchestra in the elaborate premiere presentation of the new "57th Street Rhapsody", composed by W. & M. Portnoff.

All of these great artists have, at one time or another, appeared on the vast stage of Carnegie Hall, and the fact that all the important scenes of the picture were filmed in New York, right inside the fine old Hall itself, only serves to give added enjoyment to an unsurpassed evening's entertainment.

"Carnegie Hall" will continue its simultaneous first Columbus showings at the Southland, Arlington, Beechwold, Boulevard, Cleve, Esquire, University and Westmont Theatres through Tuesday, November 18th, only.

Music Students Are Offered $1000. In Competitive Prize

—o—

Music students, under thirty years of age, will receive a competitive opportunity to win three prizes totaling $1000 and national acclaim, it was announced today by Academy Theatres. The awards are being presented by Boris Morros and William Le Baron, producers of the motion picture, "Carnegie Hall" which is scheduled to open here for a week's run at all Academy Theatres starting November 12th.

The money will be divided among three nationally chosen winners. Top award will be $500, second place winner gets $300 and third receives $200. A recording of the local winner's competitive contribution will be made by Station WCOL which is sponsoring the Columbus competition in association with Academy Theatres. Contestants will receive preliminary auditions at the University Theatre, 1980 N. High St., November 12, 13, and 14, from 1:30 to 3:30 in the afternoon. Preliminary judges will choose six finalists from three categories, vocalists, instrumentalists, composers. Chosen finalists will be conclusively judged at a formal ceremony to be held at the University Theatre on the evening of November 18. These final auditions will be broadcast over Station WCOL and the national nominee winner will be announced. Academy Theatres will award special prizes to three of the finalists exclusive of the producer's award money.

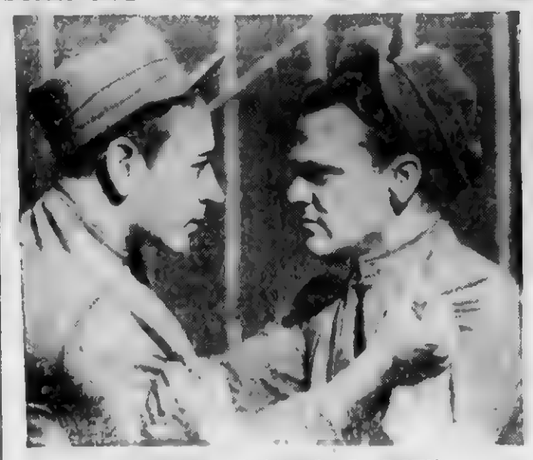
Champion Theater, Friday and Saturday

The main feature at the Champion Theater, this Friday and Saturday is "Ramrod," featuring Joel McCrea and Veronica Lake. This super Western is designed to be different. And it succeeds. Packed with action and suspense, the picture abounds in fights with guns and fists, beatings, chases, escapes and pursuits, and leaves justice triumphant in an ending which no one can guess until the last few seconds. Supporting players are Donald Crisp, Don DeFore, Arelen Whelan and Charles Ruggles. Companion attraction is the "Fabulous Dorseys", a biography in swing time. The music evokes recollections of the Roaring Twenties with such nostalgic numbers as "Marie", "Green Eyes" and the "Object of My Affections." This story of the lives of the Dorsey Brothers, should be either diverting or 100 per cent entertaining, depending on the film-goer. If you care for music and such people as Paul Whiteman, Henry Busse, Mike Pingatore, Ziggy Elman, Bob Eberly, Stuart Foster and Helen O'Connell, you won't keep your feet still a minute. If you are not a music enthusiast, you'll still want all you can get of the story of the lives of these boys.

CHAMPION THEATER SUNDAY, MONDAY

"Variety Girl" will be the main feature Sunday and Monday at the Champion Theater. Starring Mary Hatcher and DeForest Kelley, this story is the one in which they throw the book at you. Containing practically all the feature players on the Paramount lot, the picture introduces the stars, both newcomers. You'll find Crosby and Hope contributing a dance, Allan Ladd and Dorothy Lamour doing a singing act; Paulette Goddard taking a bubble bath, William Bendix and his inimitable humore, besides glimpses of Diana Lynn, Sonny Tufts, Lizabeth Scott, Burt Lancaster, Cass Daley, Howard Da Silva and a drunked good drunk scene by Billy DeWolfe. Watch particularly Pearl Bailey, a young Negro singer with a lazy comic style of singing; also, Spike Jones and his corny band. We promise you'll be entertained. Companion attraction will be "A Likely Story" starring William Williams and Barbara Hale.

RUSSELL THEATRE



—o—

The Russell presents Sunday and Monday "Red Stallion" with Robert Paige and Ted Donaldson. A comedy drama in color, and interest-holding story of the love a small boy has for his pet horse which he had raised from a newborn colt. About to be sold with the other horses on a foreclosed ranch, a stallion is smuggled away by his youthful owner and becomes a winner in a race, and won fame and fortune. You will laugh and cry at a truly different story of the west; also "Our Vines Have Tender Grapes" with Margaret O'Brien and Edward G. Robinson. "News and Cartoon."

Girls To Take Course In Woodworking

The woodshops at South High School has something new, girls. There are twenty-five girls in wood classes.

They choose the articles they want to make. Some of the things being made by these girls are: serving trays, book-ends, coffee tables, and weaving frames for making rugs.

Learning about the tools and their uses must be done in the process of making the articles, because there is alloted time to teach the girls in.

Mr. Bance Dersell, instructor in the woodshop, says, "They are good workers."

Grace Church Scene Of Wedding

An arch of lighted candelabra combined with arrangements of fern and white chrysanthemums decorated the altar of the Grace Methodist Church on Oct. 11 when Miss Norma Jean Guyselman became the bride of Howard B. Lamprecht with the Rev. Robert S. Meyer officiating.

The bride is the daughter of Mrs. Lucille Guyselman, 1093 Sidney St., and the bridegroom is the son of Mr. and Mrs. Howard F. Lamprecht, 1521 S. High St.

Given in marriage by her brother, Jack F. Guyselman, the bride wore a white brocaded satin gown with a sweetheart neckline, long sleeves and the skirt ended in a wide circular train. Her veil of illusion fell from a tiara of seed pearls and rhinestones and she carried a prayer book topped with an orchid and streamers of white shattered carnations. Her only jewelry was a double strand of pearls and diamond earrings given her by the bridegroom.

Mrs. Antionette Hoffman was the matron of honor and wore yellow while the bridesmaids, Mrs. June Cochran wore pink and Miss Mary Drone was in green. The gowns were of silk taffeta with off-the-shoulder necklines and ruffled bustles. They wore shoulder length veils and carried dark red roses. Janice Keith was the flower girl.

Paul Johnson was the best man and seating the guests were Kenneth Cochran and Terry Harper. A reception at the church parlor followed the ceremony. Mrs. Guyselman chose a deep green silk dress with matching hat and brown accessories while Mrs. Lamprecht wore aqua crepe with a matching hat and black accessories. Both wore corsages of sunburst roses.

The bride chose a three-piece gray wool suit for her wedding trip and accented the costume with wine accessories.

The bride is a graduate of Linden McKinley High School and is employed at the Bron Shoe Co. Mr. Lamprecht is a graduate of West High School and served three years in the armed forced. He is employed at the Columbus Dispatch.

The couple resides at 1521½ S. High St.

GIRL SCOUT NEWS

GERMAN-BORN SPEAKER

Brownie Scout Troop 116 of Smith Road School celebrated International Friendship Day of Girl Scout Week by listening to a talk on "Germany, Then and Now" by Mrs. William K. Gerhard, 783 East Columbus Street. Mrs. Gerhard is the mother of Barbara Gerhard who attends Hey! Avenue School and is a member of Girl Scout Troop 151.

Mrs. Gerhard spoke for an hour on how boys and girls lived in Germany when she was a child and young women, and how children live now in the post-war Germany. She told of the Hallowe'en celebration in Germany and of the group "Nature's Friends" which had units throughout the country, similar to our Girl and Boy Scout Troops.

Mrs. Gerhard read letters from two of her nephews in Germany which gave her listeners a vivid picture of the life of the young folks in present day Germany.

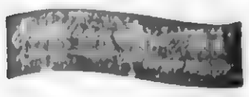
* Pneumonia is a disease which strikes swiftly and proceeds quickly and dramatically to a crisis. Until recent years little could be done to help the patient. The brief decisive struggle between the infection and the patient earned for pneumonia the dreadful title, "Captain of the men of death."



In the parlance of the army, the captain has been "busted." First came antipneumococcic serum, which removed one bar. Later, powerful sulfa drugs teamed up with serum to completely break the captain. Both of these powerful weapons are kept in readiness in our prescription department, waiting only for the physician's order.

S. Hi Thespians To Present Play

The South Hi Thespians will present "The Imaginary Invalid" two nights, Thursday and Friday, November 20 and 21. The play is a comedy, with plenty of singing and dancing. Jack Schmidt and Pat Starn will sing a duet. It was written by Molière, a French comic dramatist. In his plays, Moliere made fun of the doctors of his time. Many of his plays were presented for Louis XIV. He wrote "The Imaginary Invalid," in 1673. It was first produced at the famous Palais Royal in Paris, February 10, 1673, with Moliere playing the part of Argan. During the fourth presentation, during the mockery of the initiation ceremony which concludes the play, he was seized with convulsions. He finished the performance and died an hour later without receiving any medical attention.

Last winter this play was produced at Ohio State and it went over in a big way. Many South pupils attended the performance.

"The Imaginary Invalid" not only is a comedy but it has singing and dancing too. Jack Schmidt and Pat Starn will sing a duet. Argan has his morale raised by a group of gypsy dancers. Don McIndoo will take the part of Argan and you will be surprised to see the football team's quarterback, Dave Levy as Monsieur Purgon, Argan's physician. Other members of the cast are Florence Lechner, Bettyanne Thompson, Francheon Garwood, Nancy Kenan, Mary Lang, Carlynne Beard, Dave Beck, Ronald Dernsife, Robert Marvin, Hal High and Dick Boyer. Lackeys will be Joan Enoch, and Wanda Van Hoose. Gypsy dancers are Patty Nolan, Harriet Redrup, Joyce Stahl and Suzanne Kaefer. Doctors who will be in the initiation scene are Kenny Garwood, Perry Martin, Arden Branson, and Saul Izeman.

Actors and actresses aren't the only people who are needed to put on a play. The Boy's Stage Crew will be managed by Dave Poll, electricians crew by Jack Dorn and properties for the play will be under the direction of Jean Allen. Business manager will be Suzanne Kaefer. The committee on make up will be Doris Lensenmayer and Nancy Edgar. Costumes are being ordered from New York and will be taken care of by Eloise Hall and Mrs. Burton. The play is directed by John Sittig, the school's new dramatics teacher.

Tickets are 50 cent.

Members of the cast shown above, are, standing (left to right) Carlynne Beard, 969 Kelton Ave, Florence Lechner, 560 Methoff St., and Mary Lang, 143 E. Moler St., (seated) Hal High, 676 Kossuth St. (left) and Don McIndoo, 908 Carpenter St.

Junior Red Cross Sets 100% Goal

"One hundred percent enrollment for service in the American Junior Red Cross is the goal set for the schools of the Franklin County Chapter," George E. Roudebush, Junior Red Cross Chairman, announced today. From November 15-30, schools in the area will be campaigning for membership. This will give boys and girls an opportunity to pledge themselves to aid in meeting the needs of their their community, their country, and the children of other nations."

Fifty-two thousand children in public, private and parochial schools in Franklin County enrolled in the Junior Red Cross last year. Their motto, "Service for Others", is being fully met by students in elementary and secondary schools.

Education rehabilitation last year included shipment of thousands of textbooks to the Philippine Junior Red Cross. Their program also includes providing special printing equipment for rapid and inexpensive reproduction of educational literature for the schools of Czechoslovakia, Greece and Italy. Already a complete unit has been sent to Norway.

The American Junior Red Cross continues to serve in military and civilian hospitals, providing entainment programs, holiday favors, articles of clothing and furniture, and art made in their school classes.

Locally, members of the Junior Red Cross in the elementary schools are packing 1500 gift boxes with health and educational items for children overseas. Also albums depicting their American School life are being made to exchange with children in foreign countries, which are followed by writing letters to these children. Many letters of thanks are being received in return for the gift boxes and albums. Holiday decorations are now being made for the veterans at the Chillicothe hospital.

In the sewing classes of junior and senior high schools, the girls are making Santa Claus suits for Christmas for men in the armies of occupation and veterans' hospitals, hemming tea towels and making card table covers.

Boys, in their industrial arts classes are fashioning ash-trays, ash-tray stands, and craft carts for hospital use. Materials of all kinds to be used in hand craft classes for veterans and patients at the Columbus State Hospital have been collected.

As it costs only fifty cents per room in elementary schools, and one dollar per hundred students in secondary school to become members of the Red Cross, extra funds contributed are placed in the National Children's Fund. This fund is used for school equipment and supplies, and for medicine, clothes and foods for youngsters in the war-devastated countries.

Through doing for others, Junior Red Cross members are learning the ways of democratic citizenship.

SOUTH HIGH'S MASCOT

Meet South High School's mascot, Major, which is the property of Emerson Werner, a South High player, who lives at 523 Siebert Street. This is the dog we want to start growling.

In the center of this page you see the symbol of all South High School athletics, particularly the South High School football team.

The South High Booster Club was organized to help foster the spirit to put South High School football teams, and athletics on a par with the other Columbus High Schools.

The South High Boosters are trying to raise $2500, much of which is to be used for a radio controlled score board for South High's Athletic field.

This score board is to be dedicated to South High School students, and alumni, who were killed during World War 2.

How anybody can fail to contribute and join the South High Boosters, when 50 boys and men, from South High school gave their lives for their country, for whom this score board is to be dedicated, makes one wonder.

While South didn't show up too well this season, with the Reserve team ready for next year, which had an exceedingly good season this year, you can expect to see the South High Football team go some place next year.

The bull dog in the center of this page looks pretty docile doesn't he, and he has been docile for the past few years. Let's make him pull in his tongue and start growling.

This can be done with your help. The Booster Club needs you!

You can join the Booster Club with as little as 50 cents or the sky is the limit, with what you may give. There should be a Booster Club membership in every South Side home, whether your son or daughter will go to South High school, or whether your son or daughter is in South High School, or if you yourself are an alumni of South High School.

Remember South High School is a part of this community as much as your own homes are.

Let's pull it out of the doldrums.

Let's make this dog growl.

Let's make this dog the king of Columbus next year.

Let's not forget that we are building a war memorial to South High School boys, and men who gave their lives to their country.

Let's join now at the following places:

Walters Grill, 1203 Parsons Ave., B. F. Goodrich Store, 1942 Parsons Ave., Forget-Me-Not Gift Shop, Thurman and Jaeger St., South way Post 144 American Legion, Whittier and High Sts., Cap Hoover, S.S.Y.M.C.A., Betty Ann Grocery, 241 E. South Sider Starts Santa Claus Agency

Santa Claus is usually reached by writing to the jovial gentleman at the North Pole, but this year he'll be visiting the children of Columbus right up until time for his daring ride on Christmas eve.

The time-worn Mr. Claus, with the aid of about 30 bewhiskered helpers, expects to visit more children in Columbus prior to Christmas this year than ever before.

Actually, this particular Santa Claus is Amos R. Stevens, of 132 Reinhard Av., a plump, amiable man who has started what he believes to be the first "Santa Claus booking agency" in the state. Helping the 38-year-old Stevens in his venture will be 30 laughing, rotund lads, most of whom are war veterans.

Santa Claus headquarters in Columbus will be at 922 Lazelle St., just in rear of Mr. Stevens' home. Appointments for Santa Claus to visit homes may be given by calling GA. 5431 from now until Nov. 24. Visits will be from Dec. 1 to Dec. 24. His price has been set at $3 for a half hour visit.

Clad in well-fitting costumes complete with all the trimmings the 30 Santa Clauses will fan out over the city to cover zones set up by the boss Santa—Stevens. Five zones have been mapped out, East, west, north, south and central. The group expects to work in about 50 visits per day in the city.

Mrs. Santa Claus—or Mrs. Amos Stevens, whichever is more appropriate—will also pay a vital roll in presenting Santa to the children of Columbus. She has been assigned the task of handling all orders from persons desiring visits.

Stevens estimates his men will visit approximately 5000 homes in the city during the Christmas season if the procedure goes according to plan. At each stop they will set about taking orders for Christmas, talking with the children and making merry before "speeding back to the North Pole to prepare for the wild ride Christmas eve."

Although this is the first service of its kind in Columbus, it isn't the first Christmas venture for Stevens. Serving as a guard at the Curtiss-Wright plant during the war, Stevens in 1943 gathered together some of the plant employes and opened a toy-making workshop at the Lazelle St. address.

Eight helpers worked on toys day and night that year, Stevens recalls. "We didn't make much money out of the work," he said, "but we had a barrel of fun."

"That's what we're hoping for this year," he said. "We want to make some kids happy, have some fun and maybe make it a yearly business."

Sick and disabled children will get special attention from Steven's agency this year, he says. "We're starting a business," he pointed out, "but our hearts are going to be plenty large."

The appointment of Irwin A. Johnson, director of Public Relations for radio station WBNS, as chairman of the 1947 Christmas Seal Sale was announced today by Mrs. George T. Johnson, president of the Columbus Tuberculosis Society.

The society has set a goal of $50,000 for this year's sale, according to Mrs. Johnson.

"These funds are needed to carry forward the mass X-ray survey through which thousands of Franklin County residents are X-rayed free, to pay for the health education work of the society, to supplement the rehabilitation program of the tuberculosis hospital, to assist in maintaining the free tuberculosis clinic at 503 Oak Street, and to demonstrate needed services which are not being otherwise provided," Mrs. Johnson said.

The Seal Sale will open on November 24 and continue until Christmas.

Special Leave For Navy Recruits

The Navy Department has just announced that all Navy recruits under training, and who will have completed their technical quarantine (detention period) may be granted leave during the Holiday Period, beginning December 20 and ending January 4, 1948.

Prior to this change in leave policy, recruits were granted leave only after completion of their entire training period, which normally is for twelve (12) weeks Detention, or technical quarantine period is for the first three (3) weeks after entering the naval training center.

This period of quarantine is necessary in that during this early stage of naval life, each man is given the full protection against practically every known communicable disease. Also, he is properly outfitted with the necessary articles and clothing to assure him of complete comfort in his start on a naval career.

Miss Wanda Simmons A Recent Bride

White roses and carnations decorated the altar of St. John the Baptist Church on Sept. 15 when Miss Wanda Lou Simmons became the bride of Mr. Joseph S. Apisa with the Rev. Rocco Petrarca officiating. The bride is the daughter of Mr. and Mrs. John A. Simmons, 1871 S. Sixth St., and the bridegroom is the son of Mr. and Mrs. Stefano Apisa, 1775 Parsons Ave.

Given in marriage by her father, the bride wore a gown of heavy white satin with a sweetheart neckline and long sleeves. Her veil was full length and fell from an illusion halo. She carried a bouquet of white carnations, gardenias and roses and her only jewelry was a strand of pearls given her by the bridegroom.

Mrs. William Grell, sister-in-law of the bride, was the matron of honor and wore a blue taffeta gown with a sweetheart neckline and carried yellow roses. The bridesmaids were Miss Amadell Colaver who wore fuchsia, Miss Pauline Mullen who wore aqua and Mrs. C. Stall who wore pink. They carried bouquets of pink

Mr. Joseph Panaia of Homestead, Pa., was the best man and seating the guests were Francis Macia, Jack Mitlebeck and Loni Schultz.

The couple resides at 1775 Parsons Ave.

PLAYING AT THE SOUTHLAND

Larry Parks, Rita Hayworth & James Gleason In "DOWN TO EARTH"

Glamorous Rita Hayworth and Larry Parks, sensational star of "The Jolson Story", are Hollywood's newest romantic team in "Down to Earth", spectacular new musical now playing at the Southland Theater.

Produced in breathtaking technicolor, "Down to Earth" stars the gorgeous Miss Hayworth in a singing, dancing, romancing role rimilar to those which catapulted her to Hollywood fame. Filled with gay new hit tunes, "Down to Earth" is further distinguished by the excellent supporting cast of Marc Platt (the dancing star of "Oklahoma!" and "Tars and Spars"), Edward Everett Horton, Roland Culver and James Gleason.

Saturday only, "Framed", tense new mystery melodrama starring Glenn Ford and lush Janis Carter, will head the Southland marquee. The action of "Framed" takes place in a Western mining town, and its exciting events will have you gripping the edge of your seats with suspense.

Sunday and Monday, "The Ghost and Mrs. Muir", starring Gene Tierney, Rex Harrison and George Sanders, will be the top feature. Adapted from R. A. Dick's saucy best-seller which redened the face of a nation, "The Ghost' " is filled with spicy romantic comedy, well directed and enacted by its capable stars.

Tuesday and Wednesday, Charles Dickens' beloved novel, "Great Expectations", vividly and expertly brought to the screen by J. Arthur Rank, will be the Southland's main feature. For over-all perfection—deft direction, expert cast, brilliant production, nostalgia, suspense, romance, mystery — everything, "Great Expectations" cannot be too highly recommended to young or old!

Champion Theater, Friday and Saturday

This Friday and Saturday the main feature at the Champion Theatre will be CRY WOLF, starring Errol Flynn and Barbara Stanwyck. This mystery melodrama packs a punch with its surprise ending, which makes us beg you not to come in in the middle or at the end of the picture. See it from the first to really appreciate it, and not spoil it for yourself. It has all the tension needed to make a good story and, we believe, this is about the first picture in which Flynn has played, that comprises mystery and suspense. But he handles them beautifully. We can't tell you about the picture, because it would lose its effect if we did, but its a good show and pleasant entertainment. Second feature will be CODE OF THE WEST, starring James Warren and Debra Alden. This Western departs a bit from the routine, virile, gun-fighting Westerns, in that it presents a good story along with the action.

CHAMPION THEATER SUNDAY, MONDAY

TO EACH HIS OWN will be the main feature at the Champion Theatre next Sunday and Monday. This story has played before and has been seen by most people, but we have had so many requests from those who have seen it and those who missed it, that we are bringing it back for all to see. This was Olivia de Havilland's Academy Award winning picture, and it is a beautiful story, tenderly portrayed, one which all should see. The second feature is also one of the finer of a few years back, THIS GUN FOR HIRE, starring Alan Ladd. This was one of Ladd's early pictures, one which people said was going to take the actor places. Their predictions have come true. Besides being one of his early ones, it is also one of his best.

Southwood P.T.A. Meeting Friday

The next regular Southwood Parent - Teacher's Association meeting will be held Friday, November 21, 7:30 p. m.

There will be a Thanksgiving program presented by the pupils of Miss Buchanan and Miss Finsterwald.

The guest speaker for the evening will be Dr. Leland Jacobs, professor at Ohio State University.

The children in Room 112 — 2B Grade have been interested in the study of Indians for the past few weeks.

John Wright, David Vargo, Richard Stewart, and Raymond Cossin were particularly interested in diffedent kinds of homes.

James Rice and Lawrence Western figured out how they could make an Indian drum.

The girls were more interested in the Indian clothing and head decorations.

Howeved at the end of the work most of the children decided that they would rather be in their own homes than to be an Indian and live in an Indian Home.

The boys and girls in Room 109 were pleased to see four mothers at their program. Those whose mothers came were Harold Dalton, Audrey Heiser, James Evans, and Jack Cooper.

Autumn and the change in nature have been a source of interest to the boys and girls in this room. They have found pretty colored leaves, Bittersweet, and fall flowers and brought them to school.

At the present time Thanksgiving, with its story of the Indians and Pilgdims holds their attention.

THANKSGIVING GREETINGS

The modern Thanksgiving Day is very much like the first Thanksgiving for as then we have much to be thankful for.

Today our nation is at peace and abundance of food graces the festive table. While in many of the nations abroad the lack of food is ever apparent.

Abroad debris and destruction are at every hand but here our homes and our industry is intact.

When we sit down to our Thanksgiving feast in our homes we should indeed first give thanks for the many blessings we and our country receive.

Mr. and Mrs. Walter Laff of 178 Fornof Road, are announcing the recent marriage of their daughter, Joan, to Mr. Lewis M. Gilbert, of Lebanon, Virginia.

It was an event of November 5. The single ring ceremony was read by the Rev. B. L. Allen in the Methodist parsonage at Greenup, Kentucky. Their attendants were Mr. and Mrs. Danny Irvin, of Lancaster, Ohio.

The new Mrs. Gilbert is employed at the State News Service, while Mr. Gilbert, just recently discharged from the Army, having served in the Philippines, is employed at the Good Housekeeping Shop. For the present they are residing at the home of the bride's parents.

South Side Settlement

A new Club, the Browns, has been started on Friday evenings. Its officers are: President, William Lorecar; Vice-President, Edward Devlin; Secretary-Treasurer Otis Crowder. This club is planning also to enter a basketball team in the South Side Settlement Intermediate League.

* * *

The Golden Bears Club has also elected new officers, who are as follows: President, John Hunyady, V. P., Lewis Vargo; Secretary, Thomas Wilson; Treasurer, Wendell Hunyady; Keeper of the cafe, James Sabo. This club is studying the Knights and hope to be Knights of Service. At present the boys are pages and after seven weeks will become squires. If all requirements are met, squires. After seven more weeks as squires they may become true Knights and as such strive to earn the Golden Star on their shields. These boys are eight to ten years old. After the last meeting the boys carved animals out of soap. The club is organizing a basketball team to enter in the Junior League at South Side Settlement.

The South Side Clowns have been slow to reorganize their club this year because of the active participation of it's members in the South Side Settlement junior football team. At present it is seeking new members. Leon Garnish is the past secretary who new members may contact if interested in joining. The Club meets on Friday afternoons and is planning also to enter a team in the Junior Basketball League.

* * *

At the last meeting of the Badgers Club the following officers were elected: President, Arlie Martin; Secretary, Howard Cousin; Treasurer, Norman Colaner. The Badgers art entering team in the Intermediate Basketball League at the S. S. S. Frank Sweeny is the coach.

* * *

Boy Scout Troop No. 2 had 28 members at its meeting. This is a new high record but the boys are trying to beat even this record. Last week a drive was made to get new scouts into this troop, so that Troop No. 2 will again be one of Columbus' finest Boy Scout Troops, as well as the oldest. Any boy wishing to join may do so by coming to the South Side Settlement on Mondays at 7:30 p. m. The troop has a basketball period in the Gym, following its meeting. At present a race is on between the two patrols, the Eagles and the Polar Bears, to get the first patrol with all members tenderfoot scouts or above and all its members in scout uniforms.

* * *

Five members of the Indians Club were recipients of Football tickets to the Ohio State-Illinois game Saturday. This club is planning to enter two basketball teams, one in the intermediate league and one in the Junior League. Jack Young is president of the Club.

* * *

Semi-Annual meeting of the Links will be held at the South Side Settlement on Thursday evening, Nov. 20. The South Side Dramatic Club under the direction of Mrs. Lewis will put on a play for the Links, who hope to have an attendance of eighty to eighty-five people. There are 52 Links now organized and three new ones to be taken in, which makes a total of about 1500 people. This organization is sponsoring the new South Side Settlement Camp at Sugar Grove.

Mr. Lewis spoke and showed movies for a group of boys and girls, ages twelve and thirteen years of age, at the North Broadway Church, Sunday evening, Nov. 16.

South Side Settlement Sports

South Side Settlement House lightweight football team played the last of a series of three games, today, November 10, 1947, after having lost one and won one. The boys got off to a slow start and finished behind after a thrilling 4th quarter, final score 6-0. A last minute march, started by Carol Fellure on a double handoff play around end, almost reached the six-point stripe before time ran out. Tht boys have shown great improvement since their last game. Today's game saw some fine tackling by Donald Wilkie and Lyman Lindsay, and running by Jimmy Wilkie and Carol Fellure. The boys play again Thursday at Southwood playground for cellar position. Elections were held to choose player showing the best sportsmanship. An award will be made for this at the banquet to be held soon after games are completed.

* * *

Nov. 13, S. S. S. lightweight football team played the Tigers in the Final game of the season today for cellar position, coming out the underdog in a rugged 26-0 battle. The tigers did not gain an easy victory from the much lighter S. S. S. boys, who threatened from the seven-yard line three times but were not quite able to push it over the pay dirt. Highlighted today were Carol Fellure and Kerit King on wide end runs and Jimmy Wilkie on some rugged quarterback sneaks and line plunges. Aerial attack was unsuccessful. Linework was very poor today. The South Side YMCA football league banquet will be held Thursday, November 20, 1947 at Schiller Park at 7:00 p.m. At that time awards will be presented. All players will attend this banquet.

Registration sheets and entrance fees are coming in very slowly this week for the preseason basketball league. Practice time must be alloted next week. Get Them In!

The South Side Settlement Monday evening girls gave a box social, Nov. 17 at 6:00 p. m. The girls invited the boys who had to pay for the box at open auction. The affair was enjoyed by all who attended.

BASKETBALL CLINIC TO BE HELD AT SOUTH HIGH

A Basketball Clinic will be held Tuesday, November 25, 7:30 p. m. at South High School Auditorium.

A demonstration will be presented on both offensive and defensive plays. All the fundamentals of the game and new rules will be explained. The public is invited to attend and get a preview of the South High Basketball team.

Meet An Outstanding South Side Citizen

Rudolph Zish

In this article, we introduce to you, Rudolph Zish, another of those prominent South Siders, who gives much to the community, but things he does are hidden to the general public.

Rudy came to Columbus when in his teens and immediately went to work for the Livingston Seed Co., and for a number of years was their manager.

For the past 21 years he has been connected with the Premier Floral Co. of 1853 Parsons Ave.

All his life he has been interested in flowers, his father being a florist before him. Rudy, as everyone calls him, belongs to the Steelton Merchants Association, South Side Aerie of Eagles, the Allied Florists Ass'n., and Emmanuel Lutheran Church.

Rudy is especially active in the Steelton Merchants Ass'n., being past president of the group and for the past several years he has had charge of the Steelton Merchants Carnival.

He can speak three languages, German, Hungarian and Italian, which has been especially beneficial to him here in the South Side.

His hobbies are his church, picture shows, picnics, flowers and associations with men in doing things for our community.

He and his wife, Julia, are partners in the Premier Floral Co., and they live and sleep flowers.

Rudy Zish likes people, likes to meet them, likes good jokes, but above all, his many kindnesses and charities to his fellowmen he does, but never publicizes for the credit he so justly deserves, he keeps hidden. We have never heard him say an unkind word about anyone.

Leaves S. Side With Regrets

Mrs. Emma Paulus, after living 30 years on the South Side, has sold her home. She regrets leaving her many friends and acquaintances which she has made over the years. She would like to know that she is now living at 103 Belvedere Ave., Columbus, Zone 4.

REEB CALENDAR

REEB CAL.

Thursday and Friday, Nov. 27 and 28, no school. Thanksgiving holidays.

Tuesday, Dec. 2, educational films. Navajo Indians and Colonial children. Salmon.

Wednesday, Dec. 3, 9—10 a. m. sale of War Bonds and Stamps.

The above calendar of the events of the coming week is announced so that our parents and adult friends may plan to come to Reeb to visit us.

—R—

Eugene Kise, Henry Schafer, and Kerll King finished warping the rug loom this week. Kerll King has started a rug.

Victor Moore and James Wilkey have been making religious figures of plastic paris for the class for Christmas. Each boy will have a complete Nativity scene.

Alca Carl, David Hill, Virgil White, Marion Moore, Kerll King, Robert Ward, and Leroy Bostwick are making puppets. Room 101

—R—

We certainly appreciate the response that we have had on contributions of clean rags for use in weaving rugs in our special room. Part time in each day's schedule is given over to handwork and this is just one of many projects that our boys carry on. If others may have clean rags, we will be glad to collect them. Just call Reeb Ave., School office, GA-1326.

—R—

Reeb Ave., School is always pleased to have visitors. If you have not visited your child this term, please plan to do this at once. We believe that 15 to 30 minutes in the classroom will give you a very good idea of your child's work and the results that are being obtained to the careful guidance of our teaching staff. In consideration of all concerned, we do respectfully request that special days such as those just before a holiday be avoided and that visits be kept short enough that the routine of the room is not interferred with. Teachers have quite a time to include all of the work required work, hence this request.

—R—

The general theme of all of our opening exercises and assembly programs, for the past week, has been "Thanksgiving." We are thankful that we recognize the source of all things as a Divine Power; that our thinking may be directed to God who has created all things and holds the universe in His control.

—R—

We wish to thank some of our neighbors for giving us a quantity of clean rags to be used by our Special Room boys for weaving rugs. If you have any amount of clean rags, which you can spare for a good use, please call GA-1326 and we will be glad to send for them.

—R—

Keep our monthly PTA meeting in mind for this afternoon, Thursday, Nov. 20th, at 2:15. The detailed program was printed in last week's Booster. Miss Stella A. Beckley, a home missionary, who established home and community Bible classes and trains men and women for this work, will speak on "How To Reach The Child." Miss Beckley's wide range of experience in dealing with children from a thoroughly Christian point of view, places her in an excellent postion to give us something that every parent can use in training our children.

—R—

We were pleased last week to receive six books for our school library from the Women of the Moose, Chapter 206. These books were purchased by the Moose Auxiliary from the Ohio Pupils Reading Circle which maintains headquarters for the state at 1456 N. High St. All of the books, suggested by this shcool agency, are very carefully selected, so we are glad to have this addition to ou supplementary reading.

Safety in Sound Bodies

Ever stop to think about the risks you take? Safety first, last, and always is a fine motto, but it is not always put into practice, says the Columbus Milk Council. Sure, you use safety devices, the newest gadgets, even wear protective clothing, but do you use good sense when it comes to safety in your eating habits? That body of yours is long suffering, no question about it. It's remarkable the way it tries hard to get your appreciation and cooperation. Your body doesn't scream out at you and break down in the middle of High Street. Instead, it blinks its caution lights—you can't sleep or eat, you have no pep but plenty of nasty aches and pains. Then you have no patience, instead an irritable disposition.

To keep fit, just follow these simple safety rules for eating habits:

1. Three meals a day at a regular time—breakfast, lunch and dinner and snacks if you should.

2. At least a pint of milk each day for an adult. More won't hurt you. It's not restricted to babies!

There's really joy in eating. Don't think that safety in eating habits deprives you of happiness. To be sure, safety first, last and always adds to the zest of living.

Kennel Club Has Dog School

Barks, yaps, yowls and howls; whines, yipes, yips and growls—the place was a canine madhouse.

There were the strangest sounds that the South High School gymnasium had ever heard, but what could you expect from a school for dogs?

The dog school started recently but Saturday morning, November 15 was the first time that owners brought their pets for their first session of schooling.

Little dogs and big dogs, excited dogs and calm dogs you could take your choice. To the everlasting credit of their masters, not one fight resulted. Yes, there were a lot of canine threats, but the pooches didn't get a chance for one nip.

The school is the idea of Miss Ellen P. Boyer, English and speech teacher at South High, and the participants are the members of the South High School kennel Club. The lecturer and trainer is Dog Warden Earnest L. Wade, 410 Berkeley Rd., deputy of the Humane Society of Columbus. Mr. Wade's two years' experience training war dogs during the war, and handling war dogs on Okinawa, stood him in good stead Saturday morning — especially when it came to patience.

There was "Major," for instance, an 8-month-old English bull belonging to Charles Werner, 523 Siebert St., and official mascot of the South High School team "Major" [illegible] the dog's care.

"Chips," a terrier belonging to Faye Margolis, 667 E. Fulton St., wanted to dance and play. "Cindy," a [illegible], owned by Mary Mobeiley, 1171 Lockbourne Ave., was excited and wanted to stand on its hind legs.

"Buffy," a cocker spaniel belonging to Wilda Meyer, 327 Reinhard Ave., was perfectly behaved, but just a little bit worried over the appearance of the [illegible] "Major."

"[illegible] a pet dog owned by Tom Reeder, 281 Kossuth St., was [illegible]

"Come back here three or four weeks from now," predicted Officer Wade "and you won't know these dogs, they'll be so well disciplined. This is the first time they've ever met each other; naturally they're excited."

He explained that the dog class has a twofold goal to improve dogs and give them proper association, and to train the owners in how to handle their pets properly.

News In The World Of Religion

"I am a heretic as to how Christians should carry on evangelistic work among Moslems" said Dr. Frank C. Laubach on his recent return from the Near East and North Africa, where, on behalf of the Foreign Missions Conference of North America, he was promoting a campaign for literacy among Arabs and other Mohammedans. He continued: "We ought to tract Mohammedans as heretical Christians. Mohammed tried to be a Christian, but he met the wrong Christians and he was illiterate. If we had not fought the Mohammedans in the Crusades, and had threatened them as Christians should treat people, the history of our relations might now be quite different." In Egypt, Iran, and other Moslem lands, great progress is now being made in teaching men and women to read by the "Laubach method." The ability to read, Dr. Laubach believes, is a preliminary step for any people who would understand Christianity and its Bible.

One of the most extensive and best-planned programs of religious instruction in the public schools of any state has been carried on in West Virginia under the sponsorship of the State's Council of Churches. About 30,000 boys and girls of elementary school grade have been enrolled in classes for Bible study and for Christian living; and in addition some forty high schools offer Bible study courses as electives for which credit is given toward school graduation. In many of the major cities of the state, the Council has enrolled hundreds of young people and adults in religious leadership training classes.

The youngest foreign mission of the Presbyterian Church in the U. S. A. is in Kunming, increasingly important center of Yunnan Province, China. Here, according to the Rev. W. H. Clark, missionary "there is a small but strong congregation, with a disproportionate number of professional people (including nine doctors), and a Christian primary school of over 400 pupils. A tiny congregation at Peach Orchard Village is cooperating with Methodists and Anglicans. There is a little mud chapel at Little Rock Dyke where the employees of the Szechwan-Yunnan Railway worship. At Kokiu, the tin mine district, the church is gaining a foothold. The gentry beg the mission to start medical work and will provide the building and the doctor's salary. Near here, a few years ago, missionaries were chased out before they could begin to preach."

"We are confronting the Russian question hysterically," Bishop G. Bromley Oxnam, recently told a conference of Methodist churchmen. "Calmer consideration convinces men that ideas cannot be destroyed by military force. It is possible to destroy the cities of an enemy, to bring his armed forces to surrender, to defeat him as far as his physical power to resist is concerned. But an ideology cannot be suffocated by poison gas, nor demolished by atom bombs. Ideas are conquered by better ideas whose truth has been devealed in practices that enrich personality. It is easier to summon us to a holy war against Russia than to solve the problems involved in establishing economic justice and world order. If we were able to defeat Russia in a war, we would not by that fact eradicate a philosophy of materialism, solve economic problems, or end atheism. Communism can be defeated by a superior world view, a dynamic faith that freedom brings justice to men and brotherhood to society. I believe that dynamic faith is Christian, but it must be a Christianity prepared to grapple with contemporary injustice and to die if need that Christ may live."

A young Seventh-day Adventist missionary, Charles Crider, formerly of Washington D. C., has recently begun mission work among the Turkman tribes of northeastern Iran, adding another dialect to the more than 600 languages in which the denomination is now carrying on religious work. The tribesmen, according to Missionary Crider, live in portable homes on the vast grasslands just on the borders of Russia. They are Mohammedans, or in some areas retain their ancient animistic beliefs.

A commission of five of China's best legal minds are now in the United States, and soon to visit Europe, sent by the Chinese Government for a tripple purpose: to say "Thank you" to the western nations that have recently abrogated extra-territoriality in China; to study the laws of the western democracies; and to secure western comment on the new constitution of China and its code of law. Of the five men, four are members of Christian churches and two are graduates of mission-operated Soochow University Law School; while three are members of that School's faculty. The cairman of the commission is Dean Robert Sheng, of the Soochow institution, and holds a Doctor of Jurisprudence degree from Northwestern University Law School.

The Redskins had a hard time in downing a determined Mity Mice aggregation 14 to 6 to capture the championship of the Lightweight class.

Had the Mity Mice been at full strength the story might have been a different ending, they were only able to field eight men.

The Redskins first score came in the second quarter when they caught the Thurman team behind their own goal for a safety. Later in the same quarter Dick Stedman passed to Dick Haines on a sleeper play to net six more points.

The Redskins final score came in the third quarter when quarterback Lefty Bingmer carried the ball over on an end run.

Fred Beecher made the outstanding run of the game when he took a Redskin kickoff and dashed over for the Mity Mice's only score which came in the third quarter.

MITY MICE ---- 0 0 6 0—6
REDSKINS ---- 0 8 6 0—14

Redskins Scoring: Touchdowns, Haines, Bingmer.

Mity Mice Scoring: Touchdown, Beecher.

Officials: Herman Kuehn, John Kramer and Jim Wagner.

Hunters Find Game Scarce

Early reports reaching Division of Conservation Headquarters in Columbus indicate that hunters in some areas of Ohio found game during the first days of the season which opened November 15 a little more plentiful than expected and in other places it was just as scarce as pre-season predictions.

The rain and penetrating mist which fell throughout the opening day kept hundreds of hunters out of the field but other hundreds chose to hunt at the cost of wet feet and soaked hunting togs.

Hunters generally left their dogs in the kennel because of the weather. Hunters were reluctant to risk having a sick dog for the better hunting days ahead.

Game has been reported "spotty" but on the whole in fair quantity. In the vicinity of Findlay many hunters bagged their limits of two cock pheasants and four rabbits by noon of the opening day while others hunted until the closing hour of four o'clock and still had only half-filled bags. Generally, however, most of them indicated they saw the game but due to fog or mist just couldn't bring it down. In Wood County where pheasants have been considered plentiful for several years back by hunters, reports this year seem to uphold this county's reputation. Some hunters claimed to have seen as high as 40 and 50 birds but usually out of range.

In Fayette and Franklin counties pheasants were reported scarce but rabbits plentiful but very scattered.

Hunters generally observed the hunting hour regulation which prohibits hunting before 9 a. m. and after 4 p. m.

The pheasant season closed at 4 p. m. November 22. The rabbit season will continue through December 13 and for ruffed grouse the season closes November 29.

Sportlight by Grantland Rice

WHILE watching a various assortment of pitchers and so-called pitchers give up 68 walks through the world series, one begins to wonder what has become of baseball's real pitchers.

Watching Burt Shotton vainly trying to find one pitcher who could go five innings — just one pitcher in seven games—one begins to wonder again if the art of pitching isn't really lost.

G. Alexander

From the stars we have known from the old days of real pitchers, we learned that a good pitcher needs just three things — a fast ball, a curve ball and control. Walter Johnson needed only a fast ball and control. Today, pitchers are looking to a slider, a knuckle ball, a screw ball, a sailer—almost everything except control.

Imagine a Dodger pitching staff that hasn't a pitcher who can travel five innings. The Yankees were only a little better off. They had a fellow named Shea and a relief pitcher named Page. These took care of three of the four games the Yankees won.

The only pitcher the Dodgers had was a big, husky fellow known as Hugh Casey. Casey was the Dodger pitching staff. The Dodgers needed him in only six of their seven games.

We'll name a few great pitchers for you, if you've forgotten their names — Cy Young, Walter Johnson, Christy Mathewson, Chief Bender, Eddie Plank, Grover Cleveland Alexander, Addie Joss, Ed Walsh, Smoky Joe Wood, Carl Hubbell, Lefty Grove, Dizzy Dean — these are just a few.

Walsh used a spitter and Hubbell used a screw ball. The others had the three ingredients we have mentioned. Matty picked up his fadeaway after he hurt his arm and lost part of his speed.

They Had Control

Most of these pitchers could work in 45 or 50 games. Ed Walsh worked in 66 games in 1908, winning 40 and saving 12 others. Jack Chesbro belongs in this list. He won 41 games for the Yankees in 1904.

Above everything else, they knew where the pitch was going—or at least within an inch or so of the spot. Alexander could pitch into a while watching such pitchers as Branca; Barney, Gregg and others shut their eyes while trying to keep the ball in the same lot. Home plate? Home plate might as well have been in another city.

Bob Feller was a much better pitcher than he is today when he banked on a fast ball, a fair curve and control.

The two best pitchers we had starting this season were Feller and Newhouser. Together they won 37 games and dropped 28 during 1947. This is certainly no record to rave about.

Dizzy Dean was the best pitcher I've seen in many years. Dix depended on speed, a curve, change of pace and control. He won 58 games in two years—before his arm went bad, due largely to post-season exhibition games.

One of the best pitchers I ever saw is barely known or remembered today. His name was Addie Joss of Cleveland. Joss was 6 feet 3. He had a fast ball, a curve ball and control. Addie pitched eight one-hit games.

He worked in the greatest pitching duel of all time—or at least it was close. This was against Ed Walsh, late in the season of 1908.

Aim Is Vague

In this game, Joss pitched nine perfect innings. No White Sox reached first base. Ed Walsh, the loser, struck out 15 Indians and allowed one hit, as I recall it. Joss might well have had five or six no-hit games.

Most of the pitchers that come along today haven't the slightest idea of what control means. They rear back and give you all they have, with no particular target in mind. When in trouble, they go to a slider, a sinker, a sailer, a knuckle ball or some other degenerate form of pitching that wears out the arm, and certainly doesn't help to get the ball over the plate.

"Every time I bat against Alexander," Johnny Evers told me years ago, "I want to throw my bat away. He never gives me a ball I can hit. He could drive a nail with a pitch. First it's low and inside—but over. I move back and it's low and outside. But still over a corner."

If you recall the details, Alexander won only 94 ball games from 1916 through 1917. He won 28 games as a rookie with the futile Phillies, and he started and finished practically every game.

Yet Shotton couldn't dig up a single pitcher who could finish five innings. Fortunately for Shotton, Bucky Harris was in about the same shape. The number of pitchers used in this last series was a disgrace to the art and science of pitching.

What's Your Interest?

The big question before the house on Pearl today is your concern of YOUR GUIDANCE [illegible] the development of the moral concept of America and we must have if we are to have any democracy in the world at all. I do not think you can do any more valuable work than the work in the guidance of our youth. We must fight for our youth, fight for them to have the opportunity that you and I had, that our fathers and our grandfathers had, because the American of tomorrow depends upon the youth of today.

The present generation is dealing with a legacy that has been handed down to us, a legacy of democracy. It is our task to protect threat legacy. Our responsibilities today are not vague and distant. To my way of thinking they are clear, they are day by day things right before us in our homes, on our farms and in our communities.

Among our many obligations as citizens, we must respect our laws and enforce them, we must carry on our responsibilities toward our government. Here we have a voice in the actual workings of democracy. That is a precious privilege indeed when we look toward other lands and see what is happening there.

It is a story of me, and a story of our neighbors, and a story of my parents, and your parents and of all Americans who have gone to make up the record that we are so proud to have made, not also a story of our democracy."

When any of us are asked "How many subversives, whether they be Communist, Fascist, or Nazi, can we permit in America?" We can all answer together that not one subversive can be kept here and America remain a democracy. We are going to make it a living reality here and now. We shall eliminate the abuses of freedom, and in so doing we shall not destroy freedom itself.

The home, the church, and the school are all a part of every community force through out America, but I think the most important force in any community is the indomitable spirit, patriotism, and zeal of our people. We will continue the dominant nation in the world so long as our communities continue to advance.

Next to the parents and the home, the schools, I believe play a most vital role in the formation of character, stability, and in the growth of youth. This can only be accomplished when our public school systems are supervised by efficient and qualified officials appointed and elected to their respective an responsible positions in our community.

Liquid Air Demonstration

A [illegible] of the effects [illegible] was given [illegible] Mr. Sloan [illegible] South High school.

He pointed out that the most important use of liquid air is in the shrinking of metals, such as rivets, rubber, nitrogen and metals are contracted. This process was also used in atomic research. It has a temperature of 312 degrees F. and the power to absorb 1,000 times its volume in gases and to expand 800 times its volume.

Mr. Sloan did such feats as freezing a cherry and cooking an egg on ice with the liquid air. It also froze a soap bubble into a solid ball of ice, made iron brittle enough to break like glass, froze a banana hard enough to drive nails in a board and drove a steam engine.

Also demonstrated was the amount of energy in a piece of metal by rapidly oxidizing the metal with pure oxygen.

Mr. Sloan has demonstrated and lectured on the subject in every state of the nation, was presented to the public by Mr. E. S. Stauffer, physics at South High.

Champion Theater, Friday and Saturday

"TROUBLE WITH WOMEN"

TROUBLE WITH WOMEN will be the main feature at the Champion Theatre this Friday and Saturday. Starring Ray Milland and Teresa Wright THE TROUBLE WITH WOMEN is a psychological comedy, and everyone has a good time. Milland is shown as a professor of phychology in a university who has written a book stating that women love to be pushed around by men. Then the fun begins, with Miss Wright portraying a reporter who enrolls in Milland's classes to get first-hand information. Brian Dolevy does an excellent job as the editor of the paper, and the whole show leaves the audience limp with laughter. Companion attraction will be DICK TRACY'S DILEMMA starring Lyle Latell and Ralph Byrd. This is a film about the famous comic strip character and he runs true to form and is all that we expect from the "children's hero."

CHAMPION THEATER SUNDAY, MONDAY

"MOTHER WORE TIGHTS"

MOTHER WORE TIGHTS will be the triple feature attraction at the Champion Theatre next Sunday and Monday. Starring lovely Betty Grable as mother in this musical and Dan Dailey, Jr., a newcomer, the show is delightful from beginning to end. Miss Grable starts out as a girl in the line in a show, who marries the comedian (Mr. Dailey), retires to raise a family. Then years later she returns to the footlights to help her husband and time goes on. The music throughout is excellent, acting good, and a better way of spending an hour and a half we haven't found. There are a lot of side issues, involving one of the daughters, who fancies herself as social register material, shocked at her parent's profession, but the main theme sticks to Miss Grable's love of the theatre and the happiness she finds in it.

Club Alexander

Club Alexander, has good news for you. Prices go down. No door, no minimum charge nightly except Friday and Saturday. Free floor show, free dancing to a tip-top orchestra, a load of dashing entertainment by top notch artists.

Southland Theater

One of the greatest motion pictures of all times, "Great Expectations," is being shown on the Southland Theatre screen through Wednesday, November 26th.

Adapted from Charles Dickens' classic novel of the same title, the picture, produced in England by the eminent J. Arthur Rank, stars John Mills and Valerie Hobson, with the most excellent supporting cast ever assembled for one picture.

The beloved story of "Pip", the poor blacksmith's apprentice, who receives a large stipend from an unknown benefactor with the provision that he become a gentleman of leisure is beautifully and faithfully brought to the screen with remarkable effect.

Both direction, excellent mood setting photography and an outstanding cast make "Great Expectations" a picture once seen, never to be forgotten.

All age groups should by all means see "Great Expectations." Dickens has never been brought to the screen with more vividness.

Southland Show Thanksgiving Day

The Southland Theatre, and all Academy Theatres, will feature special matinees on Thanksgiving Day, starting at 1:30 P. M. The Southland's holiday offering will be "The Long Night", highly dramatic film starring newcomer Barbara Bel Geddes and Henry Fonda. Miss Bel Geddes, who zooms to stardom in this, her first picture, came to Hollywood directly from Broadway where she received rave notices for her dramatic ability in "Deep Are the Roots". She is the daughter of the noted scenic designer, Norman Bel Geddes.

The action of "The Long Night" concerns a manhunt (for Henry Fonda) who killed a magician of black reputation who trifled with Miss Bel Geddes' affections. Stark terror and mob confusion reign when the police attempt to capture Fonda. "The Long Night" has been highly reviewed by all national and local drama critics. Co-feature will be a light comedy about a GI in college, "Sarge Goes To College", starring Alan Hale, Jr.

Sunday, Monday, Tuesday and Wednesday, "Cry Wolf", starring Barbara Stanwyck and Errol Flynn, will be the Southland's feature attraction. A swiftly-paced mystery romance, "Cry Wolf"'s thrilling action takes place in a macabre, mysterious mansion. Geraldine Brooks and Richard Basehart head the supporting cast. "Devil on Wheels" will be the companion feature.

Don't condemn him until you've seen the picture; also a "Hal Roach Comedy Carnival.

ON TRIAL

The following editorial is reprinted from the Bristol, Rhode Island, Phoenix:

"A prominent American, John S. Knight, speaking before a group of advertising men in Chicago recently, had some very pertinent remarks to make about our so-called capitalistic system.

"'There is a subtle campaign underway in this country,' he said, 'to discredit the press and render it less able to defend minority rights.

"'Perhaps we have failed to do a good selling job just as I suspect the advertising profession must confess that it has failed somehow to sell the capitalistic system to our own people.

"'I, for one,' declared Mr. Knight, 'grow exceedingly weary of hearing how the capitalistic system is on trial. On trial for what?

"'Has any other system accomplished as much or provided better standards of living?

"'Why isn't socialism on trial in England or communism in Russia?

"'If capitalism is through, why are we asked to provide the food, the money and the tools to rebuild Europe?

"'Thoughtful Americans should be on guard against the insidious efforts being made to discredit a system that has been responsible for this nation's continued growth and progress.'

"No economic system is perfection but it is a bit sickening to hear references made to or system being on trial, the implication being that if it should fail, it would be supplanted by communism or some other ism. What have they got that even comes close?"

Columbus Needs To Be Fire Concious

With the advent of the forty-hour week for city fire-fighters and the necessity of closing several of the engine houses, Chief Brophy of the Fire Prevention Bureau today issued the following warning:

The people of Columbus must become "fire conscious" and help stop unnecessary fire runs by eliminating those conditions in their homes that may cause fire or add to the spread of fire. About 75% of our fires occur in the homes and the majority of these fires are caused by carelessness. Chief Brophy asked that the public check their homes to see if any of the following conditions exist in their home.

Remove all accumulations of rubbish.

Keep ashes in metal containers with tight fitting metal lids.

Make certain that the electric fuse box contains only 15 ampere Underwriter approved fuses.

Have your heating plant cleaned and checked to make sure that it is in good condition. Remove the clean out cap in the chimney flue and remove the soot at least once every month during the winter season. Check the smoke pipe to see that it fits snugly and that rust has not eaten through the pipe. Make sure that the chimney itself has not developed a crack that will allow the hot sparks to drop out. Pay special attention to the chimney where it passes through the attic.

Don't run extension cords under rugs or hang them on nails or water pipes.

Keep matches out of the reach of children.

Don't use a match or any open flame to look in dark places. Keep a flashlight handy.

Never look for a suspected gas leak with an open flame. You might find it.

Don't use an open flame to thaw out frozen water pipes.

Don't allow inflamable liquids to be brought into the home.

Learn the location of the fire alarm box nearest your home and read the directions on the box showing how to operate it. Wait at the box until the firemen arrive and show them the location of the fire.

Post the fire department telephone number MA-3132 near your telephone. If you do have a fire—get the fire department on the way before you attempt to extinguish the fire yourself.

British Take Our Dollars But Still Snub An American Duchess

Read what you may, hear what you will, — the most popular Englishman in all America has been for some years,—Edward Windsor—once the Prince of Wales and later King of Great Britain and her world wide domain on which the sun never sets.

Edward Windsor — now Duke of Windsor was long getting married and likely could have had as his mate, almost any marriageable woman in the entire world —starting of course with "royalty."

When he did marry — who did he marry? Did he tie up with any of the much related royal families of Europe whose underlings now exist on contributions from America? He did not but on the other hand, married an American woman—one of our very own former citizens—a "commoner" as the European snobs call us. By that very act plus renouncing his throne—never before equalled in all history —Edward Windsor endeared himself to the masses in this republic. When either he or his wife visit our shores there are no doors turned against them for true Americans delight to honor both of them.

In contrast how is the Duke of Windsor and his American wife treated by the British whom America for months—yes years—has been feeding and making life easier for them? The answer for years has ben ostracism because he will not throw over his American wife. This could be expected from the upper crust of English snobs but that great common herd in Britain would have assumed the same attitude is unspeakable.

To put it in plain words the American wife of the Duke of Windsor is not good enough for them to associate with — she is apparently not their equal. As a corollary, then we American taxpayers are not the equals of the British who do however accept cheerfully our billions of dollars in charity.

And now word comes that a change of attitude is noticable in Britain toward the Duke of Windsor and his American wife — brought slowly by the admirable conduct of both since marriage —the most remarkable of history.

The Duke of Windsor's unflagging loyalty to his American-born wife and his refusal to attend court functions without her are winning him the gradual support of the British public and some newspapers in the royal feud that has kept the Windsors in virtual exile 10 years.

Because of the ostracism barring the Baltimore born divorcee from British society, the duke refused to attend Queen Mother Mary's 80th birthday party and he is not expected to attend the November 20, wedding of his niece Princess Elizabeth.

Continued ostracism of the duchess is based mainly on the unforgiving attitude of the queen mother. But the British public has asked "Should a husband be loyal to his wife?" and has answered "Yes."

Two influential British newspapers have sided with the Duke and duchess, a drastic step hardly possible a few years ago when resentment over Wallis Warfield Simpson's intrusion into the sacred succession to the throne was bitter.

The duchess' own dignity is largely responsible, she has been ostracized as only the well born British know how to ostracize, she has been ignored; then again deference to her title has been in a manner not far from insult.

Through it all the duchess has kept her dignity. Now she has won a cautious friendliness from the British public, newsreels of her are no longer jeered. Women comment on her ability to remain chic and attractive at 50.

South Five Defeats Dayton 64—25

Look Impressive in 1st Win

South's basketball team opened their season Friday night against Dayton Kiser 64 to 25 to roll up their first victory in the books of 1947. From the looks of things South Five should come together and be a threat in the Big Seven. Dewey Mendelson, Adams and Capt Marshall look like a fine five that should spell woe to their opposition this season. The lads room in South's offensive as pointed by Coach Bass, who is planning passing and setting up the plays would delight any fan.

In Capt Dr Marshall and Chet Dewey, South has two fast ramblers forwards. Both boys looked very good as they scored 10 and 12 points respectively. Adams at guard played a fine steady game, scoring thirteen points, and we believe that we're going to hear a lot about Chet Adams before the season ends.

We got quite a kick out of Coach Hood, you could almost see the steam in his eyes as he watched his boys race around the court. We seem to think he's got a little bit proud of his boys' first showing and he well should be.

Tuesday it's Upper Arlington and Friday it's Toledo at South. Come on you South Siders and get behind the boys and help them along to shout about.

Let's overflow South High School next Friday.

A Solution To Our Cities Dwindling Finances

In passing the payroll deduction tax last week, we believe that our Columbus City Councilmen and Mayor shoved onto the residents and non residents a tax which is illegal for two reasons, first, because they are usurping a federal government income tax and, second, because they are taxing non-residents which is taxation without representation.

Much of our City's financial troubles is due to the fact that the state of Ohio, has not allowed the City of Columbus its fair share of a various taxes which it has collected.

Let's take for instance the sales tax collected in Franklin County by the State of Ohio, which amounted to $8,627,202.49 for the year 1946. Of this amount the City of Columbus received only $651,801.63, Franklin County $336,003.96, the townships, villages and taxing districts receive $86,125.40. This makes a total given to the County, City of Columbus $1,273,929.99, which is about one-seventh of the total of sales tax collected in Franklin Co. The city receiving only about one-fourteenth of this tax, of which the principal amount is collected here in Columbus.

The State of Ohio, while her cities suffer from lack of taxes and approach bankruptcy, build up a huge reserve which on January 1 will approach $200,000,000.

Already this year ending the week Nov. 15, the sales tax collections amount to $8,243,720.44 and by January 1 will be close to $10,000,000.

There are numerous other taxes which the state collects and distributes to our counties and cities in like amounts.

We recommend that the large cities and counties of our state immediately organize and institute a referendum petition to be presented to the voters to collect from the State of Ohio at least 50 percent of the taxes of such taxes, sales taxes and such others as is due to our counties and cities.

Columbus alone would receive approximately $2,200,000 instead of $651,801.63 of the sales tax collected from our city.

If this were done the large Cities and counties of our state, would not be in the dire financial straights they are now in.

It has been proved by past and present governors and past and present legislatures which are largely rural that our legislatures and governors that the people cannot expect no help from them. So a referendum must be instituted at once to get for the cities and counties fair share of taxes collected by our State at the cities and counties expense, which has driven them to bankruptcy. Of course the cities and counties of our state would benefit accordingly to Columbus in the amount of their size and would not be forced to institute payroll taxes such as Columbus has.

Of course County Commissioners and Mayors would say where will we get the money for a referendum. The answer is from large and small taxpayers who would really be affected.

Let us further say that the $200,000,000 reserve collected and stored by the state is illegal as the state is only allowed to collect taxes for expenses only.

Chief Merica Asks Caution

Pointing to huge increases in traffic death rates during winter over other seasons of the year, Chief of Police Foster W. Merica today warned motorists to prepare for hazardous winter weather and road conditions ahead.

"Drive slow in rain, sleet or snow, because traffic accident rates increase 24 to 53 per cent during snow and ice months," Chief Merica said. "And, with more vehicles operating this winter than ever before, every driver must ready his seasonal safety equipment and be on the double alert."

In cooperation with the International Association of Chiefs of Police, the chief urged study of proven methods which will help reduce the toll of deaths, accidents and traffic tieups caused by disregard for snow, ice and poor visibility.

"Only serious consideration of these fundamental rules, based on scientific research and tests by the National Safety Council, will save drivers and pedestrians a lot of unnecessary trouble and sorrow," Chief Merica added.

The rules are.

1. Get the "feel" of the road surface when you start out. Test braking and acceleration ability when no other cars are near and before you are faced with an emergency.

2. Reduce speed when road surfaces are snowy or icy so you can stop in time. Remember at only 20 miles per hour it takes 4 to 12 times more distance to stop on snow or ice as on dry concrete.

3. Keep windshield and windows clean of snow and ice on the outside fog and frost inside. Check your defroster and wipers.

4. Use steel tire chains when snow or ice conditions generally exist. They reduce braking distance for cars and trucks from 10 to 70 per cent, and provide the traction often needed to start or climb hills.

[illegible] monoxide poisoning is dangerous! Never warm your car up in a closed garage. Check [illegible] system and floor boards [illegible] be used there [illegible]

6. Avoid the roads and streets where they improve stopping on wet pavement but do not depend on even new treads to rubber "chains to help on ice of packed snow. Tests showed "rubber tire chains" while new and quiet as any, did further than bare tires on packed snow or ice.

Kurelic's Boot Decides Contest

[illegible] St Mary [illegible] Alumni Gridiron [illegible] right foot spelled defeat [illegible] hard fighting alumni 13-12 was the 17th game played [illegible] the regular and the 4th post played annually on Thanksgiving Day. Although this [illegible] the last game we have had the pleasure of watching, I think we [illegible] there hasn't been a harder fought, harder played game than this year's contest.

The game was [illegible] a sea of mud, but it didn't seem to hamper the attack of either team, as neither obtained the upper hand. The Varsity scored on a pass and lateral in the first half to make it read 6-0. The second half started the fireworks for both teams. The alumni talked on a long [illegible] pass from Jim Herold to Coach Wally Schaldt, the point was [illegible] and it read 6-6.

Halfway in the fourth period Tony Yelle to sheer weight pushed over from the one yard line to make it 12-6, conversion was again wide. Immediately the varsity went to work and a flip from Donnelly to Kurelic on the Alumni 40-yard line and out sped the alumni defense to the goal line for a touchdown and the score.

George Kurelic then decided the ball game by booting between the up rights making it read 13-12 as the game ended.

It was a well earned victory for the regulars and climaxed a fine season of nine wins, one loss and a tie. The playing of [illegible] was exceptionally fine, and in Donnelly and Kurelic, St. Mary's has two of the finest backs we have seen all year. That includes all of the city league teams.

I don't think that the good South Siders realize, that in St. Mary's, they have one of the best teams to represent the South Side in many years. We'd certainly have liked to see them in competition against some of the so-called City League teams.

They thoroughly trounced South 26-0 and displayed as hard a running and blocking game as you could desire. To their coach should go a great amount of credit for welding a squad together such as he has done. The rest of the credit should, of course, go to the boys themselves. They certainly love to play football.

Omar Plans $1,250,000 Expansion

A major expansion of the baking plant facilities and divisional offices of Omar Incorporated was announced recently by George Turpie, plant manager for the Columbus division. The new improvements will approximate an expenditure of $1,250,000 and are scheduled to begin about January 1 of next year.

Contracts are expected to be completed within the next thirty days.

The building program will greatly enlarge the facilities and area of the present plant located at 701 East Mound Street, to an approximate total of 300,000 square feet. The building and remodeling of such proportions, that the existing improvements and expansion will permit efficiency comparable to locating in a new plant.

Designed by Dan A. Carmichael, best known for his striking treatment of the Battelle Memorial Institute, Columbus, the exterior of the new modernized and enlarged building was specially planned to conform with that of the present building.

Omar Incorporated opened its original Columbus plant in 1926, featuring home delivery of bakery goods. The Home office of the company is in Omaha, Nebraska. Brush on both sides with melted fat. Cut squash in half and remove seeds. Steam in a covered container in one inch water until tender. Remove pulp, season, and mash.

Place ham slice in center of broiler rack and place rack in broiler compartment 3 to 4 inches from the flame. Broil about 15 minutes. Turn and around it arrange potato slices. Place mashed squash mounds around meat and brush lightly with melted fat. Broil meat until tender and well browned, potatoes tender, and squash browned.

Your Home

By Frances Ainsworth SC

Last week I made a very interesting discovery! It all started when I ran into an old friend, Ann Stevens, and invited her out to my home for tea. Ann, who had been hard of hearing for years, surprised me by hearing everything I said perfectly—so of course I had to know just what she had done.

Ann told me that she had heard so much about hearing aids she finally had visited the local dealer and asked him if he could really help her deafness. Well, she said the dealer fitted her for a hearing aid on the Beltone "Selectometer" and let her hear the improvement herself! I was curious as to just what the "Selectometer" was and Ann explained that it was a special instrument developed by the Beltone Hearing Aid Company in Chicago . . . and that it enabled a deafened person to choose his own hearing aid. Ann said she actually selected for her all the precise combination of tubes, receivers and electronic circuits with which she could hear best. Then, she went on, the Beltone dealer fitted her with a plastic ear mold that goes right into her ear canal, and she lifted her hair to show me the thin flesh-colored tube that runs over and behind her ear. Even more amazing, she showed me her instrument — about the size of a compact, fastened to the strap of her slip — completely invisible under her dress!

I mentioned that Ann's hairdo was ideal for concealing her hearing aid, and she told me that her coiffure was especially designed to do so. With her new hearing aid she can even wear earrings — and she tells me she feels like a new person now that she can really hear well!

FREEZIN' REASON

There's many a slip 'twixt the garage and your destination when the roads are icy. But you can be on the cautious side by getting the "feel" of the road surface before starting out. Try your brakes lightly while driving slowly and when no other vehicles are nearby. Test acceleration, too, because "gunning" a car is as dangerous as braking suddenly.

As Peglers See It

By Westbrook Pegler

You Can't Call People 'Reds'

WASHINGTON. — Some of our courts have built up a rule which protects in their treachery those actual enemies of the United States who are Communists but deny that they are. It is ironical that patriotic judges should shield men whom they surely regard as anti-American conspirators when they could rule the other way. Nevertheless, some of them do

The theory is roughly this:

Communists and fellow travelers are objects of loathing, and actual

Communists may be excluded from some public positions. Therefore, any person who calls another a Communist, a fellow-traveler or even, in some jurisdictions, a Red, may be called upon to prove it and to pay damages if he can't. There is a thin theory here that the government might refuse to employ some innocent individual merely because someone else said he was a Communist. Actually anyone so excluded would be rejected not because of anything that anyone else had said but because the government had its own reliable information.

So far, the question has not reached the Supreme court. If the court were consistent, the patriotic American citizen might feel confident that, in due time, the justices would stick to reasoning already expressed and throw the Muscovites downstairs.

NAME-CALLING ONCE HELD HARMLESS.

There are previous decisions which seem to promise that the patriot will be made free to call a man a Communist who plainly is and deliberately taunts good citizens to say that he is.

In one case, Justice Frankfurter wrote that it was harmless repartee to say that a man was a Fascist, with malicious intent to damage his reputation and destroy his business, when there was absolutely no ground for the charge.

Here, a racket union had tried to compel a pair of industrious Graeco-Americans, who had a little restaurant, to hire union members to do work which they did themselves. The union picketed the place with false statements that any customer who patronized it was guilty of promoting Fascism. That does seem so silly that you might justify the court's decision that the remarks were just juvenile bickering. But when you reflect that a teamster or a tailor might be blackballed from coast to coast for crossing a picket line and patronizing Fascists, you think again. This union intended these slogans to hurt.

It did not follow that they were harmless just because nobody really believed them. In many other cases, the boss vermin of the union racket have placarded premises with lies which the public knew to be lies. And when 100,000 customers quit in fear of punishment as scabs, the preposterous hurts as much as the truth. Still the Supreme court called these "little white lies."

IT CAME OUT, AT LAST.

Recently, when the Thomas committee on un-American activities took testimony on Communism in Hollywood, the general public heard for the first time who the traitors were who have been needling propaganda into the films and blackballing from the business many a good American. Incidentally, I hope some way may be found to make some amend to Patterson McNutt, a first-class movie writer who fought in France in the first war and was driven out of Hollywood two years ago, sick and beaten after a long, lone siege. Like the stiletto, this treacherous European weapon strikes unseen and makes no sound. McNutt had fought the reptilian sneaks of the guilds and he was whispered out at the top of his ability while the Eislers and other ingrate refugees rode in chaises.

This hearing of the Thomas committee gave the papers and the radio their first free opportunity to print names. It was the first time they had been mentioned in sworn testimony. Even when a citizen in formal public debate unguardedly calls his opponent a Red, he may be financially crippled or destroyed by the American courts. The lawyers for the Communists are well paid. The money comes from rich contributors in Hollywood and New York and from arbitrary assessments for "defense funds" levied by Communist unions.

Invariably, the Communists demand enormous judgments, and, almost invariably, they are mischief-makers who would not lose face in the circle of their friends because their friends are all the same. Their risk of financial loss and their professional handicap in private employment or government service is theoretical and a verdict of six cents would be fair in any case. In McNutt's case, the damage was not imaginary. They ruined him.

Meet The South Side Clergy

Rev. E. J. Katterhenrich

Continuing our series of articles of the South Side Clerk, this week we wish to introduce our readers to the Rev. Emmanuel J. Katterhenrich, of the St. Paul's Lutheran Church, located at E. Stewart and Bruck Sts.

It seems to be true that most of our ministers come from rural communities or farms. In this case of the Rev. Katterhenrich it runs true to form as he was born near St. Mary's, Ohio, out in the country.

He went to Elementary school to the Washington Township school, Auglaize County. Finishing there he came to Columbus and successfully attended Capital Academy, Capital University and Capital Seminary.

Upon graduation he was immediately ordained and started his ministry in two small country churches, St. John's and St. Paul's Lutheran Churches, both near Celina, Ohio, where he stayed for seven years.

For the next six years he was pastor at the St. John's Lutheran Church, Greenville, Ohio.

For the next 30 months he was a chaplain in the Navy, serving aboard a cruiser on both oceans.

From there he came to the South Side and his present church.

Rev. Katterhenrich belongs to the South Side Ministerial Association, Franklin County Ministerial Association, and is president of the Lutheran Pastors' Conference of Franklin County.

His hobbies are hunting, fishing and football. He was a letter man in football at Capital University.

The congregation and people generally like the Reverend as he is general friendly and likes a good joke. Above all he is sincere in his work.

He and his wife and two boys live next to the church at 306 E. Stewart Ave. The boys are Paul, a Junior at South High and David at Seibert St.

Take a Sunday off and visit St. Paul's Lutheran Church and meet Rev. Katterhenrich and hear him preach. We are sure you will come away enriched in mind and soul.

Every child must have a ticket for the party and their parents or neighbors may get the tickets by contacting Bob Swiger, Manager, Drum Corps Club, 15½ E. Rich Street, Columbus, Ohio.

South Congregational Opens A Nursery

Sponsored by the Gladden Club of the church, and under the supervision of Mrs. Harold Y. Mummert, Chr., Mrs. Lawrence Shockey and Mrs. Harry Sunderman, a Nursery will be formally opened very soon. Children from six months to six years will be cared for by competent persons thus enabling the parents to attend the worship services. For further information call GA-41854.

THERE is always the end of a road, of every road. Back in 1913, a Notre Dame team came to West Point with a quarterback known as Gus Dorais and a stocky end remembered as Knute Rockne. This combination beat a strong Army team 35 to 13, with Dorais winging the ball to Rockne in a complete

F. Leahy

This game started a series that eventually became more important than Harvard and Yale, Yale and Princeton, California and Southern California, Army and Navy or any inter-team duel you can think of at the moment.

The Army-Notre Dame meeting reached such heights that a year ago, Biff Jones, Army's graduate manager, told me he could easily sell a million tickets at $10 each. I think he could.

In the series of 34 games—Notre Dame has won 23 times, Army 7 times with 4 ties. Notre Dame was far in front until the war came along where, for example, from 1938 through 1943 Notre Dame won 13 games, lost 1 and tied 2.

Army had no material and manpower to match Notre Dame—and Army had no Rockne. But most of these games were well-balanced contests, hard and closely fought, until Army piled up a terrific margin of 107 points in 1944 and 1945.

Frank Leahy came back in 1946 to check the Army hurricane with an 0-0 party, largely emphasized by its extreme dullness, where neither team would take a chance. It was the dullest game I saw last year. Now they have met for the last time in many years at South Bend. This is the end of the road—for some time. How long, no one knows. It may be a couple of years—it may be forever.

No one has ever questioned the superior material Notre Dame has known in these 34 years—up to the war. Notre Dame has been the capital of football in this country—always the team you had to beat—and always the team you seldom did. Usually the team with the better football material and at least adequate coaching—more than adequate with Knute Rockne and Frank Leahy coaching — two of the greatest.

game along with a spirit that Army and Navy might have equalled—but never could surpass. Notre Dame meant football in this country from the days of Rockne, Dorais, Gipp, the Four Horsemen and too many others to mention here.

Last Game at South Bend

Having been a close friend of Knute Rockne's and Notre Dame for many years, there are certain rebuttals that still might be offered. Many letters have come in attacking Army for dropping Notre Dame, just when Notre Dame was storming back. These letters came from Notre Dame's subway alumni, not from Notre Dame.

What this Notre Dame subway alumni and others overlook in charging Army with retreating under fire is that from 1932 through 1937, Pittsburgh, under Jock Sutherland, wrecked Notre Dame in five out of six games.

"I'm through with Pittsburgh," Elmer Layden told me. "We haven't got a chance. They not only knock our ears back, but we are no good the next week. I'm calling off the Pittsburgh series." Which Notre Dame did.

I talked this over a few days ago with Sutherland, who now coaches the Pittsburgh Steelers.

Jock smiled. "You couldn't blame Notre Dame," he said. "They only scored 15 points against us in those six years."

So Notre Dame, having broken off the Pittsburgh series when Jock was around, can't consistently charge Army with quitting Notre Dame with Leahy around. I have an idea that Jock would like nothing better than a joust with Leahy. And vice-versa. It would be interesting to see Leahy and Sutherland, with an even shot at material, hook up. I know both would relish the chance.

Leahy is a great coach, one of the best. He also has material that most coaches can only dream about. He has much better material than Army has. In particular, he has Johnny Lujack who was once rumored headed for West Point.

Pro vs. College Football

It is always a pleasure to have an argument with an expert. We are referring to Paul Brown, who is now head coach of Cleveland's powerful All-America conference team.

"Pro football," he says, "soon will dominate football just as pro baseball took over the old game from the colleges. College interest is slipping badly. In such cities as Cleveland, New York, Chicago and Washington, the pro game is now supreme."

The fact is that college football today in the matter of public interest is so far ahead of the pros, there isn't even a faint argument.

D.A.R. Scholarship To Hold Test

Five girls from South High School have been chosen to take the D. A. R. Scholarship Test on January 14. The girls are: Florence Lechner, Mary Lang, Harriet Redrup, Bettyanne Thompson and Helen Scott. These girls were chosen for their leadership, service and character.

The winner will compete with girls from all the other schools in the state. The state winner will get an all expense paid tour to Washington in April, and the next five highest will attend the D. A. R. Convention at Cleveland in March.

A designated member of the faculty will give the test to the girls. The test will be on United States History, Ohio History, Current Events and problems to solve.

Miss Reinhard Is Married To Mr. Ressa

At a nuptial high mass performed in St. Mary's Church by the Rev. Fr. Michael Wellnitz, Miss Anna Belle Reinhard, daughter of Mrs. Hazel Reinhard, 751 City Park-av., and Elmer A. Reinhard, 112 Washington-av., became the bride of Ray E. Ressa, son of the late Mr. and Mrs. Anthony Ressa, 472 E. Whittier-st.

Given in marriage by her father, the bride wore a white satin gown with a modified sweetheart neckline accented with white beads and seed pearls, fitted bodice and circular train. A tiara of pearlized orange blossoms held her fingertip veil of illusion and she carried a cascade bouquet of white carnations entwined with ice-blue streamers. Her only jewelry was a lavalliere, a gift of the bridegroom.

The matron of honor, Mrs. Mary Heigel, wore a heavenly blue ninon gown and carried a cascade of shell pink carnations. The bridesmaids, Miss Joan Zang, and Miss Betty Schlansky wore lavender gowns styled like Mrs. Heigel's, and carried deep red carnations. Their headdresses of red roses had petals of the material of their gowns.

Michael Kusma served as best man and ushers were Jack Faulhaber and Edward Reinhard. For the occasion, the bride's mother chose a gold crepe dress to which she pinned a corsage of talisman roses.

A wedding breakfast was held at the bride's home after the ceremony, which was an event of Sept. 6, and a reception for 250 guests was held in the evening at Saxon Hall. Reception hostesses were Mrs. Adeline Hochemer, Mrs. Sylvia Taylor, Mrs. Mary Johnston and Miss Inez Rogers.

The new Mr. and Mrs. Ressa now reside at 472 E. Whittier-st.

Your Home

By Frances Ainsworth

We've just finished housecleaning at our home, getting ready for the holiday season . . . and during the process we did a bit of re-decorating as well. The living and dining rooms were re-papered in one of the new deep colored patterns and we transformed a storage closet to a tiny combination powder room and den.

I was skeptical about the dark wall paper at first . . . but an interior decorator friend suggested using mirrors on the walls to reflect the white woodwork and window light. Well, I tried it — and the effect is really beautiful!

When we discovered the visual tricks that mirrors could perform, my husband and I began experimenting and decided to remodel the closet into a powder room and den. The room was long but narrow . . . so we prepared the long walls with a gay plaid wall paper and painted the end walls. Then we found a modern desk, chests and dressing table of the same height . . . and formed them into a single unit covering one complete side wall. Above this furniture we placed four large mirrors, and that tiny den seemed to widen as if by magic! These mirrors reflected the entire room -- and it actually looked twice as large! It's surprising how mirrors do brighten a room isn't it? My decorator friend said they used them for decorating and brightening every room in the house . . . I was interested, too, in her remark that most mirror manufacturers use Pittsburgh Plate Glass because of its beauty and true reflections. She said that for a true reflection a mirror must be made of plate glass . . . and told me that those I had selected were. Because of that fact I am doubly satisfied with my "Mirror Decorating" -- in fact, I am planning to include mirrors among my Christmas gift selections.

RUSSELL THEATRE

The Russell presents Sunday and Monday "Comedy Carnival" with Walter Able and Margaret Grahame. This Hal Roach comedy package is done in color, and brings to the screen clean cut entertainment for young and old. It is funny throughout, and brevity is the essence of humor. This comprises two complete pictures, the first tells a story with Larry Olsen starring along the line of Our Gang Comedies, the 2nd a story of a harrassed husband. Also "Code of the West" with James Warren and Debora Alden.

Columbia Theater

At the climax the combine crew is chased by irate farmers; Ladd and Preston fight to a showdown; and Dorothy loses both men; also "Under The Tonto Rim" with Tim Holt and Nan Leslie.

REEB CALENDAR

Friday, Dec. 5th, 9:10 a. m., Assembly Program, Miss Power's Room leading.

Tuesday, Dec. 9th, Educational Films, Jerusalem, Eskimo Children, Rocky Mountain Mamals.

Wednesday, Dec. 10th, 9:10 a. m. Sale of War Bonds and Stamps.

The above calendar of the events of the coming week is announced so that our parents and adult friends may plan to come to Reeb to visit us.

— R —

Patricia Brusca and Elona Sabo were lucky. They won the turkeys for their Thanksgiving Dinners. — Room 110.

—R—

The 2A Class will open the Christmas Season with the Assembly Program. The entire class will participate. Solo parts by Darlene Carl, George Davis, Oliver Stewart, and Peggy Milner.

—R—

June Early has kept Room 212 supplied with chrysanthemums for the last three weeks. We have all enjoyed having them. June Mary Rabold, and Kathryn Blackburn kept them in fresh water and fresh flowers.

—R—

Lois Erwin has brought three jars of coleus. These will grow in water and keep green all winter. The ones on Miss Hanna's desk are planted in a pair of blue China shoes.

Every Monday afternoon after the library books are collected, Christine Wilburn and Jo Ann White carry them to the library room.

Rosemary Everhart is our mail clerk this week.

Charles Harbour, 6B

—R—

Tuesday morning Room 301 went to the Ohio State Museum. It was an interesting as well as an educational trip. They saw many kinds of animals and birds. The class enjoyed the old-fashioned cabin with the fireplace in it. They also enjoyed the test in the old-fashioned school house. The test was on the city of Columbus in the olden days. They saw a sword that was used in the War of 1812. The mummy was also very interesting.

They all enjoyed the trip and hope to go again.

Eva Vanover and Donna Jividen

—R—

Reeb Parent-Teacher Association is being represented this afternoon, Thursday, Dec. 4th, at the regular monthly meeting of the Columbus and Franklin County Council, in Central High School. The elective officers take advantage of this monthly meeting in order that we may keep close contact with other P. T. A. activities.

— R—

Reeb Ave., School library has been moved from the basement room, which it has occupied for a number of years, to Room 203 located on the second floor. We believe this to be a worthwhile change inasmuch as the new location is handy to those children who will profit by using the library more. Plans are underway for making this room quite attractive as well as more useable. Miss Mary May is in charge of our library and the library helpers are selected from the pupils in her class.

Greer Garson In Southlands Current Feature

Once again, Greer Garson clinches her title of the Screen's First Lady with her distinguished playing of a powerful emotional role in "Desire Me," now being shown at the Southland Theatre.

In one of the most touching and poignant portrayals of her career, Miss Garson essays the role of Marise, a French girl in a small fishing village, who mourns her husband, Paul, a soldier, who has been announced as being dead. When she is abruptly confronted by a stranger, Jean Renaud, who is determined to fill the void left by Paul and who fascinates Marise by his knowledge of the most intimate details of her married life, the dramatic impact of a turbulent plot first makes itself apparent.

It is not long before Marise discovers that Jean had been a fellow prisoner of her husband, and that the latter had revealed so much about herself to him that Jean came to feel that she should belong to him. As events are precipitated, Marise comes to return the magnetic appeal of the deceptionist only to face the shock of the return of Paul, very much alive. After a desperate knife and gun fight in a fog, Marise is confronted with the gravest problem in her life. We will not give away the surprise finish, but it can be said that the interest and suspense is held to the very end.

Robert Mitchum and Richard Hart, currently appearing in Green Dolphin Street, appear with Miss Garson in "Desire Me", which is being shown on a dual bill with "Saddle Pals", starring Gene Autry.

Sunday, Monday and Tuesday, a specially planned Family Program will be featured at the Southland. America's favorite cowboy, Roy Rogers, stars in the initial offering—"On the Old Spanish Trail", with Hal Roach's hilarious "Comedy Carnival" as second big attraction.

Wednesday and Thursday, "The Web", fast-paced mystery romance starring Ella Raines, suave Vincent Price and Edmond O'Brien, will be shown. Highly reviewed by all national and local critics as a refreshingly different type of mystery movie, "The Web" offers a fascinating evening of engrossing screen fare. Gilbert Roland stars in the co-feature, "Robin Hood of Monterrey."

Champion Theater

Friday and Saturday "The Ghost and Mrs. Muir" with Gene Tierney and Rex Harrison; also "Fool's Gold" with William Boyd. Matinee Saturday. Sunday and Monday "I Wonder Who's Kissing Her Now" with June Haver and Mark Stevens. Matinee Sunday. Tuesday, Wednesday and Thursday "Nob Hill with Joan Bennett and George Raft; also Thunderhead".

Club Alexander

The singing emcee, Frank Kinney, at Club Alexander, puts his songs over in a way that makes you hum and hum them. He presents Bob Parker and his Fiances, in a dancing act that is far above average. Joyce Anne, another dancer with numbers that are different, she will become your favorite. Other fine acts are also on this bill. Don't forget no door no minimum charge nightly except Friday and Saturday. Free Floor Show and Free dancing.

IDEAL THEATER

BUY OWN MILL TO BEAT STEEL SHORTAGE

CHICAGO, ILL.—In the first move of its kind to beat the steel shortage, a syndicate of 25 manufacturers throughout the country has purchased an ingot-producing steel mill at Phoenixville, Pa., for approximately $4,000,000, it was announced by Arnold H. Maremont, group president, who originated the idea and organized the syndicate. Maremont is executive vice president of Maremont Automotive Products, Inc., Chicago.

Arnold H. Maremont

The purchase was made to supply ingots for a sheet mill at Apollo, Pa., which the syndicate bought when it was organized last December. The new acquisition completes a program for meeting the manufacturers' steel needs.

The mill, with a capacity of 30,000 tons of ingots a month, is the Phoenix Iron Co., purchased by the Phoenix-Apollo Steel Co., comprising a group of manufacturers from New York to California, whose products range from kitchen stoves to lawn mowers, and from furniture to advertising signs.

Maremont said the mill will begin operation under the new owners Sept. 15. "This mill was purchased with the conviction that a steel shortage exists and that it will be of three or four years duration, at least," he said.

The mill, which contains six open hearth furnaces and three rolling mills, will provide enough steel to enable all manufacturers in the group to operate at full capacity, while all excess steel will be sold to other consumers, Maremont said. Sheet bars from the Phoenixville mill will be rolled into sheet steel at the Apollo mill, formerly the Apollo Steel Co. Both mills have a total appraised value of $11,000,000.

- The management of the Phoenixville mill will be retained. David Thomson, president of the Phoenix Iron Co., will serve as general manager under the new ownership. Howard Keiser, formerly of the Portsmouth division of the Wheeling Steel Co., is manager of the Apollo mill.
- Officers of the syndicate, in addition to Maremont, are vice-presidents D. M. Houghton, chairman of the Atlas Tack Corp., Fairhaven, Mass., and Frank Gibson, secretary of the Gibson Refrigerator Co., Greenville, Mich.; secretary, Bernard Nath, Chicago attorney; treasurer, Bernard Mitchell of the Mitchell Manufacturing Co., Chicago.
- Syndicate members are Maremont Automotive Products, Inc., Mitchell Manufacturing Co., Advertising Metal Display Co., Accurate Perforating Co., Chicago Curtain Stretcher Co., Electro Manufacturing Co., Crescent Tool and Die Co., Webster-Chicago Corp., Pioneer Gen-E-Motor Corp., and Grant Sheet Metal Works, Chicago; Steel Materials Corp. and Pan-American Trade Development Corp., New York City; Frontier-Waters Products Co., Wisconsin Rapids, Wis., Western Stove Co., Inc., Culver City, Calif.; Proctor and Schwartz, Inc., Philadelphia, Pa.; Kroehler Manufacturing Co., Naperville, Ill.; Welbilt Stove Co., Inc., Maspeth, N. South Five Scores Over Arlington & Toledo

South Wallops Arlington 42-27

The Bulldogs made two wins in a row last Tuesday by defeating Arlington's Golden Bears on their own court 42-27.

After a slow first period South begain to roll and but for a bit of erratic shooting might well have run the score up in the sixties.

The first period started with Arlington taking over the ball and trying hard to pierce the fine defense South presented. Proof of South's efficiency in keeping Arlington from scoring was the fact that in the entire first period Arlington scored only one point and that via the foul route.

South then took over and the struggling Bears couldn't overcome the fast breaking offense that Coach Hood's boys flashed.

It was a fine game and the turnout from the South Side was very good. Let's keep it up. We've something to shout about now, so let's make the whole city sit up and take notice.

The Bulldogs made it three wins in a row Friday night, defeating a good previously unbeaten Toledo team 51-38.

South supposedly handicapped by the ineligibilty of Dewey and Werner, two regulars, played heads up basketball and showed superiority in every phase of the game. Coach Pug 9 sparkle) Hood's boys have been showing improvment each time out. The shooting of Capt. "Dit" Marshall was fine, he just couldn't miss, and the all-around playing of Dean Adams, as usual, was a great factor.

The league opens for South next Friday against Central in what should be a ding-dong battle, as both teams are considered championship material.

Let's pack the auditorium Friday night and show the boys we appreciate their efforts.

South Buys Amplifier

In the fall of 1925, a silent projector was installed in the South High School auditorium. This was purchased partly by the money contributed from two classes. From 1925 to 1929, silent films were shown at the lunch periods. In 1929 the first amplifier was installed for use with noon sound movies. In 1938 more modern speakers were installed in the auditorium assemblies and as part of the central sound system.

This November the old amplifier was replaced by a new Ballantine Amplifier. There are only three of this kind in the city, one is being used in the new University theater. The new amplifier was paid for from the earnings of the noon movies. It cost approximately $355. The screen has also been reinished. This was done by the Board of Education. Both of these improvements have helped to better the noon movies. The cost of showing the movies has greatly increased but the pupil's admission price remains the same.

From the taxes on the admission to the movies, South has paid over $100 a month to Uncle Sam. Besides paying taxes, the admission price buys needed equipment. It has been used to buy a dictation machine for the office, an 8x10 screen for use in the auditorium and class rooms, the torso that is used by Mr. Pearce's classes and the war assets material used by Mr. Stauffer's physics classes.

St. Mary's Trounces Somerset Holy Trinity

St. Mary's started the season right by scoring a decisive victory over Somerset Holy Trinity by a score of 50 to 29.

St. Mary's coming from behind in the first quarter, showed team work and pep throughout the whole game.

The team coached by John Wirtz, was in top condition and this spelled one of the deciding factors. Don Kaiser, St. Mary's center, scored 18 points with his brilliant pivot shots. Captain John Donnelly also hit the hoop for twelve.

Somerset, although behind most of the game, never let up once. They were scrappy until the last seconds of the game ticked away. It seemed St. Mary's zone defense was too much for Somerset's man-to-man playing.

Picking the outstanding player, would be hard as all played their very best. The fast breaking forwards, Gene Demorest and John Donnelly, scored almost at will; along with Don Kaiser. The quick passing and excellent ball handling of guards, Glen "Gabby" Hartnet and "Tee" Angelo, spelled doom for Somersets snappy team.

It was a well played and exciting game. The winning team seemed to be urged by excellent school cheering and cheer leading.

Nelson Av. Woman Back From Bavaria

One of the first persons to obtain a visa to visit Germany for personal reasons since before the war was Mrs. Andy Holzapfel of 1278 Wilson Av., who recently returned from Bavaria after visiting her parents, Mr. and Mrs. Michael Neugbauer.

She said conditions in the worn-torn country were depressing and that the natives need food and clothing, especially shoes. The American occupation forces are sponsoring a "re-education" plan for the natives by attempting to interest them in sports, Mrs Holzapfel said.

Mrs. Holzapfel will explain her experiences in an address at the Columbus Maennerchor 966 S. High St., in the near future.

The South High Booster Club will hold a waste paper drive Sunday, December 28, to raise money for the purchase of a new scoreboard, to be dedicated to the boys from South High School who gave their lives in World War II. The Booster's goal is [illegible] and President, Ralph DeVore announced this week that [illegible] has been progressing more than expected, and that with the cooperation of you South Side people, in the paper drive, the goal will be attained.

The Booster Club is not asking too much from you people. All they want you to do is to save your waste paper from now until the drive, Sunday, December 28. Then if you will either have it bundled and on the curb or your porch, if it is stormy, they will do the rest. Trucks are being donated by various organizations and concerns from the South Side and the Booster members are doing all the work.

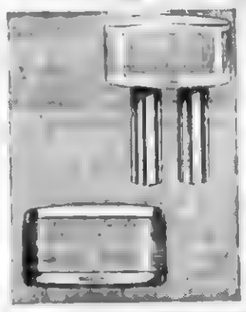
Remember folks, it costs you nothing, except the effort of bundling your papers. So let's show the other sections of town that we are as much behind our school as they are. Let's make it a by-word, "Save Your Paper." Tell your friends, neighbors and everyone else you come in contact with.

How about all the various clubs helping the Boosters. They need everyone's cooperation. Let's all see that they get it. The boundaries of the drive are as follows: Whittier St., south to the viaduct; west to High St., and east to Twenty-Second. Anyone who lives outside of these boundaries and they wish to donate paper, if they will call the South Side Booster office at any time, GA-9262, their paper will be picked up on the day of the drive.

Relief For Germany Concert Dec. 14th

A benefit concert is to be given in the auditorium of Central High School on Sunday, Dec. 14, at 8:15 p. m., for the relief of needy inhabitants of Germany and Austria. The concert is being sponsored by the local branch of American Relief for Germany, Inc., a nationwide, non-sectarian and non-political relief organization.

Participating in the concert will be the Columbus Maennerchor, the largest and oldest local German-American singing society; the Columbus Damenchor; the Paramount Players (Opera Club); and the Workers Singing Society. The Columbus Maennerchor was featured recently by the Columbus Symphony Orchestra under Izler Solomon's baton at a Saturday evening pop concert. Professor L. A. Leinheuser will conduct the Maennerchor and the Damenchor. Professor Wilbur Crist is the musical director of the Paramount players. Edwin Rossbach, Columbus architect, is president of the local chapter of the sponsoring group. Professor Reinhold Nordsieck is the executive secretary.



The program will feature Marie Hertenstein Waller, nationally known concert pianist and pupil of Artur Schnabel. Soprano solos will be offered by Mary Terry and Hildegard Camenzind. Alma Fornemann Armbruster will play the violin. Hewig Mueller Eisen and Luigi Nuzzo, two well-known Columbus singers, will also lend their talents to the program.

The proceeds of the concert will be devoted exclusively to relief in Germany and Austria. The American Friends Service Committee (Quakers) of Philadelphia, Pa., is the agency through which the funds will be disbursed. The principal relief activity to benefit from the concert will be the child-feeding program in Germany and Austria through which American relief agencies are attempting to give the pre-school and school children one supplementary meal a day. Admission to the concert is free. A free will offering will be taken.

REEB CALENDAR

Friday, Dec. 12, at 9:10 a. m., Assembly program, Mrs. Tidd's room leading.

Tuesday, Dec. 16, educational films—"Smiles Have It," "Policeman," and "China."

Wednesday, Dec. 17, at 9:10 a. m., sale of War Bonds and Stamps.

The above calendar of the events of the coming week is announced so that our parents and adult friends may plan to come to Reeb to visit us.

— R —

The girls and boys in Room 106 will have charge of the program on Friday, Dec. 12. The program will consist of prayers, songs and Bible verses. All the children will have a part in the program.

—R—

Mrs. Draudt's class has fun having an arithmetic contest. Three girls were the winners—Francie Smathers, Joan Spencer and Julia Ward.

The children in 207 have been enjoying a new room library. There are books that all can read.

—R—

The entire 6th grade will be taken to the Art Gallery next Monday, Dec. 15, for the purpose of taking advantage of some special instruction which has been arranged by our Board of Education. We appreciate these trips very much.

—R—

All of our White Christmas plans are being taken care of by committees from our 6th grade. These groups of boys and girls are contributing a great deal to Reeb by assuming this responsibility. As they work out their plans in a co-operntive manner, they are automatically receiving one of the finest of citizenship lessons. As you plan to come into Reeb, any time next week, to see our tree, just keep in mind that it is the work of our pupils.

—R—

Children in Mrs. Blackburn's room made up some Christmas rhymes. Wendell Hunyady's was thought to be the best:

A Sad Pumpkin

I am a pumpkin, if you don't know
I'll soon be a pie, ho ho.
Here comes the cook to put me in, so,
Then I'll be put in some dough; oh, my, oh.

—R—

Mark 1:45 p. m. Friday, Dec. 19, on your calendar. That's the time for Reeb's White Christmas program to begin. You're invited. Standing room only.

'Faith & Works' Play By Thurman Players

Thurman Avenue Methodist Church will present the Thurman Players in "Faith and Works," a Christmas play in two scenes on Sunday evening, Dec. 14, at 8 p. m. in the church.

The play, written by Sarah C. Pettit, is based on a true incident when Ohio was known as wilderness.

Back in 1770, Robert Macy and his wife struggled to bring Christianity to the Indians. "Let down" by their own people back East, the Macy's face a heart-breaking Christmas when even the direly needed shoes for little Susannah don't arrive. Further, Chief Logan of the Mingoes adds to their worries by asking that the little girl be allowed to go to his wigwam for a brief visit. Mrs. Macy is terrified, but her husband trusts their Indian friend. When the child does not arrive home at the appointed hour, the parents endure torture. When their faith is about to break . . . the rest of the story will be presented Sunday evening at Thurman Avenue Methodist Church by the Thurman Players.

Members of the cast are: Paul Hanson, Thelma Lewis, Emma Lou Walters, John Dumar, Dee Bell, Yvonne Sells and Janet Lee Lewis.

Mrs. Margaret Dumar will lead an inspiring worship service preceding the play with Mary Jean Mattox, soloist, singing "The Birthday of a King," "Night of Nights," and "The New Born King." Alva Hopkins will play on the organ "Noel" by D'Aragon and "Hermitage on Silent Night" by Bliss.

The new tower chimes are proving to be a real inspiration and spiritual help to the members of the church and the people of the community. The high quality of the chimes which are being used is especially gratifying. The project was started with an initial gift of one hundred dollars, from Mrs. Jessie Siders, 483 Hinman Avenue. A multitude of smaller gifts were soon forthcoming, and the entire cost was promptly met.

Meet The South Side Clergy

Rev. Boyd C. Rife

In this article we wish to introduce to you the Rev. Boyd C. Rife, pastor of the Washington Ave., Evangelical United Brethren Church, Washington Ave., and Markison St.

He was born near Circleville, Ohio, and went to the elementary school at Ashville, Ohio.

After graduation, he worked on his father's farm and finally farmed for himself.

He says that his mother, who died while he was quite young, had wanted him to study for the ministry. After several years of farming, he received the call from God to enter ministry. So he sold his farm, stock and equipment, and went back to high school, then to Otterbein Academy, from where he graduated. He immediately entered Otterbein Universiy to study for the ministry, from which he graduated in 1932. He was ordainend at Portsmouth in that year.

His first Charge was the Pickerington Evangelical church and a country church, also, where he served one year. He next served three years at the Stevens Evangelical Church, Newark, Ohio. His next charge was the First United Brethren Church, Jackson, Ohio, where he served five years. For the past 13 years he has been pastor of the Washington Avenue Evangelical United Brethren Church.

Rev. Rife belongs to the South Side Ministers Association. He is on the County Committee of Franklin County Council of Churches; is group leader of the Columbus Evangelical United Brethren Districts, which consists of Columbus, Westerville and Newark; he is secretary of Evangelism of the Southeast Ohio Conference and is dean of the Ministers' Study coudse of the Southeast Ohio Conference.

Rev. and Mrs. Rife have six children, and three of the six are connected with the ministry. The children are Mrs. Esther Smith, wife of the Rev. Rex Smith, pastor of the South High Evangelical Church; Rev. Lloyd Rife, of the Bloomville, Ohio, Evangelical United Brethren Church; Miss Mabel Rife, an evangelist with the Evangelical United Brethren Churches, who lives at home; Dwight Rife, with the Omar Baking Co; Miss Betty Jane Rife with the Columbus Pipe and Equipment Co., and Miss Margaret Ann Rife, a student at South High School.

Rev. Rife's hobbies are woodworking. He likes to play golf and is an ardent fisherman. He says he is a keen fan of baseball and football.

As a minister, he is ardent and devout. He is quiet but likes good jokes and is well liked by his congregation.

He says during his ministry that 707 people have joined his church, of whom 22 have entered the ministry or missionary work.

He lives with his wife and two daughters in the parsonage at 350 Markison Ave.

The performance is a part of Ohio State's traditional "White Christmas" program, sponsored for the past 19 years by the university YMCA and YWCA.

Meet An Outstanding South Side Citizen

Albert P. Kuhn

Continuing this series of these articles, we wish to introduce to you you Albert P. Kuhn, the South Side's oldest merchant. We do not mean this to age but as to the length of time in business in this community.

A. P. Kuhn Dry Goods Store has been in business on the corner of Parsons Ave., and Siebert St., just exactly 50 years. Think of it, all in the same location. During all these years he has handled only good quality merchandise.

These number of years shows plainly a man's character; because fair dealing and honesty must predominate.

Kuhn was born in Switzerland and came to Columbus when he was just two years old.

He received his education at Fulton St. School

For 36 years he has been Scout Master or District Leader of the Boy Scouts here in the South Side. Many boys can attest to the fact that his kind, friendly advice has had much to do with their success in life. He also belongs to the Council of South Side Organizations in which organizations he represents the South Side Y. M. C. A. He is a member of the Goodale Lodge F&AM. He also has been a life member of the Central Community Church.

Kuhn, early in life as a hobby started whittling and is quite adept in that art, having created statues, chain links, imitation tools, and most anything that can be made in that art. He is also a stamp and coin collector.

Of all of Kuhn's activities, it must be a lot of satisfaction to him in his boy's work. He is kindly, honest, a good mixer, can tell stories, an ardent worker, a lover of nature and his fellowman. He is credit to the South Side, a man who believes in giving rather than taking.

On account of his whittling, Kuhn has been nicknamed "Whittlesby."

Kuhn lives with his sister at 520 Siebert St.

Southland Presents Unfinished Dance

M-G-M takes you behind the scenes of the ballet in "The Unfinished Dance," gripping story of a little ballerina who worships the star of her company, and whose hatred for a rival dancing queen is so intense that she brings about a near-tragedy. Filmed in breath-taking Technicolor, with spectacular dancing scenes, the star of the picture is little Margaret O'Brien, in her most arresting role to date.

Miss O'Brien has already proved herself the top child actress of motion pictures; now she also reveals a remarkable talent as a dancer. Cyd Charisse and the lovely newcomer, Karin Booth, are as the rival premiere danseuses in such striking equally effective numbers as the Swan Lake ballet and a number based on the lilting "Holiday for Strings." Danny Thomas, a popular radio comedian makes his screen debut in "The Unfinished Dance", which will be shown at the Southland Theatre on Tuesday and Wednesday, with "The Arnelo Affair", swiftly-paced mystery romance, starring John Hodiak.

Miss Gruber Weds Mr. Levinson

Mr. and Mrs. Harry Gruber, 911 Studer-av., announce the marriage of their daughter, Lydia Faye, to Gustave Leon Levinson, Akron, Ohio. The formal ceremony was solemnized at Temple Tifereth Israel on Sunday, Oct. 12, at 3:30 p. m., with Rabbi Nathan Zelizer and Cantor Leo Helpern officiating.

The bride was attired in a gown of traditional white satin, fashioned with inserts of lace and having long sleeves which came to a point over her wrists. Her fingertip veil of illusion fell from a tiara of seed pearls. She carried a white Bible, topped with a purple orchid. Her only jewelry was a strang of pearls, a gift of the bridegroom's family.

Attendants were Miss Helen Gruber, sister of the bride, as maid of honor, who wore a ballerina gown of green faille taffeta and Miss Trudy Levinson of Akron, sister of the groom, as bridesmaid, wearing an identical gown in bronze. They carried nosegays of shattered chrysanthemums in variagated colors.

Harold Levinson served as best man for his brother, seating the guests were William Loeb and Gustave Goldstein of Akron, and Howard Gruber, brother of the bride.

The bride's mother chose a dress of rose crepe with gold sequin. Black accessories and a shoulder corsage of yellow roses completed her costume. Mrs. Levinson was attired in a dress of royal blue crepe with which she wore black accessories. Her shoulder corsage was of pink tea roses.

The former Miss Gruber, a graduate of South High School, was office manager a George Shustick & Son prior to her marriage. Mr. Levinson, a graduate of Carnegie Institute of Technology, served as an officer in the Army Air Forces for five years. He is associated with his father in the Levinson Department Store, Cuyahoga Falls, O.

Big, Brawny Bold adventure that blazes like the Texas sun. Two hardfisted men battle the elements and each other for gold that laid on the ground. Dorothy Lamour wanted rings on her fingers and bells on her toes and every man gripped in her fist, to hear him scream. Two fearless men and a gal who was always in the wrong tent; also "Riders of The Lone Star" with Charles Starrett and Smiley Burnett. "News and Cartoon."

Margaret McCoy To Wed John Hoffmann

White gladioli, baby mums and two seven-branch candelabra formed an altar background for the wedding of Miss Mary Margaret McCoy and Robert Hofmann, which took place Oct. 11, in the home of the bride's grandparents, Mr. and Mrs. Sam Hanley. The double-ring ceremony took place at 8:30 p. m., with the Rev. Bailey officiating.

The bride is the daughter of Mrs. George McCoy, 962 Seymour Ave., and the late Mr. McCoy. Mr. Hofmann's parents are Mr. and Mrs. George Hofmann of 1082 Fairwood Ave.

Given in marriage by her mother, the bride wore a gown of white satin with a sheer marquisette yoke edged with lace. A full skirt ending in a long, circular train was gathered to a tight, fitted bodice, with long sleeves extending in points over her hands. Her double fingertip veil fell from a halo of seed pearls and was borrowed from the bride's cousin, Mrs Leroy Corn. Her only jewelry was a cameo necklace worn by the bride's mother at her wedding. She carried a white Bible topped with an orchid, centered in white shattered chrysanthemums.

Miss Julia Van Atta was maid of honor, and bridesmaids were Misses Cora Lee Smallwood, Donna Reiss and Margaret Price. The maid of honor and Miss Smallwood wore blue gowns and carried white testaments with peach shattered carnations. Miss Reiss and Miss Price wore peach gowns and carried white testaments with blue shattered carnations.

The tiny ringbearer was brother of the bridegroom. Mr. Herbert Wright served as best man. Hostesses at the reception following the wedding were Mrs. Dave Price and Mrs. D. L. Holton, both aunts of the bride.

For her daughter's wedding the mother wore a gray dinner gown and Mrs. Hofmann chose a navy dress with white lace trim, both wore orchids pinned to their shoulder.

For her wedding trip the bride chose a light green suit with black accessories and wore the orchid from her wedding bouquet.

After a week's stay in Memphis, Tenn., the couple resides temporarily at 962 Seymour Ave.

A Christmas play, directed by Miss Virginia Roe, and Christmas Music in charge of Mrs. Ethel Cox Ellis will be a part of the annual yuletide meeting of the Mound Junior High School Parent-Teacher Association December 18 at the school.

The first gift will be a turkey; the second a bushel of groceries; the third a half bushel of groceries; the fourth, a pound of butter; and the fifth a pound of coffee.

Adults attending the meeting will receive numbered tickets at the door to be placed in a Christmas box. Four-year-old Janice Dailey, daughter of Mr. and Mrs. Earl Dailey, 2194½ E. Donaldson Street will draw the number designating who will receive the Christmas gifts.

Champion Theater, Friday and Saturday

BELLS 'OF SAN ANGELO, starring Roy Rogers and Dale Evans, will be the main attraction at the Champon Theatre this Friday and Saturday.

Filmed in color, BELLS OF SAN ANGELO, presents Rogers in his characteristic brand of entertainment to delight his many followers. The outdoor adventure with striking outdoor scenes; the musical content supplied by Rogers and Bob Nolan and his Sons of the Pioneers; and Andy Devine, supplying the comedy, all add up to make this a good show, one which will amuse and entertain everyone in the family. You'll find lawbreakers, gun battles and the final rounding up of the outlaws.

Companion attraction will be THE CRIMSON KEY with Kent Taylor and Doris Dowling. This "keyhole mystery" has all the elements to make a suspenseful hour's worth of entertainment. Shot-in-the-dark murder, skulking killer, and smart sleuth mystery offer plenty of good tangle and tingle for an audience. You'll love it, if you like good, tense plot and drama.

CHAMPION THEATER SUNDAY, MONDAY

The main feature at the Champion Theatre next Sunday and Monday will be SPANISH MAIN, starring Paul Henried and Maureen O'Hara.

This story of swashbuckling piracy has everything. What more could one ask than Henreid as a swashbuckling pirate; Miss O'Hara in a succession of gorgeous period gowns, climaxed by a nightgown of white satin and lace; and Walter Slezak as a vicous, fat, fatuous and vain Governor? Technicolor adds its bit, and a big hit it is, too, and all in all you'll sit through an hour and an half's excellent entertainment. Vengeance, piracy, sword-duels, romance and humor are all here. Companion attraction will be THE STRANGER, starring lovely Loretta Young and Edward G. Robinson.

This is said to be the best of Robinson's career and we heartily agree. With Orson Weller, playing the most remarkable role of his well-known career, and Miss Young portraying her most difficult, the suspense in this picture mounts to almost unbearable heights.

The entire story from beginning to end is eerie, spine-chilling, macabre, and the photography enhances the mood of mounting horror. Don't miss it.

South Loses League Opener 39—37

The fighting Pirates of Central High School came from behind Friday night to snatch a 39-37 victory from South on the losers' floor before an overflow crowd.

South outplayed, outscored and outclassed Central throughout the first half, but the Pirates came back in the third and final quarters. South led at the halfway mark 18-5.

Central's timing was off during the second period. The downtowners took 23 shots at the hoop and nary a one went through, the only score was a free throw granted to Ralph Readout.

South took the lead early in the game on two free throws and three crib shots by Dit Marshall, the game's leading scorer, who racked up a total of 18 markers. The lead was never relinquished until late in the final period when Central staged its rally. Here the lead seesawed until the final gun with Central holding the edge.

Swift John Mixon, Central forward was the sparkplug of the attack and a whirlwind on defense. He was dropping them in from all angles and positions in the last quarter. He was the scoring leader for the victors, racking up 14 points.

Harry Nicholson, South's fine center, played a great game. He was in the Central lad's hair all evening on the rebounds. Edell Gray of Central stood out in defense for the Pirates.

Central's defense proved a great factor in their win, as they just out ran, out hustled, and out shot the Bulldogs in the third and final quarters.

Next week South is at Marietta and we're anxious to see how the boys come back after last week's set-back. We believe South has the makings of a great team and we know that the whole South Side is behind them 100%.

He wrote to groups in Washington D. C., Utah, Oregon and Wyoming, but was not accepted because of the age limit of eighteen. He tried in Oregon again. This time he was accepted in a state group.

On June 28, Kenny reported for duty in Ashland, Oregon. He joined a group of about twenty at Lincoln Logging Camp. When not fighting fires he worked on a rock pile, split wood or worked in the lumber mill.

Moose Women Celebrate 25th Anniversary

The Chapter Night Program of the Moosehaven Committee of the women of the Moose will meet on Thursday, Dec. 18, at 36 W. Sycamore St., at 8 P. M.

Mrs. Kay Fort, Moosehaven chairman, will be assisted by her committee members and announce the following program:

Guest speaker will be Mr. James Farrell, who will talk on Moosehaven.

In February the women of the Moose will celebrate the 25th anniversary of the establishment of Moosehaven which is located on the banks of the beautiful St. John's River at Orange Park, Fla.

The women of the Moose have a very important part to play in the building and maintaining of this home that is a regular part of the women of the Moose activity and the Moosehaven Committee is specially designed to serve this worthy cause.

At Moosehaven husband and wife live together as they would in their own home; their surroundings are beautiful and everything is done for their comfort and well being by an understanding superintendent and staff.

The aged-members of this fraternity live on a 100-acre estate, with beautiful homes and winding drives and all that delight their hearts and eyes. They feel that it is their home because in some way they are helping to uphold their standard. This project is unique in that it is more than a home where aged members may spend their declining years. The women of the Moose feel proud to follow the leadership of Mrs. Catherine Smith, Grand Chancellor of the Women of the Moose and have a part in this program which she ably established in 1928 for them in helping to make the declining years happy.

The ladies are reminded to bring in their sales tax stamps they have on hand at this time, as the Chapter will appreciate all that are turned in.

Some people believe anything you tell them if you just whisper it.

Fred Krauss Retires New Owners South Siders

Just 20 years ago Fred Krauss established the Krauss Hardware Store, at the corner of Thurman Ave., and Jaeger St. Through all these years the policy of the store has been good merchandise at fair prices.

The new owners of the Krauss Hardware Store, with South Siders, are Clayton Swingle, 961 S. High St., and Harry Burns, 25 W. Sycamore St. They say they will continue the store under the same policy and will considerably enlarge the stock and add new lines of merchandise.

The new group of business and professional men at the Krauss Store is behind with a determination as a background not to let it lose caste but to come in and listen to the joking and banter of such men as Dr. Williams, Dr. Fillmyer, Clarence Mooney, Leo Haag and others.

Fred Krauss and his wife reside at 1208 S. Champion Ave.

St. Mary's Trims Alumni

St. Mary's roared to their second victory in basketball as they beat their Alumni 49 to 15.

It was a descriptive, fast moving game between the then and now sta. of St. Mary's.

Gene Demorest turned in an outstanding game as he hit the hoop for 15 points and broke up many a scoring play, by his quick defensive playing.

The game was another showing of well combined team work on the part of St. Mary's. The game was opened with a quick basket by the Alumni and points flew fast for both teams until the end of the half. The Alumni brought forth its once great players as Yeli, Rue, Williams, McCarthy and Shaw.

St. Mary's again had a splendid showing of quick breaking forwards and excellent point scoring guards and centers.

The victory came through sheer persistancy and desire for a victory. Never once did they lag down in the defensive playing and scoring ability as they tucked another victory under their belts.

St. Mary's Romps Over Chillicothe

St. Mary's came back from Chillicothe C. C. with their team! win by 49 to 27.

Having a slight height edge, St. Mary's scored point after point, as they racked up nearly half hundred.

Chillicothe's small floor was a handicap to all St. Mary's players except Gene "Ozzie" Demorest who hit for 16 points.

Ladies for Chillicothe, seemed to wage on his teammates. He kept the team cooled and deceptive. Myers was put out on fouls.

Much Interest In Booster's Paper Drive

Ever since last week's Booster hit the street calls have been coming in on the South High Boosters Club's waste paper drive which is scheduled for Sunday, December 28.

The Paper Drive is for the benefit of South High School's athletic fund.

The immediate purpose is a new radio controlled score board for the South athletic field.

The new score board will be dedicated to the 97 men and boys of South High School who gave their lives in the War.

A crew of 10 trucks, manned by 50 men and 20 boys, alumni and students of good old South High School.

The group expect to collect tons of waste paper because knowing South Siders well they know that anything for the benefit of the South Side, the people always are generous and quick to respond.

The territory for the paper drive is every place south of and including Whittier St., in the South Side.

Anyone north of Whittier St., with bundles of newspapers who want to contribute, just place them on Whittier St., and they will be picked up.

Of course, if you should have a large amount of paper and are outside the territory, they will be picked up if you call the Waste Paper Headquarters which is in the South Side Booster's Office on the collection day by calling GA-9262 or GA-71121.

Remember the date, the Sunday between Christmas and New Year's, Sunday, Dec. 28.

Place your bundle of papers at the curb Saturday night, Dec. 27, for the Sunday pick-up.

Let's go South Siders! Let's show these other sections of the city who have Booster Clubs that the South High Booster's Club can get twice as much paper as any other section.

Council To Sponsor Kiddies Christmas Party

The Council of South Side Organizations, this year, as usual, will hold their big annual Christmas party tomorrow night, Friday, December 19, at 7 p. m. at the Schiller Park Shelter House, for pre-school and elementary school children of the South Side, according to C. L. Dumaree, its president. Santa Claus will be there in person under a huge Christmas tree, to greet the kiddies who can make known their wishes to Santa for gifts they wish him to bring them.

Santa will give to each child present a big pop-corn ball to munch on.

Cap Hoover of the South Side YMCA has announced that the Y will furnish free movies appropriate for the children.

Nick Barrack of the city recreation announced that his director of entertainment, Bob Vereck, will be on hand with ballet and toe dancers, also a cast for a Christmas play, and carolers for the very fine carols which will be sung on this program for the kiddies.

No child in the South Side should miss this fine Christmas party.

Don't forget, the party is tomorrow night, Friday, December 19, at 7 p. m., at Schiller Park Shelter House.

The party is made possible by the Council of South Side Organizations, through their member organizations, which include the Loyal Order of Moose, South Side Eagles, Druids, Knights of Pythias, Steelton Merchants Association, South Side Business Men's Association, South Side Civic and Industrial Associaton, Southeast Lions Club, Hungarian G an I Committee, Coration Club, South Side YMCA, Lincoln Park Project Club, South Side Settlement, St. Leo's Court of Foresters, South Side Ministerial Association, representatives of South Side Schools and all other South Side groups.

Members from these groups will be on hand to see that the children are properly entertained and chaperoned.

The study of medicine is a selective process in itself. Seven years of intensive study in college, plus one year of practice in a hospital, are the minimum requirements. It is wise to trust your precious health only to a conscientious physician of recognized standing. Avoid the quack, the charlatan, the "cure all" type of doctor. Almost invariably they do more harm than good. Select your physician as you should your pharmacist — with care and confidence.

When your physician writes a prescription, bring it to us to be filled. We are specialists at this work.

RUSSELL THEATRE

The Russell presented Sunday, Monday and Tuesday "On The Old Spanish Trail" with Roy Rogers and Jane Frazee.

This musical is done in color, and the scenes are beautiful.

Roy Rogers, the king of the cowboys hits the adventure trail when he loans the Sons of the Pioneers money and learns they cannot repay him because of a series of robberies they have had. With the dubious assistance of constable Andy Devine, Rogers tracks down the thieves, collects the reward in payment of his loan. Lots of thrill-packed action, and plenty of sweet tunes. Also "The Corpse Came C. O. D.," with George Brent and Joan Blondell "News and Cartoon."

Christmas Cartoon Carnival At Champion

On Christmas Day the Champion Theatre will depart from its regular policy, and present, a Carnival of color cartoons, fifteen in all. The show will include all of your favorites: DONALD DUCK, MICKEY MOUSE, TOM AND JERRY, BUGS BUNNY, WOODY WOODPECKER, POPEYE and others.

It will be a program designed to bring joy to all, young and old, as everyone enjoys the antics of the cartoon characters which go to make up this special Christmas show.

No feature will be shown. Just color cartoons; plenty of them.

The doors will open at 1:45 P. M., the show will start at 2 P. M. and will run continuously, afternoon and evening.

Don't miss this special Christmas show. Bring the family—they'll love it.

Champion Theater

Champion Theater: Friday and Saturday "Moss Rose" with Victor Mature and Peggy Cummins; also "Dakota" with John Wayne.

Matinee Saturday, Sunday, Monday and Tuesday "The Late George Apley" with Ronald Colman and Peggy Cummins; also "Spirit of West Point" with "Doc" Blanchard and Glenn Davis.

Wednesday Closed all day.

Thursday "Carnival Cartoon."

Matinee, Thursday.

CHAMPION THEATER SUNDAY, MONDAY

THE LATE GEORGE APLEY will be the main feature at the Champion Theatre next Sunday, Monday and Tuesday.

This gentle, leisurely comedy, built for smiles and chuckles has a certain warmth and charm, and has given Mr. Colman an opportunity of portraying his best role in a long time.

Oddly enough, Peggy Cummins who supports Mr. Colman, is the only one of the names that are well-known, but the little-known players have turned in a performance much better than many highly-touted all-star cast pictures.

George Apley was accused in fiction and on the stage, and in this picture of having created the taste for beans for breakfast; quoting Emerson when he found aphids in his ivy; and placed the sacred cod atop the State House. All this and many more will assure you that the picture takes place in Boston.

SPIRIT OF WEST POINT will be the second feature on this delightful Sunday, Monday and Tuesday's billing. Starring Felix (Doc) Blanchard and Glenn Davis, who portray themselves in this film, it is a biography of Army's two great football stars. It tells the complete story of their success on the field, and the highlights in our book, is when the scenes from last year's Army-Navy game are shown with commentators Bill Stern and Harry Wismer describing the action in their typical radio style.

Champion Theater, Friday and Saturday

The main feature at the Champion Theatre this Friday and Saturday will be MOSS ROSE, starring Victor Mature and Peggy Cummins.

This suspenseful picture is the story of a pair of killings, involving chorus girls, insane killers, etc., . . . all the things to make you sit on the edge of your seats for an hour's worth of tense entertainment. There is blackmail and intrigue galore . . . but the ending will surprise you. Companion attraction will be DAKOTA starring John Wayne and Vera Hruba Ralston.

IDEAL THEATER

Facing doom when their plane is forced down n the South Pacific, Van Johnson and Cameron Mitchell, cast as the Navy fliers of "High Barbaree," measure out their last cup of water in a tense moment from the new adventure drama, by the authors of "Mutiny on the Bounty." June Allyson costars with Van Johnson, with Claude Jarman, Jr., winner of an Academy Award for "The Yearling," also featured.

Columbia Theater

"The Song of Love," starring Robert Walker and Katherine Hepburn, will appear Sunday, Monday and Tuesday at the Columbia Theater.

Built around the lives of the great composers with a strong love, interest, plus good music, it is well worth the theater goers' hour he spends in this fine picture.

Southeast Lions

Tuesday at the noonday luncheon of the Southeast Lions Club held at the Swan Grill, the members saw a motion picture about "Tires" how they were made, etc., by the Firestone Tire & Rubber Company. Ben Alvoid was the sponsor of this film.

Spirit Of Christmas

by C. R. Walcutt

We are now in the twentieth century, as dated from the birth of our Saviour Jesus, who was born 1947 years ago in a manger in the town of Bethelhem.

In the countries which are classed as Christian Nations, the progress of these countries has shown a marked contrast to those of Non-believers.

Truly the people of these United States have much to celebrate this Christmas; because our country has sufficient food, clothing and the necessities of life. In many nations there is insufficient food, clothing, housing and fuel.

Here in our country the stores are bright with lights, and the stores abound with merchandise which we may purchase to give as presents to our friends and loved ones.

While in the countries where War's devastation still shows, the people would appreciate a loaf of bread and a good roast of some kind of meat.

Here in the South Side, our people will arise Christmas morning and gather around the Christmas tree and presents will be passed around to sister, brother, Mom, Pop, Grandma and Grandpa.

Then the big meal, with turkey, dressing, mashed potatoes, scalloped oysters, radishes, lettuce, green onions, celery, cucumbers, olives, pickles, cheese, pumpkin or mince pie, plum pudding, topped off by a steaming cup of coffee.

We should, upon setting down to the table, say Grace at least and thank our Saviour for this wonderful country of ours and the many advantages that we receive.

Your Editor has much to be be thankful for in the splendid people that he comes in contact with here in this community of the good old South Side. It's people are the finest people of all the communities which go to make up our city.

Your Editor and members of the Staff of the South Side Booster wish each and everyone of you a very Merry Christmas.

Council Extends Greetings

In this Christmas Season, it is my privilege to extend greetings to every citizen in the South Side of Columbus on behalf of the Council of South Side organizations. All of us, young and old, should feel happy that we have shared in the projects successfully undertaken during the past year for the development of our community and the making of our section of the city a better place in which to live. May each of us resolve that in the coming year, our efforts may be devoted toward the development of a truly democratic environment for our youth.

C. L. Dumaree,
President, Council of
South Side organizations

Editor's Note: The Council of South Side Organizations is composed of the following groups: Southeast Lion's Club, All South Side Schools, South Side Ministerial Association, South Side Y. M. C. A., St. Lee's Court of Foresters, Knights of Pythias, South Side Eagles, Loyal Order of Moose, South Side Settlement, Lincoln Park Project Club, Hungarian, Grand Committee, the Druids, South Side Merchants Association, South Side Civic and Industrial Assn., and the Steelton Merchantns Ass'n.

Miss Martha Koecher Visits Parents

St. Marys Suffers First Defeat

St. Mary's came back from their second road trip in two nights, this time with the taste of defeat given to them by the hands of Springfield C. C., the score was 26 to 47.

Springfield hit the half moon bankboard and buckets constantly all night until they hit 47 points. St. Mary's couldn't seem to hit the basket until the second half.

Dunn, of Springfield, pumped in 21 points, most of these coming through his one handed push shot. Campbell and Spicity, also of the winning team, hit for three set shots apiece for six points each. Dick Gibson as high scorer for St. Mary's. St. Mary's played a good zone but Springfield opened up with long shots and on these they were "dead" shots.

Both benches were emptied and some really good basketball playing was seen. It now makes it three wins out of four starts for the Blue and Gold "Ramblers" of St. Mary's.

St. Mary's Reserves rated as the underdog, came up as the winners over Springfield's Reserves 22-9. Tino Skunza, Dick Hughes and Dick Schaeffer were high scorers for the winners.

The Sweetest Story Ever Told

Rev. E. J. Katterhenreich

Thank God for Christmas. Christmas with its hope, joy, peace and good will is here again with rich blessings for young and old. When the angel said: "Fear not, for behold I bring you good tidings of great joy, which shall be to all people. For unto you is born this day in the city of David a Savious which is Christ the Lord," he served as God's messenger to tell the Sweetest Story Ever Told.

Christmas is a historic fact, and as we in spirit return to Bethlehem, our time is not consumed in seeking to establish the fact of Jesus' birth, but in understanding and applying the meaning of His coming to our hearts and homes. The shepherds who left their flocks, the Wise Men who came, guided by His star, and all those who rejoiced at Christ's coming believed the declaration of God and to them the Birth of Jesus was the Sweetest Story Ever Told.

Christmas is not an invention of man, but it comes from the heart and mind of God. The Christmas message was to enrich the lives of all men—"I bring you tidings of great joy, which shall be to all people", the angel declared. This Christmas miracle has been repeated time and time again through the ages in the hearts and lives of those who believed and it is taking place again this Christmas where people in spirit and in truth worship the Christ Child and accept Him as the "Saviour, which is Christ, the Lord." Nothing has so universally influenced people as good as has the Christmas Story. As we see the Chrstmas Gospel and its implications cross the barriers of men, be it race, nationality, prejudice, hate, or misunderstanding and as we see men become brothers through the Christ of Christmas, we understand more fully the meaning of the world: The Sweetest Story Ever Told.

This Christmas season finds the world at peace, but not all is peaceful. As we hear the Angel's story and the Angelic Chorus: "Glory to God in the highest, and on earth peace, good-will toward men" we are led not only to pray but also to work for peace and good-will among men. Let us seek for that peace with God which comes through Christ and then we will be at peace one with the other. The giving of gifts will always be done in the spirit of love. God's good-will, God's peace, God's generous spirit manifested in His great Christmas gift and the dwelling of the Christ-Child in our hearts and lives will truly make the story of Christmas the Sweetest Story Ever Told. To that end we pray!

O Holy Child of Bethlehem!
Descend on us, we pray:
Cast out our sin and enter in,
Be born in us today. -Brooks.

Church Of Christ To Purchase Property

The Church of Christ is expecting to take title by purchase to a parcel of land located at 1363 S. Fourth St. This parcel of land is improved with a five-room brick dwelling house. The church will remodel the dwelling, and conduct services there temporarily as they expect to build some time in the future. This property has a sixty-four frontage on Fourth Street and is one-hundred and fifty feet deep, which allows them ample room to build.

Carl Findley will be the minister for this congregation. Preacher Finley will be remembered by his many friends and listeners of his series of radio sermons over WHKC, the first half of 1947. Preacher Finley was succeeded by the preacher of the East 7th Ave., Church of Christ, Ted Waller.

The above real estate transaction was made by Mrs. Vernon Bowen, with the A-1 Realty Company.

Engagement Revealed

Mr. and Mrs. Benn Barnhart, 658 S. Wayne Av., announce the engagement of their daughter, Vivian, to Charles Grebetz, son of Mr. and Mrs. Paul Grebetz, 1354 S. 3rd St.

Miss Barnhart is a graduate of West High School and is employed by the Surface Combustion Company.

Mr. Grebetz is a graduate of St. Mary's High School and is associated with the Integrity Supply Co.

Butter "Whys"

"Pass the butter!" Why? Because its got a flavor the scientists can't change as they dig away to find out why it's so good for you. And speaking of "passing the butter", how about trying this butter quiz the Columbus Milk Council has cooked up for you?

Butter is a rich supply of what vitamin? Vitamin A, that's essential for growth, healthy eyes and healthy body tissues, also an important factor in protecting your "inside linings" against infection. Reducers, be sure and leave butter in your diet to help keep up your resistance.

What gives butter its natural yellow color? The pigment carotene found in alfalfa, clover, etc. This pigment changes into Vitamin A in the cow's liver, and is passed on to you.

How much butter do you waste? Most people waste about half an ounce of butter a week. To prevent such waste try softening butter slightly before spreading, save any bits of butter left on plates and use them for cooking purposes, serve butter in the dish in which it is kept in the refrigerator, and lastly, protect the flavor of butter by keeping it cold, clean and covered.

Well, how did you come out? If you have answered every question correctly you deserve a pat (butter-pat of course) on the back. And if you failed the quiz don't be down-hearted. You can still "pass the butter".

A Letter From Cap Hoover

Dear Santa Claus:

The South Side YMCA has worked in South Columbus thirty years without a permanent home or building.

The cooperation and acceptance of its program in the community has been an inspiration to its Staff and Board of Management.

Programs have been promoted in schools, churches and on the playgrounds. We hope it will always be possible to continue using the community facilities.

The big question, dear Santa, is when should your community sponsor a YMCA building, which is badly needed. Parents and young people are repeatedly asking for a center that will provide social, recreation and club rooms, an auditorium for dramatics, conferences, song fests, etc. A permanent YMCA building is the answer.

An example: South Columbus has seen, in the development of the new Y-Park what community unity can do. Our new Park has served over 14,000 children, young people and adults the first official year of its opening. The same enthusiasm and fine support should provide a center for our youth. Yes, Santa, thousands of our children, young people, and adults have been served by the South Side Branch YMCA in the years gone by, many are still in our community and should be willing to contribute to a building fund. Also there are a number of good citizens who are financially able to give, and by will, leave funds for such a project. (Uncle Sam has the unfortunate habit of absorbing most estates when they could be shared with the community.)

Dear Santa, you are now soon to head toward South Columbus, spreading the Christmas Spirit and Good Cheer. We request you bring unto us and bestow on all mankind, charity. A charity or love that begins in the homes and takes root in the community in which we live. "Now abideth Faith, Hope and Charity, these three, but the greatest of these is Charity." With the Christ Child came the above message and the spirit of Santa Claus.

Wishing for all a Very Merry Christmas and a most Happy New Year.

From: The South Side Branch YMCA.

Board of Management: Arthur G. Starrett, Chairman; Harold H. Eigensee, Norman E. Gatsch, E. F. High, W. S. Kranzley, Glenn Schwemley, Fred A. Sheridan, Robert B. Wasmus, John H. McGath (Emeritus).

Staff: M. V. Hoover, James L. Wagner, Herman R. Kuehn, Wm. H. Barnetson, Mary A. Borror.

Message To Southway Comrades

With the Christmas Season just ahead we want to wish each and every member "A Very Merry Christmas and A Happy New Year." This sounds like an old greeting, but just stop and think just what the expression means to you and I.

Too many of us just merely say "Merry Christmas and A Happy New Year," giving no thought to the meaning of the statement. We should remember Merry and Happy are something we should all strive for the entire year. By continuing that fine sentiment toward our Comrades of Southway Post, we will all have a better feeling at heart and in our mind.

Likewise do not only endeavor to find Merry and Happy days for ourselves but let us carry on a program wherein we are doing something all year to make our less-fortunate Comrades and their families have a little Merry and Happiness.

Don't forget, here is your chance to help the South High Boosters Club to raise the money for that new score board for the South High Athletic Field.

Don't forget to place your waste paper at the curb in front of your house next Saturday night for the early Sunday morning collection.

Every dollar collected goes to the South High Boosters Club for the score board and for other things the South High School may need, especially in the athletic department.

Remember when you place those papers at the curb, you are benefiting yourself, as you either have children at South High School or you will have, or you, yourself, are an alumni.

Anyway, you will get the waste paper out of your way and eliminate a fire hazard in your home.

The time is Sunday morning, and the territory is from Whittier St., south to the viaduct.

Get all your waste newspapers out. Help the South Side Booster Club put up the Memorial Radio-Controlled Score Board, to be dedicated to the memory of 98 South High School students and Alumni who gave their lives for our country in the late war.

There will be ten trucks, fifty South Hgh Alumni, and 20 students on the streets Sunday morning for your waste paper.

They are giving their time for South High School. You give yours by putting your paper at the curb Saturday night for that Sunday, Dec. 28, collection.

Fifty tons of waste paper is the goal.

The Lighted Window

When I pass the lighted window
Of the church across the way
With its image there of Jesus
Beckoning those, who have gone astray,
It gives me a feeling, Oh! so humble,
And a voice within me asks,
Have you done your best for Jesus?
Have you finished every task?
I could never do enough for Jesus
If I lived a hundred years.
Life would still be too short to finish
The work to be done for my Saviour here.
Oh dear God, mend my broken body
Give Health and Strength, dear Lord, to me
Help me "attend my father's business"
Leading others unto Thee.
And Dear Lord, like the lighted window
Of the Church across the way,
Let my life show Jesus' image
As I live from day to day.
Let the light of love and service,
Shine on the world from within my soul
Leading others ever onward,
Toward eternal life, our goal.

Bible Institute Fall Training Announced

The Columbus Bible Institute Inc., announces the beginning of its winter quarter and will continue, through the following 13-week period on Monday and Tuesday evenings, to offer 10 subjects leading to 1-year certificates and 3-year diploma.

This school, which had 78 enrolled for the fall quarter, is the only one of its type in Columbus making systematic Bible training possible entirely through evening classes. These men and women represent 26 different churches and because of the interdenominational emphasis the student body is expected constantly to increase as more and more of Columbus church folk find that these facilities are available. Special training may be secured for almost any phase of Sunday School and Church work. No tuition is charged but a registration fee of $3 is requested for any number of subjects.

C. B. I. is an active member of the Evangelical Teacher Training Association of Chicago which is a clearing house for over 130 other schools throughout the United States to which credits earned locally may be transferred without sacrifice.

The faculty, composed of Bible Institute and Seminary graduates, will offer the following subjects according to schedule: Monday, 6:30 — Survey 12-06 — Detailed study of Book of Romans; 7:50 — Administration 100- History, importance, organization, types of Sunday Schools and Evangelism 102—Aims and how to refute them; 8:50—Music 101 Continuance of fundamentals of congregational conducting and Greek 101—Continuation of this language study.

Tuesday, 1:30 Evangelism 106—Teacher training for "Children for Christ" work; 6:30 Survey 101—Outline studies of Job through Malachi and Christian Evidence 100 Evidences for the truth and support of the Christian position; 7:50—Child Study 100—Study of needs, ages, psychology of dealing with children and Doctrine 101— Doctrine of Christ.

The facilities of the Bible Presbyterian Church, 743 Dominion Avenue, have been made available for use during these two evenings weekly. Additional information may be obtained by calling LA-6118] or WA-1475. Any inquiry of any phase of the Institute is encouraged.

Economic Highlights

Happenings That Affect the Dinner Pails, Dividend Checks and Tax Bills of Every Individual National and International Problems Inseparable from Local Welfare.

The vast amount of attention now being given to the complex problems of commodity prices and the European rehabilitation program has for the time being shadowed another issue which will play a lively role in the elections of next year. That issue is labor and labor legislation. When the Taft-Hartley law was being considered in Congress the labor leaders, for the most part, took the position that no legislation of any kind was necessary or desirable. In the opinion of a number of labor's friends, so recalcitrant an attitude was bad tactics, and in the long run might be injurious to labor's interests. However, the leaders have not changed their point of view. They regard the Taft-Hartley act as being 100 per cent wrong, and their announced purpose is to obtain its complete repeal, if possible—and if that is not possible to emasculate it through amendment.

The most aggressive enemy of this law is the CIO and its Committee for Political Action. CIO-PAC, according to statements by its officials, is not training its big guns on the Taft-Hartley law alone. When the measure was passed over the President's veto, it pledged itself to attempt to defeat, at the polls, every member of Congress who voted for it. That is a remarkably large order, inasmuch as the act obtained substantially more than the two-thirds majorities needed in both branches of Congress. If CIO-PAC were to fulfill its pledge, about 350 Senators and Congressmen now incumbent would go crashing down to defeat. And not all of those would be Republicans by a long shot. A large minority of the Democrats in Congress would also bite the political dust.

That has raised a very interesting question—just how strong is the influence of union officials over the rank-and-file of membership when it comes to telling them who and what to vote for? This issue has been dramatized in a "challenge" to the leaders of CIO-PAC recently issued by the Dunn Survey of Greenwich, Connecticut. The gist of it is found in this statement: "We challenge CIO-PAC to oppose publicly every member of Congress, Democrat and Republican, who has a primary election contest in 1948, and who voted for the Taft-Hartley labor law over the President's veto. Unless you run out on your word to try to defeat all of the members of Congress who voted for the Taft-Hartley law, you must accept this challenge."

The underlying thesis of the Dunn Survey's challenge is that the union leaders cannot dictate their members' voting, and that "the rank and file of American workmen are good, and independent thinking, citizens" who make up their own minds and cast their ballots accordingly. To substantiate this, the Survey has prepared some statistical tables which it believes proves its point.

In the 1946 general election, the Survey states, 143 members of Congress were opposed by CIO-PAC. Of these, 140 were elected, and only three were defeated. In the same elections, 221 Representatives who voted for the Case Labor Bill, a measure which was anathema to most union heads, came before the electorate. Only four were beaten and 217 retained their seats.

The Smith Labor Bill, which was also vehemently opposed by labor leaders, was voted on in December, 1941. In the 1942 and 1944 general elections, 235 members of Congress who approved it were returned to office, and only 17 were retired by the electorate.

Another table prepared by the Dunn Survey concerns the late President Roosevelt's vote—getting power in the major industrial districts where the unions are most powerful. Mr. Roosevelt was supported by practically all labor leaders, and during his Administration, union membership increased tremendously—from less than 5,000,000 in 1936 to 13,500,000 in 1944. But, says the Survey, his majorities declined from 65 per cent in 1936 to 56 per cent in 1944 in the 34 largest industrial areas. The Survey regards this as additional proof that the idea that union heads can deliver the labor vote as a block is absurd.

Time answers all questions, and eventually it will answer this one, in one fashion or another. It isn't yet known just how far PAC-CIO, or any other labor group, will go in trying to individually defeat those who voted for the Taft-Hartley law. The record shows that union chiefs have backed down before from statements that were made without sufficient thought and analysis. During the big railroad strike, the head of one of the principal brotherhods said that he would willingly spend all his union's treasury to defeat Mr. Truman. Nothing is heard of that now, and Mr. Truman obviously is supported by the labor chieftains. The President's veto of the Taft-Hartley bill, though unavailing, decided that.

Whether Mr. Truman can make political capital out of opposing the Taft-Hartley law remains to be seen. The fact that so many Democratic members of Congress voted for it certainly presents him with a problem. Most people think that he will attempt to make the labor issue definitely secondary to other issues, such as his program for European aid.

Is America Blind

It is an ironical fact that American communists and fellow travelers always scream to high heaven about their Constitutional rights when called to the witness stand. They fervently embrace the protections which the communist ideology, by its very essence, is determined to destroy.

They have, of course, a perfect right to do this—the Constitution was drawn to defend the liberties of people of all political faiths, all races, and all creeds. But there is a grim humor in seeing it used as a defense by men and women who would destroy it.

From the point of view of the individual, there is little difference between a communist, a nazi, a fascist, or a falangist government. Every kind of totalitarian state is built on the same set of principles. Every one of them says, in effect, that the state is supreme and that the individual is nothing. There can be no such thing as personal liberty the right to do, think and speak what one pleases. They are concerned with men and women only in the mass—as millions of slaves who may be used ruthlessly to advance the purposes of the state.

In this country, the totalitarian forces are small in number. But they are extremely well organized, and they are adept at deception and deceit. They are skilled at waving the flag, and at demanding in the name of democracy measures which would destroy democracy. They are solidly behind every project which would weaken free enterprise, which would increase industrial strife, and which would pit class against class. The boring from within technique has been detailed and perfected by the advocates of the super-state from Marx on down. It is an essential prelude to revolution and internal chaos which permits a "strong man" to seize power.

A nation can save itself from ultimate dictatorship in only one way by aggressively fighting every movement which would in any way circumscribe economic and social freedom. There can be no such thing as a limited freedom. We will have all or none. The forces of totalitarianism count heavily upon American blindness and tolerance as an aid to their work. The American people must prove them mistaken.

Christmas Held Twice Yearly

If children instead of their parents were allowed to choose the family homesite, the tiny fishing village of Rodanthe, N. C., would become a metropolis overnight. Here's a place they celebrate two Christmases every year.

Santa Claus, his reindeer scampering over the sands of North Carolina's outer banks, makes his first stop in Rodanthe during his annual world tour on the night of December 24. Hardly have the children recovered from their oversupply of candy and wild duck when Santa returns in time for "Old Christmas," which for hundreds of years Rodantheans have celebrated on January 5. This time, however Santa is accompanied by a menacing ogre, known as "Old Buck,"

who takes care of the bad children while Santa administers to the good.

The historical background of "Old Christmas" is uncertain. It may be a throwback to the Gregorian calendar or it may have started as a celebration of the Twelfth Night—when the wisemen came to Bethlehem bearing gifts for the Christ child—that somehow got off schedule a day. Elsewhere the Twelfth Night is celebrated on January 6. But these celebrations are far different from Rodanthe's "Old Christmas," which only in recent years has been supplemented by the observance of December 25.

Truman Sending Russia 'Scrap Iron'

America Had It's Lesson With Japan

One of these days an American soldier is going to be killed in "guarding Greece" or some place else in the bottled of Europe and then what will we do? It was the assassination of one individual (not an American) which started World War I into which this country later entered under the Wilson administration in 1917.

It would appear nonsensical then to be shipping to aggressive Russia at the time anything we need here out which later could be used against us just as in the case of the "scrap iron to Japan" prior to World War II.

Cold hard and national self-interest, we think will compel President Truman to change his mind about shipments to Russia.

We shipped eleven billion dollars of wartime lend-lease supplies to Russia, which helped to shorten the war, but for which in return we received neither gratitude nor public acknowledgement.

We sent $ 52 millions worth last year of which over five per cent were lend lease and UNRRA; and in the first nine months of this year $ 11 millions worth, of which almost half was given away and the other half for cash.

The give-away shipments have almost petered out but even for cash to the tune of $ 11 we should not sell to Russia anything that is needed in this country or in any of the other countries of western Europe that are trying to cooperate with us under the Marshall plan, or in China where Chiang Kai-Shek's government is resisting active Communist aggression, or anywhere else in the world where free peoples friendly to us are trying to work out their own freedom.

Anything we sell to Russia which helps to increase her economic or imperialist military power only makes more difficult the heavy task we have undertaken of trying to re-establish peace and security in the world.

One thing at least we should learn from history. We should remember what was done with that scrap iron we sold to Japan.

The poinsettia has no Christmas legend and its adoption as a symbol or decoration for Christmas is of recent origin. In Spain it is known as the flor de noche-buena, and is connected with the sentiment of Christmas.

Its beautiful flaming star is one of the favorite flowers of the Christmas season, and its use as an indoor decoration is universal.

Christmas Visit to The Seven Fountains

In 1640 when a plague was raging in Switzerland, 12 pious men of Rheinfelden formed a brotherhood to pray for St Sebastian's aid, and to nurse the sick and bury the dead. Pestilence in medieval times was ascribed to evil spirits in water, so the Brotherhood of St. Sebastian visited each of the town's seven fountains, praying and singing hymns at each stop. They still continue the custom, but only on Christmas Eve. For this ritual the 13 Brothers are dressed in black, with black silk top hats. At every fountain they gather around the lantern-bearer and sing a medieval song. The march begins at the Froschweide fountain, where the plague is supposed to have started three centuries ago. When they have passed the seventh, they enter the church for midnight mass, and ceremoniously place their lantern on the altar of St Sebastian.

Legend has it that when Christ was born and Satan died, the bells in the churches were rung. At exactly midnight the tolling changed to a joyful peal, announcing the birth of the Christ.

In the dark chambers high above the turmoil and strife of human life dwelt the Apostles of Peace, whose invitations were never so welcome as at the time of the great winter feasts of Christmas, so William Auld tells in his traditions.

Quaint Swiss Custom Of Meeting Lover

Forecasting is ritualized in Switzerland. Grandma goes to the cellar, selects the most perfect onion she finds, and peels 12 layers, one for each month. The next day these layers show what the weather will be during the coming year.

The daughter of the house goes about town at midnight, to draw from nine different fountains. Then she goes to church. She expects to meet her unknown lover on the church steps.

What's Right With The United States

Millions of Americans seem to be apathetic toward charges that there is something basically wrong with our governmental and economic systems, and that socialism, communism and the rest of the assorted isms have more to offer.

Edward C. Sammons, president of the United States National Bank of Portland, Oregon, touched on that vividly when he said:

"Our country is the only nation in the history of the world that has continued with its intrinsic, basic type of government since its beginning 170 years ago. . . . In those 170 years our 6 per cent of the world's population produced 25 per cent of the world's goods and possesses 50 per cent of the world's wealth. In no other country is there such opportunity as here.

"Too many people are saying what is wrong with America. Instead, we should be saying what is right with the United States. Why should capital be on trial here? Why should not socialism or communism instead be on trial, when our people are asked to provide the money and the food and tools for other nations to carry on?

"In my time we have defended our country three times from outside invaders, but we are not defending it sufficiently from within. The working man here is able to live almost as well as a king compared with those in other countries. Other systems promise. Our people have!"

That is a fundamental truth. The American people should shout from the housetops their faith in a system that has given them unprecedented tangible benefits—and, infinitely more important, the intangibles that make for a life of freedom.

Propaganda in 'Unreal' Art

WASHINGTON.—The general belief prevails that unreal art is Communistic. It is in character and in form. But many anti-Communists perform in this unreal field. Chagall, the French Abstractionist leader, is a Catholic. Several leading American Catholic magazine editors consider Chagall a great artist, and his field as a new, uplifting art venture. The prevalence of a long list of Jewish abstractionists has sponsored another erroneous supposition that the unrealistic art form is Jewish. It is not.

Unrealism in art is older than Communism. Turner's landscapes contained more mist than substance. The Communist Picasso became the best known adventurer in carrying unrealism to the extreme of setting down a few lines and colors and calling it art.

Some unrealism had always existed in art—nebulous backgrounds, indistinguishable objects, bare suggestions. This quality is even older and more widely accepted in everyday living. From antiquity, people saw a man in the moon simply because they could not distinguish the surface valleys there. People have long logically seen cloud formations or certain portions of the earth's surface as suggesting a real form of some other substance (embattlements, sleeping Indians or such).

IMAGINARY PICTURES

But it was the Communist Picasso who brought art unrealism to the extreme of imagining an indistinguishable or normally unidentifiable association of a few lines and color to be a real substance. The lines of the moon really resemble a face. But Picasso made lines which did not resemble an object and called this a picture of the object.

This is Communistic in character for two reasons: (A) the Communist revolution calculates destruction of all values in all fields, and the Communist revolution in art has destroyed the value of logical resemblance; (B) the method used is the same as the Communists practice in their unreal politics to destroy logical reasoning based on discernible and provable facts and figures, in favor of a wholly visionary conception. Thus they call political white, black, and vice versa and imagine it to be so. Thus they, disassociate their politics from logical principles (guiding general facts) for attainment of an indistinguishable goal. They try to hinder feeding Europe, for instance, to accomplish an undefined, purely negative revolution.

The precise quality of this art can be described although it seldom has been. Carry it logically two steps further than it has gone and you will see its character in its isolated, pure essence. Imagine a bare canvas to be "meat balls" because I call it that. Then take away the canvas entirely and imagine nothing—absolutely nothing at all to be—"meat balls." This is the quality and character of that art.

IT'S NOT AMERICAN ART

A bare canvas bears some resemblance to a painting, because it is used for that purpose. Perhaps some people will be readily able to envision in the weave of the canvas the form of some meatballs. But if you take the canvas away and imagine nothing at all to be meatballs, you have isolated the quality and character of non-objectivity in its real essence.

Museum directors, art dealers, artists and particularly rich collectors who are easy marks for unrealism in art, are criticizing anti-Communists and the state department for refusing to send a show containing a large portion of this peculiar product around the world as American art. They do not realize they are being rather stupid. Public money pays for transportation of American art shows to tell foreign nations of our culture. This art is not American culture. To send it abroad as such is a misrepresentation of our culture. To do so when Communism is combatting us around the world with unreal politics is dangerous and plays into the culture of Communism. Public officials would be deficient in sense if they thought this art was American culture, by any calculations, and derelict in their duty if they tried to spend public money to send it abroad as such.

A Selfish Minority

Members of unions and their families number about 36 million, or about one-fourth of the population of the United States. Quite obviously they are not "the consumers," but one-fourth of same. The next question then is do they represent the interest of consumers? Do they act in the interests of consumers?

Only on Sundays, you might reasonably say. They have CIO and AFL branches which they call consumers' divisions, and these emit statistics, and propaganda on prices being too high, and attack business and profits.

March Of Dimes Announces Drive

Appointment of Thomas A. Sabrey, 1049 Franklin Avenue as chairman of the 1948 Infantile Paralysis "March of Dimes" campaign in Franklin County was announced today by Sid R. Phillips, chairman of the local chapter of the National Foundation for Infantile Paralysis.

With the need for funds greatly increased because of the record number of 117 cases of "polio" in Franklin County so far in 1947, Sabrey is now organizing the thousands of workers who will participate in the drive from January 5 to 31.

This year's total of 117 cases to date, Sabrey points out, is far more than the combined number of 91 reported for the previous seven years. The recent epidemic has completely wiped out the local chapter's reserves, and it is estimated that from $60,000 to $75,000 is still needed for the further care of the 1947 victims.

"Our chapter offers assistance to the family of every polio victim, and 85 per cent receive some degree of help," Sabrey reports.

"This dread disease finds its victims in every economic status and in every section of the city and county. All of the funds received in January will go into concentrated action on all fronts, including attacks on cause, spread, prevention, and treatment. Assistance given without regard to age, creed, color, or time of affliction includes purchase of orthopedic appliances, payment of hospital and doctor expenses, and purchase of hospital equipment," according to the drive chairman.

Sabrey, who for 15 years was resident manager of the Neil House, is now managing director of the Hotel Breakers at Cedar Point. During the off season at the resort hotel, he for several years has been devoting his time and energies to the annual "March of Dimes" campaigns.

In addition to his work with the Infantile Paralysis campaign, Mr. Sabrey also is active in the Charity Newsies, the Knights of Columbus, Eagles, Elks, and Moose fraternal orders.

Members of the local chapter executive committee, in addition to Mr. Phillips, are George W. Hicks, vice chairman; Jack L. Ratner, secretary; Noel L. Greenlee, treasurer; R. M. Porter, administrator of Children's Hospital; Mrs. D. J. Alspaugh, chairman of the women's division; and Harry H. Shaw, Jr.

The chapter's medical advisory committee includes: Dr. Edward Harlan Wilson, chairman; Dr. E. H. Baxter, Dr. Clyde Dawson, Dr. Shelby Gamble, Dr. O. M. Goodloe, Dr. Henry B. Lacey, Dr. Chester C. Shinbach, Dr. Warren Wheeler, Dr. Judson D. Wilson, Dr. H. P. Worstell.

Jean Cunningham Gilmore is executive secretary of the Franklin County chapter office, 17 S. High Street.

AWARDED CONTRACT

To Wueller and Theado, 691 Parsons Ave., was awarded the contract for new heating plant for $15,826.21 and Leib-Jackson Co., 57 S. High St., for plumbing fixtures for $4,783 for Schiller Park Shelter House.

The City is now advertising for bids for the general repairs on the Shelter House which will include electrical, tinning, painting, carpenter work, etc.

We understand that the total amount to be spent on Schiller Park Shelter House will be in the neighborhood of $40,000.

The old Cherry Tree carol, or the legend upon which it is based, is undoubtedly the reason for the custom of placing a branch of cherry tree in water to bud for Christmas time.

According to this legend, Mary and Joseph on their way to Bethlehem passed a tree loaded with cherries. Mary was hungry for some of the fruit and asked Joseph to pluck some cherries for her. The tree graciously bowed down so that Mary could pick the fruit herself.

It has been customary among the Czechs and Slovaks to take the branch of a cherry tree and place it in water in the late fall so that the buds reach the blossoming stage at Christmas time.

The belief was current that if the sprig blossomed by Christmas Eve, the girl who tended it would marry during the New Year.

Danger From Tree Fire Ever Present

Although the Christmas tree is one of the most picturesque Yuletide ornaments, it is also one of the most dangerous, with the threat of fire an ever present possibility.

Replacement of the candle by the electric light has removed some of the hazards formerly experienced, but danger still lurks from faulty connections or careless handling of bulbs and strings.

To minimize the fire hazard, the department of agriculture offers two pertinent suggestions: First, keep the tree well watered and, second, fireproof it with ammonium sulphate or calcium chloride.

To provide the tree with sufficient water, cut the butt on a slant at least an inch above the original cut Keep the water level above the slashed surface. In purchasing a tree, always look for one that has been felled recently so that the needles have not dried.

Fresh trees also are essential for flame-proofing. In using ammonium sulphate, a chemical content one fourth the weight of the tree should be used. After dissolving one and a half pints of the ammonium in a pound of water, slash the stem of the tree and place it in the solution Then, let the tree stand four to six days in the solution for complete absorption. Trees fireproofed in this manner will not be ignited by an electric spark.

2nd DETECTIVE: That's probably why she shot him.

News In The World Of Religion

By W. W. Reid

The Church Peace Union and the World Alliance for International Friendship are this Christmas sending out to the churches a "Prayer for Peace", written by Dick Diespecker, a South African who fought in World War II,—a prayer beseeching strength "to wage peace now." From the long poem-prayer we quote in part:

"Dear Lord, teach us to act instead of dream;
To work for Peace instead of wishing for a miracle.
Make us honest men and women
With the strength and the courage to lift a dying Peace
From the ashes of empty Victory and make it live again,
Dear Lord of heaven and earth, give us these strengths
While there's time to breathe life into Peace again,
And keep it a living fire forever and ever. Amen."

"Christ was born in a stable because there was no room for his Mother in the adjoining inn, and he was probably laid to rest in the manger because there was little room for him on the floor of the stable," says the Rev. Thomas Tiplady, noted British pastor, poet, and head of Lambeth Mission, London. "The travellers' asses were probably in the stable when Christ was born, and the place would be dark and dirty. Some would have described the scene as sordid. Yet the great artists who have painted the scene have not pictured it as sordid, but the significance of the commonplace, and in their eyes material things are transformed by the presence of the human and divine. The great artists are right."

As a Christmas gift from the people of America to the People of Russia, the American Bible Society recently presented to Metropolitan Gregory, of the Russian Orthodox Church, 10,000 Russian Bibles, 5,000 New Testaments and Psalms, 100,000 Russian gospel portions, and 1,000 Greek New Testaments. These scriptures are all in the new Russian orthography, and in the Holy Synod Version set up in St. Petersburg in 1860. These new books were all published from new type in the United States.

Eight Lutheran congregations in six states have recently purchased former U. S. Army chapels and now occupy them on local community sites. They are now established as Zion Lutheran Church, Walburg, Texas; Christ Evangelical Lutheran Church, Columbia, S. C.; Lion Lutheran Church, Haigler, Nebr.; Trinity Evangelical Lutheran Church, Baldwin Park, Calif.; Trinity Lutheran Church, Waco, Texas; Faith Lutheran Church, Arlington, Calif.; Gloria Dei Lutheran Church, Wichita, Kans.; and St. John's Lutheran Church, Monett, Missouri.

After stating its praise of the acts of former U. S. Congresses that repealed the so-called Chinese Exclusion Laws, and that admitted into the country persons from India and the Philippines and made them eligible for U. S. citizenship, the Federal Council of the Churches of Christ has sent resolutions to Congress, expressing "the hope that it will complete congressional action in removing discrimination in our immigration and naturalization laws respecting Orientals, to the end that all Oriental people now racially ineligible for citizenship may be granted the same status" as now accorded the people of India, China, and the Philippines.

Three new missionary bishops, to have charge of missionary districts of the Protestant Episcopal Church, have recently been elected by the denomination's House of Bishops. One is the youngest bishop of the Church, the Rev. William J. Gordon, twenty-nine-year-old missionary at Point Hope, Alaska, elected to succeed Bishop Johns B. Bentley, resigned, a bishop of Alaska. Other new bishops are: the Rev. James W. Hunter, rector of St. Mark's Church, San Antonio, Texas, elected co-adjutor-bishop of Wyoming; and the Rev. Louis C. Melcher, rector of Trinity Church, Columbia, S. C.; elected coadjutor-bishop of Southern Brazil.

When the Rev. Damiano Rossi, pastor of the Italian Methodist Church in Corona, L. I., found four years ago that the 60-year-old building in which his congregation was housed was about ready to collapse, and that his people had no funds for rebuilding, he determined to do something about it personally. So this versatile preacher, who had been successively a music student, a worker on a canal, a chaplain in World War I, and a pastor of Italian-speaking congregations, began making his own concrete bricks, shaping his own timbers, and doing his own rebuilding—the back yard of the church being his yard and shop. All the time not devoted to services and parish visitations was given to work on the church. And on a recent Sunday he had the rebuilt church, practically new, ready for dedication by Bishop Herbert Welch. "Now I am going to give all my time to spiritual building", he told his people.

Dr. Frederick L. Fagley, of the General Council of the Congregational Christian Churches, will leave for the Orient in January, at the invitation of the United States Army, to officially visit the chaplains and their work. His tour will include army bases in Japan, the Philippines, Korea, and China. During World War II, Dr. Fagley was chairman of the National Committee for chaplains of his Church, and has been awarded by the Army a "certificate of appreciation" for his services.

Hailing the report of President Truman's "Committee on Civil Rights" as a "notable contribution to our progress toward a working democracy", the Federal Council of the Churches of Christ in America has urged the people of the Christian churches of the land to study its recommendations and to "take seriously the challenge" in their actions. The Council says: "We note with approval that the Committee was sensitive not only to the rights of our largest minority group, the Negro, but also to other racial and religious minority groups within our society. . . . . Among the objectives in the report which seem to call for special attention from the churches in view of the Christian principles involved are the protection of human life against mob violence; equal opportunity for employment, regardless of race, religion, or national origin; the elimination of segregation, including the outlawing of restrictive covenants in real estate contracts; and the right of every adult citizen to vote."

A group of church and church-related organizations are giving attention to the need for immediate relief for the Navajo Indians on the reservation in New Mexico and Arizona, and they have appealed to the special session of Congress to take some action on the matter. According to Dr. Mark A. Dawber, of the Home Missions Council of North America, large numbers of Navajos have returned to the reservation recently, having left the industrial communities where they worked during the war years; but the land on which they have hitherto pastured their sheep has been over-grazed. Other organizations joining the Council in asking relief include the Association on American Indian Affairs, the American Civil Liberties Union, the Indian Rights Association, the General Federation of Women's Clubs, and the New Mexico Association on Indian Affairs.

Ten different Lutheran churches —American, Swedish, Danish, Norwegian, and German; the American being the United Lutheran, the American Lutheran, and the Missouri Synod - are now conducting mission stations and sending missionaries to India. There is a total native membership of 500,000 in these Luthern churches. But the natives have some difficulty in deciding why they are Norwegian Lutheran Christians and have no fellowship with Missouri Synod of American Lutheran Christians, etc. So the various Lutheran groups are getting together this December, at Ranchi, Bihar Province, and are considering a constitution to organize as the United Lutheran Church of India. Recent mergers of other Protestant bodies, especially the large United Church of South India, have helped Lutherans unite their interests.

Reports from Mexico City indicate that more than one million Mexicans were taught to read during the past year through the Mexican National Campaign for Literacy, inspired by the world-renowned missionary, Dr. Frank Laubach, and using methods devised by him for teaching Spanish. Forty thousand teaching centers, most of them schools and churches were used in the campaign; there were thousands of volunteer teachers, President Miguel Aleman being one of them. The Committee on Fundamental Education, of UNESCO, is now meeting in Mexico City to plan its world fight against illiteracy. Dr. Alfred D. Moore, one of Dr. Laubach's associates in the Committee on Literacy of the Foreign Missions Conference of North America, has been named consultant to the UN committee.

More than 2,500 young people, representing colleges and universities in all parts of the United States and Canada, together with Christian leaders and students from some sixty overseas countries, will meet in Lawrence, Kansas, from December 27 to January 1, under the auspices of the Student Volunteer Movement. The Movement is interdenominational. Through the years it has recruited most of the young people who have gone out from America as foreign missionaries, evangelists, teachers, doctors, and specialists. Among those who will address the gathering will be: Dr. John R. Mott, Nobel peace prize winner; Congressman Walter H. Judd, a former missionary to China; Dr. K. S. Latourette of Yale; Dr. Roswell P. Barnes of the Federal Council.

Christmas Rose Has Real Significance

Legend tells us that a young shepherd girl was weeping bitterly as she watched the Wise Men on their way to take gifts to the Christ Child

An angel appeared, and after ascertaining why the young girl was crying, she waved her wand, and instantly the ground was carpeted with glittering white Christmas roses. The young girl quickly gathered these blooms. When she presented her gift, the Christ Child smiled, and as his fingers touched the white flowers the petals became tinged with pink.

"Any person or persons tying a tin box or any other article calculated to frighten, to any dog or any other animal, within the corporate limits of Calhoun, Ga., upon conviction thereof, shall pay a fine," etc. Section 64, page 31.

I wish to extend Yuletide greetings to the parents and friends of our South High School community. Your cooperation, understanding and support of our school program has been very heartening to us and for which we are very appreciative. As together we look forward and plan the educational future for our youth, we solicit your continued desire to make our South High School a great institution in our democratic school system.

Do You Remember When?

Politeness required that some food be left on the plate?

We beat the heat with palm leaf fans?

Men (much less women) were not allowed to smoke in the parlor lest the curtains be contaminated by the vile odor?

There's Still Hope, Doc

You just have to marvel at a mother's faith in her offspring. Mine still thinks after all these years that I'll amount to something.

Two bourbon-soda, and for me
A Scotch mist;
And now leave us take
A gander at the list.
Wonderful steaks here, Idaho potato
Corn beef, pot roast.
There's Ed! Hi Eddie boy!
How's things on the coast?
Looking fine! Terrific! but terrific!
How's the wife?
Never saw you looking better
In your life.
Follow my eye, pal,
I hadn't better point
But over yonder's Greasy;
He really owns the joint.
And with him, that's the judge
Of the court of special pleas
But I can't seem to place
The other two gees.

The judge, his brother,
He's in slot machines
And strong as horseradish,
Here to Noo Orleens.
Charged water, pretzels,
Swizzle-sticks and sports
Policy and, you know,
Disorderly resorts.
Narcotics, handbooks,
Tablecloths and jackets
The baseball, football
And basketball rackets.
Over there in Jersey
He's the guy to see
In problems up to murder
In the first degree.
Grand juries, trial juries,
Anything you wish
General operations; he's a
Blue plate dish.
Swooners, crooners and
Junkeys, natch.

Well, here's looking at you;
Down the hatch.
Get a load of that
Commotion over there
The Honorable Justice
Is going on the air.
Give him a line
In a column and he
Will give you an exclusive
On the court's decree.
Runs up from Washington
To fire off his lip
Eats on the cufferoo,
Including also tip.
Sometimes he will read
His opinion out loud
And glower at the pauses,
To impress the crowd.
The national committeeman
Is coming in now
An ambulance-chasing
Alcoholic lobbygow.
For a G-note he can fix it
So you can cop a plea
Or get you in some day
For lunch with Harry S. T.

SO FAR as excitement, thrills, bitter disappointments, surging hopes and hopeless odds might go, no coach in the country even approaches the record of Capt. Tom Hamilton, who handles the Navy squad.

Captain Tom, a rugged individual with unusual charm, found his first thrills on the aircraft carrier Enterprise in the late war, where his ship was bombed, torpedoed and otherwise assaulted in the Pacific. Both Hamilton and his ship had a brilliant record. He was brought back to handle a sadly depleted Navy squad a year ago.

Hamilton

Navy won its first game in 1946 against Villanova and lost all the others, finishing with a great stand against an Army team that had Davis, Blanchard and Tucker enrolled. Hamilton's team needed only one final play for victory.

This season, undermanned Navy drew this schedule — California, Columbia, Duke, Cornell, Pennsylvania, Notre Dame, Georgia Tech, Penn State and Army.

This was a terrific schedule for any team — Michigan, Pennsylvania, Notre Dame, Southern California or Texas. It was far beyond the reach of a young Navy team with its limited football personnel. Yet as Navy was bowled over week after week, it always came back fighting, giving all it had left. There were no breathing spots in Navy's schedule.

A Record for Courage

Both Hamilton and Navy have given all they had. Both have set a record for courage — of battling against odds since the season opened. But there isn't too much fun, especially for Navy, in being knocked down week after week, struggling desperately to win one game each year.

Everyone seems to realize this except those handling the destinies of Navy football—who don't have to take the weekly beatings.

Just as the war broke out, Navy called Swede Hagberg, a brilliant [illegible] star, to active duty as a lieutenant-commander. Hagberg was high on anyone's list as a submarine commander. He was completely bewildered at Annapolis with such men as Jenkins, Kelly, Hoernschemeyer, Minini, Scott, Whitmire, Dennison, three stars from Texas and too many others to mention.

Hagberg was one of the ablest of all submarine commanders. He was not a football coach.

Wallace Wade, a great coach for 18 years, lost two or three coaching years as an artillery major. "I'm so far behind," he told me, "that it will take at least three years to catch up." Other veteran coaches have told me the same thing. You can drop out two years in this modern coaching pace—and come back lost in a fog.

Hagberg never had a chance. Then Hamilton was brought in. Hamilton had been away from football action for many years. He never had a chance against such men as Frank Leahy, Fritz Crisler, Lou Little, Red Blaik, George Munger and many more I could mention.

As smart and as able as Hamilton is, he will need at least two more years to have his chance—to get his feet on the ground and match the Leahys and the Crislers—and even then he won't have their material.

Three Years—Then Out

The five admirals I talked with at the last Army-Navy game told me they were going to stick to their present system for coaches—three years—and then back to Navy service—with a new man in. This may look to be a happy plan—but it won't work. Not a chance in the world.

I would vote 100 per cent to keep Hamilton on the job. He will be better in 1948 and much better in 1949. But to yank him out and bring in another navy man means Navy suicide.

It may be Hamilton wants navy service in place of coaching later on. I wouldn't know about that. But Hamilton now is just beginning to get his grip.

Red Blaik, at Army, has been coaching for more than 20 years—Army, Dartmouth and back to Army again. Red is a high-class professional coach with long experience.

Navy is the only football squad that keeps changing coaches. They are out of the job just as they are finding what it is all about.

They tell me from Annapolis that Navy won't have a professional coach — or keep such a man as Hamilton in after his three years of football service. This is all right if the admirals and the leading navy officials get a kick out of seeing young midshipmen knocked down and hammered around week after week. I don't think they do. Football coaching today is just as much a science, a matter of experience, as handling a battleship or any form of navy craft.

It was the Spectator Group's privilege to visit St. Ladislaus Church, Wednesday Morning, Nov. 12. Father Riehl escorted the 12 youngsters and teacher, Mrs. Ina F. White, into the church. Truly a sense of awe and silence fell over the group as we loaned at the sanctuary. The church is one of majestic beauty——a scene of splendor and solemn religion, reflecting soft pastel shadows from the walls. On the left of the main altar, we saw a statue of the Blessed Virgin and to the right, a statue of St. Joseph, holding the Christ Child and near him is St. Theresa. "The Stations of the Cross" tells a story in itself and we also learned about St. Antnony and the Sacred Heart.

The group listened attentively as Father Riehl explained the procedure of baptizing at the Baptismal Fount. Not far from the Fount is another significant statue, one that impressed us very much—the "Sorrowful Mother." In the southeast corner of the church we came to the Confession room and after observing the interior of the room, we walked down the left aisle, and near the front of the church, watched the brightly burning candles that glowed in pretty ruby-colored glass containers. The burning candles symbolized prayer requests, by members of the congregation. Father Riehl explained to us the true meaning of a candle. He said, "The bees wax represents the humanity of Christ—the wick is the soul—the burning candle depicts a union of the humanity and divinity in person of Christ." As we proceeded to leave, we noticed that the choir loft is in the balcony, at the rear of the church. In the vestibule, we saw receptacles that contained Holy Water, and were showed how to dip the finger into the bowl, and make a cross.

Our visit to St Ladislaus is one that we will long cherish and again we wish to thank Father Riehl for his gracious hospitality.

Protecting Ourselves

During the recent hearings in Washington we were told that the question "Are you a member of the Communist party?" was an infringement of political freedom. But politics is the science of government and the business of this party is not government but the destruction of this nation by the frustration of government.

The purposes of our Constitution are "To form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense and secure the blessings of liberty —." Certainly that statement cannot be distorted so as to shield the agents of a hostile foreign power; or to forbid us to protect our United States from scheming and violence against those purposes.

We have to be our own judges as to whether a member of the party or a fellow traveler who gives evidence of his devotion to the party's purpose is guilty of this hostility.

Champion Theater, Friday and Saturday

THE LONG NIGHT will be the main feature at the Champion Theatre this Friday and Saturday. Starring Henry Fonda and Barbara Bel Geddes, this story of a trapped killer who, during the remainder of the picture, tries to explain his reasons for having killed Vincent Price.

This is shown in a series of flashbacks. Miss Bel Geddes, a young, excellent actress here makes a very auspicious screen debut and we think we will be seeing her on the screen quite often in the future.

The highlight of the picture is Fonda's harangue from a window to a mob below. All performances are excellent, including that of Ann Dvorak, as a magician's assistant.

Companion attraction will be WHERE DO WE GO FROM HERE starring Fred MacMurray and Joan Leslie.

This historical fantasy is laugh-evoking from beginning to end. MacMurray portrays a young man who has been classified as a 4-F and tries unsuccessfully to enter every branch of the armed forces in turn. At last he falls asleep and dreams that he is a hero in one after another of the wars . . . The Revolutionary, The Civil, and finally, the Spanish-American War. It's a picture to delight the most critical.

CHAMPION THEATER SUNDAY, MONDAY

The main feature at the Champion next Sunday and Monday will be THE OTHER LOVE, starring Barbara Stanwyck and David Niven. THE OTHER LOVE ranks high up in the list of good pictures, and, while it is the age-old story (since "Camille") and perhaps before, it is still good entertainment. It is the story of Miss Stanwyck, whose lungs are not too good, going to the Swiss Alps for recovery. She collapses and falls in love with Dr. Niven, who immediately falls in love with Miss Stanwyck. Then while her recovery is in process, Richard Conte comes on the scene and Miss Stanwyck gives up all idea of a health-routine. It shows some wonderful scenes of the Alps, and some interesting much-heard-of, but seldom-seen Continental resorts. Companion attraction will be BLONDIE'S HOLIDAY, a delightful picture in the line of Blondie pictures. Penny Singleton as "Blondie", and Arthur Lake as "Dagwood Bumstead" are still as entertaining, down - to - earth, lovable good people to know. You'll love it.

OPENING SUNDAY AT THE SOUTHLAND

"Along Came Jones", outstanding romantic comedy of western vein, starring Gary Cooper and Loretta Young, will be the Christmas Day attraction at the Southland Theatre.

South Side movie fans will be glad to know the Southland will feature a special holiday matinee starting at 1:30 p. m. on Thursday, with continuous showing through the evening.

Companion feature with "Along Came Jones", will be the spectacular musical comedy "Strike Me Pink", starring lanky Eddie Cantor and vivacious Ethel Merman. Cantor, one of the world's best-loved showmen, will leave you rolling in the aisles from his hilarious antics in this gay holiday-attired hit.

Miss Merman, the undisputed queen of the American musical comedy stage, is currently appearing on Broadway in the role of Annie Oakley, in the sensational hit, "Annie Get Your Gun".

Action fans will find the Saturday bill at the Southland especially attractive. Heading the dual program will be "Rainbow Over the Rockies", rootin' tootin' Western starring Jimmy Wakely and Lee "Lasses" White, Philip Terry and Jacqueline White, most recently seen in "Crossfire", star in the second feature, the film version of the popular mystery "Seven Keys to Baldpate".

Sunday and Monday, thrilling adventure is the keynote of the Southland's main feature, "Singapore". This fast-moving story stars Fred MacMurray in the role of an international adventurer on the trail of a fabulous pearl necklace. Raven-haired Ava Gardner, who scored such a hit with Burt Lancaster in "The Killers", and with Clark Gable in "The Hucksters", co-stars with MacMurray in "Singapore", which will be shown with "Homesteaders of Paradise Valley" as co-feature.

"Sinbad the Sailor", spectacular Technicolor adventure-drama, starring Douglas Fairbanks, Jr., and lovely Maureen O'Hara, will open Tuesday at the Southland, continuing through New Year's Day, when there will be a special holiday matinee.

Champion Theater

Champion Theater: Friday and Saturday "The Long Night" with Henry Fonda and Barbara Bel Geddes; also "Where Do We Go From Here" with Fred MacMurray and Joan Leslie. Matinee Saturday, Sunday and Monday "The Other Love" with Barbara Stanwyck and David Niven; also "Blondie's Holiday" with Penny Singleton and Arthur Lake. Matinee Sunday, Tuesday, Wednesday and Thursday "Diamond Horseshoe" with Betty Grable and Dick Haymes; also "Junior Miss" with Peggy Ann Garner and Allyn Joslyn.

RUSSELL THEATRE

The Russell Sunday and Monday "Slave Girl" with Yvonne DeCarol and George Brent. A comedy drama in technicolor, a caravan of thrills told with lusty laughter. The Sheba of the Sahara, see the beauties on the auction block, see dazzling dancing harem honeys, see battles in the dungeons depths, see the terrific clash of the desert hordes. "Slave Girl" also "Sioux City Sue" with Gene Autrey and Lynn Roberts "News and Cartoons."

Columbia Theater

Appearing at the Columbia Theater, Sunday, Monday and Tuesday on the screen will be "The Other Love," with Barbara Stanwyck and David Niven.

This is a romantic drama, with highly emotional portrayals of a world famous pianist who wears a succession of striking gowns, who goes from the depths of despair to heights of happiness.

A great presentation done as only Barbara Stanwyck can portray a good role.

Also Johnny Mac Brown in "Prairie Express."

Your Home

By Frances Ainsworth

Last Christmas I entertained 36 for dinner . . . and, so many of my guests commented on the seeming ease with which the entire dinner was prepared, that right then and there I made a mental note to tell you about it this year!

Holiday meals are no problem at all if you work things out ahead of time. I've found that by following 3 simple steps I can enjoy my holidays and my guests. First . . . simplify your menu and plan it well in advance — second, use easy cooking methods — and third, prepare everything you possibly can the day before. You'll find that handy roll of waxed paper indispensable in your pre-holiday plans, so better note that on your Holiday shopping list. I always clean celery and carrots the day before, then wrap them in waxed paper before putting them in the refrigerator. My turkey is dressed and stuffed . . . then carefully wrapped for cold storage until roasting time. Cabbage for the salad is shredded, then wrapped in waxed paper until the Holiday morning. Pies can be made the day before . . . sweet potatoes can be steamed, chilled, peeled and even seasoned. I've discovered that by a little work the day before a Holiday, I can persuade my dinner to almost "cook itself" while I enjoy my guests!

If you are entertaining a few people, buy a half turkey — rather than a whole one. To stuff a half turkey, turn the skin side down, and fill the cavity with your favorite stuffing. Place 2 strips of bread over the stuffing and cover bread with a double thickness of waxed paper. Turn paper side down, and place in a shallow roasting pan, then proceed as you would for a whole turkey.

You know, I'm looking forward to the Holiday excitement of guests, special dinners and entertainment. Even the cook has fun if she plans carefully ahead of time!

Myth of Mistletoe

Surrounded by myth by primitive peoples, the mistletoe was taken over by Christians who also wove fanciful legends around it.

In ancient mythology, the mistletoe was the instrument of evil. The Druids of Britain believed the plant possessed healing powers. Other primitive people thought that mistletoe found growing on oaks had magical powers.

Taken over into Christian tradition, the mistletoe was dedicated to the Christ Child. Adopted as symbolical of the healing power of our Lord, it was used to adorn the altars at Christmas. Monks of the monasteries called it the "wood of the cross" and attributed supernatural powers to it. The white berries were said to reflect the radiance caught from the guiding star when the Wise Men were led to the manger.

CHRISTMAS QUIRKS

Norwegian farmers give their cattle tubs of home-brewed ale on Christmas Eve.

At midnight of Christmas Eve people in Madrid eat 12 grapes for good luck in the coming year.

There are 175 different kinds of holly.

Christmas has been celebrated on more than 100 different days in various parts of the world.

Christopher Columbus and his men landed on the coast of Cuba on December 25, 1492, naming the point Navidad.

George Washington crossed the Delaware and made a successful attack on the Hessian troops at Trenton, N. J., on Christmas Day, 1776.

Oliver Cromwell and his Puritan followers abolished Christmas Day in England, banning all feasting and fun. The ban lasted for seven years and was lifted when Charles II became king.

The needy are considered in Hungary at Christmastime, a levy being assessed against richer citizens so the poor may have sufficient to eat and drink.

Christmas Trees Of Many Kinds

FROM forests and woodlots of the United States a torrent of green rolls into the cities during pre-holiday weeks as farmers and foresters market their annual crop of Christmas trees.

The twinkling tree which adds holiday cheer to practically every home in the nation is one of America's most invariable domestic habits. As a result, it has brought the Christmas tree business into the realm of "big business." Some 14 million evergreens are required annually. Their retail value has soared into the quarter billion dollar vicinity, the 1946 returns being estimated at 28 million dollars.

Cash returns from the sale of Christmas trees represent only a

small fraction of their value to American agriculture. Thousands of farmers are using the lowly evergreen to anchor sand lands to protect the shifting soil from further [illegible].

With exception of the prairie lands, virtually every state in the union produces Christmas trees, at least for local consumption.

In the West, Colorado and Montana are the heavy exporters while in the East, the New England states compete with Canadian growers for the American markets. Inland, the heart of the Christmas tree country centers on upper Michigan, northern Wisconsin and Minnesota.

SUNDAY AND MONDAY AT THE IDEAL

Stop-Look-and Listen! — when Esther Williams flashes her new red satin shoulder-length cape. It's the latest fashion to hit Hollywood and was inspired by the star's new Technicolor musical, "Fiesta," now showing on the Ideal Theater screen, in which she plays a lady bullfighter. The cape is very stiff, with upstanding collar, and it is particularly effective worn over the actress' black wool dinner dress. Esther also wears it with white and has a gold lame gown as a third complement for the high style wrap.

The Disease Of Gov't

The worst problem confronting the world today is what might be called, "the disease of government."

The whole history of civilization since the dawn of time has been the story of man's struggle against oppression. Every school child is required to study the great milestones in that struggle—the signing of the Magna Carta, the writing of the Declaration of Independence, and the rest. All the revolutions ever fought have marked the attempts of peoples to free themselves from the chains of emperors, dictators, and corrupt and cruel governments.

Now almost all of Europe and much of the rest of the world have turned back the clock. They have willingly or otherwise, succumbed once more to super-government. They have apparently placed the goal of a dubious physical security ahead of that of freedom. They have accepted the disciplinary weapons of dictatorship—the whipping post, the execution block, the concentration camp, slave labor. Even England, though she still clings to the basic civil liberties, has gone a long way down the road that can end only in spiritual darkness and the submersion of the individual spirit.

In the United States, we have gone farther along the same road than most of us realize. We have created an enormous, ever-growing bureaucracy which saps our energies and our wealth. Worst of all, we have largely lost the definite distinctions established by the Constitution between the three branches of government—executive, judicial, and legislative. The result of this is more and more "administrative government"—which is simply supplanting a government of law by a government of men.

Nations, like individuals, can learn by example. Europe is showing us what happens when we turn to government to give us "security"—and, of necessity, make government the dominant factor in our lives. This is the way that tyrants come to power, and the process has not changed in two thousand years of recorded history. If we permit it, it can happen here as well.

CHRISTMAS Bells by HENRY W. LONGFELLOW

I heard the bells on Christmas Day
Their old, familiar carols play,
And wild and sweet
The words repeat
Of peace on earth, good-will to men!

And thought how, as the day had come,

The belfries of all Christendom
Had rolled along
The unbroken song
Of peace on earth, good - will to men!

Till, ringing, singing on its way,
The world revolved from night to day,
A voice, a chime,
A chant sublime
Of peace on earth, good-will to men!

Then from each black, accursed mouth
The cannon thundered in the South,
And with the sound
The carols drowned

Of peace on earth, good-will to men!

It was as if an earthquake rent
The hearth-stones of a continent,
And made forlorn
The households born
Of peace on earth, good-will to men!

And in despair I bowed my head;
"There is no peace on earth," I said,
"For hate is strong,
And mocks the song
Of peace on earth, good-will to men!"

Then pealed the bells more loud and deep:
"God is not dead, nor doth he sleep!
The wrong shall fail,
The right prevail,

With peace on earth, good-will to men!"

Dumbell Pome

He squeezed her in the dark and kissed her,
And for a moment bliss was his.
"Excuse me, but I though it was my sister,"
He said. She smiled and cooed,
"It is!"

Abbreviation, Xmas Of Greek Origin

There has been much unfavorable comment on the abbreviated form for Christmas that is commonly used. Many think it inappropriate and undignified to use the shortened term, Xmas.

The explanation of its origin is that the initial letter of the Greek name for Christ is X and the coincidence of its cruciform shape led to an early adoption of this letter as the figure and symbol of Christ. X is frequently found on walls of the catacombs. When the early Christians wished to make a representation of the Trinity, they would place either a cross or an X beside the names of the Father and the Holy Ghost. From this came the shortened form Xmas, instead of Christmas.

Legends of Holly

Many beliefs are connected with the Christmas holly.

Legends relate that the crown of thorns was plaited from the holly, the white berries turning red like drops of blood after the crucifixion.

It is said that whoever brings the holly into the house first, either husband or wife, is the one who will rule in the ensuing year.

For many years the superstition persisted that holly was hateful to witches. It was placed on doors and windows to keep out evil spirits.

Reduce Christmas Hazards With Care

To avoid tragic Christmas accidents in the home, the Fire Protection Institute issues these precautionary tips:

Use a flame-proof compound to spray wreaths and other pine decorations.

—Use materials marked flameproof for tree trimmings and home decorations if they are obtainable.

—Inspect Christmas tree lights, and repair frayed wires or loose sockets.

—Never leave Christmas lights burning unless someone is around.

—Never unwrap gifts near an open fire or flickering flame. Dispose of paper and other inflammable wrappings immediately.

This custom originated with the Dutch. They used their wooden shoes instead of stockings.

When the Dutch come to New Amsterdam, this custom came with them—the wooden shoes being gradually replaced by stockings made for the occasion out of net-like materials. As nearly every home had a fireplace the usual place to hang the stockings was over the fireplace.

Treating Trees To Preserve Needles

Dropping needles or leaves of Christmas trees, which strip the trees of color and litter the floor, long have been a Yuletide bane. Therefore, the discovery of the New York State College of Forestry that waterglass spray will prevent the spruce leaves from falling comes as welcome news to family and housewife alike.

Besides preserving the foliage the waterglass spray adds to the decorative effect of the spruce by leaving a slight silver sheen to the green of the needle-like leaves. The waterglass also has been found to be a good fire retardant.

The college found that the shedding of spruce leaves also can be retarded by placing the base of the tree in a bucket of moist earth, peat moss or water. Users have reported the success of this treatment.

Our Most Famous Christmas Trees

Most famous of the nation's Christmas trees are growing on the wooded rolling acres of the Roosevelt estate at Hyde Park, N. Y. Developed as a result of a hobby which, occupied much of the late Pres Franklin D. Roosevelt's spare time, the groves of Yule trees now are scattered on odd patches and parcels of land throughout the estate.

The trees, about 270,000 in number, are principally of Norway spruce, white spruce and Douglas fir, with a few balsams also included.

Although the tree growing was a hobby with the late president, he insisted that the project pay its own way. Consequently about 2,000 to 7,000 trees are marketed every Christmas season.

Story of the Tree

We are told that the fir tree goes back to Eve, but it was not until the time of Martin Luther that the evergreen was used as an indoor decoration in celebration of Christmas.

It is said that Luther one Christmas Eve wandered through the woods and became enamoured with the wonder of the night.

He cut a small snow-laden fir tree, and set it up in his home for his children. He illuminated it with candles to represent the stars.

It was not until 1604 that, in Strassburg, the first Christmas tree appeared in literature.

'The Messiah' Ranks As Yuletide Favorite

Best known of all oratorios is Handel's "The Messiah," a favorite presentation of the Christmas season. In almost every community in the civilized world a choir will sing part or all of the oratorio during the Yuletide. People in places too remote to boast a sufficiently skilled choir or soloists will hear "The Messiah's" message by radio.

The famous oratorio was written by George Frederick Handel in London between August 22 and September 14, 1741. The first presentation

was in Fishamble Street Music hall, Dublin, on April 13, 1742, under direction of the composer.

Ladies were requested to "refrain from wearing hoops" and gentlemen to "leave their swords at home," in order that a capacity audience might swell the proceeds to relieve needy children and the inmates of debtors' prisons.

"The Messiah" was given its English premiere before the court at Covent Garden in March, 1743. George II was so overpowered by the grandeur of the music portraying the King of Kings that he sprang to his feet in reverent acclaim at the opening bars of the Hallelujah chorus, an action which led to the modern custom.

Holly Now Grown In Many Parts of Land

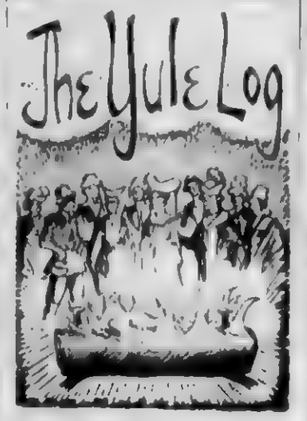
Grown on the hillsides of the coastal states from Maine to Texas and up the Mississippi valley to Missouri, holly is a pretty but slow-growing plant.

Leaves are evergreen, the margins of which are provided with rather widely separated spines. Weak and close-grained, the wood is exceptionally white, making it highly desirable in the manufacture of woodenware, cabinets and interior finishing.

As a result of scientific discoveries holly cuttings will take root quickly when they are treated with hormonelike substances. Christmas holly has been converted into potted plants. These plants can be set out as a permanent ornament for landscapes.

Growth regulating substances indole butyric acid and naphthalene acetamide—are on the market in liquid or powdered form under various trade names. The chemicals are applied to plantings of fresh cuttings kept moist, cool and well shaded.

Santa Claus is the American version of St. Nicholas, the bearded Saint of Europe who on Christmas Eve, carried a basket of gifts for good children, and a bunch of birch rods for the naughty ones.



St. Nicholas was transformed into Santa Claus by the Dutch settlers in New Amsterdam, and he became the fat, jolly, rosy-cheeked old fellow he is today.

Gloombusters

Many a man about town is a fool about women.

A pantomime is where people talk and say nothing, as usual.

The Yule Log

The bringing in of the yule log originated in England during medieval times. The log was dragged into the great hall at the beginning of the Christmas feast and was the occasion of the rendering of the Christmas toast, which is, in part: "This yule log burns. It destroys old hatreds and misunderstandings. Let your envies vanish, and let the spirit of good fellowship reign supreme for this season and through all the year."

The yule log represents "Peace on earth, good will toward men."

Children's Gifts For Christmas

THERE'S more to buying toys than merely getting something for a youngster to play with.

Home management specialists emphasize five points worth remembering in purchasing playthings for children:

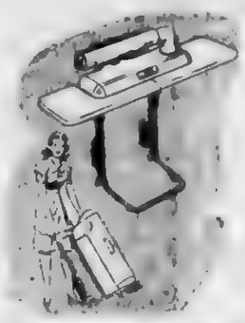
1 Safety. Keeping the age of the child in mind, youngsters should not be given a sharp knife, chemistry set, air rifle or a tool kit until they are old enough to handle them with care. Electric train equipment should be kept in good repair to prevent shock or burn. Infants

Gifts That Will Suit Everyone

THE old saying that it isn't the gift but the giving that's appreciated may be true, but just the same a good gift quickens the heart no much more.

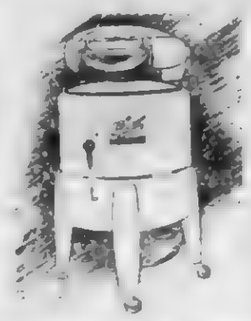
In being able to draw upon the abundance of the country, farm people are in a position to present especially valued gifts at comparatively small cost. For instance, a box full of spruce, fir, pine, holly, cedar or balsam is always welcomed as a decorative source by city friends.

City people, like everybody else, also appreciate good things to eat, and home canned country fruits and vegetables or some fowl can be expected to make a big hit. Gardeners



in the big town will gladly welcome a packet of seeds gleaned from an expansive country garden.

Handy home-makers can convert old articles into attractive gifts. An old felt hat can be made into a beanie for some young girl merely by using the crown and adding yarn stocking for decoration. The best part of an old fur coat beyond repair will make a rich carriage robe for a new baby. Pot-holders, dusting mitts, bath powder gloves, shoe bags are some of the items which can be salvaged from small scraps.



And, O yes! what could be more useful to a young bride than a home-made cook-book containing the home-maker's favorite recipes? Not only will such a book provide for tasty eating but it can also be expected to guide the young wife over some rough moments in the kitchen.

State Steals Counties And Cities Money

Much of the city's present financial difficulties can be traced to the year 1933 when the real estate tax was reduced from a 15 mill levy to a 10-mill levy, which reduced real estate taxes by one third.

At that time a sales tax was passed by our state legislature to reimburse the counties and cities for the loss of taxes by the cutting of real estate taxes.

In the original bill see Section 5516-18, after allowing for expenses of collection; and the state welfare department expenses, our schools were to get 60 percent and the remaining 40 percent was to go to our counties and cities in the state.

The rural counties who control our state legislature have encroached on this sales tax collection until last year instead of getting 40 percent, Columbus only received about 14 percent, a reduction of about two-thirds of revenue which Columbus should have received. While the State of Ohio has built up a huge reserve of $200,000,000 at the expenses of the heavily populated counties.

While each Governor since 1933 Democrat and Republican alike have pointed with pride of the increase of the reserve. But of course they didn't point to the fact that built-up [illegible] by pauperizing the large cities and counties.

Neither do they point to the fact that they had also done away with [illegible] gasoline tax, liquor tax cigarette tax and bests of other taxes at the expense of every county and city like Franklin county and the City of Columbus.

Instead of Columbus receiving about $4,000,000, they get nearer $1,000,000 per year.

This has gone on for 14 long years. The State of Ohio stealing from the City of Columbus between $25,000,000 and $30,000,000 of money they should have received from a greedy state.

No wonder Columbus has been creating a deficit of between $300,000 to $500,000 per year living on starvation diets; while the State of Ohio violates its constitution by building up a huge reserve.

No wonder that the City of Columbus has to pass a [illegible] production tax.

Isn't it just about time the County Commissioners of our large counties and the Mayors of our large cities get together and institute a referendum for their fare share of sales tax and other [illegible]

Ornament Making A Cottage Industry

Those colored glass ornaments that we hang on our Christmas trees used to come from Germany, Czechoslovakia and Poland. A small number were made in Jersey. When the war cut off these supplies American glass manufacturers, who had never bothered with these products before, turned part of their facilities over to making the pretty gewgaws. Mechanical methods were soon developed that could blow sixty ornaments in an hour or a European glassblower could make a month. This modern adaptation of this picturesque [illegible] is carried on in the mountainous towns of eastern Europe.

Ornament making is a typical "cottage industry" in the hills [illegible] that cling to the steep mountainsides. Families specialize in certain shapes and designs, patterns that may date back for hundreds of years unchanged. The father, using a bunsen burner, carefully [illegible] colored glass tubing to the desired shape, with the aid of an iron mold. His son acting as [illegible] removes the hot ornament to a cooling table. Next the mother silvers the inside, and finally the daughter applies paint and perhaps decorative design.

Salt and pepper

Melt drippings and brown meat. Add onion, green pepper, and mushrooms and cook 5 minutes. Add remaining ingredients, cover and bring to a boil. Turn flame to simmer and cook 30 minutes. Serve on boiled rice, if desired.

Individual Pineapple Upside Down Cakes

1 Tbsp. flour
1/3 C. sugar

Cream shortening, add sugar and continue creaming. Add egg and beat well. Sift dry ingredients together and add to creamed mixture alternately with milk. Add vanilla. Place the melted shortening in the bottoms of 6 custard cups or muffin pans. Add sugar and flour mixed together. Blend well with melted shortening then arrange pineapple sections with a cherry in the center of the cup. Drop batter over the fruit until it fills the spaces between the pineapple sections and fills cup only 2/3 full. Bake at 350 degrees. Serve slightly warm.

May happiness, gaiety and the spirit of good will — all that's symbolic of Christmas — be yours this holiday season.

Christmas With the Pioneers Held Deep Religious Meaning

CHRISTMAS on the frontier, as new bands of pioneers pushed ever westward to carve an empire out of virgin plains and wildernesses, was in marked contrast to the present holiday.

There was more meaning then in the words of The Book concerning shepherds in a certain country watching their flocks by night. The solitudes, the closeness of the stars, the virginity of the new world and its humble people made one feel that time had stood still. Christmas in those days somehow seemed much closer to that first Christmas.

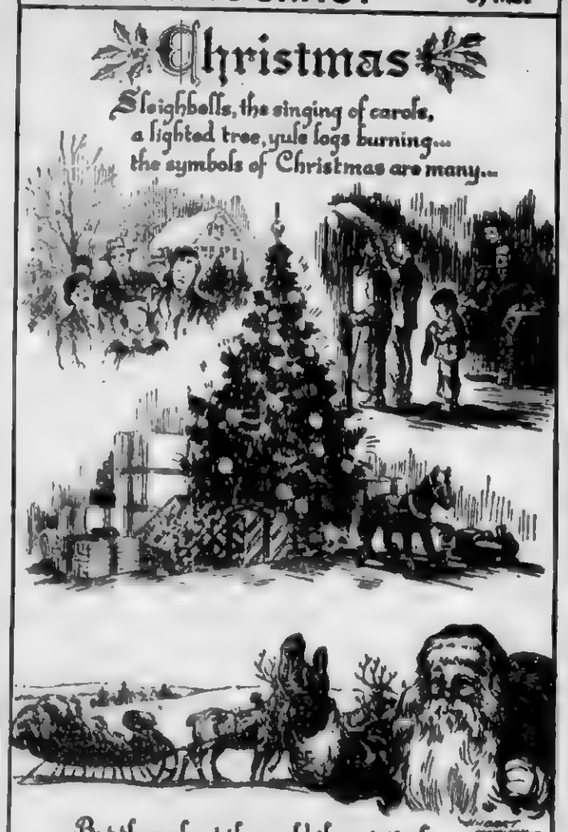
Those bleak plains could be the ones the Wise Men crossed, this the Night and yon sleeping village, Bethlehem. The faith of the trail breakers was that of the Wise Men.

On Christmas Eve the pioneer folks would gather in a crude little church or schoolhouse where children recited their pieces and sang or a calico doll from Santa Claus. But that doll, made from spare strips of bright cloth, probably was more treasured than any modern doll that can say "Mama," go to sleep and perhaps require a diaper.

Children who received a slate pencil or a shell-box, a little affair covered with shells and containing a small mirror, were the special favorites of Santa.

For goodies, no Christmas was complete without its pans of popcorn and ropes of molasses taffy in rare cases there might be a bag of candy.

IN THE isolated cabins it wasn't so easy to gather with one's neighbors to celebrate. There were wolves in the timber and being caught in a sudden storm on the pioneer trails spelled death.



Christmas in some places meant a bobsled ride or perhaps a square

The last ditch method of stopping on ice is to jam on the brakes — because it's usually the last ditch you will ever skid into. In the first place, stay out of situations which may require a quick stop. When you do use the brake, apply it lightly and intermittently. You will stop quicker, and you will maintain better steering control while doing it.

May your Christmas be light and bright with the cherry spirit of the Yule Season.

Ukrainians Hold To Many Old Customs

Ukrainian churches, both Greek Orthodox and Uniate, cling to the ancient Julian calendar, so their Christmas Day comes 13 days later than ours, or on January 6. Christmas Eve is celebrated with much traditional ceremony and festivity.

The Holy Supper or Swiata Wecera is very elaborate, consisting of 12 courses, in memory of the 12 apostles. Fish, baked, broiled and jellied, takes the place of meat. Borsch, or beet soup, is generally served, and stuffed cabbage, filled with millet or rice. Vareniki, something like the Italian ravioli, also is a usual course. Dessert consists of special pudding called kutya, made of wheat, poppy seeds and honey.

During the Christmas Eve supper, some member of every Ukrainian family throws a handful of kutya or pudding at the ceiling. If it sticks, the coming year will be a prosperous and happy one. After supper, a plate of braided bread, called kolach, is left on the table between two lighted candles. Legend says that the spirits of the family's dead will return at midnight to eat this bread.

The Ukrainian Christmas festival lasts three days. In the villages singers known as Kolyadniky go from house to house singing the Kolyadky folksongs relating the birth of Christ and the events of his life. They usually carry a manger with them, and in some cases they perform miracle plays. They are rewarded by gifts of food or money.

songs about the birth of the Christ Child. Santa would hand out mosquito-bar sacks of candy, a golden orange or an apple to each one, and childhood rapture would make that meager offering truly a gift of gold and frankincense.

HOME-MADE sleds and sleighs skimmed over the snowy countryside with sleigh bells jingling accompaniment to the caroling of "Jingle Bells, Jingle Bells."

Except in the forest regions, few children enjoyed the sight of a Christmas tree. But always they hung up their stockings, an old custom of their forefathers.

It was a lucky boy who awoke Christmas morning to find a new jack-knife in his stocking; a lucky girl who received a string of beads dance, often followed by a turkey dinner costing 25 cents.

Gifts, if any, generally were in the form of utilitarian mittens, mufflers or home-made boots. For the women there might be a piece of intricate handiwork to which some enterprising friend had devoted her spare time for months.

Throughout the holiday season a candle burned in the attic window, guiding late-faring travelers to shelter—the Star of Bethlehem on the frontier.

But withall these hardy folks had as much fun as their great-grandsons and daughters who again this year will celebrate by exchanging elaborate gifts, dancing to name bands, feasting with no worries that tomorrow there may be nothing in the electric refrigerator.

JUST IN TIME . . . Youngsters all over America will sleep with one eye open on Christmas Eve—if they are lucky they might see Santa's feet as he hurries on his way. These youngsters arrived in time to hear, "Merry Christmas to all, and to all a goodnight."

We wish to extend our personal greeting and to wish one and all the Merriest Christmas and happiest New Year ever.

ENGLISH PLUM PUDDING

In the Book of Common Prayer of the Church of England, the prayer for the last Sunday before Advent began with the words "Stir up." The people of Peterborough took this to be a reminder that they should start their plum pudding at that time, and everybody in the family took a hand in the stirring until it was ready on Christmas.

This indispensable old-time English Christmas dish was furmety, or frumenty, which according to old-time recipes was "wheat boiled until the grains burst, then strained and boiled again with broth or milk and yolks of eggs." Frumenty was the forerunner to plum pudding.

Alms Giving Custom A Christmas Charity

Giving alms at Christmas originated in the belief that the Christ came sometimes to the door disguised as a beggar during the holiday season, and it was feared that he might be turned away unrecognized. There is an old legend that tells of the Christ child going from door to door on Christmas Eve in search of those who were kind, and deserving. His test was to plead for aid and often he was turned away from the door. This story led to alms giving on Christmas Eve and it was rare that a beggar was refused.

WEXFORD CAROL

Near Bethlehem did shepherds keep
Their flocks of lambs and feeding sheep;
To whom God's angels did appear,
Which put the shepherds in great fear,
"Prepare and go," the angels said,
"To Bethlehem, be not afraid,
For there you'll find this happy morn,
A princely babe, sweet Jesus born."

The Prince Of Peace

By Reverend Robert Schmidt
St. Leo's Church

"Peace on earth to men of good will." So sang the angels on the first Christmas night, so long ago. So might they sing every Christmas, as men contemplate the newborn Christ child. For their message is an eternal truth, for all men, of all nations, of all times. It heralds the eternal and universal "Prince of Peace."

Yet in the centuries that have passed since that first Christmas, has this message been fulfilled? Could all the victims of war, the down-trodden, war-weary peoples of the centuries rise up to point the lie to this angelic proclamation?

If they could speak, perhaps the first to appear would be many of the people of the race and generation in which the Christ was born. He violently disappointed their fondest hopes. They looked for a political savior, a powerful prince who would enable them to throw the yoke of Rome, restore their lost freedom and lead them to a commanding place among the nations. A Messias born in poverty and destitution perfectly fulfilled the predictions of the Prophets. But they had found in the sacred writings not what was really there but what they wanted to find.

So it would be down through the centuries. All who are disappointed in the "Prince of Peace" are those who try to decide for themselves the kind of salvation he must bring. Their religious principle is this: "The gods we believe in are the gods we can use." They value Christianity not for its power to save men in the world to come, but for its effectiveness in getting things done in this world.

Such men need to reflect on the rest of the message of the angels. "This day is born unto a Savior." A savior from what? War? Social disorders? Yes, even these temporal disorders, but only secondarily. Primarily He is a Savior from the worst evil that can afflict man—Sin, and its consequences in the next world. His first purpose in coming to us was not to remove the disorders that disturb our temporal life, but to remedy the infinitely greater evils which shut us off from the possibility of eternal life.

Such is the salvation which the glad tidings of the angels proclaimed. Those who seek it in the Christ child, and follow Him in faith and in love, will find that He is indeed the Prince of Peace. In the heart where He reigns, there is peace, even, or perhaps especially amid anarchy, wars, and every sort of social disorder. Because it is a peace that is solidly founded, not on the shifting sands of human wills, but on the eternal love and mercy of God.

Eagles Against Admitting Displaced Persons

The South Side Aerie of Eagles last Wednesday night went on record against admitting displaced persons from overseas into our country.

Several very good arguments were used, among which were the fact that our own people, especially our boys who fought in the War cannot get homes to place their families in, and that the admitting of these people would cause further shortages of homes in this country.

That there is at least 200 families in the South Side alone, who need food, fuel and clothing, and at the same ratio across our country, there are possibly one million people that are in need here in our own country, and to admit these displaced persons would further cause more poverty.

Further arguments against admission were: that many of these persons were indoctorinated with communism, further setting up an additional hazard to our country.

Editor's Note:—We believe that the Eagles are right in their stand against admission of displaced persons. America for Americans first. Only after our people are taken care of first, should we admit others.

ANNUAL CONTEST FOR FIRST BABY OF 1948

SOUTH WALLOPED BY MIDDLETOWN

The state champion Middletown Middies, anxious to avenge the setback they received on the Bulldogs' court last season, last Friday night, rolled up their biggest point total of the new campaign to whip Columbus South, 61 to 27.

Actually it wasn't much of a battle for the Middies, to cop their fourth win, since the starting five was used only sparingly in the third period and not at all in the final stanza after setting things up with a 33 to 13 halftime lead.

During the first half, South found itself helpless against a five that was making 40 per cent of its shots.

Shelby Linville stood up to the task of being the Middies' No. 1 point producer with a 19 tally performance, 15 of which came in the two opening cantos. He was supported ably by Bob Grimes and Bob Bush, both with 10, as a dozen of the Purple terrors in all formed the scoring machinery.

Southway To Have Bonus Applications

Oscar Rueckel, Commander of Southway Post 144 American Legion, 874 S. High St., announced today that Southway Post will have, after the third week in January, forms for the Veterans' Bonus to be paid those who served in World War II.

Commander Rueckel announced that there will be somebody at the Post at all times to assist veterans in making out their applications.

To receive the bonus, a person must have served 90 days in the Armed Forces of the United States between Dec. 7, 1941, and Sept. 2, 1945, and he must have been a resident of Ohio continuously for one year prior to the date he entered the Armed Forces. And unless he is still in the service, he must have been discharged under honorable conditions or be a retired member of the Armed Forces.

Officials believe the veteran's discharge certificate will be adequate proof of length and nature of his service and the type of discharge he holds.

The bonus law provides for payment of a maximum bonus of $400 to veterans of World War II on the basis of $10 per month for domestic service and $15 per month for foreign service.

Payments will not be made for time a serviceman spent in penal confinement during his period of service, nor will payments be made to any veteran who has claimed a bonus in another state.

If a person who would otherwise be eligible to receive the bonus has died, his or her survivors may collect the bonus money. But the law recognizes only (1) the wife or husband, (2) a child or children, and (3) the parents of the deceased. Other claimed survivors are not eligible to collect.

Southway Post 144 American Legion is always in front in any movement that will help the veteran.

Remember veterans, Southway Post is located at 875 S. High St. Bonus applications will be available there the third week in January.

Booster's Circulation City's Largest

Each year, at this time, we are pleased to make a statement to the amount of papers distributed by the South Side Booster each week.

The South Side Booster has the largest distribution of any neighborhood paper in the city of Columbus, with a 10,500 average circulation per week throughout the South Side of Columbus.

The South Side Booster is the only neighborhood paper in Columbus making this sworn statement each year, for the benefit of the people who live in the community.

The South Side Booster's creed is that "anything which may benefit the South Side, we will strive to get for the benefit of the people of this community."

With this creed we have progressed due to the support of the fine cooperation of the merchants and residents of the good old South Side.

We are letting you in on a secret. Sometime in 1948 the South Side Booster will erect and equip a modern newspaper plant here in the South Side on Parsons Ave.

So far as is possible, the South Side Booster, when ready for operation in the new plant, will hire South Side people in their organization.

To the South Siders who read our paper each week, and the many merchants who advertise in the South Side Booster, we wish at this time to wish each and everyone of you a prosperous, cheerful and happy New Year.

St. Mary's A. A. Honors Football Boys

St. Mary's Athletic Association honored the football players Dec. 22 with a football banquet at the school auditorium.

Before the delicious meal was served the two most valuable players were picked by the team. The football team's captain, George Kurelic and "fleetfooted" John Donnelly were chosen as the most valuable to the team.

The excellent speaker was Lou Berliner of the Dispatch. He urged the boy to give college a chance. He said, "Give college a try of a year. You might end up staying four." He told many interesting sport stories as did John Wilts, Dick Cole, coaches, and Father Jones, athletic director of St. Mary's.

The following twenty-nine men received gold footballs and the traditional St. Mary's letter:

George Kurelic, Attilio Angelo, Dick Bishop, Bill Cecutti, Jim Condon, Gene Demorest, Paul DeVoe, Jim and John Donnelly, Preston French, Danny George, Richard Gianvito, Bill Griesenbach, Glynn Hartnett, Keith Helber, Don Herold, Dick Hughes, Jim Kuhn, John Maloney, Norman Mann, Don Morbitzer, John Naegele, Felix Peden, Don Sauer, Bob Schaffer, John Sergio, Tino Skunza, Ray Trucco and Jim Zeller. Managers, Frank Lehnert, and Ralph Sedlock; Cheerleaders, Kate Altenbach, Pat Crosson, Marilyn Dolder, Margie Kelly and Mary Jo Williams.

Pictures of the alumni games, the world series and a number of big league games were shown to parents and players. St. Mary's record was 8 wins, 1 tie and 1 loss. Gifts were given to both coaches by the Athletic Association.

A hand of thanks is extended to all those who made the banquet possible for the '47 football team.

We Look Forward To 1948

By C. R. Walcutt

At this time of the year we look back over the past year and mark up in our Mental Record Book our accomplishments and our mistakes for the past.

We of the South Side Booster Staff also plan for the coming year 1948, the projects we wish to sponsor that will most benefit the people of the South Side.

We believe that there are at least two streets which should be paved, Thurman Ave. and Frebis Ave., from 22nd St., to Lockbourne Road.

Frebis Ave., paving would enable the continuation of the Frebis Ave. bus to Lockbourne Road, which would give the people of that district much needed transportation.

In 1948 we will see the disappearance of the street cars on Parsons Ave., which will be replaced by bus service, giving the people of this district faster and more ample transportation. Bus service will do much to eliminate the traffic jams that we now have.

The steady pressure to obtain much needed street lights at Hanford and High Streets and two lights for the cross-walk in Lincoln Park will be maintained.

We will continue to use whatever influence we can to secure light standards, to replace the old overhead lighting on Parsons Avenue.

We believe that in many places here in our community, larger sewers are needed to relieve many families' homes of wet basements. We, as the Voice of the South Side, will most readily support such a program.

As to repair of streets, sewers, garbage and rubbish collection, it is our moral obligation to fight for these improvements.

The South Side Booster and its Staff feel that we are obligated to promote and secure anything that will benefit the people of the South Side, and with the help of the citizens of this community we know that we will win as the people of this community are always willing and ready to help.

We wish the people of the South Side a "Happy New Year" with health, prosperity and happiness a continued prayer from the Staff of this paper uppermost in our minds.

Hubbel Has Two Constitutional Amendments Ready

The Ohio Cities Association, formed by officials of Ohio municipalities (including Dayton) to secure more needed sales tax revenue to the cities and bring about new apportionment in the rural dominated Ohio legislature if possible, will hold its next meeting in Canton in January.

At that session, according to Mayor James A. Rhodes of Columbus, he will present the question as to feasibility of this Ohio municipal group joining up with the sponsors of an improved civil service system in Ohio, in securing signatures to constitutional amendments proposed to be voted by electors in the election of November, 1948.

It is generally recognized that 1948 is the ideal year to offer such proposals to popular vote for several reasons, one of which is that only 250,000 signatures are required (based on 1946 election) while if offered in 1949 or 1950 some 350,000 signatures may be required, based on the total vote cast in the Presidential year of 1948 when a whole of a vote is expected due to the millions of dollars being raised by labor unions to defeat the sponsors of the Taft-Hartley labor law.

It is entirely possible that the "city fathers groups" will give precedence to a constitutional amendment proposal to set aside a direct percentage of the huge Ohio sales tax just as was done in Michigan last year after the legislature kept rebuffing the pleas of Wolverine cities for help. There is no question but what Michigan has definitely solved this problem for the cities just as it adopted a constitutional amendment in 1940 for an improved state civil service by heavy majority.

Word comes from Cleveland that Attorney Charles Hubbell, late Democratic candidate for the Ohio Supreme Court, has already prepared a proposed constitutional amendment for legislative reappointment in Ohio and may file the same with the Attorney General any time now.

Similarly, Hubbell is drafting a civil service constitutional amendment for filing on the question of adopting the Michigan system on civil service,—the same idea being sponsored by Ohio civil service employes for vote in November, 1948. It is rumored that if the latter group files its necessary papers with the Attorney General, then Hubbell will withdraw his proposed civil service constitutional amendment.
